(9) The maximum price for sewer pipe products sold in 5-ton minimum quantities to a purchaser designated in Chart IX, and delivered to a destination in the geographical zones set forth in Chart IX shall be determined by applying the appropriate discounts, subject to the qualification set forth in the footnote to Chart IX, to the list prices contained in section 11.2.

(10) The maximum price for straight or mixed carload shipments of sewer pipe products delivered by rail within any geographical zone set forth in Chart X shall be determined by applying the appropriate discounts, subject to the qualification set forth in the footnote to Chart X, to the list prices contained in section 11.2.

(11) The maximum price for sewer pipe products sold in quantities of 26,000 pounds or less to a purchaser designated by trade classes in Chart XI, and delivered by motor carrier within the geographical zone designated as Spokane and Spokane Valley, shall be determined by applying the appropriate discounts, subject to the qualifying footnotes set forth in Chart XI, to the list prices contained in section 11.2.

(12) The maximum price for sewer pipe products sold in quantities of 26,000 pounds or more to a purchaser designated by trade classes in Chart XII, and delivered by motor carrier within the geographical zone designated as Spokane and Spokane Valley, shall be determined by applying the appropriate discounts to the list prices contained in section 11.2.

(13) The maximum f. o. b. factory price for carload shipments of sewer pipe products from a plant within the Spokane territory when intended for delivery by rail to a destination within the area covered by Chart XIII and to a purchaser designated as Class 3 in Chart XIII shall be determined by applying the appropriate discounts to the list prices contained in section 11.2.

[Subparagraph (13) amended by Am. 6, 9 F.R. 11170, effective 9-14-44]

ARTICLE XII—MAXIMUM PRICES FOR VITRIFIED CLAY SEWER PIPE AND ALLIED PRODUCTS, WHEN SOLD FOR DELIVERY OUTSIDE A FACTORY'S NORMAL MARKET AREA

SEC. 12.1 *Application.* The provisions of this article provide a method whereby sewer pipe products may be shipped outside a manufacturer's normal market area to a Federal, State, County or Municipal Governmental Agency, or to a Drainage or Sewerage District, or to a contractor or subcontractor of any such Agency or District, at prices in excess of the maximum prices established in Article V to XI, inclusive, of this regulation. For all other shipments outside the manufacturer's normal market area, for use on a project other than one controlled by a Federal, State, County or Municipal Governmental Agency, or to a Drainage or Sewerage District, the maximum price established in Article V to XI, inclusive, for the geographical areas designated therein, shall apply.

SEC. 12.2 *Maximum prices for sewer pipe products sold by a manufacturer to a Government Agency, and shipped outside its normal market area.* (a) Requirements which must be met by a manufacturer in order to use out-of-area maximum prices. A manufacturer may use the pricing method set forth in the next paragraph only when:

(1) He is selling to a Federal, State, County or Municipal Governmental Agency or to a Drainage or Sewerage District, or to a contractor or subcontractor of any such Agency or District, for use on a project controlled by any such agency or district: *Provided*, That a manufacturer may sell to any person who resells to any of the foregoing at prices not in excess of the maximum prices established by this section.

(2) The seller must compute transportation charges on the basis of rail carload quantities.

(3) He secures and retains for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, a certificate signed by the purchaser in the following form:

(Title)

(b) The maximum price for any sewer pipe product sold by any person and shipped from a factory to a destination which is outside the normal market area of such factory may be determined in the following manner:

(1) A price f. o. b. factory not in excess of 95 percent of the f. o. b. plant price for straight or mixed carload shipments. The following methods shall be used in determining the f. o. b. plant price which shall apply to manufacturers who wish to use this section.

(i) For those manufacturers who sell on an f. o. b. plant basis, the price so established in this Revised Maximum Price Regulation No. 206.

(ii) For those manufacturers who sell at a delivered price based on geographical zones, the delivered price as established in this Revised Maximum Price Regulation No. 206 for the zone within which the factory is located, less the weighted average freight paid by the manufacturer, during the calendar year 1941, for delivery in the zone in which the factory is located.

For those manufacturers who determine their price in accordance with this subdivision (ii) the weighted average freight shall be determined in the following manner: From the total amount of freight paid during the year 1941 for rail delivery of sewer pipe products to the zone within which the factory is located, deduct that amount of freight applicable to dunnage only, that is, to crating, bracing, or other material carried for the protection of the product. Divide the balance by the total amount of tons of sewer pipe products delivered by rail, during the calendar year 1941, in the zone in which the factory is located. The result will be the weighted average freight per ton paid during the year 1941 for delivery by rail of sewer pipe products in the zone in which the factory is located.

(iii) For manufacturers located in the Eastern area, who sell at a delivered price based on freight rate zones, the delivered price as established in this Revised Maximum Price Regulation No. 206 in the first or 10¢ zone, less the highest amount of freight from Akron, for delivery to the first, or 10¢ zone.

(2) A delivered price may be charged under this provision not higher than the maximum price established in this section, f. o. b. factory plus the actual freight charges incurred by the manufacturer in making delivery to the point of destination.

(3) Material purchased in accordance with the provisions of this section which is in excess of requirements, or which is rejected by the purchaser for cause, may be re-sold to any person at the prices established by the General Maximum Price Regulation, for the same grade or quality for the area in which the product is ultimately used.

SEC. 12.3 *Reports for out-of-area shipments.* Every manufacturer who makes a sale pursuant to this article in any month shall make a report to the Office of Price Administration, Washington 25, D. C., on or before the fifteenth day of the following month, setting forth a list of all sales which resulted in sewer pipe products being shipped to points outside his normal market area during the preceding calendar month, showing the name and address of the purchaser, the point of shipment and the point of delivery, the quantity and classification of products sold, the price charged, and the method of computing such price.

When used in this Revised Maximum Price Regulation No. 206, the term:

"Normal market area" for any factory means that area in which sewer pipe products were regularly offered for sale during the period January 1, 1940, to January 1, 1942; for the purposes of this definition, sewer pipe products will be deemed to have been "regularly offered for sale" only in that area in which the factory had salesmen travelling at regular intervals and/or customarily quoted for shipment during the above mentioned period.

[Sec. 12.1 through 12.3, inclusive, added by Am. 1, 8 F.R. 16995, effective 12-24-43; amended by Am. 7, 9 F.R. 13524, effective 11-15-44]

SECTION 1. *Prohibition against sales at higher than maximum prices.* On and after October 1, 1945 regardless of any contract, agreement, lease, or other obligation:

(a) No person making a sale of a commodity for which maximum prices are established by this regulation shall sell, deliver, or transfer such commodity at prices higher than the maximum prices established under this regulation.

(b) No person purchasing a commodity for which maximum prices are established by this regulation shall buy or receive such commodity in the course of trade or business at higher prices than the maximum prices established under this regulation.

(c) No person shall agree, offer, solicit, or attempt to do any of the foregoing.

SEC. 2. *Less than maximum prices.* Lower prices than those established by this regulation may be charged, demanded, paid or offered.

SEC. 3. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order.

SEC. 4. *Applicability of this regulation and relationship to other maximum price regulations*—(a) *Applicability.* This regulation applies only to ordinary channel black (including ordinary ink and color blacks).

(b) *Relationship of this regulation to other regulations*—(1) *General Maximum Price Regulation.* The provisions of this regulation supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries of commodities covered by this regulation.

(2) *Relationship of this regulation to the Maximum Import Price Regulation.* The provisions of this regulation shall not apply to sales and deliveries of imported ordinary channel blacks which are governed by the Maximum Import Price Regulation.

(3) *Relationship of this regulation to the Second Revised Maximum Export Price Regulation.* The provisions of this regulation shall not apply to sales and deliveries of ordinary channel black for export, which are governed by the Second Revised Maximum Export Price Regulation.

(4) *Geographical applicability.* The provisions of this regulation shall be applicable to the forty-eight states of the United States and the District of Columbia.

SEC. 5. *Records and reports.* (a) Every person making sales on and after October 1, 1945 of commodities for which maximum prices are established under this regulation shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942 remains in effect, complete and accurate records of each purchase or sale, showing the date thereof, the name and address of the buyer and the seller, the price contracted for or received and the quantity of each type and grade of ordinary channel black purchased or sold.

(b) The persons mentioned in paragraph (a) above shall keep such other records and shall submit such other reports to the Office of Price Administration in addition to or in place of the records required in said paragraphs or the reports mentioned in Sec. 11 hereof as the Office of Price Administration may from time to time require subject to approval by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

SEC. 6. *Evasion.* Price limitations set forth in this regulation shall not be evaded, whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to ordinary channel black alone or in conjunction with any other commodity, or by way of commission, service, transportation, or other charge, discount, premium, or other privilege, or other trade understanding, or by transactions with or through the agency of subsidiaries or affiliates, or otherwise.

SEC. 7. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

SEC. 8 *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 9. *Petitions for amendment.* Any person seeking an amendment to any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

SEC. 10. *Definitions.* (a) When used in this regulation the term:

(1) "Beaded" means ordinary channel black which has been put in the form of beads or pellets, sometimes referred to as dustless or pelletized channel black.

(2) "Factory cost" means and includes the average at all carbon black plants operated by a particular manufacturer of materials, labor, and such indirect manufacturing costs as are properly assignable to the production of a commodity subject to this regulation.

(3) "General administrative and selling expenses" and "total cost" means the actual general administrative and selling expenses and total cost at all carbon black plants operated by a particular manufacturer.

(b) Unless the context otherwise requires, the definitions set forth in Section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

SEC. 11. *Adjustments*—(a) *Applications.* Any manufacturer of ordinary channel black subject to this regulation may apply for an adjustment of his maximum prices established under this regulation if the Office of Price Administration finds that there is a general shortage of supply of such commodities, and if it can be shown that an adjustment of such price is necessary to enable such manufacturer to maintain or expand his production of said commodity.

(b) *Amount of adjustment.* No adjustment will be made under this section unless the Price Administrator finds that a price increase is necessary to aid in securing essential supply. Furthermore, any adjustment granted under this section shall be limited as follows:

(1) To an amount sufficient to make the adjusted price per unit equal to factory cost per unit where applicant's current over-all profits on an annual basis are favorable as judged by his own or the industry's historical experience.

(2) To an amount sufficient to make the adjusted price per unit equal to factory costs per unit, plus general administrative and selling expenses per unit, where applicant's current over-all profits on an annual basis are normal as judged by his own or the industry's historical experience.

(3) To an amount sufficient to make the adjusted price per unit equal to total cost per unit, plus an adequate margin of profit per unit, where applicant's current over-all profits on an annual basis are unfavorable as judged by his own or the industry's historical experience.

(c) *Orders issued under this section.* The Office of Price Administration may authorize or deny by order the maximum prices requested or any modification thereof and may also adjust the maximum prices of resellers.

SEC. 12. *Maximum prices for ordinary channel black*—(a) *Producer's sales*—(1) *In carload lots.* The maximum price, f. o. b. plant, freight adjusted with Amarillo, Texas, for sales of ordinary beaded channel black shall be as follows:

	Cents per pound
In bulk (covered hopper cars)	5.00
In bags	5.25
In cartons	6.00
In cases	7.25

The carload prices specified above shall also apply to carload lots of compressed black. For ordinary uncompressed black, add .075¢ per pound to the above carload prices. All containers are included in the above prices.

(2) *In LCL lots.* The maximum prices per pound of ordinary channel black delivered at the customers plant or f. o. b. seller's plant or ex warehouse at the buyer's option shall be:

	Cents per pound
Bags (compressed or beaded)	9.20
Cartons (compressed or beaded)	9.20
Cases (compressed or beaded)	11.20

For ordinary uncompressed channel black, add .5¢ per pound to the above prices. All containers are included in the above prices.

(b) *Resellers' prices.* Resellers' maximum prices for ordinary channel black shall be their maximum prices established under the original General Maximum Price Regulation on May 11, 1942 plus 1.7¢ per pound.

This regulation shall become effective October 1, 1945.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 1st day of October 1945.

ARTICLE I—SCOPE OF THIS REGULATION

SECTION 1. *Articles covered.* This regulation covers sales of domestic washing machines and domestic ironing machines. As used in this regulation a washing machine means a mechanically operated new washing machine of the type commonly used in households for washing clothes, linens and similar household articles. Among others, this includes tray type machines designed for use with a separate stationary tub.

As used in this regulation an ironing machine means a mechanically operated new ironing machine of the type commonly used in households for ironing clothes, linens, and similar household articles.

SEC. 2. *Persons and transactions covered.* (a) This regulation covers all sales and deliveries of domestic washing and ironing machines by any person.

(b) As used in this regulation:

(1) "Manufacturer" means a person who operates a factory in which washing machines or ironing machines are manufactured or assembled, or a person who regularly sells private brand washing or ironing machines to distributors, or a person who sells to purchasers for resale private brand washing or ironing machines, patterns or dies for which he owns or controls.

(2) "Distributor" means any person who is not a "manufacturer" and who buys completed washing or ironing machines and resells them to persons other than consumers.

(3) "Dealer" means a person who buys completed washing or ironing machines and resells them to consumers.

(4) "Person" includes an individual, corporation, or any other organized group; their legal successors or representatives; the United States or any government or any of their political subdivisions.

(5) "Class of purchaser" means any purchaser or group of purchasers to whom the seller had an established practice during the period January 1–October 15, 1941, inclusive, of selling the same type of article at prices different from those charged other purchasers, or groups of purchasers. A class of purchaser may be a single purchaser or a kind of purchaser (for example mail order establishments, department stores, etc.) or purchasers located in a particular area (for example, distributors in the west coast area, etc.) or purchasers who buy in particular quantities (for example dealers who buy in quantities of 5 or more) or purchasers who buy under particular conditions of sale (for example, long term credit, 5% cash discounts, etc.)

Any purchaser, kind of purchaser, or purchaser on certain terms or conditions of sale, which the trade has generally recognized as constituting a separate class of purchaser, and for sales to which the seller does not have a ceiling price established by or under this regulation is a new class of purchaser under this regulation. A seller's ceiling prices for sales to a new class of purchaser must be established under section 10 of this regulation.

ARTICLE II—MANUFACTURERS' CEILING PRICES

SEC. 3. *Models on which a price was quoted between January 1, 1941 and October 15, 1941.* A manufacturer's ceiling price for sales to a particular class of purchaser of a washing or ironing machine model on which he quoted a price between January 1, 1941 and October 15, 1941 is the price determined under the first applicable rule of the following contained in this section:

Rule 1. If a price list which the manufacturer had in effect at any time during the period October 1–15, 1941, inclusive, contained a price for sales of a particular model to a particular class of purchaser, his ceiling price for sales of that model to that class of purchaser is the highest price quoted by any such price list for those sales.

Rule 2. If a manufacturer cannot use Rule 1 because he did not have any price list in effect at any time during the period October 1–15, 1941, inclusive, or because the price lists he had in effect during that time contained no price for sales of a particular model to a particular class of purchaser, then his ceiling price for sales of that model to that class of purchaser is the highest net price, f. o. b. manufacturer's point of shipment, at which he made or contracted to make such a sale during the period October 1–15, 1941, inclusive.

Rule 3. If a manufacturer cannot use either Rule 1 or Rule 2, then his ceiling price for sales of a particular model to a particular class of purchaser is the highest net price, f. o. b. manufacturer's point of shipment, at which he sold or contracted to sell that model to a purchaser of the same class during the period January 1 to September 30, 1941, inclusive. This price may, however, be increased if the manufacturer, during the period January 1–October 15, 1941, increased his prices for some models of washing or ironing machines in his line, but did not increase his prices for the particular model because he had stopped producing that model before the time he increased his prices. The amount of the increase may not exceed a percentage of that price equal to that by which he increased his prices during the period January 1–October 15, 1941, for the most comparable model in his line on October 15, 1941. The price increased in this manner becomes the manufacturer's ceiling price for sales of that model to that class of purchaser.

Rule 4. If the manufacturer cannot find his ceiling price under Rules 1, 2, or 3 for a sale of a particular model to a particular class of purchaser, because he did not quote any prices for that model to that class of purchaser during the period January 1 to October 15, 1941, then his ceiling price for that sale is his ceiling price to any other class of purchaser to whom he contracted to sell, sold or quoted it during that period, adjusted to reflect his customary differential then in effect for sales to that particular class of purchaser.

SEC. 4. *Revocation of certain ceiling prices and adjustments.* (a) Regardless of any contrary provision in Revised Price Schedule No. 86 or any written approval or order previously issued thereunder by the Office of Price Administration, all manufacturers' ceiling prices established before October 4, 1945 for models first offered for sale after October 15, 1941 are hereby revoked. New ceiling prices for those models must be established in accordance with sections 7, 8, or 10, whichever is applicable.

(b) All orders or other specific authorization issued by the Office of Price Administration at any time before October 4, 1945 by which a manufacturer was permitted to make an upward adjustment in his previously established ceiling prices are hereby revoked. Hereafter those adjustments may not be made, nor may they be used in the computation of ceiling prices for other models of washing or ironing machines.

SEC. 5. *Reconversion adjustment of certain ceiling prices.* This section authorizes reconversion adjustments by manufacturers of certain ceiling prices. Unless a manufacturer is otherwise directed by an order issued by the Office of Price Administration under this section, every manufacturer of washing or ironing machines may adjust any ceiling price which he fixed for sales to purchasers for resale and to the United States and Allied Governments in accordance with Section 3 of this regulation, by adding to that price an amount equal to 7.7% of that price. Orders will be issued under this section denying a manufacturer permission to adjust his ceiling prices by all or part of this increase when it appears to the Price Administrator, on the basis of the manufacturer's production plans as previously filed with the War Production Board and other information available to the Office of Price Administration, that the manufacturer has discontinued production of his low-end model or has decreased the proportion of low priced to high priced models which he manufactures so that his present or prospective production is not representative of his production in that respect of those machines during the year July 1, 1940 to June 30, 1941. The average price at which the manufacturer's production of each type of machine will be sold will be considered in determining how much, if any, of the increase will be granted to such a manufacturer.

SEC. 6. *New or changed models involving minor changes.* (a) A manufacturer's ceiling prices for any model washing or ironing machine he produces which does not differ by more than a "minor change" from another model for which he has already established ceiling prices are the ceiling prices of the model already priced. Any change which reduces the efficiency, convenience, or safety of operation, of the machine being changed is a major change.

(b) For purposes of this regulation only the following changes are minor changes:

(1) Changes in, addition to, or elimination of decorative moldings, strips, fittings or hardware; and changes in the design of the sheet metal or cast metal components: *Provided*, That the total changes do not amount in the aggregate to more than two pounds in the weight of metal.

(2) Changes in gauge of metal: *Provided*, That the efficiency or quality of the washing or ironing machine is not decreased.

(3) Changes in color or finish: *Provided*, That the type of finish is not changed.

(4) Changes in the make of the motor or gas engine.

(5) Interchanging porcelain enamel finish and bright finishes such as chrome or nickel plating.

(6) Changes in the specifications of the casters.

(7) Changes in the composition of the wringer rolls.

(8) Changes in the material used in the agitator.

(9) Changes in name plate or decal.

(10) Changes in the form of the transmission case.

(11) In the case of a washing machine changes in, but not elimination of the timer, off and on switch, overload switch, cord reel, or thermometer.

(12) In the case of an ironing machine, changes in, but not elimination of the thermostatic controls, lap shelf, end shelves, switches, speed rolls, clothes racks, porcelain table top, shoe edge protector, light, or emergency shoe release.

SEC. 7. *New or changed models involving a change, not a minor change*—(a) *Pricing formula.* If you are a manufacturer who cannot find his ceiling price under sections 3, 5, or 6, then your ceiling price is the price properly determined according to the following formula:

(1) Find the model of washing or ironing machine for which you have a ceiling price, which is comparable to the machine being priced. The "comparable" model is the one which is most like the machine being priced in design, construction, and operation, and which is closest to it in unit direct cost. If a machine on which "minor changes" have been made is subsequently used as the "comparable" model in pricing a new or changed model, the cost of the comparable model shall be computed on the basis of the cost to make the machine without the "minor changes".

(2) Find the current unit direct cost of the comparable model. Current unit direct cost means the cost of direct materials and direct labor computed on the basis of (1) your normal production volume and your normal material purchase practices; (2) current material prices

paid not to exceed ceiling prices; (3) wage rates in effect at the time the report is prepared; (4) labor efficiency and material waste allowances determined at the time of or just prior to the preparation of the report. For the purpose of this section, direct material and direct labor do not include any items of factory expense or burden, pattern and tool and die cost, production engineering, warehousing and shipping expense, royalties, and items of selling, general and administrative expense. If you are not producing the comparable model, you nevertheless compute the current direct cost on the basis described above.

(3) Find the current direct cost of the model being priced on the same basis as described in sub-paragraph (2) in a manner consistent with the current direct cost of the comparable model.

(4) Find your mark-up factor by dividing the ceiling price of the comparable model by its unit direct cost. You must use your ceiling price to the class of purchasers (distributors, dealers, mail order houses, etc.) who buy from you in the greatest volume.

(5) Multiply the unit direct cost of the model being priced by that mark-up factor. The result is your ceiling price to the class of purchaser used in subparagraph (4). Your ceiling prices to any other class of purchaser, for the model being priced, must be calculated on the basis of the percentage differential which you customarily had in effect for sales to that class of purchaser.

(b) *Reporting and waiting provisions.* (1) If a manufacturer uses this section to find his ceiling price, he may not without special authorization sell, offer to sell, or deliver the washing or ironing machine until his ceiling price has been approved by the Office of Price Administration. To receive that approval, a manufacturer must comply with the reporting and waiting provisions which are stated below.

(2) The manufacturer must report the price which he has arrived at under this section on OPA Form 2585 provided for that purpose giving all the information called for by that form. These forms may be obtained by him from the Office of Price Administration, Washington, D. C., and his report must be filed there. With the form he must include an illustration and specifications of both the new and comparable models. If he receives a written acknowledgment and approval of his report, he may proceed at once to sell the washing or ironing machine at the reported price. If the manufacturer does not receive approval of his price within 15 days from the day on which he mailed the report he may, nevertheless, treat his reported price as his ceiling price: *Provided* (a) he has reported the correct ceiling price of the comparable article used in the computation, and (b) he has used reasonable care and good faith in selecting and reporting the comparable model used in his computation, and (c) he has used reasonable care and good faith in arriving at and reporting all unit direct costs computed and reported in accordance with the provisions of this section. If the manufacturer has not met all three of these conditions, a sale at the reported price, if it is higher than the correctly determined price, is in violation of this regulation, even though the manufacturer did not hear from the Office of Price Administration within 15 days or even though his reported price was approved.

SEC. 8. *Downward adjustment of certain prices established or reported.* Prices established or reported under Sections 6 or 7 are subject to reduction at any time by written order of the Office of Price Administration if (1) the price apears to be out of line with prices established for similar models, taking into account the manufacturer's relationships with other manufacturers during the base period, or (2) the price is too high in comparison with the manufacturing or selling conditions actually experienced, or (3) the price is found to be incorrect under the provisions of the applicable pricing method. Any reduction under this section will not be retroactive if the manufacturer has an established ceiling price and has met the three conditions specified in paragraph (b) of section 7 in arriving at and reporting his price.

SEC. 9. *Ceiling prices fixed by special orders.* (a) If a manufacturer cannot apply the formula in Section 7 because he has no comparable model, then his ceiling price for sales to a particular class of purchaser is the price specifically authorized by the Office of Price Administration for such sale, in line with the level of ceiling prices fixed by this regulation. Applications for the establishment of such prices must be made in writing to the Office of Price Administration, Washington, D. C. The manufacturer may not, except in the case of sales to the United States or Allied Governments, (see section 13 below) sell, offer to sell, or deliver a washing or ironing machine for which a price must be fixed under this section prior to specific authorization by the Office of Price Administration.

(b) Applications under this section shall contain a detailed breakdown of the unit direct costs of the new model (computed in the manner set forth in section 7 (a)), a list of the major specifications of that model, a photograph or other illustration of that model, and the manufacturer's proposed ceiling prices for sales to each class of purchaser.

SEC. 10. *Ceiling prices for sales to new classes of purchasers.* If a manufacturer cannot find his ceiling price for sales to a particular class of purchaser under any of the preceding sections of this regulation, or under any order issued under this regulation, he shall apply for the establishment of ceiling prices or a method of determining his ceiling prices for sales to that class of purchaser. The application shall be made by letter to the Office of Price Administration, Washington 25, D. C., and shall indicate the classes of purchasers for sales to whom prices are to be fixed. In addition the application shall set forth the manufacturer's proposed ceiling prices for those sales. An order will be issued under this section establishing ceiling prices or a method of determining ceiling prices in line with the level of ceiling prices fixed by this regulation.

SEC. 11. *Establishment of ceiling prices in certain cases.* If a manufacturer is required by this regulation to file a report under Section 7 or to apply for the establishment of a ceiling price under sections 9 or 10, and he fails to do so, or he fails to provide any of the information required in those sections, the Office of Price Administration may, on its own motion, issue orders under this section fixing ceiling prices for the manufacturer's sales in line with the level of ceiling prices established by this regulation. Ceiling prices so established will be effective as of the date of the first sale.

SEC. 12. *Reports, catalogues, and price lists.* (a) Every manufacturer of articles covered by this regulation must notify the Office of Price Administration, Washington, D. C., whenever he changes the model designation of any washing or ironing machine in his line, and whenever he adds a new model to his line. This report may be made by letter and must give the model designation of both the model changed and the new model. This report must be mailed within three days after the change or addition is made.

(b) Every manufacturer must file with the Office of Price Administration, Washington 25, D. C., a copy of every catalogue and price list for domestic washing or ironing machines, issued by him on and after October 15, 1941. In addition, every manufacturer must file a copy of every notification he issues to the trade after the effective date of this regulation concerning new prices, changes in prices, or changes in terms, discounts or allowances. Copies of these notifications must be filed within ten days after they have been issued to the trade.

SEC. 13. *Sales to the United States and Allied Governments.* (a) A manufacturer may sell and deliver and tentatively collect a price for any washing or ironing machine which is sold directly to any agency of the United States Government or of any Allied Government prior to the establishment of a ceiling price for sales of the machine to that class of purchaser. The manufacturer must, however, inform the buyer that the ceiling price is still to be established under this regulation and he must refund any amount collected which is in excess of the ceiling price approved or established by the Office of Price Administration. Within ten days after the manufacturer has entered into a contract for such a sale, he must file a report or an application as provided in section 7, 9 or 10, whichever is applicable.

ARTICLE III—CEILING PRICES FOR RESALES BY DISTRIBUTORS AND DEALERS

SEC. 14. *Establishment of resale prices for distributors and dealers by order.*

Whenever the manufacturer's ceiling prices for a washing or ironing machine have been determined under this regulation, an order may be issued fixing ceiling prices, or a method of determining ceiling prices for sales of the machine by distributors and dealers. Resale ceiling prices established by an order under this section supersede any prices established under any other provision of this regulation for those sales.

SEC. 15. *Distributors' ceiling prices.* A distributor's ceiling price for sales of a particular model of washing or ironing machine to a particular class of purchaser is that established for his sales by an order issued under section 14. If no ceiling price has been established for the particular sale by such an order he shall determine his ceiling price under the first applicable rule of the following contained in this section:

Rule 5. If the distributor sold the identical model (or a model differing from it by minor changes only and priced under section 6), to the same class of purchaser during the period October 1–15, 1941, inclusive, he shall determine his ceiling price for the sale by adding to the highest price charged by him for such a sale of the original model during that period an amount equal to 4.9% of that price.

Rule 6. If the distributor sold the identical model (or a model differing from it by minor changes only and priced under section 6), during the period October 1–15, 1941 inclusive, but cannot use Rule 5 because he did not sell it to that particular class of purchaser, then his ceiling price for that sale is his ceiling price to any other class of purchaser as determined under Rule 5 adjusted to reflect his customary differential in effect during that period on sales to that particular class of purchaser.

Rule 7. If the distributor cannot use Rules 5 or 6 his ceiling price for a sale of that model to a particular class of purchaser is the ceiling price established under Rules 5 or 6 for such a sale by his "most closely competitive seller of the same class". A distributor's "most closely competitive seller of the same class" is a distributor who (a) is selling the identical model of washing or ironing machine to the same class of purchaser and (b) is located nearest to the seller in the same zone and (c) is closely competitive in the sale of such machines. The area included in each zone is set forth in section 17.

Rule 8. If the distributor cannot otherwise find his ceiling price for a particular sale, his ceiling price for that sale is the price established by the Office of Price Administration in an order under this section.

An application under this rule shall state the name of the manufacturer of the machine being priced, its model designation, the classes of purchaser to whom the applicant proposes to sell the machine, the ceiling prices he proposes for such sales, and a statement of the reasons he cannot use the other rules in this section.

SEC. 16. *Dealers' ceiling prices.* A dealer's ceiling price for sales of a particular model of washing or ironing machine to a consumer is that established for his sales by an order issued under Section 14. If no ceiling price has been established for his sales by such an order he shall determine his ceiling price for the sale in accordance with the following table:

If the manufacturer's lowest net ceiling price [1] to distributors is—	The retail ceiling price in each zone [2] is—		
	Zone 1	Zone 2	Zone 3
$12.92 or more, but less than $16.14	$29.95	$34.95	$39.95

$90.01 and over	189.95	194.95	199.95

[1] The lowest net ceiling price is the lowest ceiling price which the manufacturer has for sales to any class of distributor for sales of the machine equipped with an electric motor (but, in the case of a wringer type machine, not with a water pump), less all allowances and all discounts except discounts for prompt payment.

[2] The areas included in each zone are set forth in section 17.

If a washing machine is equipped with a water pump, $10.00 may be added to the ceiling price for the machine shown in the above table.

If a washing machine is equipped with a gasoline motor, instead of an electric motor, $25.00 may be added to the ceiling price for the machine shown in the above table.

SEC. 17. *Zones.* For purposes of this regulation Zones 1, 2, and 3 consist of the following states:

Zone 1. Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North Carolina, South Carolina, West Virginia, Ohio, Kentucky, Indiana, Michigan, Illinois, Wisconsin, Missouri, Iowa, Minnesota, Kansas, Nebraska, South Dakota, and the District of Columbia.

Zone 2. Georgia, Mississippi, Tennessee, Louisiana, Florida, Arkansas and Oklahoma.

Zone 3. Washington, Oregon, California, Nevada, Montana, Idaho, Utah, Colorado, Wyoming, New Mexico, Arizona and Texas.

ARTICLE IV—GENERAL PROVISIONS

SEC. 18. *Sales invoices.* Every manufacturer, distributor, and dealer who sells a washing or ironing machine after October 4, 1945, shall furnish every purchaser with an invoice showing the date of sale, the name and address of both the buyer and seller, the model number of each machine sold, the price charged, the quantity of each model sold, the terms of sale, and the nature and amount of any additional charges. Every seller must keep a copy of every sales invoice available for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

SEC. 19. *Tagging.* Unless an order issued under section 14 specifically provides otherwise:

(a) No person may sell at retail any machine covered by this regulation unless there is attached to the machine a tag or label containing the OPA retail ceiling price for sales of the machine in the seller's zone.

(b) On or after October 14, 1945, a manufacturer may not ship any machine covered by this regulation to a distributor or dealer unless there is attached to the machine a tag or label containing the OPA retail ceiling price of the machine in each zone together with a list of the states in each zone, the manufacturer's name or the brand name, the model designation of the machine, and a statement that the tag or label may not be removed until after the machine is sold to a consumer.

SEC. 20. *Relation of this regulation to other price regulations.* (a) The provisions of Revised Price Schedule No. 86 and the General Maximum Price Regulation do not apply to sales and deliveries covered by this regulation; except that the provisions of § 1499.5 (Transfers of business or stock in trade), § 1499.7 (Federal and state taxes), and § 1499.18 (d) (Adjustment of maximum prices for articles subject to State Fair Trade Acts) of the General Maximum Price Regulation shall continue to be applicable to sales by distributors and dealers, and all records which sellers were required to retain under those regulations must be kept and made available by them for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect.

(b) The ceiling price at which any person may export any article covered by this regulation shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation.

SEC. 21. *Modification of provisions of this regulation.* The provisions of this regulation as applied to classes of commodities or persons subject thereto, may be modified by orders of general applicability issued under this section.

SEC. 22. *Compliance with the regulation*—(a) *No buying or selling at over ceiling prices.* Regardless of any contract or other obligation, no person shall sell, offer to sell, or deliver, and in the course of trade or business, no person shall purchase or accept delivery of a domestic washing machine or a domestic ironing machine at a price higher than the ceiling price fixed by this regulation, or before the manufacturer has properly determined his ceiling price under this regulation.

If, in violation of this provision, a sale, offer to sell or delivery of a domestic washing machine or of a domestic ironing machine is made before its maximum price has been properly established in accordance with this regulation, the ceiling price applicable to the sale, offer to sell or delivery shall be the correct ceiling price for the washing machine or ironing machine, properly determined in accordance with this regulation.

(b) *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(c) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons

who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(d) *Certain practices forbidden.* Any practice which has the effect of getting a higher-than-ceiling price without actually raising the dollar and cents price is hereby forbidden. This applies, among others, to devices making use of commissions, services, tying agreements, combination sales, trade understandings, and the like.

SEC. 23. *Geographical applicability.* The provisions of this regulation shall be applicable in the forty-eight states and the District of Columbia.

Effective date. This regulation shall become effective on October 4, 1945.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 1st day of October 1945.

CHESTER BOWLES,
Administrator.

PART 1389—APPAREL

[2d Rev. MPR 339,[1] Amdt. 5]

WOMEN'S RAYON HOSIERY

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith has been filed with the Division of the Federal Register.

Second Revised Maximum Price Regulation 339 is amended in the following respects:

1. The last sentence of the preamble is revoked.

2. The first paragraph of paragraph (a) of section 1 is amended to read as follows:

(a) *Finished women's rayon hosiery.* The ceiling prices for sales at retail, sales at wholesale and sales by manufacturers of finished women's rayon hosiery are set forth below in Tables I, II and III of Appendix B. Table I applies to full-fashioned hosiery. Table II applies to circular knit hosiery. Table III applies to certain special constructions. The ceiling prices specified in these tables apply only to women's rayon hosiery which conforms to the standards set forth in War Production Board General Limitation Order L-274, except that the following restrictions set forth in that War Production Board Order shall no longer be applicable: (1) the restrictions requiring the use of specific deniers of rayon yarn in the leg in relation to specific gauges or needle counts, (2) the restrictions requiring the use of specific counts of cotton yarn for welts, after-welts, heel reinforcements or toe reinforcements, and (3) the restrictions limiting the number of basic body colors which may be used. Subject to these exceptions, women's rayon hosiery which does not conform to the standards set forth in War Production Board General Limitation Order L-274, and women's proportioned length rayon hosiery which the War Production Board did not, prior to October 2, 1945, permit to be manufactured, shall be priced in accordance with section 4 (a) of this regulation.

3. Paragraph (c) of section 5 is amended to read as follows:

(c) *Exceptions for certain hosiery.* Hosiery which sellers at wholesale and at retail had in stock on the effective date of this Second Revised Maximum Price Regulation 339 which was either: (1) classified as "Grade B" hosiery under Revised Maximum Price Regulation 339 (issued August 23, 1943), or (2) of a kind permitted by War Production Board to be produced prior to December 4, 1943, but prohibited after that date, or (3) hosiery for which specific ceiling prices were established at retail under the provisions of the former Revised Maximum Price Regulation 339 and not specifically established by this regulation, shall continue to be subject to the ceiling prices and the marking provisions contained in the former Revised Maximum Price Regulation 339.

4. In paragraph (a) of section 11, subparagraph (2) is revoked and subparagraph (3) is redesignated subparagraph (2) and is amended to read as follows:

(2) Except as authorized in section 5 (c), deliver any rayon hosiery for which a maximum price is not provided in Appendix B unless he receives from the Office of Price Administration, Washington, D. C., a specific maximum price therefor as provided in section 4; or

5. In paragraph (a) of section 11, subparagraphs (4), (5), (6) and (7) are redesignated subparagraphs (3), (4), (5) and (6) respectively.

This amendment shall become effective October 2, 1945.

Issued this 2d day of October 1945.

PART 4004—PRICE STABILIZATION; MAXIMUM PRICES

EXEMPTION OF CERTAIN COMMODITIES AND TRANSACTIONS FROM PRICE CONTROL

Office of Economic Stabilization Directive No. 68, Exemption of Certain Commodities and Transactions from Price Control, issued July 25, 1945 (10 F.R. 9338) is hereby amended in the following respects:

Section 1 is amended to read as follows:

SECTION 1. The Price Administrator is authorized to suspend price control with respect to any commodity, upon such terms and conditions as he deems appropriate, whenever in his judgment such action will not result in an increase in prices above the general level of existing ceilings for the commodity. If after such suspension, prices for the commodity rise or threaten to rise above the level of preexisting ceilings, the suspension shall be terminated and such ceilings reinstated. If after a reasonable period of suspension prices for the commodity do not rise or threaten to rise and the Price Administrator is satisfied that they will not do so, he may exempt the commodity from price control. Any proposed action by the Price Administrator under this section suspending or exempting a commodity which enters significantly into the cost of living shall be submitted to the Stabilization Administrator, Office of War Mobilization and Reconversion, four days in advance of issuance in order that the Administrator may examine the relationship of the proposed action to other elements in the stabilization program; such action may be issued by the Price Administrator upon expiration of the four day period unless previously disapproved by the Stabilization Administrator.

INTERSTATE COMMERCE COMMISSION.

[S. O. 354]

REROUTING OF TRAFFIC; EMPLOYEES' STRIKE ON THE T. P. & W. RAILROAD

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 1st day of October, A. D. 1945.

It appearing, that a strike of certain operating employees of the Toledo, Peoria & Western Railroad is interfering with operation of that carrier, and that the said carrier is unable to transport the traffic offered to it for movement over its lines; the Commission is of opinion an emergency exists requiring immediate action in that section of the country to avoid congestion of traffic, and to best promote the service in the interest of the public and the commerce of the people.

It is ordered, that:

Operating employees strike on the T. P. & W. Railroad.—(a) *Rerouting of freight traffic.* All common carriers by railroad, subject to the Interstate Commerce Act, connecting with the Toledo, Peoria & Western Railroad, on freight traffic which is routed over, or ordinarily moves over the Toledo, Peoria & Western Railroad and which can not be currently accepted for movement by the said railroad, are hereby directed to forward such freight traffic via routes most available to expedite its movement and prevent congestion, without regard to the routing thereof made by shippers or by carriers from which the traffic is received, or to the ownership of cars: *Provided*, That the billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting. All rules, regulations, and practices of said carriers with respect to car service are hereby suspended and superseded insofar only as conflicting with the directions hereby made.

(b) *Rates to be applied.* That inasmuch as such disregard of routing is deemed to be due to carrier's disability, the rates applicable to traffic so forwarded by routes other than those designated by shippers, or by carriers from which the traffic is received, pursuant to this order, shall be the rates which were applicable at date of shipment over the routes so designated.

(c) *Division of rates.* In executing the orders and directions of the Commission provided for in this order the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; such divisions shall be during the time this order remains in force, voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(d) *Effective date.* This order shall become effective at 12:01 p. m., October 1, 1945.

(e) *Expiration date.* This order shall expire at 11:59 p. m., October 31, 1945, unless otherwise modified, changed, suspended or annulled by order of this Commission. (40 Stat. 101, sec. 402, 418; 41 Stat. 476, 485; sec. 4, 10; 54 Stat. 901, 912; 49 U.S.C. 1 (10)-(17), 15 (4))

It is further ordered, that copies of this order and directive be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

[Vesting Order CE 45]

COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN WASHINGTON COURTS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that as a result of such action or proceeding each of said persons obtained or was determined to have an interest in property, which interest is particularly described in Column 4 of said Exhibit A;

Finding that such property is in the possession, custody or control of the person described in Column 5 of said Exhibit A; and

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings, costs and expenses in the amount stated in Column 6 of said Exhibit A,

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property in the possession, custody, or control of the persons described in said Column 5 of said Exhibit A, the sums stated in said Column 6 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 28, 1945.

COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN IDAHO, ARIZONA, WASHINGTON, NEW MEXICO AND OREGON COURTS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that as a result of such action or proceeding each of said persons obtained or was determined to have an interest in property, which interest is particularly described in Column 4 of said Exhibit A;

Finding that such property is in the possession, custody or control of the person described in Column 5 of said Exhibit A; and

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings, costs and expenses in the amount stated in Column 6 of said Exhibit A,

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property in the possession, custody, or control of the person described in said Column 5 of said Exhibit A, the sums stated in said Column 6 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 28, 1945.

[Vesting Order 5251]

E. MERCK

In re: Contract rights, patents and patent applications of E. Merck.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That E. Merck is a business enterprise having its principal place of business in Darmstadt, Germany, and is a national of a designated enemy country (Germany);

2. That the property described in subparagraph 3 hereof is property of E. Merck;

3. That the property described as follows:

a. Property identified in Exhibit A attached hereto and by reference made a part hereof,

b. All right, title and interest (including all accrued royalties and all damages and profits recoverable at law or in equity from any person, firm, corporation or government for past infringement thereof) in and to the United States Letters Patent identified in Exhibit B attached hereto and by reference made a part hereof, and

c. Patent applications identified in Exhibit C attached hereto and by reference made a part hereof, together with the entire right, title and interest throughout the United States and its territories in and to, including the right to file applications in the United States Patent Office for Letters Patent for, the invention or inventions shown or described in such applications,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, and is property of, a national of a designated enemy country (Germany);

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall this order be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC-1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 28, 1945.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

[RMPR 136, Order 504]

CORNELL-DUBILIER ELECTRIC CORP.

ESTABLISHMENT OF MAXIMUM PRICES

Order No. 504 under Revised Maximum Price Regulation 136. Machines, parts and industrial equipment. Cornell-Dubilier Electric Corporation. Docket No. 6083-136.21-537.

For the reasons set forth in an opinion, issued simultaneously herewith and filed with the Division of the Federal Register; *It is ordered:*

(a) The maximum prices for the sales of any products manufactured by Cornell-Dubilier Electric Corporation, South Plainfield, New Jersey, shall be established as follows:

(1) For any products for which there was a published list price or an established price in effect on the base date, the prices shall be the prices established by section 7 of Revised Maximum Price Regulation 136 increased by 14.2%.

(2) For any modifications of the products covered by paragraph (1) above, the maximum prices shall be the prices computed under section 8 of Revised Maximum Price Regulation 136 increased by 14.2%.

(3) For any other products, the maximum prices shall be the prices computed under sections 9 and 10 of Revised Maximum Price Regulation 136.

(b) The maximum prices for sales of products manufactured by Cornell-Dubilier Electric Corporation by resellers shall be determined by increasing the maximum net price the reseller had in effect to a purchaser of the same class, just prior to the issuance of this order, by the same percentage by which his net invoiced cost has been increased due to the adjustment granted the manufacturer by this order.

(c) Cornell-Dubilier Electric Corporation shall notify each person who buys its products for resale of the percentage by which this order permits the reseller to increase his maximum prices. A copy of each such notice shall be filed with the Machinery Branch, Office of Price Administration, Washington 25, D. C.

(d) All requests not granted herein are denied.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective October 3, 1945.

Issued this 2d day of October 1945.

CHESTER BOWLES,
Administrator.

[SO 94, Rev. Order 63]

UNITED STATES DEPARTMENT OF COMMERCE

SPECIAL MAXIMUM PRICES FOR CERTAIN FIRST AID DRESSINGS

Order 63 under Supplementary Order 94 is redesignated Revised Order 63 and is revised and amended to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and in accordance with section 11 of Supplementary Order 94, it is ordered:

(a) *What this order does.* This order establishes maximum prices for sales at wholesale and retail of certain new first aid dressings hereinafter described, which have been or may be purchased from the United States Department of Commerce.

(b) *Maximum prices.* (1) Maximum prices per new first aid dressing described herein packed singly shall be:

Description of dressing	Price for all sales at wholesale, f. o. b. shipping point	Price for all sales at retail
Small first aid dressing, Army Carlisle Model, approximately 3" x 5" cotton filled pad with ties of split gauze. Each packed singly, 500 to wooden box	$0.03	$0.05
Large first aid dressing, Army Carlisle Model, approximately, 5" x 6" cotton filled pad with 26" long cotton ties. Each packed singly, 285 or 290 to wooden box	.0625	.10

(2) Maximum prices for the small first aid dressing hereinbefore described, repacked four to the package, shall be

Price for all sales at wholesale, f. o. b. shipping point	$0.15
Price for all sales at retail	.25

(c) *Discounts.* Every seller shall continue to maintain his customary discounts for cash.

(d) *Notification.* Any person who sells the first aid dressings described in paragraph (b) to a retailer shall furnish the retailer with an invoice of sale setting forth the maximum prices for sales at retail, and stating that the retailer is required by this order to display conspicuously at the place where the dressings are offered for sale singly a suitable sign which plainly states the appropriate retail ceiling prices, and that in the case of the small first aid dressing packed four to the package, such package shall be plainly stamped or labeled with the retail ceiling price.

(e) *Tagging.* Any person who sells singly the first aid dressings described in paragraph (b) at retail shall conspicuously display at the place where they are offered for sale a suitable sign which plainly states the appropriate ceiling prices, and in the case of the small first aid dressing packed four to the package shall stamp or label each package with the retail ceiling price.

(f) *Relation to other regulations and orders.* This order with respect to the commodities it covers supersedes any other regulation or order previously issued by the Office of Price Administration.

(g) *Definitions.* (1) "Sale at retail" means a sale to an ultimate consumer except as provided in (2) herein.

(2) "Sale at wholesale" means a sale by a person to any person other than an ultimate consumer; and includes a sale to an industrial, commercial or institutional user when made by a wholesaler.

(3) "Wholesaler" means any person whose sales to resellers constitute the major part of his total sales.

(h) *Revocation and amendment.* This order may be revoked or amended at any time.

This order shall become effective October 3, 1945.

Issued this 2d day of October 1945.

CHESTER BOWLES,
Administrator.

SPECIFIED CONSTRUCTION MATERIALS AND REFRACTORIES

MODIFICATION OF MAXIMUM PRICES

An opinion accompanying this Amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. 1 is amended in the following respects:

1. Section 8.1 (d) (5) is deleted.

2. A new section 8.3 is added to read as follows:

SEC. 8.3. *Resellers' prices.* (a) Any reseller or "agent" purchasing building, chemical and industrial lime (excluding agricultural lime) for resale from any manufacturer who has modified his maximum prices in accordance with section 8.1, above, may increase his maximum prices f. o. b. yard or delivered, established by the General Maximum Price Regulation, by the dollars-and-cents increase in cost resulting from the increase permitted the manufacturer under 8.1, above, where:

(1) He purchases these commodities from the manufacturer on the basis of a discount not in excess of 10 percent below the manufacturer's price to dealers or industrial users, and resells these commodities as a wholesaler or "agent" to dealers and industrial users; or

(2) He normally sells to dealers, industrial users, water companies, and city sewerage plants, in carlot quantities shipped direct from the manufacturer's plant, on the basis of a mark-up of $1.00 or less per ton.

(b) As used in this section "dealers" means persons primarily in the business of reselling to contractors or other consumers.

This amendment shall become effective October 4, 1945.

Issued this 3d day of October 1945.

Washington, Friday, October 5, 1945

The President

EXECUTIVE ORDER 9636

OBSERVANCE BY GOVERNMENT AGENCIES OF HOLIDAYS FALLING ON SUNDAYS

By virtue of the authority vested in me as President of the United States, it is hereby ordered as follows:

Section 1. Whenever the first day of January, the twenty-second day of February, the thirtieth day of May, the fourth day of July, the eleventh day of November, or the twenty-fifth day of December, falls on a Sunday, all executive departments, independent agencies, and Government-owned or Government-controlled corporations, including their field services, shall be closed to public business on the following Monday.

Section 2. Whenever any of the above-named days falls on a Sunday, all employees of the executive departments, independent agencies and Government-owned or Government-controlled corporations who would ordinarily be excused from work on any of the above-named days if falling on a day other than a Sunday shall be excused from work on the following Monday.

Section 3. In administering the provisions of law relating to pay and leaves of absence, the Monday referred to in section 2 of this order shall be treated as a holiday, subject to the following exceptions:

(a) In the case of employees whose regularly scheduled basic workweek includes both the Sunday and the Monday referred to in section 2 of this order, either day, as determined by the head of the department, agency, or corporation concerned, but not both days, shall be treated as a holiday.

(b) In the case of employees whose regularly scheduled basic workweek includes the Sunday but not the Monday referred to in section 2 of this order, only the Sunday shall be treated as a holiday.

Section 4. This order supersedes Executive Order No. 1076 of May 22, 1909.

MEDAL FOR MERIT

By virtue of and pursuant to the authority vested in me by section 2 of the act of July 20, 1942, 56 Stat. 662, I hereby prescribe the following rules and regulations for the award of the decoration of the Medal for Merit, created by the said act:

1. The decoration of the Medal for Merit shall be awarded only by the President of the United States or at his direction. Awards of the Medal for Merit may be made to such civilians of the nations prosecuting the war under the joint declaration of the United States and of other friendly foreign nations as have distinguished themselves by exceptionally meritorious conduct in the performance of outstanding services in the furtherance of the prosecution of the war since the proclamation of an emergency by the President on September 8, 1939. Awards of the Medal for Merit made to civilians of foreign nations shall be for the performance of an exceptionally meritorious or courageous act or acts in furtherance of the war efforts of the United Nations.

2. There is hereby established the Medal for Merit Board, which shall be composed of three members appointed by the President, one of whom shall be designated by the President to act as Chairman of the Board.

3. The Medal for Merit Board shall receive and consider proposals for the award of the decoration of the Medal for Merit and submit to the President the recommendations of the Board with respect thereto. In the case of proposed awards to civilians of foreign nations, such recommendations shall include the recommendations of the Secretary of State.

Subtitle A—Office of the Secretary of Agriculture

PART 1—ADMINISTRATIVE REGULATIONS

TRANSFER OF RESPONSIBILITY TO DIRECTOR OF LABOR FOR ADMINISTRATION AND SUPERVISION OF USE AND EXPENDITURE OF UNEXPENDED BALANCES OF FUNDS HERETOFORE GRANTED TO CERTAIN AGRICULTURAL WORKERS' HEALTH ASSOCIATIONS

1. Effective immediately the responsibility for the administration and supervision of the affairs of the agricultural workers' health associations heretofore vested in the Administrator of the Farm Security Administration is hereby transferred to the Director of Labor, Office of Labor, insofar as such administration and supervision relate to the use and expenditure by such associations of the unexpended balances of funds heretofore granted to such associations by the Farm Security Administration, or so much thereof as may be necessary and desirable, in the furnishing and supplying of health and medical services to agricultural workers and their families eligible therefor, pursuant to the Farm Labor Supply Appropriation Act, 1944 (58 Stat. 11), as extended and renewed by the First Supplemental Appropriation Act, 1945 (58 Stat. 853), and any similar authorization subsequently enacted by the Congress. The associations are as follows:

Atlantic Seaboard Agricultural Workers Health Association, Inc.
Migratory Labor Health Association.
Midwestern Agricultural Workers' Health Association, Inc.
Texas Farm Laborers Health Association.
Agricultural Workers Health and Medical Association.
Agricultural Workers' Health Association.

2. The Director of Labor may make such delegations of the authority and responsibilities contained herein as he may deem necessary.

Issued this 4th day of October 1945.

Chapter III—Bureau of Entomology and Plant Quarantine

[Quarantine 45]

PART 301—DOMESTIC QUARANTINE NOTICES

SUBPART—GYPSY MOTH AND BROWN-TAIL MOTH QUARANTINE

The principal changes made by this revision of the quarantine and regulations are (1) to redefine as "generally infested" the regulated area formerly classified as "lightly" and "generally" infested, thus eliminating the classification of "lightly infested area"; (2) to add to the regulated area part of eastern New York, additional areas of Connecticut and Vermont, and that part of Massachusetts not heretofore included in the regulated area, these additional areas to be known as the "suppressive area"; (3) to redefine the boundary of the area regulated on account of the brown-tail moth; and (4) to prohibit the unauthorized movement of live gypsy and brown-tail moths in any stage of development, and for this purpose, to provide for inspection of articles not listed as regulated and, if found infested, to prevent their interstate movement until freed of infestation.

The Secretary of Agriculture has determined that it is necessary further to revise the gypsy moth and brown-tail moth quarantine and regulations supplemental thereto, which were last revised effective September 29, 1938, in order to place under regulation part of the State of New York and to extend the regulated area in the States of Connecticut, Massachusetts, and Vermont due to the discovery of substantial infestations of the gypsy moth therein; and to incorporate into the quarantine and regulations, additional modifications as hereinafter set forth. The quarantine and regulations are therefore hereby revised to read as follows:

GYPSY MOTH AND BROWN-TAIL MOTH QUARANTINE

GYPSY MOTH AND BROWN-TAIL MOTH QUARANTINE

§ 301.45 *Notice of quarantine.* Under the authority conferred by section 8 of the Plant Quarantine Act of August 20, 1912, as amended, and having held the public hearing required, thereunder, the Secretary of Agriculture quarantines the States of Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont, and under authority contained in the aforesaid Plant Quarantine Act and the Insect Pest Act of March 3, 1905, the Secretary of Agriculture prescribes regulations to prevent further spread of the gypsy moth (Porthetria dispar L.) and the brown-tail moth (Nygmia phaeorrhoea Donov.), injurious insects of foreign origin not widely distributed within and throughout the United States. Hereafter the following articles shall not be transported by any person, firm, or corporation from any quarantined State into or through any other State or Territory or District of the United States, under conditions other than those prescribed herein or in the regulations supplemental hereto, viz: (a) Live gypsy moths or brown-tail moths in any stage of development; (b) trees, shrubs, plants, and vines, both deciduous and evergreen, having persistent woody stems, and parts thereof, including Christmas trees; (c) timber products; (d) stone and quarry products; and (e) any other commodities or articles when found on inspection to be infested with the aforesaid insects in any of their stages: *Provided*, That the restrictions of this quarantine and of the regulations supplemental hereto may be limited to such areas, within the quarantined States, as are now or may hereafter be designated by the Secretary of Agriculture as regulated areas, adequate, in his judgment, to prevent the spread of the gypsy and brown-tail moths, except that any such limitation shall be conditioned upon the affected State or States providing for and enforcing the control of the intrastate movement of the regulated articles under the conditions which apply to their interstate movement under provisions of the Federal quarantine regulations, currently existing; and upon their enforcing such control and sanitation measures with respect to such areas or portions thereof as, in the judgment of the Secretary of Agriculture, shall be deemed adequate to prevent the intrastate spread therefrom of the said insect infestations: *And provided further*, That whenever in any year, the Chief of the Bureau of Entomology and Plant Quarantine shall find that facts exist as to the pest risk involved in the movement of one or more of the articles to which the regulations supplemental hereto apply, making it safe to modify, by making less stringent, the restrictions contained in any such regulation, he shall set forth and publish such finding in administrative instructions, specifying the manner in which the applicable regulation will be made less stringent, whereupon such modification shall become effective, for such period and for such regulated area or portion thereof as shall be specified in said administrative instructions, and every reasonable effort shall be made to give publicity to such administrative instructions throughout the affected areas.

RULES AND REGULATIONS

§ 301.45–1 *Definitions.* For the purpose of this subpart the following words, names, and terms shall be construed, respectively, to mean:

(a) *Gypsy moth.* The insect known as the gypsy moth, Porthetria dispar L., in any stage of development.

(b) *Brown-tail moth.* The insect known as the brown-tail moth, Nygmia phaeorrhoea Donov. (formerly referred to as Euproctis chrysorrhoea), in any stage of development.

(c) *Infestation.* This term refers to the presence of either the gypsy moth or the brown-tail moth.

(d) *Regulated area.* Those parts of the quarantined States which are considered to be infested with the gypsy moth or the brown-tail moth, and to which this subpart apply.

(e) *Suppressive area.* That part of the regulated area on the western periphery in which suppressive measures are cooperatively carried out with the objective of eradicating infestations in this area.

(f) *Inspector.* An inspector of the United States Department of Agriculture.

(g) *Moved, movement.* Shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, or carried, transported, moved, or allowed to be moved from or between the regulated parts of quarantined States into or through any other State or Territory or District.

(h) *Certificate.* A valid form certifying the eligibility of products for interstate movement under the requirements of this subpart.

(i) *Limited permit.* A valid form authorizing the restricted movement of regulated articles from a regulated area to a specified destination for specified processing, handling, or utilization.

(j) *Dealer-carrier permit agreement.* An approved document executed by persons or firms covering the restricted movement, processing, handling, or utilization of regulated articles not eligible for certification for interstate movement.

§ 301.45–2 *Regulated area.* The following area is hereby designated as regulated:

Connecticut. pelier, Moretown, Northfield, Plainfield, Roxbury, Waitsfield, Warren, Woodbury, and Worcester, in Washington County.

Subdivision of areas. The above regulated area is divided into three parts classified as (a) The suppressive area, (b) The generally infested area, and (c) The brown-tail moth area. These areas are defined as follows:

(a) *The suppressive area* (new area placed under regulation):

Connecticut. Towns of Canaan, Cornwall, Goshen, Kent, Litchfield, Morris, Norfolk, North Canaan, Salisbury, Sharon, and Warren in Litchfield County.

Massachusetts. County of Berkshire; and the town of Monroe, in Franklin County.

New York. Counties of Rensselaer, Saratoga, Schnectady, and Washington; all of Albany County except the town of Rensselaerville; all of Columbia County except the towns of Clermont, Germantown, Greenport, and Livingston, and the city of Hudson; towns of Amenia, Northeast, and Pine Plains, in Dutchess County; towns of Chesterfield, Crown Point, Essex, Moriah, Ticonderoga, Westport, and Willsboro, in Essex County; towns of Broadalbin, Johnstown, Mayfield, Northampton, and Perth, and the cities of Gloversville and Johnstown, in Fulton County; towns of Coxsackie and New Baltimore, in Greene County; towns of Amsterdam, Florida, Glen, and Mohawk, and the city of Amsterdam, in Montgomery County; and the towns of Bolton, Caldwell, Hague, Luzerne, Queensbury, Stoney Creek, Thurman, and Warrensburg, and the city of Glens Falls in Warren County.

Vermont. County of Addison; towns of Arlington, Bennington, Dorset, Glastonbury, Manchester, Pownal, Rupert, Sandgate, Shaftsbury, Stamford, Sunderland, and Woodford, in Bennington County; towns of Buels Gore, Charlotte, Colchester, Essex, Hinesburg, Huntington, Jericho, Richmond, St. George, Shelburne, South Burlington, and Williston, and the cities of Burlington and Winooski, in Chittenden County; towns of Benson, Brandon, Castleton, Chittenden, Clarendon, Danby, Fair Haven, Hubbardton, Ira, Mendon, Middletown Springs, Pawlet, Pittsford, Poultney, Proctor, Rutland, Sudbury, Tinmouth, Wells, West Haven, and West Rutland, and the city of Rutland, in Rutland County; and the towns of Fayston and Warren, in Washington County.

(b) *Generally infested area.* All of the remainder of the regulated area, exclusive of the suppressive area indicated above, constitutes the generally infested area.

(c) *Brown-tail moth area.* The area under regulation on account of the brown-tail moth is the same as that classified as the generally infested area.

§ 301.45–3 *Articles under regulation*—(a) *Prohibited movement.* The interstate movement of living gypsy moths or brown-tail moths, in any stage of development, whether moved independently or in connection with any other articles, is prohibited, except as provided in § 301.45–10 hereof.

(b) *Regulated movement.* (1) All timber products, manufactured or unmanufactured, including poles, piles, bark, pulpwood, lumber, excelsior, shavings, and sawdust. Manufactured wood products, such as furniture, containers, and similar articles, except when maintained under conditions of exposure to infestation are exempt from regulation.

(2) All trees, shrubs, plants, and vines, both deciduous and evergreen, having persistent woody stems, and parts thereof, including Christmas trees, excepting seed and fruit other than cones.

(3) Stone and quarry products.

(4) Any other articles when found on inspection to be infested with the gypsy or brown-tail moths.

§ 301.45–4 *Conditions governing the interstate movement of regulated articles*—(a) *Movement from regulated area.* Unless exempted by administrative instructions of the Chief of the Bureau of Entomology and Plant Quarantine, regulated articles shall not be moved interstate from the regulated areas to or through any point outside thereof unless accompanied by a valid certificate or limited permit issued by an inspector authorizing such movement.

(b) *Movement from the generally infested area into the suppressive area.* Unless exempted by administrative instructions of the Chief of the Bureau of Entomology and Plant Quarantine, regulated articles shall not be moved interstate from the generally infested area into the suppressive area unless accompanied by a valid certificate or limited permit issued by an inspector authorizing such movement.

(c) *Movement interstate between points within the suppressive area.* The interstate movement of regulated articles between points within the suppressive area may be regulated by the Chief of the Bureau of Entomology and Plant Quarantine on his finding and giving notice thereof, in administrative instructions, that such action is necessary to prevent further spread of infestation therein.

§ 301.45–5 *Conditions governing the issuance of certificates and permits*—(a) *Certificates.* Certificates may be issued for the interstate movement of regulated articles under one or more of the following conditions: (1) When they have been inspected and found apparently free from infestation; (2) when they have been treated, fumigated, or processed by approved methods; or (3) when they have been grown, produced, manufactured, stored, or handled in such a manner that, in the judgment of the inspector, no infestation would be transmitted thereby: *Provided*, That subsequent to certification, the regulated articles will be loaded, handled, and shipped under such protection and safeguards against reinfestation as are required by the inspector.

(b) *Limited permits.* Limited permits may be issued for the movement of noncertified regulated articles to specified destinations for specified processing, handling, or utilization. Persons shipping, transporting, or receiving such articles may be required to enter into written dealer-carrier permit agreements to maintain such sanitation safeguards against the establishment and spread of infestation and to comply with such conditions as to the maintenance of identity, handling, processing, or subsequent movement of regulated products and the cleaning of cars, trucks, and other vehicles used in the transportation of such articles as may be required by the inspector. Failure to comply with conditions of the agreement will result in its cancellation.

(c) *Cancellation of certificates or limited permits.* Certificates or limited permits issued under this subpart may be withdrawn or canceled by the inspector and further certification refused whenever in his judgment the further use of such certificates or permits might result in the dissemination of infestation.

§ 301.45–6 *Inspection and disposition.* Any car or other conveyance, any package or other container, and any article or thing, to be moved, which is moving, or which has been moved interstate from the regulated area, which contains, or which the inspector has probable cause to believe may contain, infestations of the gypsy moth or brown-tail moth, or articles or things regulated under this quarantine, may be examined by an inspector at any time or place. When articles or things are found to be moving or to have been moved interstate in violation of this subpart, the inspector may take such action as he deems necessary to eliminate the danger of dissemination of either the gypsy moth or brown-tail moth. If found to be infested such articles or things must be freed of infestation without cost to the Government, except that for inspection and supervision.

§ 301.45–7 *Assembly of regulated articles for inspection.* Persons intending to move interstate any of the articles covered by this subpart shall make application for certification as far in advance as possible and will be required to prepare and assemble materials at such points and in such manner as the inspector shall designate, so that thorough inspection may be made, or approved treatments applied. Articles to be inspected as a basis for certification must be free from matter which makes inspection impracticable.

The United States Department of Agriculture will not be responsible for any cost incident to inspection, treatment, or certification other than the services of the inspector.

§ 301.45–8 *Marking.* Every container of regulated articles intended for interstate movement shall be plainly marked with the name and address of the consignor and the name and address of the consignee, when offered for shipment, and shall have securely attached to the outside thereof a valid certificate (or limited permit) issued in compliance with this subpart: *Provided*, That (1) for lot freight shipments, other than by road vehicle, one certificate may be attached to one of the containers and another to the waybill, and for carlot freight or express shipments, either in containers or in bulk, a certificate need be attached to the waybill only and a placard to the outside of the car, showing the number of the certificate accompanying the waybill; (2) for movement by road vehicle, the certificate shall accompany the vehicle and be surrendered to consignee upon delivery of shipment.

§ 301.45–9 *Cleaning of freight cars, trucks, boats, and other vehicles and containers.* When, in the judgment of

the inspector, a hazard of spread of infestation is present, thorough cleaning of freight cars, other conveyances, and containers may be required before or after movement interstate to points outside the regulated areas.

§ 301.45–10 *Shipments for experimental and scientific purposes.* Regulated articles may be moved interstate for experimental or scientific purposes, on such conditions and under such safeguards as may be prescribed by the Chief of the Bureau of Entomology and Plant Quarantine. The container of articles so moved shall bear, securely attached to the outside thereof, an identifying tag issued by the Bureau of Entomology and Plant Quarantine.

This revision of the quarantine and regulations shall be effective on and after October 10, 1945, and shall supersede the quarantine and regulations promulgated September 28, 1938.

Done at the city of Washington this 4th day of October, 1945.

Witness my hand and the seal of the United States Department of Agriculture.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

APPENDIX

PENALTIES

The Plant Quarantine Act of August 20, 1912, as amended, provides that any persons who shall violate any of the provisions of this quarantine or regulations pursuant thereto shall be deemed guilty of a misdemeanor and shall, upon conviction thereof, be punished by a fine not exceeding $500, or by imprisonment not exceeding 1 year, or both such fine and imprisonment, in the discretion of the court.

PART 319—FOREIGN QUARANTINE NOTICES

MODIFICATION OF NURSERY STOCK, PLANT, AND SEED QUARANTINE REGULATIONS

§ 319.37–2d *Seeds of Hibiscus esculentus may be entered only under permit.* It has been determined by the Secretary of Agriculture that okra (Hibiscus esculentus) seed may be infested with the pink bollworm (Pectinophora gossypiella Saund.), an insect established in only a limited area of this country, but present in most commercial cotton-growing areas of the world. H. esculentus seed are now admitted from foreign countries without inspection in accordance with the provisions of § 319.37–2 (Regulation 2 of the Rules and Regulations Supplemental to Nursery Stock, Plant, and Seed Quarantine No. 37). Since no inspection is made of these seed to determine the presence of injurious insects and consequently no treatment is given to eliminate such infestations when they exist, importations of these seed constitute a pest risk.

It is therefore hereby ordered that, in accordance with the proviso of § 319.37–2, okra (Hibiscus esculentus seed, including seed in dried seed pods, may be imported from all foreign countries and localities on and after October 8, 1945 only under permit and upon compliance with the provisions of § 319.37–3 (e) (7 CFR Cum. Sup. § 319.37–3 (e)) governing the entry of tree and shrub seeds.

(37 Stat. 317; 7 U.S.C. 151 et seq.; 7 CFR 319.37–2)

Done at the city of Washington this 4th day of October 1945.

Witness my hand and the seal of the United States Department of Agriculture.

Chapter XI—Production and Marketing Administration (War Food Distribution Orders)

[WFO 42, Amdt. 20]

PART 1460—FATS AND OILS

EMERGENCY QUOTAS

War Food Order No. 42, as amended (9 F.R. 12075; 10 F.R. 2679, 3315, 5060, 7961, 8685, 10419), is further amended by deleting paragraph (b) (4) and substituting in lieu thereof the following:

(4) In addition to the quota established under paragraph (b) (1) hereof, any manufacturer may, during the calendar quarter October 1 to December 31, 1945, use fats and oils in the manufacture of edible fat or oil products other than margarine in an amount not exceeding 4 percent of the average amount of fats and oils used in such class of products during the corresponding calendar quarters of the base period. Such additional usage shall constitute an emergency quota and shall not be considered as part of the regular quota established under paragraph (b) (1) hereof. Any unused portion of such emergency quota shall not be carried over to the succeeding calendar quarter.

This order shall become effective at 12:01 a. m., e. s. t., October 1, 1945. With respect to violations, rights accrued, liabilities incurred, or appeals taken, prior to said date, under War Food Order No. 42, as amended, all provisions of said order shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5481]

PART 319—TAXES RELATING TO MACHINE GUNS AND CERTAIN OTHER FIREARMS

SMALL-GAME GUNS

In order to conform Regulations 88 (1941 edition) (26 CFR, 1941 Supp., Part 319), dealing with taxes relating to machine guns and certain other firearms, to Public Law 177 (79th Congress, 1st session), approved August 11, 1945, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding the quotation of section 3261 (a), which is one of the statutory quotations appearing before § 319.3, the following:

PUBLIC LAW 177 (79TH CONGRESS, 1ST SESSION), — APPROVED AUGUST 11, 1945

• • • • •

SEC. 2. Section 3260 (a) of the Internal Revenue Code is amended by striking out "*Provided*, That manufacturers and dealers in guns with two attached barrels from which only a single discharge can be made from either barrel without manual reloading shall pay the following taxes: Manufacturers, $25 per year; dealers, $1 per year." and inserting in lieu thereof the following: "*Provided*, That manufacturers and dealers in guns with two attached barrels, twelve inches or more in length, from which only a single discharge can be made from either barrel without manual reloading, guns designed to be held in one hand when fired and having a barrel twelve inches or more in length from which only a single discharge can be made without manual reloading, or guns of both types shall pay the following taxes: Manufacturers, $25 per year; dealers, $1 per year."

SEC. 3. • • •

(b) The amendment made by section 2 of this Act shall apply with respect to any tax within the scope thereof payable under section 3260 (a) of the Internal Revenue Code for any taxable period commencing on or after July 1, 1945.

PAR. 2. The first paragraph of § 319.5 is amended to read as follows:

§ 319.5 *Rates of tax.* The special taxes are as follows:

	Per year
Class 1. Importers or manufacturers of "firearms" as defined (see § 319.1 (a)), except manufacturers in class 2	$500
Class 2. Prior to July 1, 1945, manufacturers whose production of "firearms" (see § 319.1 (a)) is limited to guns with two attached barrels, twelve inches or more in length, from which only a single discharge can be made from either barrel without manual reloading, and on and after July 1, 1945, manufacturers of "firearms" whose production is limited to guns with two attached barrels, twelve inches or more in length from which only a single discharge can be made from either barrel without manual reloading, or guns designed to be held in one hand when fired and having a barrel twelve inches or more in length from which only a single discharge can be made without manual reloading, or guns of both types	$25
Class 3. Pawnbrokers, except those in class 5	300
Class 4. Dealers, other than pawnbrokers, except those in class 5	200
Class 5. Prior to July 1, 1945, dealers, including pawnbrokers, whose dealing in "firearms" (see § 319.1 (a)) is limited to guns with two attached barrels, twelve inches or more in length, from which only a single discharge can be made from either barrel without manual reloading, and, on and after July 1, 1945, dealers, including pawnbrokers, whose dealing in "firearms" is limited to guns with two attached barrels, twelve inches or more in length, from which only a single discharge can be made from either barrel without manual reloading, or guns designed to be held in one hand when fired, and having a barrel twelve inches or more in length from which only a single discharge can be made without manual reloading, or guns of both types	1

PAR. 3. There is inserted immediately preceding the quotation of section 2722 (a), which appears immediately before § 319.22, the following:

PUBLIC LAW 177 (79TH CONGRESS, 1ST SESSION), APPROVED AUGUST 11, 1945.

• • • That section 2720 (a) of the Internal Revenue Code is amended to read as follows:

(a) *Rate.* There shall be levied, collected, and paid upon firearms transferred in the continental United States a tax at the rate of $200 for each firearm: *Provided*, That the transfer tax on any gun with two attached barrels, twelve inches or more in length, from which only a single discharge can be made from either barrel without manual reloading, or any gun designed to be held in one hand when fired and having a barrel twelve inches or more in length from which only a single discharge can be made without manual reloading, shall be at the rate of $1. The tax imposed by this section shall be in addition to any import duty imposed on such firearm.

• • • • •

SEC. 3. (a) The amendment made by the first section of this Act shall apply with respect to any transfer within the scope thereof made on or after July 1, 1945.

• • • • •

PAR. 4. Section 319.23 is amended to read as follows:

§ 319.23 *Rate of tax.* The transfer tax to be levied, collected, and paid with respect to all articles within the term "firearm" (see § 319.1 (a)) transferred in the continental United States is at the rate of $200 for each firearm, except that prior to July 1, 1945, the rate of tax is $1 upon the transfer of any gun with two attached barrels, twelve inches or more but less than 18 (16 in the case of rifles of .22 caliber or less) inches in length, from which only a single discharge can be made from either barrel without manual reloading, and, on and after July 1, 1945, the rate of tax is $1 upon the transfer of any gun with two attached barrels, twelve inches or more but less than 18 (16 in the case of rifles of .22 caliber or less) inches in length, from which only a single discharge can be made from either barrel without manual reloading, or any gun designed to be held in one hand when fired and having a barrel twelve inches or more but less than 18 (16 in the case of rifles of .22 caliber or less) inches in length, from which only a single discharge can be made without manual reloading. In every case the tax shall be paid by the transferor.

PART 984—LEAD

[General Preference Order M-38, as Amended Oct. 3, 1945]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of lead for defense for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 984.1 *General Preference Order M-38*—(a) *Scope of the order.* This order controls generally the use of lead and lead products. Lead and lead products may be used only for the items and purposes set forth in the order. Other restrictions may also be found in other orders of the War Production Board relating to particular articles or parts. In such case the more restrictive provision governs. In no case shall any person use, purchase, sell, deliver or accept delivery of any lead in violation of this order.

(b) *Definitions.* For the purpose of this order:

(1) "Lead" means metallic lead, including any alloy containing 50% or more by weight of metallic lead. It includes soft and antimonial lead produced from foreign or domestic ores, scrap, drosses, or other lead bearing material, as well as scrap lead and alloys in which the lead content is 50% or more by weight.

(2) "Lead product" means lead in the form of sheet, pipe, ingot, castings, and foil.

(3) "Refiner" means any person who produces lead in refinery shapes, and includes any person who has such lead produced for him under toll agreement.

(4) "Dealer" means any person who procures lead either by importing or from domestic sources for sale or resale without change in form, whether or not such person receives title to or physical delivery of the material, and includes selling agents, warehousemen, and brokers.

(5) "Military order" means a specific contract or sub-contract necessitating the use of lead or lead products in the manufacture of any product, or any component to be physically incorporated into such products, produced for or for the account of the Army or Navy of the United States, Maritime Commission, War Shipping Administration, Veterans Administration or Office of Scientific Research and Development.

(6) "Implement of war" means combat end products, complete for tactical operations (including, but not limited to, aircraft, ammunition, armaments, weapons, ships, tanks, military vehicles and radio and radar equipment), and any parts, assemblies or materials to be incorporated in any of the foregoing items. This term does not include facilities or equipment used to manufacture the foregoing items.

(7) "Use" means to melt, form or alloy lead for introduction into an end product or a component thereof.

(8) "Item" means any article or component thereof.

(c) *Prohibitions on use.* On and after April 1, 1945, no person shall use lead or lead products except for the items and purposes and subject to the qualifications set forth in List I of this order, and then only to the extent necessary to meet applicable specifications or for the proper service performance of the end product or where the use of any less critical material is impracticable or when satisfactory substitutes are prohibited in other War Production Board orders.

(d) *Special directions.* The War Production Board may at any time issue special directions to any person respecting the production, distribution, delivery, or acceptance of delivery of lead.

(e) *Lead from Metals Reserve Company.* Any person unable to obtain pig lead from the regular sources of supply and wishing to procure pig lead from the Metals Reserve Company must make application in writing to the War Production Board on Form WPB-95, not later than the 20th of the month preceding that of shipment.

(f) *Inventory restrictions.* No person shall knowingly deliver to any person and no person shall accept delivery of any quantity of pig lead if the total inventory of pig lead in the hands of the person accepting delivery is, or by virtue of the acceptance will become, in excess of his reasonable anticipated requirements for permissible uses in the next 45 days (except where a minimum carload quantity requested by Office of Defense Transportation exceeds these restrictions). The restrictions of this paragraph do not apply to a refiner, dealer, or scrap dealer.

(g) [Deleted May 1, 1945]

(h) *Restrictions on sales and deliveries of lead.* No person shall sell or deliver any lead to any person if he knows, or has reason to believe, such material is to be used in violation of the terms of this order.

(i) *Appeals.* Any appeal from the restrictions of this order must be by letter in triplicate, referring to the particular provision appealed from and stating fully the grounds for the appeal and should be addressed to the War Production Board, Tin, Lead and Zinc Division, Washington 25, D. C., reference M-38. The appeal should contain the following information:

(1) Product in which the lead will be used.

(2) Period of time, not exceeding one calendar quarter for which relief is requested.

(3) Monthly schedule of amount of lead to be used.

(4) Prime contract numbers on military orders.

(5) If the appeal is filed because the restrictions on use of lead will prevent the filling of non-military orders of extreme urgency, give exact information as to the use of the product in which the lead is used.

(6) Why other less critical materials cannot be used.

(7) Any other information pertinent to the appeal.

NOTE: Unnumbered paragraph deleted Oct. 3, 1945.

(j) [Deleted Oct. 3, 1945.]

(k) *Records.* All persons affected by this order must maintain accurate and complete records of all transactions as required by Priorities Regulation No. 1, 944.15. Such records must include complete statements of the amounts of lead consumed for the items specified in this order, and the amount of inventory on hand.

(l) *Required reports.* (1) On or before the 20th day of each calendar month each person who purchased or consumed 10 tons or more of lead during the preceding calendar month, or had in his possession or under his control 20 tons or more of lead, shall report such purchases, consumption and stocks on hand at the end of the preceding month to the War Production Board on Form WPB-95.

(2) The War Production Board may from time to time issue special directions requiring any refiner or dealer to file a report showing a schedule of his proposed deliveries of lead.

(3) All persons affected by this order shall execute and file with the War Production Board such other reports as may be required subject to the approval of the Bureau of the Budget.

(4) The reporting and record-keeping provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(m) *Violations.* Any person, who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(n) *Communications of the War Production Board.* All communications and reports dealing with this order shall be addressed to: War Production Board, Tin, Lead and Zinc Division, Washington 25, D. C., Ref. M-38

Issued this 3d day of October 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

LIST I

Pursuant to the foregoing order, lead and lead products may be used only for the following items and purposes subject to such qualifications on use as are set forth next to the item or purpose; and then only to the extent necessary to meet applicable specifications or for the proper service performance of the end product or where the use of any less critical material is impracticable or when satisfactory substitutes are prohibited in other War Production Board orders.

2. Anchorages for military and industrial equipment and components, including expansion bolts and shields.
3. Anodes for electrolytic refining, chromium plating and for lead plating as permitted in Item 40 of this list.
4. Anti-vibration mats.
5. Babbitt for abrasives and grinding wheels and for securing hardware to radio insulators and for securing end connections of windings and/or for securing enclosures of wire wound restrictors.
6. Ballast for implements of war where available space does not permit the use of material of lower density, for submarines and for surface craft of sizes up to and including destroyers.
7. Bearing Metal.
8. Bolster metal for surgical, table and industrial cutlery.
9. Brake lining and clutch facings.
10. Brass and bronze.
11. Cable covering, for the fourth quarter of 1945, 25% of the amount of lead used during the calendar year of 1940.
12. Cable sleeving and other accessories necessary for the maintenance, repair and installation of lead covered cable.
13. Cable terminals and bushings for storage batteries.
14. Cames.
15. Caulking of cast iron pipelines (including lead wool) where other material such as sulphur compounds or cement does not provide a leak proof joint.
16. Chemicals subject to the restrictions of Conservation Order M-384.
17. Closure Spouts for drugs and chemicals.
18. Coating of wire and zinc plated sheet, including sheathing.
19. Collapsible tubes, subject to the restrictions of Conservation Order M-115.
20. Counterweights, weights and sliding poises for Military, industrial and laboratory equipment, and implements of war where available space does not permit the use of material of lower density.
21. Foil:
    (a) Military orders to the extent that Method IA (not dehydrated) and/or Method II (dehydrated) packaging, as presently defined in the U. S. Army Specification 100-14, U. S. Navy Specification 39-P-16 and British Standard Packaging Code BS-1133, or any new specifications covering the above are expressly specified in the prime contract.
    (b) For component ammunition for military only.
    (c) Electrotypers subject to the restrictions of Order M-43.
    (d) Condensers.
    (e) Cap Liners for packaging drugs.
    (f) Electrostatic shielding of transformer coils and cores.
22. Fire extinguisher and decontaminator components.
23. Gaskets, locknuts and shims.
24. Heat equalization in galvanizing pots and for molten zinc operations.
25. Heat treating and annealing.
26. Implements of War, as defined in Section (b) (6) of the Order.
27. Impression lead.
28. Inserts for treads on non-sparking ladders and stairs.
29. Lead hammers.
30. Lead-headed nails only to the extent that the use of springhead or flathead nails is impracticable.
31. Fusible alloys.
32. Lead lined bowls for centrifugal oil purifiers.
33. Lead wire for determining gear bearing clearances.
34. Lining for acid lockers.
35. Lubricant for cold drawing of steel products.
36. Manufacture and moulding of plastics.
37. Medical, dental and veterinarian equipment and instruments.
38. Metallic and semi-metallic packing.
39. Patterns and dies.
40. Plating or coating where lead is used in place of either cadmium or tin, or where corrosion makes the use of any other material impractical.
41. Powder for military uses, powder metallurgy and gear lubricants.
42. Production of rayon.
43. Refining of platinum group metals, gold and silver, and metallic sodium.
44. Repair of existing lead construction.
45. Seals for pilfering and tampering protections.
46. Sheath for curing process of rubber.
47. Sheet, pipe (including lead lined pipe), valves, fittings, burning bars and castings to be used.
    (a) in chemical and processing equipment to the extent that corrosion makes the use of any other material impracticable.
    (b) in water service lines to the extent that municipal, state or Federal regulations permit no substitutes or sound water works practice requires its use.
48. Sinkers and other fishing tackle.

49. Solder.
50. Sounding Leads.
51. Spectrographs and spectrophotometers.
52. Storage batteries, including lead content of oxide and cell covers, *Provided*, That the antimony content in any antimonial lead used for grids, connecting parts or components for storage batteries shall not exceed nine (9%) percent, except where specified for contracts of the Army or Navy of the United States, the U. S. Maritime Commission or the War Shipping Administration where an alloy with a higher content of antimony is mandatory, for:
    (a) Military orders.
    (b) Original equipment.
    (c) [1] Industrial type, for replacement purposes, for the fourth quarter of 1945, 25% of the amount of lead used for the same purpose during the calendar year of 1944.
    (d) Automotive SLI type, for replacement purposes, for the fourth quarter of 1945, 26½% of the amount of lead used for the same purpose during the calendar year of 1944.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-779, Revocation]

DAVID HOLDER

Suspension Order No. S-779, effective May 13, 1945, was issued on May 3, 1945 against David Holder, operating a sawmill at Willits, California. An appeal was filed with the Chief Compliance Commissioner on May 22, 1945. Deputy Chief Compliance Commissioner Bok considered the appeal and ordered it dismissed on July 11, 1945. In view of the amendment of Conservation Order L-41 on August 21, 1945 exempting industrial construction, the Chief Compliance Commissioner has directed that the suspension order be revoked.

In view of the foregoing, it is hereby ordered, that: § 1010.779 *Suspension Order No. S-779*, be revoked.

[1] An Industrial Storage Battery means an electric storage battery of other than SLI type which has been completely assembled and sealed, whether charged or uncharged and which is designed and built for industrial applications such as, but not confined to, railway signaling and lighting, mine locomotives, industrial trucks, farm lighting, public utilities stand-by equipment, commercial radio installations, airplane and commercial boat installations and components thereof.

Issued this 3d day of October 1945.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-820, Revocation]

TILLMAN HEDGES

Suspension Order No. S-820 was issued June 20, 1945 against Tillman Hedges, Duncan, Oklahoma for violation of Conservation Order L-41. This construction has now been determined to be essential, and the Chief Compliance Commissioner has therefore directed that Suspension Order No. S-820 be revoked.

In view of the foregoing: *It is hereby ordered*, That § 1010.820 *Suspension Order No. S-820*, be revoked.

Issued this 2d day of October 1945.

[Suspension Order S-876, Revocation]

LESLIE T. HEALY

Suspension Order No. S-876, effective August 14, 1945, was issued August 7, 1945 against Leslie T. Healy, 2636 Noble Road, Cleveland Heights, Ohio, engaged in the construction business, principally of small residences, in South Euclid, Ohio. An appeal was filed with the Chief Compliance Commissioner on August 14, 1945 and, pending final determination of the appeal, a stay was granted on August 21, 1945. The appeal has been considered by Deputy Chief Compliance Commissioner Curtis Bok who has directed that the suspension order be revoked.

In view of the foregoing: It is hereby ordered, that: § 1010.876, *Suspension Order No. S-876* be revoked.

Issued this 3d day of October 1945.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328B, Direction 7 as Amended Oct. 3, 1945]

SET-ASIDES OF COTTON FABRICS FOR FOURTH QUARTER 1945 PROGRAMS UNDER SCHEDULES C AND D OF ORDER M-328B

The following amended direction is issued pursuant to M-328B:

(a) This direction applies only to the deliveries of fabrics under ratings assigned under Schedules C and D of Order M-328B.

(b) The purpose of this direction is to establish set-asides of the particular fabrics for which CC ratings are assigned in Schedules C and D of Order M-328B and to establish rules for the acceptance of orders by those persons subject to the set-aside provisions.

(c) Every producer of any cotton fabrics listed in the fabric set-aside table, in the gray state, whether he sells it in the gray or finished state or uses it to manufacture civilian items, shall deliver or use, during the fourth quarter of 1945, a yardage of that cotton fabric at least equal to the percentage shown in the fabric set-aside table of his production during that period to fill either orders bearing CC ratings assigned under Order M-328B or orders bearing the following certification (the term "orders" includes orders between branches or divisions of a company as well as orders from other companies):

"The undersigned certifies, subject to the criminal penalties of Section 35 (A) of the U. S. Criminal Code, that he will deliver during the fourth quarter of 1945, to fill orders rated CC under Schedules C and D of Order M-328B, a yardage of finished cotton fabric of the type covered by this purchase order equal to at least all unfinished cotton gray fabric of that type to which he takes title during that period on orders bearing this certificate."

(d) A producer of cotton fabric is not required to deliver or use, in the fourth quarter of 1945, to fill such rated or certified orders, of any type of cotton fabric listed on the fabric set-aside table, more than a yardage of his fourth quarter production equal to the listed percentage for that fabric. After a producer has accepted orders bearing the certification described above, he may schedule them for delivery as if they bore CC ratings.

(1) Every supplier of finished fabric making the certification described in paragraph (c) above must deliver finished cotton fabrics during the fourth quarter of 1945 in accordance with its terms. In calculating the yardage of a particular fabric which he is required to deliver, the supplier of finished fabric may take into consideration actual processing loss on material delivered in the fourth quarter.

(2) No supplier of finished cotton fabric is required to accept rated orders CC under Schedules C and D of M-328B for a greater yardage of any type of finished cotton fabric listed on the fabric set-aside table for delivery in the fourth quarter of 1945 than a yardage equal to all unfinished cotton gray fabric of that type to which he takes title during that period on orders bearing the certification in paragraph (c) above.

(3) After a supplier of finished fabrics uses the certificate set forth in paragraph (c) on any of his purchase orders to his suppliers, he must not extend on orders for the particular cotton fabric covered by the certificate any CC ratings which he knows or has reason to believe were assigned under Schedule C or D of Order M-328B.

(f) (1) If a supplier of gray or finished cotton fabric receives orders bearing CC ratings assigned under Schedule C or D of M-328B before October 6, 1945, he may hold them until that date before determining whether he is required to accept them. However, he must not actually reject any such CC orders before that date. If, on October 6, 1945 he has received such rated orders and orders certified under paragraph (c) above for more than the yardage which he is required by paragraph (c) or paragraph (e) to deliver on such rated or certified orders, he may then reject any CC rated orders previously served on him to the extent of the excess. This paragraph (f) (1) does not affect AA-3 purchase orders which have been accepted and which may be re-rated CC before October 1, 1945, in accordance with Direction 18 to Order M-328.

(2) Any purchaser who is unable to get his rated orders accepted, should notify the War Production Board.

(g) This paragraph explains how a finished goods supplier who is unable to get CC rated orders to meet the requirements of paragraph (c) above may obtain relief from that requirement.

(1) He must send two copies of Form WPB-4351 by registered mail to the War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., within the time stated below. This form must be completely filled out in accordance with its instructions. Copies of the form may be obtained from any War Production Board Field Office.

(2) Form WPB-4351 may not be filed before November 1, 1945.

(3) Seven days after the mailing of Form WPB-4351 in accordance with the rules above, if the War Production Board does not otherwise direct in writing, the finished goods supplier seeking relief may, to the extent that he is unable to obtain orders rated CC under M-328B, disregard the requirements that he deliver during the fourth quarter the yardage of finished fabric specified in paragraph (c).

(h) The special rules of this Direction for the handling of ratings apply only to CC ratings assigned under Schedules C and D of Order M-328B. Nothing in this Direction affects CC ratings assigned on Form WPB-541A under PR-28, or MM ratings.

Issued this 3d day of October 1945.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328B, Schedule J, as Amended Oct. 3, 1945]

SPECIAL PROGRAM FOR RAYON CIVILIAN ITEMS

§ 3290.120j *Schedule J to Order M-328B—(a) Explanation.* This schedule states the special rules in addition to those set forth in Order M-328B for manufacturers of civilian items manufactured from rayon fabric to get preference ratings for rayon fabric for delivery beginning in the fourth quarter of 1945 to make the items listed in this schedule.

(b) *Definitions.* For the purpose of this schedule:

(1) "Fabrics," unless otherwise designated, means a woven fabric 12 inches or more in width.

(2) "Rayon fabric" means any fabric containing less than 25% wool by weight but of which the remaining fibers are more than 50% of synthetic fiber (staple or continuous filament) by weight. For example, a fabric containing 20% wool, 41% rayon, and 39% cotton is rayon.

(3) "Rayon item" means an item of which more than 50% of the fabric yardage incorporated in it, exclusive of linings, bindings and trimmings, is made of rayon fabric.

(4) "Base period manufacturer" and "base period" mean the same as in paragraph (b) (5) of Order M-328B except that a person who did not manufacture an item listed in this schedule during the base period at or below the maximum price set forth in the schedule shall not be considered a base period manufacturer.

(c) *Special requirements for obtaining priorities assistance.* (1) Three copies of Form WPB-3732 must be filed for priorities assistance under this schedule, in accordance with the rules stated in paragraph (c) of Order M-328B, except that for the fourth calendar quarter of 1945 applications shall be postmarked not later than September 5, 1945.

(2) [Deleted Oct. 3, 1945]

(3) [Deleted Oct. 3, 1945]

(4) A base period manufacturer may not apply for a quantity of fabric for any item greater than 100% of the linear yards used by him in the base period for the production of that item.

(5) [Deleted Oct. 3, 1945]

(6) [Deleted Oct. 3, 1945]

(d) *General provisions.* (1) Preference ratings assigned under this schedule may be used only to get rayon fabrics to make the rayon items specified in the preference rating schedule.

(2) The fabrics must be incorporated into an item produced for sale by the manufacturer at or below the lower of the following two prices:

(i) The price at which the manufacturer is permitted to sell the item under regulations of the Office of Price Administration; or

(ii) The price specified in the Maximum Price Column.

(3) A manufacturer who is not a base period manufacturer must comply with the provisions of paragraph (c) (6) of Order M-328B.

(4) A manufacturer who did not manufacture an item in the base period must state his proposed production by size assortment per dozen in the "Remarks" section of Form WPB-3732. If his application is granted, he must comply with these size assortments.

(5) [Deleted Oct. 3, 1945]

(e) *Delivery and use of rayon fabric to fill rated or certified orders.* (1) Every producer of rayon fabric in the gray state, whether he sells it in the gray or finished state or uses it to manufacture civilian items, shall deliver or use, during the fourth quarter of 1945, a yardage of rayon fabric at least equal to 40% of his production during that period to fill either orders bearing CC ratings assigned under Order M-328B or orders bearing the following certification (the term "orders" includes orders between branches or divisions of a company as well as orders from other companies):

The undersigned certifies, subject to the criminal penalties of section 35 (a) of the

U. S. Criminal Code, that he will deliver during the fourth quarter of 1945, to fill orders rated CC under Order M–328B, a yardage of finished rayon goods equal to at least all unfinished rayon gray goods to which he takes title during that period on orders bearing this certificate.

(2) A producer of rayon fabric shall not be required to deliver or use, in the fourth quarter of 1945, to fill such rated or certified orders, more than a yardage of rayon fabric equal to 40% of his fourth quarter production. After a producer has accepted orders bearing the certification described above, he may schedule them for delivery as if they bore CC ratings.

(f) *Deliveries by finished goods suppliers.* (1) Every supplier of finished fabrics making the certification described in paragraph (e) above must deliver finished rayon fabric during the fourth quarter of 1945, in accordance with its terms. In calculating the yardage which he is required to deliver, the supplier of finished goods may take into consideration actual processing loss on material delivered in the fourth quarter. For example, a finished goods supplier has an actual processing shrinkage of 5% on rayon fabric delivered by him in the fourth quarter of 1945. If he takes title to 100,000 yards of rayon gray goods in the fourth quarter on orders bearing the certificate, the quantity which he is required to deliver is 95,000 yards.

(2) No supplier of finished rayon fabric shall be required to accept orders rated CC under M–328B for a greater yardage of finished rayon fabric for delivery in the fourth quarter of 1945 than a yardage equal to all unfinished rayon gray goods to which he takes title during that period on orders bearing the certificate in paragraph (e).

(3) After a supplier of finished fabrics uses the certificate set forth in paragraph (e) on any of his purchase orders to his suppliers, he must not extend on orders for rayon fabric any CC ratings which he knows or has reason to believe were assigned under Order M–328B.

(g) *Acceptance of rated orders.* (1) If a supplier of gray or finished rayon fabric receives orders bearing CC ratings (assigned under M–328B) before October 6, 1945, he may hold them until that date before determining whether he is required to accept them. However, he must not actually reject any such CC orders before that date. If, on October 6, 1945, he has received such rated orders and orders certified under paragraph (e) for more than the yardage which he is required by paragraph (e) or paragraph (f) to deliver on such rated or certified orders, he may then reject any CC rated orders previously served on him to the extent of the excess. This subparagraph (1) does not affect AA 3 purchase orders which have been accepted and which may be re-rated CC before October 1, 1945, in accordance with Direction 18 to Order M–328.

(2) Any purchaser who is unable to get his rated orders accepted should notify the War Production Board.

(h) *Exceptions from requirements.* This paragraph explains how a finished goods supplier who is unable to get CC rated orders to meet the requirements of paragraph (f) above may obtain relief from that requirement.

(1) He must send two copies of Form WPB–4351 by registered mail to the War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., within the time stated below. This form must be compietely filled out in accordance with its instructions. Copies of the form may be obtained from any War Production Board Field Office.

(2) Form WPB–4351 may not be filed before November 1, 1945.

(3) Seven days after the mailing of Form WPB–4351 in accordance with the rules above, if the War Production Board does not otherwise direct in writing, the finished goods supplier seeking relief may, to the extent that he is unable to obtain orders rated CC under M–328B, disregard the requirements that he deliver during the fourth quarter the yardage of finished fabric specified in paragraph (f).

(i) The special rules of this Schedule J for the handling of ratings apply only to CC ratings assigned under Order M–328B. Nothing in this Schedule affects CC ratings assigned on Form WPB–541–A under PR 28, or MM ratings.

Issued this 3d day of October 1945.

PART 1390—MACHINERY AND TRANSPORTATION EQUIPMENT

[RMPR 136, Amdt. 15]

MACHINES, PARTS, AND INDUSTRIAL EQUIPMENT

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 136 is amended in the following respect:

A new section 30 is added to read as follows:

SEC. 30. *Industry-wide adjustments for reconversion products.* Special pricing provisions applicable to particular products may be established by orders issued under this section when, with respect to the product, the Administrator finds:

(a) That in 1944 its production was approximately one-half or less of its production in its last representative period of peacetime production;

(b) That this reduction in dollar volume resulted from (1) governmental restrictions on the manufacture of products or on the use of materials, facilities, or manpower, or (2) the use of facilities for the production of war goods, or (3) other direct needs of the war effort; and

(c) That because of change in government restrictions or in the needs of the war program, manufacturers of the product generally are able to begin or to increase substantially the production of the product line.

If, in the judgment of the Administrator, the purposes of this section will be effectuated, as to a particular product, without any special pricing provisions, an order under this section will not be issued with respect to that product even though the above findings could be made as to it.

Orders under this section will, generally, authorize industry-wide increases in the established maximum prices of manufacturers in those industries, based upon surveys conducted by the Price Administrator, either upon the request of the particular industry or upon his own motion. Those orders will establish adjusted maximum prices or methods of determining such prices by the use of price increase factors. Where, however, in the judgment of the Price Administrator, the use of an industry-wide factor will, by reason of the diversity in the products made by the member firms, the wide variation in cost experience among them, or other reasons, be an inequitable and inappropriate means of establishing reconversion prices, he may provide for the calculation and application of individual price increase factors.

Broadly stated, the new maximum prices will represent costs experienced during the last period of normal production adjusted for subsequent lawful changes in the level of materials prices and in basic wage rate schedules of factory workers, plus the industry's average peacetime profit margin over cost. Changes in materials prices may be measured by materials cost increase factors, determined by the Administrator, in those cases where such action may be necessary to eliminate temporary or artificial influences. In the case of an industry for which the Administrator has decided that price increase factors should be determined and applied for each firm, the profit element in each increase factor will be the firm's own base period profit margin or one-half the industry's average peacetime margin, whichever is the higher.

Orders issued under this section may also modify or supersede the provisions of Revised Maximum Price Regulation 136, with respect to the establishment of maximum prices, if, on the basis of the particular characteristics of the industry involved, the Administrator finds that another method of price determination will effectuate the purposes of this regulation better than the general pricing provisions of the regulation. In addition, those orders may establish new maximum prices or a method of determining new maximum prices for sales by persons other than manufacturers which will supersede maximum prices fixed by other regulations for such sales and which will be consistent with the standards applied by the Office of Price Administration for the reasonable absorption of necessary cost increases.

Orders issued under this section will not ordinarily reduce higher maximum prices which manufacturers have previously established in accordance with the applicable provisions.

A manufacturer of a product covered by an order issued under this section may not obtain an adjustment of his maximum prices under any adjustment provision other than Supplementary Orders Nos. 118 and 119, unless the adjustment provision itself or the order issued under this section covering his product expressly provides otherwise. This rule does not apply, however, to any adjustment which may be made in accordance with Procedural Regulation No. 6 with respect to any Government contract or subcontract thereunder, for the sale of a commodity essential to the war program.

Small volume manufacturers may use as their new maximum prices those which they calculate under Supplementary Order No. 118, and general orders issued pursuant thereto, if the maximum prices so calculated are higher than maximum prices set under orders issued under this section. Any other manufacturer may apply for an individual adjustment under Supplementary Order No. 119 if, after the adjustment authorized for his industry by an order under this section, his maximum price still continues eligible for adjustment in accordance with the provisions of that supplementary order.

Orders issued under this section may require a manufacturer to arrange the production and distribution of his products so that they will be representative of his production and distribution in a specified past period for goods in a particular category. The Administrator may also require authorized price increases to be applied among articles or price lines in a manner consistent with the need, under the stabilization program, to maintain the production of lower-priced articles.

This amendment shall become effective October 3, 1945.

Issued this 3d day of October 1945.

JAMES G. ROGERS, Jr.,
Acting Administrator.

PART 1418—TERRITORIES AND POSSESSIONS

[2d Rev. MPR 183,[1] Amdt. 8]

MILK IN PUERTO RICO

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

[1] 10 F.R. 7635, 8933, 9223, 9227, 10224, 10976, 11666.

Second Revised Maximum Price Regulation 183 is amended in the following respects:

1. Section 4.9 (b) is amended to read as follows:

(b) *Fresh milk.* (1) Producers maximum prices for raw or pasteurized milk.

(i) For sales of milk by a producer to a store, the maximum price is the price set forth below for the zone in which the store is located.

Type of milk	Location of store	Maximum price per quart
Raw milk, loose	Zone I	$0.14
	Zone II	.12
	Zone III	.105
Pasteurized milk, loose	All zones	.14

(ii) For sales of raw or pasteurized milk by a producer delivered to a consumer or volume customer, maximum prices for sales by the producer are the same as the maximum prices established for sales by distributors to a consumer or volume customer.

(iii) For sales of milk by a producer to a distributor, the producer's maximum price shall be a weighted average price computed by the distributor on a monthly basis. Each distributor shall determine the maximum price to be paid to each of his producers at the end of the month on the basis of the total sales made by the distributor during the month. The type of milk, whether raw or pasteurized, whether it is loose or in small containers, and the point of use of the milk are the factors to be used by the distributor in determining the maximum price to be paid to producers. The distributor shall compute monthly the total value of the milk sold by him at the rate of $0.14 per quart for all pasteurized milk, $0.14 per quart for all raw milk whose point of use is in Zone I, $0.12 per quart for all raw milk whose point of use is in Zone II, and $0.105 per quart for all raw milk whose point of use is in Zone III. The distributor shall determine the weighted average price, which represents the maximum price which may be paid to producers, by dividing the total value of the milk sold by him during the month by the total number of quarts sold by him during the month; and in order to arrive at the maximum payment which may be made to each producer, shall multiply the weighted average price by the total number of quarts supplied by each producer.

(iv) If, on sales of raw or pasteurized milk, to distributors or stores, the producer supplies a small container the producer's maximum price may be augmented by the following:

Size of container supplied by producer:	*Maximum additions*
Quart	$0.01 per quart.
Pint	$0.005 per pint.
Half pint	$0.00375 per half pint.

(v) Distributors may make cash payments to producers at any time during a month, but such payments shall be subject to settlement at the end of such month by determining the difference between the cash payments and the maximum payments computed by the method set forth above. The cash payments which may be made during the month to each producer shall not exceed the amount computed by multiplying the maximum price per quart in the lowest price zone in which any of the milk sold by the distributor finds its point of use by the total number of quarts sold to the distributor by the producer during the month.

Example: During a given month Producers A, B, C, and D supplied Distributor X with milk in the following amounts:

Producer A—3,500 quarts, loose.
Producer B—2,000 quarts, in quart containers.
Producer C—9,500 quarts, in pint containers.
Producer D—9,000 quarts, in half pint containers.

24,000 quarts.

In addition to the 24,000 quarts received from these producers, Distributor X sold 1,000 quarts of milk he himself produced. The total number of quarts sold during July by Distributor X was 25,000. Of this total 10,000 quarts was pasteurized so the value of this portion shall be computed at the rate of $0.14 per quart. The point of use of the remaining 15,000 quarts was divided among the zones as follows:

Zone I, 8,000 quarts (rate of $0.14 per quart).
Zone II, 5,000 quarts (rate of $0.12 per quart).
Zone III, 2,000 quarts (rate of $0.105 per quart).

The method to be used by Distributor X in computing the maximum price per quart of loose milk is set forth in the following table:

Type of milk	Points of use	Number of quarts sold by distributor	Rate	Value, computed by multiplying column 3 by column 4
Raw	Zone I	8,000	$0.14	$1,120.00
Raw	Zone II	5,000	.12	600.00
Raw	Zone III	2,000	.105	210.00
Pasteurized	All zones	10,000	.14	1,400.00
Total number of quarts sold		25,000		3,330.00

The weighted average price per quart is determined by dividing the total value by the total number of quarts sold:

$\frac{3330}{25000}$ = .1332 maximum price per quart.

Producer A's cash payment and total payment for the month is computed as follows:

3500 × .105 = $367.50 Cash payment.
3500 × .1332 = $466.20 Total payment.

Producer B's cash payment and total payment for the month is computed as follows:

2000 × .105	$210.00	Cash payment
2000 × .1332	266.40	
2000 × .01	20.00	Maximum addition for quart container
	286.40	Total payment

Producer C's cash payment and total payment for the month is computed as follows:

9500 × .105	$997.50	Cash payment
9500 × .1332	1,265.40	
19000 × .005	95.00	Maximum addition for pint containers—9,500 quarts equals 19,000 pints
	1,360.40	Total payment

Producer D's cash payment and total payment for the month is computed as follows:

9000 × .105	$945.00	Cash payment
9000 × .1332	1,198.80	
36000 × .00375	135.00	Maximum addition for half-pint containers—9,000 qts. equals 36,000 half pints
	1,333.80	Total payment

(2) Distributors and stores maximum prices for pasteurized milk.

NOTE: The maximum price for milk sold in paper containers shall be the prices fixed in the above tables for milk sold in small containers plus 2¢ per quart as an allowance for the additional cost of the container.

(i) Deposit charges on containers. No deposit charge shall be made for any milk container with the exception of glass small containers furnished by the seller in connection with the sale of bottled milk. On such bottles a deposit of 10¢ may be imposed, which shall be refunded to the depositor upon the return of the bottle.

(ii) Charges for long distance deliveries on pasteurized milk. No charge for the transportation of milk shall be made or collected, except that in connection with the sale and delivery of pasteurized milk to the Armed Forces of the United States and to Municipal and Insular institutions the following charges shall be allowed:

(iii) The Puerto Rico Dairy, Inc., and Las Tres Monjitas Dairy may charge and collect, in addition to the applicable maximum price for milk not delivered, the following amounts for each truck trip involved in the delivery of pasteurized milk from their plants in San Juan and Rio Piedras:

	Per truck trip
To Borinquen Field	$42.00
To Losey Field	32.00
To Henry Barracks	16.75
To Camp Tortuguero	16.25
To Fort Buchanan	12.50

(iv) In the event that delivery is made to more than one of the enumerated points in the course of a truck trip prior to returning to the plant, the total delivery charge shall not exceed the charge fixed per truck trip to the more distant point.

(v) On deliveries other than those specified above, the Director of the Office of Price Administration for the Territory of Puerto Rico may, upon application, authorize the charge and collection of an amount per truck trip, in addition to the applicable maximum price to cover the actual cost incurred in making such delivery.

(4) Registration and reports. (i) Every distributor of milk and every store in which milk is sold shall file with the Office of Price Administration for the Territory of Puerto Rico at San Juan, Puerto Rico, on or before the 5th day of each successive month, a report of his operations for the preceding month upon Form No. PRM 1 duly filled out and signed either by himself or by his properly authorized agent.

(ii) Every producer and distributor of milk and every store in which milk is sold which has not registered upon Forms PRM 2 and PRM 3 duly filled out and signed either by himself or his properly authorized agent, shall immediately register upon such forms with his Local Board.

(iii) On and after the effective date of this regulation every person who becomes a producer, every person who becomes a distributor of milk, and every store which begins to sell milk shall immediately register at his Local Board upon Forms PRM 2 and PRM 3 duly filled out and signed either by himself or his properly authorized agent.

This amendment shall become effective as of October 8, 1945.

Issued this 4th day of October 1945.

CHESTER BOWLES,
Administrator.

PART 1434—MATCHES

[MPR 365,[1] Amdt. 4]

WOOD MATCHES AND RESALE BOOK MATCHES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 365 is amended in the following respects:

1. A new section designated section 2a is added to read as follows:

SEC. 2a. *Transfers of business or stock in trade.* If the business, assets or stock in trade of any business are sold or otherwise transferred after October 8, 1945, and the transferee carries on the business or continues to deal in the same type of commodities or services in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee and his practice with respect to wood and resale book matches shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records in accordance with section 9 shall be the same. The transferor shall either preserve and make available for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, or turn over to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this Maximum Price Regulation 365.

2. Subparagraph (9) of section 12 (a) is amended to read as follows:

(9) "Strike-on-box" or "safety" wood matches are wood or veneer splint matches, packed at an average of forty (40) splints or lights per box and normally strikeable on the box only through special preparation of the match head and striking surface of the box.

3. Subparagraph (10) of section 12 (a) is amended to read as follows:

(10) "Resale book matches" shall include for the purposes of this regulation the following types of book matches:

(i) All paper book matches sold at the retail level except those specially initialed or monogrammed at the order of the purchaser.

(ii) Paper book matches bearing general advertising matter from which revenue is obtained independently of the price of the book matches.

(iii) Paper book matches bearing a patriotic slogan, emblem, design or pattern in place of or in connection with general advertising matter, which are for general distribution to or through a distributor or retailer.

(iv) Paper book matches commonly described as the "thank you" or "no print" type, ordinarily free from printing and for general distribution to and through a distributor or retailer. Included in this group are paper book matches bearing a manufacturer's stock cut or design, trade-mark, slogan, color, monogram or pattern from which an advertising revenue is not obtained by the manufacturer and which are for general distribution.

NOTE: The above classification shall also apply to matches specially treated to give off when lit any unusual odor or color, and to matches produced in books containing more or less than 20 lights. Excluded from "resale book matches" are pull quick matches and also special reproduction and monogrammed book matches except as described elsewhere in this subparagraph (10).

4. In section 12 (a), subparagraph (11) is revoked and a new subparagraph (11) is added to read as follows:

(11) "Caddy" means a paper or paperboard container of 50 book matches.

5. In section 12 (a), subparagraph (12) is redesignated (13) and a new sub-

[1] 8 F.R. 4721, 9520, 12560, 13712; 9 F.R. 3653.

paragraph (12) is added to read as follows:

(12) "Book match" or "book" means a combination of paper or paperboard lights with a paperboard cover and a friction lighting area. Unless otherwise stated in this regulation, it shall refer to a combination of twenty lights.

6. In Appendix A (c) (1), the opening clause is amended to read as follows:

(1) Retailers' maximum delivered prices, including the Federal tax, shall be as follows:

7. Appendix A (c) (2) is amended to read as follows:

(2) The term "chain stores and supermarkets" shall include all retail stores which are in a group of four (4) or more stores centrally owned, or any retail store, however owned or grouped, which individually did a gross sales volume of $250,000 or more in the calendar year 1942.

8. Appendix A (c) (3) is amended to read as follows:

(3) The term "independent stores" shall include all retail stores, retail traders and retail peddlers not qualifying as chain stores or supermarkets, in accordance with the definition in subparagraph (2) above.

9. In Appendix B (c) (1), the opening clause is amended to read as follows:

(1) Retailers' maximum delivered prices, including the Federal tax, shall be as follows:

10. Paragraph (a) (1) of Appendix B is amended to read as follows:

(1) The manufacturer's maximum delivered price per case of 720 boxes shall be as follows: $3.65 in lots of 11 cases or more. $4.02 in lots of less than 11 cases.

11. In Appendix C (c), the headnote is amended to read as follows:

(c) *Retailers' maximum delivered price, including the Federal tax.*

12. In Appendix C (c) (1), a new subdivision (i) is added to read as follows:

(i) A retailer may sell loose books up to and including the value of five (5) cents, *Provided*, That in a sale at retail involving more than five (5) cents the maximum price for the number of books sold, if less than fifty, shall be in direct proportion to the retail maximum price for a caddy of book matches established in this section.

13. Appendix C (c) (2) is amended to read as follows:

(2) The term "chain stores and supermarkets" shall include all retail stores which are in a group of four (4) or more stores centrally owned, or any retail store, however owned or grouped, which individually did a gross sales volume of $250,000 or more in the calendar year 1942.

14. Appendix C (c) (3) is amended to read as follows:

(3) The term "independent stores" shall include all retail stores, retail traders and retail peddlers not qualifying as chain stores or supermarkets, in accordance with the definition in subparagraph (2) above.

15. Appendices A and B are amended by adding footnote [1] to the headnote of each Appendix, to read as follows:

[1] When the number of boxes per case and/or splints per box is more or less than that established in this regulation, the maximum price therefor shall be in direct proportion to the maximum price per case and/or box, respectively, as established in this appendix.

16. The headnote of Appendix C is amended by adding at the end thereof footnote [1] to read as follows:

[1] When the number of caddies per case and/or lights per book is more or less than that established in this regulation, the maximum price therefor shall be in direct proportion to the maximum price per case and/or per caddy, respectively, as established in this Appendix.

17. The first sentences in Appendices A (a) (2) and B (a) (2) are amended to read as follows:

(2) Discounts for prompt payment shall be continued at not less than the customary percentage rate during March 1942, and shall be computed on the manufacturer's price exclusive of the Federal excise tax.

18. A new subparagraph (2) is added to paragraph (a) of Appendix C, to read as follows:

(2) Discounts for prompt payment shall be continued at not less than the customary percentage rate during March 1942, and shall be computed on the manufacturer's price exclusive of the Federal excise tax. The period for such discounts need not exceed ten (10) days, but must be at least that long.

This amendment shall become effective October 9, 1945.

Issued this 4th day of October 1945.

CHESTER BOWLES,
Administrator.

PART 1499—COMMODITIES AND SERVICES

[RMPR 165, Supp. Ser. Reg. 62]

HAND LAUNDRIES IN NEWARK, NEW JERSEY, AREA

A statement of the considerations involved in the issuance of this Supplementary Service Regulation No. 62 has been filed with the Division of the Federal Register. For the reasons set forth in that statement and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 as amended, the Stabilization Act of 1942 as amended, and Executive Orders Nos. 9250, 9328, and 9599, Supplementary Service Regulation No. 62 is hereby issued. The specifications and standards set forth in this supplementary service regulation are those which prior to the issuance of the regulation, were in general use by the trade in the affected areas.

§ 1499.703 *Hand Laundries in the Newark, New Jersey, Area.* (a) *Maximum prices:* The maximum prices established by Revised Maximum Price Regulation No. 165 for hand laundry services sold by hand laundries in the Newark, New Jersey, area are hereby modified and henceforth shall be the prices set forth in Appendix A. Lower prices than those established by this regulation may be charged.

(b) *Definitions:* As used in this supplementary service regulation the term:

"Hand laundry" means a retail laundry establishment receiving and distributing laundry, doing no washing by power driven machinery on the premises, generally finishing wearing apparel by hand ironing done on the premises, giving only limited, if any, delivery service and employing 8 or less employees. This supplementary service regulation shall not apply where more than three retail laundry establishments are operated under the same ownership.

"Newark, New Jersey, Area" means and is limited to the following seven counties within the State of New Jersey: Bergen, Essex, Hudson, Morris, Passaic, Sussex and Union.

"Shirts" as used in Appendix A means all shirts except the following: Shirts made of silk, wool, flannel, gabardine, rayon and other artificial fibers; full dress shirts. The prices of shirts included within the above exceptions shall be the prices for those items which were filed by the individual laundry with the appropriate War Price and Rationing Board in accordance with Section 14 of Revised Maximum Price Regulation No. 165. If no such prices have been filed, the maximum price to be charged for all shirts, including those excepted from the definition, shall be the price established for shirts by Appendix A.

(c) *Posting requirements:* Within 30 days from the effective date of this supplementary service regulation, every hand laundry shall post on its premises in a place and a manner plainly visible to the purchasing public, a placard or card setting forth the maximum prices established in Appendix A.

(d) *Elimination of individual adjustments:* Section 16 of Revised Maximum Price Regulation No. 165 shall no longer be available to sellers covered by this regulation as to the services listed herein; furthermore, any adjustment in prices heretofore granted to any hand laundry is hereby revoked as to the services listed in Appendix A.

(e) *Other services supplied by hand laundries:* Laundry services not listed in Appendix A performed by hand laundries shall be governed by Revised Maximum Price Regulation No. 165, and any applicable supplementary service regulation.

Chapter XXIII—Surplus Property Administration

[Special Order 23]

CITATION OF SURPLUS PROPERTY BOARD AND SURPLUS WAR PROPERTY ADMINISTRATION REGULATIONS AND NUMBERING OF SURPLUS PROPERTY ADMINISTRATION REGULATIONS

Public Law 181, 79th Congress, 1st Session, approved September 18, 1945, *Provides*, That:

SEC. 2 (a) Effective at the time the Surplus Property Administrator first appointed under this Act qualifies and takes office, the Surplus Property Board created by section 5 of the Surplus Property Act of 1944 is abolished, all of its functions are transferred to, and shall be exercised by, the Surplus Property Administrator,

* * * * *

(c) All regulations, policies, determinations, authorizations, requirements, designations, and other actions of the Surplus Property Board, made, prescribed, or performed before the transfer of functions provided by subsection (a) of this section shall, except to the extent rescinded, modified, superseded, or made inapplicable by the Surplus Property Administrator, have the same effect as if such transfer had not been made; but functions vested in the Surplus Property Board by any such regulation, policy, determination, authorization, requirement, designation, or other action shall, insofar as they are to be exercised after the transfer, be considered as vested in the Surplus Property Administrator.

On October 1, 1945, I, W. Stuart Symington, took office as Surplus Property Administrator pursuant to such law.

The Surplus Property Act of 1944 (58 Stat 765; 50 U.S.C. App. Sup. 1611) provides in section 35 thereof that:

All policies and procedures relating to surplus property prescribed by the Surplus War Property Administration, created by Executive Order Numbered 9425, dated February 19, 1944, or any other Government agency, in effect upon the effective date of this Act, and not inconsistent with this Act, shall remain in full force and effect unless and until superseded by regulations prescribed under this act.

Pursuant to the authority vested in me by Public Law 181 and by the Surplus Property Act of 1944, cited above, *It is hereby ordered*, That:

1. The outstanding regulations, orders, and special orders of the Surplus Property Board shall, until revised or superseded, be cited by the designations given them by the Surplus Property Board.

2. The outstanding regulations of the former Surplus War Property Administration shall, until superseded, be cited by the designations given them by the Surplus War Property Administration.

3. Regulations, orders, and special orders to be issued by the Surplus Property Administrator will be numbered in sequence following presently outstanding regulations, orders, and special orders of the Surplus Property Board; and Surplus Property Board regulations, orders, and special orders when amended or revised by the Surplus Property Administrator will be reissued under the same numbers assigned to them by the Surplus Property Board, to the end that all regulations, orders, and special orders of the Surplus Property Board and the Surplus Property Administrator shall together form a continuous numerical series.

W. STUART SYMINGTON,
Administrator.

AUTHORITY: §§ 8312.1 to 8312.8 inclusive, issued under the Surplus Property Act of 1944, 58 Stat. 765, 50 U.S.C. App. Sup. 1611, and under Pub. Law 181, 79th Cong. 1st Sess.

§ 8312.1 *Definitions*—(a) *Terms defined in act.* Terms not defined in paragraph (b) of this section which are defined in the Surplus Property Act of 1944 shall in this part have the meaning given to them in the act.

(b) *Other terms.* (1) "Scrap" means property that has no reasonable prospect of sale except for its basic material content. Property shall be considered to be aluminum scrap only when its metal content is at least 50% aluminum by weight.

§ 8312.2 *Scope.* This part applies to: (a) retentions and sales by contractors of aluminum scrap in contractor inventories under the control of the War Department or the Navy Department pursuant to §§ 8309.8 and 8309.11;[1] (b) sales of aluminum scrap by the War Department and Navy Department as owning agencies under § 8309.17;[1] and (c) sales of aluminum scrap by disposal agencies under § 8301.18.[2] This part does not apply to: (a) aluminum scrap sold outside of the continental United States; (b) aluminum borings and turnings; (c) cases in which the amount of aluminum scrap available for sale at any one place is estimated to be 10,000 pounds or less; or (d) sales or retentions of aluminum scrap in contractor inventories pursuant to §§ 8309.9 or 8309.10.[1]

§ 8312.3 *Minimum prices.* Aluminum scrap, pig or ingot (as listed below) shall be retained at a storage location as specified in § 8312.4, unless at least the following prices can be obtained per pound f. o. b. shipping point for the named grades of such material:

(a) *Pig or ingot* resulting from melting of obsolete or wrecked aircraft.	6¢
(b) *Segregated solids* (plant or production scrap or any other solids consisting of only one alloy and so identified); *Pure cable* (clean and free of iron); *Foil* (clean and new).	6¢
(c) *Mixed solids* (plant or production scrap consisting of an unknown alloy or consisting of more than one alloy; *Obsolete castings and forgings* (alloy unknown or not segregated); *Obsolete pistons* (alloy unknown or not segregated); *Any other clean solids free of all metal* other than aluminum.	5¢
(d) *Solids mixed with foreign materials* (any scrap, other than as defined in paragraphs (e) and (f), which is contaminated by or mixed with foreign materials).	4¢
(e) *Prepared aircraft scrap* (not including engines or engine parts) recovered from wrecked, crashed, obsolete, or uncompleted airframes cut or sheared into pieces approximately 48" x 60" x 24" or less and shipped in 30,000 lb. minimum cars.[3]	2½¢
(f) *Wrecked, crashed, obsolete or uncompleted airframes to be scrapped* (without preparation of any kind).	1¼¢

[2] SPB Reg. 1 (10 F.R. 3764, 4356, 10398).
[3] On amounts below 30,000 pounds, if shipment is made by rail, the Government will absorb any freight charges above the minimum rate per pound.

§ 8312.4 *Shipment to storage locations.* Aluminum scrap, pig or ingot which is not sold because of inability to obtain the minimum prices specified in § 8312.3 shall be declared to the Reconstruction Finance Corporation as surplus. When storage space is unavailable at the point of generation, such material shall, pursuant to shipping instructions of Reconstruction Finance Corporation, be delivered to the nearest storage location operated by or under the direction of the Reconstruction Finance Corporation. All such shipments shall be covered by shipping documents of the owning agency, with copies to the Reconstruction Finance Corporation.

§ 8312.5 *Sales from storage locations.* Any aluminum scrap in storage locations may be sold by Reconstruction Finance Corporation as disposal agency, at or above the minimum prices specified in § 8312.3 plus such amount as may be determined by Reconstruction Finance Corporation to compensate, in whole or in part, for the expenses to the Government of transporting, handling and storing such scrap and any other charge incidental thereto.

§ 8312.6 *Records and reports.* The War Department, Navy Department, Reconstruction Finance Corporation, and any other Government agency acting under this part shall prepare and maintain such records as will show full compliance with the provisions of this part and with the applicable provisions of the act. Reports shall be prepared and filed with the Surplus Property Administrator in such manner as may be specified by order issued under this part subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

§ 8312.7 *Regulations by agencies to be reported to Surplus Property Administrator.* The War Department, Navy Department, Reconstruction Finance Corporation, and any other Government agency acting under this part, shall file with the Surplus Property Administrator copies of all regulations, orders, and instructions of general applicability which it may issue in furtherance of the provisions, or any of them, of this part.

§ 8312.8 *Amendment or repeal.* This part, and any order issued under it, shall be subject to amendment or repeal by the Surplus Property Administrator by any regulation, order, or other action duly published in the FEDERAL REGISTER.

This part shall become effective October 10, 1945.

W. STUART SYMINGTON,
Administrator.

PARTIAL REDEMPTION, BEFORE MATURITY, OF 2¾ PER CENT HOUSING INSURANCE FUND DEBENTURES, SERIES D

NOTICE OF THIRD CALL

OCTOBER 2, 1945.

I. *Notice of third call for partial redemption before maturity, of 2¾ percent Housing Insurance Fund Debentures, Series D.*

The Federal Housing Commissioner, with the approval of the Secretary of the Treasury, has issued the following notice of call for partial redemption and offer to purchase with respect to 2¾ percent Housing Insurance Fund Debentures, Series D:

Pursuant to the authority conferred by the National Housing Act (48 Stat. 1246; U.S.C., title 12, sec. 1701 et seq.) as amended, public notice is hereby given that 2¾ percent Housing Insurance Fund Debentures, Series D, of the denominations and serial numbers designated below, are hereby called for redemption, at par and accrued interest, on January 1, 1946, on which date interest on such debentures shall cease:

2¾ PERCENT HOUSING INSURANCE FUND DEBENTURES, SERIES D

Denomination	*Serial numbers (All numbers inclusive)*
$50	2 to 5
$100	8 to 25
$500	2 to 5
$1,000	7 to 27
$5,000	3 to 5
$10,000	509 to 754

The debentures first issued as determined by the serial numbers were selected for redemption by the Commissioner, Federal Housing Administration, with the approval of the Secretary of the Treasury.

No transfers or denominational exchanges in debentures covered by the foregoing call will be made on the books maintained by the Treasury Department on or after October 1, 1945. This does not affect the right of the holder of a debenture to sell and assign the debenture on or after October 1, 1945, and provision will be made for the payment of final interest due on January 1, 1946, with the principal thereof to the actual owner, as shown by the assignments thereon.

The Commissioner of the Federal Housing Administration hereby offers to purchase any debentures included in this call at any time from October 1, 1945 to December 31, 1945, inclusive, at par and accrued interest, to date of purchase.

Instructions for the presentation and surrender of debentures for redemption on or after January 1, 1946, or for purchase prior to that date will be given by the Secretary of the Treasury.

II. *Transactions in third-called debentures.* 1. The debentures included in the foregoing notice of call for partial redemption on January 1, 1946, are hereby designated third-called 2¾ percent Housing Insurance Fund Debentures, Series D, and are hereinafter referred to as third-called debentures.

2. Transfers and denominational exchanges in third-called debentures will terminate at the close of business on September 30, 1945.

III. *Redemption or purchase.* 1. Holders of third-called debentures will be entitled to have such debentures redeemed and paid at par on January 1, 1946, with interest in full to that date, at the rate of $13.75 per $1,000. Interest on third-called debentures will cease on January 1, 1946.

2. Holders of third-called debentures have the privilege of presenting such debentures at any time from October 1 to December 31, 1945, inclusive, for purchase at par and accrued interest, at the rate of $0.074728 per $1,000 per day from July 1, 1945, to date of purchase.

IV. *Rules and regulations governing redemption and purchase.* 1. The United States Treasury Department is the agent of the Federal Housing Commissioner for the redemption and purchase of third-called debentures. In accordance with regulations adopted by the Federal Housing Commissioner and approved by the Secretary of the Treasury, the assignment, redemption, and purchase of third-called debentures will be governed by the general regulations of the Treasury De-

partment with respect to United States bonds and notes, so far as applicable, except as otherwise provided herein.

2. Third-called debentures presented for redemption on January 1, 1946, or for purchase from October 1 to December 31, 1945, inclusive, must be assigned by the registered payee or assignee thereof or by their duly constituted representatives in the form indicated in paragraph 3 hereof, and should thereafter be presented and surrendered to any Federal Reserve Bank or to the Division of Loans and Currency, Treasury Department, Washington 25, D. C., accompanied by appropriate written advice. (Use Form PD 2002 attached hereto.[1]) The debentures must be delivered at the expense and risk of the holders. (See paragraph 8 of this section.) In all cases checks in payment of principal and final interest will be mailed to the address given in the form of advice accompanying the debentures when surrendered.

3. If the registered payee or an assignee holding under proper assignment from the registered payee desires that payment be made to him, the debentures should be assigned by such payee or assignee or by a duly constituted representative to "The Federal Housing Commissioner for redemption" or to "The Federal Housing Commissioner for purchase," according to whether the debentures are to be presented for redemption on January 1, 1946, or for purchase prior to that date. If it is desired for any reason that payment be made to some other person without intermediate assignment, the debentures should be assigned to "The Federal Housing Commissioner for redemption (or purchase) for the account of _____," inserting the name and address of the person to whom payment is to be made.

4. An assignment in blank or other assignment having similar effect will be recognized, but in that event payment will be made to the person surrendering the debenture for redemption or purchase since, under such an assignment, the debenture becomes in effect payable to bearer. Assignments in blank or assignments having similar effect should be avoided, if possible, in order not to lose the protection afforded by registration.

5. Final interest on any third-called debentures, whether purchased prior to or redeemed on or after January 1, 1946, will be paid with the principal in accordance with the assignments on the debentures surrendered.

6. All assignments must be made on the debentures themselves unless otherwise directed by the Treasury Department. Detached assignments will be recognized and accepted in any particular case in which the use of detached assignments is specifically authorized by the Treasury Department. Any assignment not made upon the debenture is considered a detached assignment.

7. A third-called debenture registered in the name of, or assigned to, a corporation, will be paid to such corporation on or after January 1, 1946, upon an appropriate assignment for that purpose executed on behalf of the corporation by a duly authorized officer thereof. An assignment so executed and duly attested in accordance with Treasury Department regulations will ordinarily be accepted without proof of the officer's authority. In all cases coming under this provision payment will be made only by check drawn to the order of the corporation. Proof of the authority of the officer assigning on behalf of a corporation will be required, in accordance with the general regulations of the Treasury Department, in the case of assignments for purchase prior to January 1, 1946, and in case of assignments for redemption on or after January 1, 1946, for the account of any person other than the corporation.

8. Debentures presented for redemption or purchase under this circular must be delivered to a Federal Reserve Bank or to the Division of Loans and Currency, Treasury Department, Washington 25, D. C., at the expense and risk of the holder. Debentures bearing restricted assignments may be forwarded by registered mail, but debentures bearing unrestricted assignments should be forwarded by registered mail insured or by express prepaid.

9. In order to facilitate the redemption of third-called debentures on January 1, 1946, any such debenture may be presented and surrendered in the manner herein prescribed in advance of that date but not before December 1, 1945. Such early presentation by holders will insure prompt payment of principal and interest when due.

V. *General provisions.* 1. Any further information which may be desired regarding the redemption of third-called debentures under this circular may be obtained from any Federal Reserve Bank or from the Division of Loans and Currency, Treasury Department, Washington 25, D. C., where copies of the Treasury Department's regulations governing assignments may be obtained.

2. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to perform any necessary acts under this circular. The Secretary of the Treasury may at any time or from time to time prescribe supplemental and amendatory rules and regulations governing the matters covered by this circular, which will be communicated promptly to the registered owners of third-called debentures.

Acting Secretary of the Treasury.

NOTICE OF FILING OF PLATS OF SURVEY

SEPTEMBER 19, 1945.

Notice is given that the three plats of survey of islands Nos. 45 to 503, inclusive, in the Pacific Ocean, in theoretical secs. 21, 22, 23, 26 and 27, T. 16 S., R. 1 W., M. D. M., California, accepted April 2, 1943, will be officially filed in the district land office at Sacramento, California, at 10:00 a. m. on November 29, 1945.

These islands range in size from 0.01 to 3.12 acres, the total area being 18.47 acres, and are covered by application Sacramento 025451, filed April 17, 1930, by the State of California, through the Chairman of the State Park Commission, to purchase under the recreational act of June 14, 1926 (44 Stat. 741; 43 U.S.C. sec. 869).

By Executive Order No. 5326 of April 14, 1930, subject to valid existing rights, all unreserved islands, rocks and pinnacles situated in the Pacific Ocean off the coast of California were temporarily withdrawn from settlement, location, sale or entry, for classification and in aid of legislation.

On petition of the State of California, through its Park Commission, the islands represented by these plats were withdrawn by Recreational Withdrawal No. 51 of December 21, 1932, under the provisions of the act of June 14, 1926, from all forms of appropriation under the public land laws, except as provided in that act, subject to prior valid claims initiated and maintained pursuant to law, the withdrawal to become effective upon release of the islands from the withdrawal made by Executive Order No. 5326 of April 14, 1930. The last mentioned withdrawal was revoked by Executive Order No. 5983 dated December 23, 1932, in so far as it affects the islands covered by Recreational Withdrawal No. 51 of December 21, 1932.

Valid rights, if any, to these islands existing on April 14, 1930, may be asserted by the filing of application under any appropriate public land law within 90 days from the date of filing of the plats.

All inquiries relating to the islands should be addressed to the Register, District Land Office, at Sacramento, California.

FRED W. JOHNSON,
Commissioner.

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

SEPTEMBER 19, 1945.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U.S.C. sec. 315g), the following described lands have been reconveyed to the United States:

G. AND S. R. M.

T. 7 N., R. 11 W., Sec. 31, N½SE¼, SE¼SE¼
T. 2 S., R. 3 W., Sec. 2, S½N½

The area described contains 280 acres.

At 10:00 a. m. on the 63d day from the date on which this order is signed, these lands, subject to valid existing rights and the provisions of existing withdrawals,

shall become subject to application, petition, location, or selection as follows:

(a) For a period of 90 days, commencing on the day and at the hour named above, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U.S.C. sec 682a), by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U.S.C. sec. 282), subject to the requirements of applicable law, and (2) application under any applicable public land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) For a period of 20 days immediately prior to the beginning of such 90-day period, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on the first day of the 90-day period, shall be treated as simultaneously filed.

(c) Commencing at 10:00 a. m. on the 91st day after the lands become subject to application, as hereinabove provided, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public land laws.

(d) Application by the general public may be presented during the 20-day period immediately preceding such 91st day, and all such applications, together with those presented at 10:00 a. m. on that day, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Phoenix, Arizona, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular 324, May 22, 1914, 43 L.D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Subchapter I of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

FRED W. JOHNSON,
Commissioner.

[Docket No. AO 86-A-5]

OMAHA-COUNCIL BLUFFS MARKETING AREA

NOTICE OF HEARING ON HANDLING OF MILK

Proposed amendments to tentatively approved marketing agreement and order regulating the handling of milk in the Omaha-Council Bluffs marketing area.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR, Cum. Supp., 900.1 et seq., 10 F.R. 11791), notice is hereby given of a hearing to be held in the Federal Court Room, Post Office Building, Omaha, Nebraska, beginning at 10 a. m., c. s. t., October 12, 1945, with respect to proposed amendments to the tentatively approved marketing agreement and order, as amended, regulating the handling of milk in the Omaha-Council Bluffs marketing area. These amendments have not received the approval of the Secretary of Agriculture.

This public hearing is for the purpose of receiving evidence with respect to the economic or marketing conditions which relate to the amendments, or any modification thereof, which are hereinafter set forth. The amendments are proposed by the Iowa-Nebraska Non-Stock Cooperative Milk Producers' Association and are set forth below.

Delete § 935.6 and substitute therefor the following:

§ 935.6 *Minimum prices.* Each handler shall pay at the time and in the manner set forth in § 935.10 not less than the following prices for milk of 3.8 percent butterfat content:

(a) *Class I milk.* The price per hundredweight for Class I milk during each delivery period shall be the basic price computed pursuant to (d) of this section, plus 75 cents.

(b) *Class II milk.* The price per hundredweight for Class II milk during each delivery period shall be the basic price computed pursuant to (d) of this section, plus 40 cents.

(c) *Class III milk.* The price per hundredweight for Class III milk during each delivery period shall be computed by the market administrator as follows: multiply by 3.8 the average price of 92-score butter at wholesale in the Chicago market as reported by the United States Department of Agriculture for the delivery period during which such milk is received, plus or minus 0.95 cents per hundredweight for each 1 cent that such average price of 92-score butter is above or below 20 cents, add 21 cents, and add a figure determined as follows: add 3 cents per hundredweight for each full one-half cent that the price of nonfat dry milk solids for human consumption is above 7 cents per pound. For purposes of determining this adjustment, the price per pound of nonfat dry milk solids to be used shall be the arithmetical average of the carlot prices for nonfat dry milk solids, both spray and roller process, for human consumption delivered at Chicago, as reported by the United States Department of Agriculture during the delivery period, including in such average the quotations for any part of the preceding delivery period which were not published and available for the price determination of such nonfat dry milk solids for the previous delivery period. In the event the United States Department of Agriculture does not publish carlot prices for nonfat dry milk solids for human consumption delivered at Chicago, the average of the carlot prices for nonfat dry milk solids for human consumption f. o. b. manufacturing plant, as reported by the United States Department of Agriculture for the Chicago area, shall be used. In the latter event such price shall be subject to the following adjustment: add or subtract 3 cents per hundredweight for each full one-half cent that the price of nonfat dry milk solids for human consumption, f. o. b. manufacturing plant, is above or below 6 cents per pound.

(d) *Basic price.* The basic price to be used in determining the Class I and Class II prices shall be either the Class III price computed pursuant to (c) of this section or that computed in the following manner, whichever is higher: determine the average of the basic or field prices per hundredweight ascertained to have been paid for milk of 3.5 percent butterfat content received during the next preceding delivery period at the following plants:

Concern:	*Location of plant*
Carnation Milk Co.	Northfield, Minn.
Fort Dodge Creamery Co.	Fort Dodge, Iowa.
Carnation Milk Co.	Waverly, Iowa.
Amboy Milk Products Co.	Amboy, Ill.
Borden Co.	Dixon, Ill.
Borden Co.	Sterling, Ill.
Carnation Milk Co.	Oregon, Ill.
Dean Milk Co.	Belvidere, Ill.
Dean Milk Co.	Pearl City, Ill.
Dean Milk Co.	Pecatonica, Ill.
Libby McNeil & Libby Co.	Morrison, Ill.
Pet Milk Co.	Schullsburg, Wis.
United Milk Products Co.	Argo Fey, Ill.

and divide by 3.5 and multiply by 3.8.

(e) *Emergency provision.* Whenever the Secretary finds and announces that the Class I and Class II prices computed for any delivery period pursuant to (a) and (b) of this section are not in the public interest, the Class I and Class II prices for such delivery period shall be the same as the Class I and Class II prices for the previous delivery period.

Copies of this notice of hearing and of the tentatively approved marketing agreement and order, now in effect, may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 1331 South Building, Washington, D. C., or may be there inspected.

These amendments have not received the approval of the Secretary of Agriculture.

This public hearing is for the purpose of receiving evidence with respect to the economic or marketing conditions which relate to the amendments, or any modification thereof, which are hereinafter set forth. The amendments are proposed by the Sioux City Milk Producers' Association and are set forth below.

Delete § 948.6 and substitute therefor the following:

§ 948.6 *Minimum prices.* Each handler shall pay at the time and in the manner set forth in § 948.10 not less than the following prices for milk of 3.5 percent butterfat content:

(a) *Class I milk.* The price per hundredweight for Class I milk during each delivery period shall be the basic price computed pursuant to (d) of this section, plus 80 cents.

(b) *Class II milk.* The price per hundredweight for Class II milk during each delivery period shall be the basic price computed pursuant to (d) of this section, plus 55 cents.

(c) *Class III milk.* The price per hundredweight for Class III milk shall be the price resulting from the following computation by the market administrator: determine the average of the basic or field prices per hundredweight ascertained to have been paid for milk of 3.5 percent butterfat content received during the next preceding delivery period at the following plants:

Concern:	*Location of plant*
Carnation Milk Co.	Northfield, Minn.

Dean Milk Co.	Pecatonica, Ill.
Libby, McNeil & Libby Co.	Morrison, Ill.
Pet Milk Co.	Schullsburg, Wis.
United Milk Products Co.	Argo Fey, Ill.

(d) *Basic price.* The basic price to be used in determining the Class I and Class II prices shall be either the price for Class III milk computed pursuant to (c) of this section or the price resulting from the following formula, whichever is the higher: multiply by 3.5 the average price of 92-score butter at wholesale in the Chicago market as reported by the United States Department of Agriculture for the delivery period during which such milk is received, plus or minus 0.95 cents per hundredweight for each 1 cent that such average price of 92-score butter is above or below 20 cents, add 21 cents, and add a figure determined as follows: add 3 cents per hundredweight for each full one-half cent that the price of nonfat dry milk solids for human consumption is above 7 cents per pound. For purposes of determining this adjustment, the price per pound of nonfat dry milk solids to be used shall be the arithmetical average of the carlot prices for nonfat dry milk solids, both spray and roller process, for human consumption delivered at Chicago, as reported by the United States Department of Agriculture during the delivery period, including in such average the quotations for any part of the preceding delivery period which were not published and available for the price determination of such nonfat dry milk solids for the previous delivery period. In the event the United States Department of Agriculture does not publish carlot prices for nonfat dry milk solids for human consumption delivered at Chicago, the average of the carlot prices for nonfat dry milk solids for human consumption f. o. b. manufacturing plant, as reported by the United States Department of Agriculture for the Chicago area, shall be used. In the latter event such price shall be subject to the following adjustment: add or subtract 3 cents per hundredweight for each full one-half cent that the price of nonfat dry milk solids for human consumption, f. o. b. manufacturing plant, is above or below 6 cents per pound.

(e) *Emergency provision.* Whenever the Secretary finds and announces that the Class I and Class II prices computed for any delivery period pursuant to (a) and (b) of this section are not in the public interest, the Class I and Class II prices for such delivery period shall be the same as the Class I and Class II prices for the previous delivery period.

Copies of this notice of hearing and of the tentatively approved marketing agreement and order, now in effect, may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 1331 South Building, Washington, D. C., or may be there inspected.

Dated: October 3, 1945.

[Docket No. G-575]

TENNESSEE NATURAL GAS LINES, INC. AND TENNESSEE GAS AND TRANSMISSION CO.

ORDER FIXING DATE OF HEARING

OCTOBER 3, 1945.

Upon consideration of the amended and supplemental application filed September 18, 1945, by Tennessee Natural Gas Lines, Inc. (Applicant) for (1) a certificate of public convenience and necessity under section 7 (c) of the Natural Gas Act, as amended, to authorize the construction and operation of approximately 14 miles of 8⅝-inch O. D. transmission pipeline extending from a point of interconnection with the main 24-inch transmission pipeline of Tennessee Gas and Transmission Company near the village of Westernia, Cheatham County, Tennessee, and thence extending in a southeasterly direction to a city gate interconnection with the facilities of Nashville Gas and Heating Company, near the village of Bordeaux, Davidson County, Tennessee; and (2) an order under section 7 (a) of the act directing Tennessee Gas and Transmission Company to establish physical connection of its transportation facilities with the proposed facilities of Applicant, and to sell natural gas to Applicant for resale by the latter to Nashville Gas and Heating Company;

It appears to the Commission that:

(a) On August 30, 1944, Applicant filed an application in Docket No. G-575 for a certificate of public convenience and necessity to authorize the construction and operation of approximately 17 miles of 10¾-inch transmission pipeline beginning at a proposed point of connection with the pipeline of Tennessee Gas and Transmission Company near Ashland City, Tennessee, and extending in a southeasterly direction to Nashville, Tennessee.

(b) Such application was consolidated for purposes of hearing with the applications of Kentucky Natural Gas Corporation in Docket Nos. G-553 and G-558, and Louisville Gas and Electric Company in Docket No. G-565, and a hearing on those applications commenced October 19, 1944. During the hearing, counsel for Applicant moved for a continuance of the proceeding in Docket No. G-575 and a separate hearing, to be held at a date to be thereafter fixed by the Commission. Such motion was granted by the chief trial examiner.

(c) Applicant initially proposes to transport approximately 2,000 mcf of natural gas per day through the proposed facilities to the Nashville Gas and Heating Company for use by the latter to enrich its manufactured gas. The Nashville Gas and Heating Company proposes to convert its system to the distribution of straight natural gas in the City of Nashville, Tennessee, in the spring or summer of 1946, at which time it is expected that it will purchase approximately 1,605,000 mcf of natural gas annually from Applicant.

The Commission orders that:

A public hearing be held commencing on October 22, 1945, at 10 a. m. in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, N. W., Washington, D. C., respecting the matters involved and the issues presented in this proceeding.

By the Commission.

2. That the property described in subparagraph 3 hereof is property of the firm of August Klonne;

3. That the property described as follows: All interests and rights, including all royalties and other monies payable or held with respect to such interests and rights and all damages for breach of the agreement hereinafter described, together with the right to sue therefor, created in the firm of August Klonne by virtue of an agreement dated as of April 16, 1928 and acknowledged June 4 and June 19, 1928 (including all modifications thereof and supplements thereto, including, but not by way of limitation, a supplemental agreement between the parties thereto dated as of March 16, 1931 and acknowledged July 3, 1931) by and between the firm of August Klonne and The Stacey Brothers Gas Construction Company, which agreement relates, among other things, to United States Letters Patent No. 1,693,468,

is property payable or held with respect to patents or rights related thereto in which interests are held by, and such property itself constitutes interests held therein by, a national of a foreign country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on August 25, 1945.

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1, a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 13, 1945.

[Vesting Order 5252]

CHARLES J. HARRAH

In re: Trust under deed of Charles J. Harrah; File D–28–9937; E. T. sec. 14083.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

That the property described as follows: All right, title, interest and claim of any kind or character whatsoever of Eunice Harrah Michahelles, Herbert Michahelles, Millie von Gyldenfeldt, lineal descendants, names unknown, of Eunice Harrah Michahelles, and heirs, names unknown, of Eunice Harrah Michahelles, and each of them, in and to the trust established under an indenture of trust executed on June 9, 1919, between Charles J. Harrah as grantor and Abram H. Wintersteen and Fidelity-Philadelphia Trust Company as trustees,

is property payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Eunice Harrah Michahelles, Germany.
Herbert Michahelles, Germany.
Millie von Gyldenfeldt, Germany.
Lineal descendants, names unknown, of Eunice Harrah Michahelles, Germany.
Heirs, names unknown, of Eunice Harrah Michahelles, Germany.

That such property is in the process of administration by Fidelity-Philadelphia Trust Company, as Surviving Trustee, acting under the judicial supervision of the Orphans' Court of Philadelphia County, Pennsylvania;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

[RMPR 136, Order 506]

GASOLINE DISPENSING PUMPS

ADJUSTMENT OF MAXIMUM PRICES

For reasons set forth in our opinion, issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 30 of Revised Maximum Price Regulation 136, *It is ordered:*

(a) The maximum price for sales of new gasoline dispensing pumps by any manufacturer shall be established as follows:

(1) For any gasoline dispensing pumps for which the manufacturer had a published list price in effect on October 1, 1941, or an established price in effect on the base date, the maximum prices shall be the published list price in effect on October 1, 1941, or the established price in effect on the base date, multiplied by 109.2 per cent.

(2) For any gasoline dispensing pumps which are modifications of those described in paragraph (1) above, the maximum prices shall be computed under the provisions of section 8 of Revised Maximum Price Regulation 136 using the price computed under paragraph (1) above as the price for the pump before modification.

(3) For any other gasoline dispensing pumps the maximum price shall be computed under sections 9 and 10 of Revised Maximum Price Regulation 136.

(b) As used in this order the phrase "established price in effect on the base date" shall be defined as that phrase is defined in section 28 of Revised Maximum Price Regulation 136.

(c) For the purposes of this order, a commission paid shall not be deducted from a list price in order to determine an established price in effect on the base date.

(d) All prices established under paragraph (a) of this order shall be subject to the same discounts, credits and allowances in effect to any purchasers and classes of purchasers just prior to the issuance of this order.

(e) This order may be revoked or amended at any time by the Price Administrator.

This order shall become effective October 3, 1945.

Issued this 3d day of October 1945.

JAMES G. ROGERS, Jr.,
Acting Administrator.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70–1071]

THE NORTH AMERICAN CO.

MEMORANDUM OPINION AND ORDER RELEASING JURISDICTION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 28th day of September 1945.

This is a further opinion of the Commission regarding the sale by The North American Company (North American) of 700,000 shares of common stock of Pacific Gas and Electric Company (Pacific). The sale was initially disapproved by us on May 23, 1945,[1] because of our finding that competitive conditions had not been maintained. As a consequence thereof, we were unable to find that the price and spread were reasonable. The history of this transaction prior to our order of May 23, 1945, and the details of the bidding on the original offering are set forth in full in our supplemental findings and opinion[2] issued June 18, 1945.

By our order of September 4, 1945,[3] we permitted North American to reoffer this stock for sale at competitive bidding pursuant to the provisions of Rule U-50 and on September 17, 1945, the sale was approved by order[4] without opinion.

The record discloses that subsequent to our order of May 23, 1945, James H. Fogarty, on behalf of The North American Company, indicated to C. E. Mitchell, of Blyth & Co., Inc., North American's intention to reoffer the 700,000 shares of Pacific stock at such time as an additional bidding group or groups had been formed. Fogarty testified also that he had conversations with J. S. McCain of Dillon, Read & Co., Inc., and with representatives of Lehman Brothers and The First Boston Corporation in an effort to create interest in the formation of additional bidding groups. The record shows, however, that only Blyth and Dillon Read made any attempts to form accounts.

Lee M. Limbert, the syndicate manager of Blyth, testified that upon entry of our order of May 23, 1945, he considered the former Blyth account to be dissolved. Because of numerous inquiries from members of that account, however, a letter was written to all members on June 14, 1945, formally dissolving the syndicate. Limbert testified that no action toward forming a new account was contemplated by his firm until such time as they might be given notice by North American of the formation of a competing group, since it was obvious that a reoffering would not be attempted until a competing account was in the field. Such notice was given by officials of North American on August 13, 1945. Blyth had, however, been aware that an account was being formed by Dillon Read and in response to inquiries from members of its former account, Blyth had expressed its interest in having a competing account formed and encouraged such firms to join the Dillon Read group if invited to do so.

Henry H. Egly, the syndicate manager of Dillon Read, testified that on July 26, 1945, after his firm had been requested by Fogarty to form an account to bid on the Pacific stock, invitations were sent to 67 houses to participate in such an account. 45 acceptances were received in response to these invitations. Feeling that the resulting group was not sufficiently strong to handle the business, Dillon Read then sent invitations to an additional list of underwriters. As a result, the bidding group of 82 firms was completed.

Upon receipt of notice from North American that the Dillon Read account had been completed, Blyth communicated with a list of underwriters approximately identical with that which had comprised its former account. In response to these invitations, acceptances were received from 112 firms.

As indicated in our order of September 17, 1945, North American received two bids for the 700,000 shares of Pacific stock, the Blyth group bidding $38.85 per share and the Dillon Read group bidding $38.961 per share. The proposal of the Dillon Read group was accepted by North American. The only difference in the terms of the first and second offerings lay in the reduction from 24 hours to three hours of the period between the opening of the bids and the time designated for securing the order of this Commission which would permit the public offering of the stock.

The successful bid in the present offering involved a spread of $1.039 as compared with the spread of $1.483 proposed by the former Blyth group in May. In addition, the Dillon Read bid contemplated a reoffering at the market price of $40 per share which prevailed at the time bids were opened[1] whereas the earlier Blyth bid was predicated upon an offering at ⅛ point off the market. The combined effect of the lower spread and the offering at the market price represents a saving to North American of $0.569 per share, or a total of $398,300,[2] as compared with the bid of the former Blyth group.

In line with our previous Finding that the saze of the original Blyth group was excessive, it is interesting to note the testimony both of Limbert and Egly to the effect that their present syndicates, although distinctly smaller than the original Blyth group, contained underwriting and distributive strength in excess of the requirements of this offering. The Dillon Read group contained 29 members of the former Blyth account. These 29 firms had been allocated 199,000 shares of Pacific stock in the original Blyth syndicate, whereas their allocations in the Dillon Read group aggregated 423,000 shares. As to the new Blyth account, maximum participations amounted to 35,000 shares as contrasted with 25,000 shares in the previous offering and the remaining levels of participation were increased proportionately.

On the basis of the entire record, we are not satisfied that competition for the Pacific stock was limited by necessity to two underwriting groups; on the contrary, considering the size of the offering and the ready marketability of the securities, we believe that the free operation of competition might well have resulted in the formation of more than two bidding groups. However, we permitted the stock to be sold on the basis of our conclusion that the final bidding was as satisfactory as could be expected under present conditions in view of the inhibiting factors which were brought into play by the traditional ties implicit in the long history of the original Blyth account, as discussed in our earlier findings.

Fees and expenses. The reoffering of the Pacific stock has entailed certain increases, estimated by North American at $36,750, in the fees and expenses. The expenses, including out-of-pocket expenses of Pacific arising from the proposed transaction, will be paid by North American, except the fee of counsel for the underwriters which will be paid by the successful bidder. Total estimated fees and expenses in connection with the entire transaction are shown below:

TABLE I

Registration fee	$2,800
Printing of registration statement, prospectus, exhibits and other documents including temporary stock certificates	45,000
Transfer agents and registrars' fees and expenses	4,500
Fees of counsel for North American:	
Sullivan & Cromwell, New York	9,000
Chickering & Gregory, California	9,000
Fees of counsel for underwriters:	
Cahill, Gordon, Zachary & Reindel, New York	9,000
Orrick, Dahlquist, Neff, Brown & Herrington, California	9,000
Accountants' fees	13,250
Miscellaneous expenses	25,000
Total	126,550

[1] Holding Company Act Release No. 5818.
[2] Holding Company Act Release No. 5870.
[3] Holding Company Act Release No. 6027.
[4] Holding Company Act Release No. 6053.

[1] Stabilizing operations were conducted by North American on the New York Stock Exchange, the Los Angeles Stock Exchange and the San Francisco Stock Exchange on the day on which bids were opened. A total of 600 shares were purchased in this manner by North American prior to the opening of the bids at noon, at which time stabilization was taken over by the underwriters.

[2] Changes in market levels since the original offering in May resulted in aggregate proceeds to North American greater by approximately $1,500,000 than would have been the case had the transaction been consummated at the time of the first offering.

The fees and expenses in the amounts estimated do not appear unreasonable and we make no adverse findings with respect thereto. Accordingly, jurisdiction heretofore reserved by our former order over the legal fees will be released.

It is therefore ordered, That jurisdiction over the legal fees reserved by our order of September 4, 1945 (Holding Company Act Release No. 6027) be and the same is hereby released.

By the Commission.

FEDERAL LIGHT & TRACTION CO. ET AL.

NOTICE OF FILING AND NOTICE OF AND ORDER FOR HEARING

At a regular sessions of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 2d day of October A. D. 1945.

In the matter of Federal Light & Traction Company, the Trinidad Electric Transmission, Railway & Gas Company, New Mexico Power Company, Stonewall Electric Company, J. G. White & Company, Inc., File No. 54-87.

Notice is hereby given that applications and declarations (or both) have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935, by Federal Light & Traction Company (Federal), a subsidiary of Cities Service Power & Light Company, both registered holding companies, its subsidiaries, The Trinidad Electric Transmission, Railway & Gas Company (Trinidad), New Mexico Power Company (New Mexico), Stonewall Electric Company (Stonewall), and by J. G. White & Company, Inc. (White), a holding company exempt, pursuant to section 3 (a) (5) of the act, from all of the provisions thereof, which would require it to register thereunder.

All interested persons are referred to the aforesaid applications and declarations (or both) on file in the office of this Commission, for a statement of the transaction therein proposed, which may be summarized as follows:

Federal proposes to sell and White proposes to acquire the entire outstanding capital stock of Trinidad, consisting of 20,000 shares of common stock, $100 par value per share, for a cash consideration of $790,000, subject to closing adjustments. Federal proposes to add the proceeds from said sale to its general funds and states that it is contemplated that proceeds will ultimately be used to retire its outstanding securities.

The aforesaid sale and acquisition is conditioned upon the prior consummation of the following transactions:

(a) New Mexico proposes to sell and Trinidad proposes to acquire all of the electric utility assets of New Mexico located in Colfax and Mora Counties, New Mexico, known as the Dawson Division of New Mexico (Dawson Division) for a cash consideration of $526,101, subject to closing adjustments.

(b) It is proposed that Trinidad obtain the funds necessary to effectuate the acquisition of the Dawson Division by the issuance and sale to John Hancock Mutual Life Insurance Company, at not less than the principal amount thereof plus accrued interest, $300,000 principal amount of its First Mortgage Bonds, 3½% Series due 1966, and by the issuance and sale to an unspecified lender of a 9-month promissory note in the face amount of $207,000 bearing an interest rate of not more than 3% per annum.

(c) New Mexico proposes to apply the net proceeds from the sale of the Dawson Division to the purchase and retirement of a part of its First Mortgage Bonds, 3½% Series due 1966, applying $300,000 thereof to the purchase of its bonds from John Hancock at 101% of principal amount plus accrued interest and the balance of such net proceeds to the purchase of its bonds at not more than the current redemption price of 104% of principal amount plus accrued interest, all such premiums and accrued interest to be paid out of other funds of New Mexico.

(d) Trinidad proposes to organize a new corporation under the laws of Colorado temporarily designated as X Corporation, all of whose capital stock (25 shares of $100 par value each) is to be purchased for cash by Trinidad. Stonewall proposes to sell and X Corporation is to acquire, in consideration of the assumption by X Corporation of the obligations of Stonewall under the Mortgage Note and Mortgage Indenture, Agreement and Lease, and Option Agreement, all dated April 20, 1939, its Colorado property consisting of rural electric lines and other utility assets, which are interconnected with and are extensions of Trinidad's transmission and distribution lines, including the interest of Stonewall as Lessor under the Agreement and Lease between Stonewall and Trinidad and subject to the mortgage indebtedness secured by said property and the rights of Trinidad under the Option Agreement. It is further proposed that X Corporation be substituted for Stonewall with respect to an additional allotment of $64,741 recently granted by the Rural Electrification Administration to construct additional rural electric lines in Colorado which will be connected with the electric facilities of Trinidad.

The filing has designated sections 6, 7, 9, 10, 12 (c), 12 (d), and 12 (f) of the act and Rules U-42, U-43, and U-44 as being applicable to the proposed transactions. It is stated in the filing that the proposed sale of the common stock of Trinidad by Federal and that the bonds and note proposed to be issued by Trinidad are considered exempt from the competitive bidding requirements of Rule U-50.

Federal and its subsidiaries request that the Commission find that the transactions proposed herein are appropriate to effectuate the provisions of section 11 (b) of the act and ask that any order approving the proposed transactions contain the recitals, specifications and itemizations described in sections 371 (b), 371 (f), and 1808 (f) of the Internal Revenue Code, as amended.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said matters and that said applications or declarations (or both) shall not be granted or be permitted to become effective except pursuant to further order of the Commission.

It is ordered, That a hearing on said matters under the applicable provisions of the Act and the Rules of the Commission thereunder be held on October 16, 1945, at 10:00 a. m., e. s. t., at the office of the Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as the hearing room clerk in Room 318 will at that time advise. Any person proposing to be heard or otherwise to participate in these proceedings shall file with the Secretary of the Commission on or before October 12, 1945, a written request relative thereto as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That Allen MacCullen, or any other officer or officers of this Commission designated by it for that purpose, shall preside at the hearing on such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That without limiting the scope of the issues otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the proposed transactions are in furtherance of, and not inconsistent with, the Order of this Commission dated August 17, 1943 and are necessary to enable Federal to comply with the provisions of section 11 (b) of the act.

2. Whether the consideration to be received by Federal and paid by White is reasonable and bears a fair relation to the sums invested in and to the earning capacity of the assets underlying the securities proposed to be sold and acquired.

3. Whether the proposed acquisition by White will serve the public interest by tending toward the economical and efficient development of an integrated public utility system and whether said proposed acquisition will be detrimental to the carrying out of the provisions of section 11.

4. Whether the terms and conditions of the proposed transactions between the affiliated companies of Federal, including the considerations to be paid and received are detrimental to the public interest or to the interest of investors or consumers.

5. Whether the securities proposed to be issued and sold by Trinidad meet the requirements of section 7 of the act.

6. Whether, in connection with the proposed sales, there has been maintenance of competitive conditions.

7. Whether the accounting entries to be made in connection with the proposed transactions are proper and in accordance with sound accounting principles.

8. Whether the fees, commissions or other remunerations to be paid in connection with the proposed transactions are fair and reasonable.

9. Whether it is necessary or appropriate to impose terms and conditions in the public interest or for the protection of investors or consumers, and, if so, what terms and conditions should be imposed.

10. Generally, whether the proposed transactions comply with all of the provisions and requirements of the act and the rules and regulations promulgated thereunder.

It is further ordered, That notice of said hearing is hereby given to the applicants and declarants and to all other persons; said notice to be given to Federal Light & Traction Company, The Trinidad Electric Transmission, Railway & Gas Company, New Mexico Power Company, Stonewall Electric Company, J. G. White & Company, Inc., the New Mexico Public Service Commission and the Federal Power Commission, by registered mail, and to all other persons by general release of this Commission, distributed to the press and mailed to the mailing list for releases issued under the act, and by publication of this notice and order in the FEDERAL REGISTER.

By the Commission.

CITIES SERVICE POWER & LIGHT CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 2d day of October, A. D. 1945.

Notice is hereby given that a declaration has been filed with this Commission pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935, by Cities Service Power & Light Company (Power & Light), a registered holding company.

Notice is further given that any interested party may, not later than October 8, 1945, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matters, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, said declaration, as filed or as amended, may be granted and permitted to become effective, as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration, which is on file in the offices of the Commission, for a statement of the transaction therein proposed, which may be summarized as follows:

Power & Light issued Bank Loan Notes in the aggregate principal amount of $20,000,000, of which $6,000,000 were designated as "Series A" Notes, planned to be retired serially at the rate of $1,000,000 semi-annually and $14,000,000 were designated as "Series B" Notes, planned to be retired out of the sales of pledged securities, pursuant to a Loan Agreement dated January 5, 1944. The issuance of the aforesaid Bank Loan Notes was authorized by the Order of this Commission dated March 14, 1944 (Holding Company Act Release No. 4944).

Power & Light states, that on September 15, 1945, the aforesaid Bank Loan Notes had been reduced to an aggregate principal amount of $5,871,376.34 consisting of $3,000,000 of "Series A" Notes and $2,871,376.34 of "Series B" Notes. Power & Light proposes to obtain a reduction in the interest rate on the $3,000,000 balance of "Series A" Notes from 2¾% to an annual rate of 1½%, to become effective from September 15, 1945 and has, subject to the approval of this Commission, entered into an agreement with the holders of the Bank Loan Notes to effectuate this purpose.

Power & Light states that expenses and fees of the proposed transaction are estimated at $1,200.

By the Commission.

In the matter of Jay Samuel Hartt, trustee of the estate of Midland Utilities Company, file No. 55-14.

The Commission having, on February 25, 1939, upon the application of Jay Samuel Hartt, a co-trustee of the Estate of Midland Utilities Company, a registered holding company, filed pursuant to section 11 (f) of the Public Utility Holding Company Act of 1935 and Rule U-11F-2 then promulgated thereunder, entered an order wherein, among other things, the trustees of Midland Utilities Company were permitted to pay to Elbridge Lennon Lord in full payment for all fees, expenses and remuneration for services as principal accountant for the Trustees of Midland Utilities Company a maximum amount not to exceed $450 per month; and

The said Elbridge Lennon Lord having filed an application with the District Court of the United States for the District of Delaware, the reorganization court in which Midland Utilities Company is undergoing reorganization pursuant to section 77B of the Bankruptcy Act, for an allowance of an amount of $15,325 above the maximum amount permitted by the Commission's order of February 25, 1939;

Notice is hereby given that the said Elbridge Lennon Lord has filed a declaration or application (or both) with this Commission requesting that the Commission rescind or amend that portion or portions of its aforesaid order of February 25, 1939 which limited the allowance said Elbridge Lennon Lord might receive for services rendered the Estate of Midland Utilities Company; or, in the alternative, enter an order withdrawing the restriction of the maximum allowance which might be paid the said Elbridge Lennon Lord, in order that the said Elbridge Lennon Lord might properly request the said District Court of the United States for the District of Delaware to grant him an allowance in an amount greater than the maximum amount fixed by the aforesaid order of February 25, 1939.

Notice is further given that any interested person may, not later than October 19, 1945, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted.

By the Commission.

EASTERN GAS AND FUEL ASSOCIATES

ORDER POSTPONING HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 3d day of October, A. D. 1945.

Eastern Gas and Fuel Associates ("Eastern"), a registered holding company, having filed an application under section 11(e) of the Public Utility Holding Company Act of 1935 for approval of a plan of recapitalization for the purpose of bringing the capital structure of the company into compliance with the provisions of section 11 (b) (2) of the act;

The Commission having consolidated the proceedings in respect of said plan with proceedings heretofore instituted by the Commission under section 11 (b) (2) of the act with respect to Eastern; and hearings having been held in such consolidated proceedings, (Holding Company Act Release No. 5877) and having been continued to October 9, 1945 at 10:30 a. m., E. s. t. at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania;

Certain interested persons having requested that said continued hearing be postponed from October 9 to November 13, 1945, and the Commission having been advised that Eastern joins in such request; and

The Commission having considered such request and deeming it appropriate that it be granted:

It is ordered, That the hearing in this matter heretofore scheduled to reconvene on October 9, 1945 be, and hereby is, postponed to November 13, 1945 at the same time and place and before the same trial examiner as heretofore designated.

By the Commission.

INTERSTATE POWER COMPANY

NOTICE OF FILING AND NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 3d day of October, A. D., 1945.

I. Notice is hereby given that Interstate Power Company ("Interstate"), a registered holding company and a subsidiary of Ogden Corporation ("Ogden"), also a registered holding company, has filed applications and declarations pursuant to section 11 (e) and other applicable sections of the Act proposing a recapitalization plan for the purpose of enabling Interstate to comply with section 11 (b) of the act.

All interested persons are referred to said plan, which is on file in the office of the Commission, for a full statement of the transactions proposed therein, which may be summarized as follows:

Interstate is an electric and gas utility company, operating in Iowa, Minnesota and South Dakota. It is also a holding company owning all of the outstanding securities of Interstate Power Company of Wisconsin, an electric utility company operating in Wisconsin, and East Dubuque Electric Company, an electric utility company operating in Illinois.

The following tabulation shows the presently outstanding securities of interstate and their ownership by Ogden and by others:

	Principal amount or shares outstanding	Owned by Ogden	Owned by others
1st mortgage 5% bonds, due 1957	$26,035,000	----------	$26,035,500
6% debentures	7,500,000	$100	[1] 7,499,900
6% demand note	2,475,000	2,475,000	----------
$7 cum. pfd. stock, no par value	*Shares* 72,500	*Shares* 3,108	*Shares* [2] 63,392
$6 cum. pfd. stock, no par value	47,500	9,461	[3] 38,039
Common stock, no par value	175,000	175,000	----------

[1] Includes $272,000 principal amount owned by Atlas Corporation, the owner of approximately 76% of Ogden's outstanding common stock.
[2] Includes 2,240 shares owned by Atlas Corporation.
[3] Includes 250 shares owned by Utilities Elkhorn Coal Company, a subsidiary of Ogden, and 156 shares owned by Atlas Corporation.

The first mortgage bonds and debentures are currently redeemable at 102. All interest on the first mortgage bonds, debentures and demand note of Interstate has been paid regularly. Pursuant to an agreement dated June 20, 1941, all interest received by Ogden since that date on the demand note has been deposited by Ogden in escrow with Manufacturers Trust Company. The agreement provides that such funds shall be held intact until all questions of validity and rank of the demand note shall have been passed upon by this Commission and any court having jurisdiction. As at June 30, 1945, the amount escrowed was $618,750. Prior to June 20, 1941, Ogden received payments of interest on the demand note aggregating $222,750.

The preferred stocks are entitled to $100 per share and accrued dividends in involuntary liquidation, and rank on a parity with each other. No dividends have been paid on the preferred stocks since December 20, 1933. Dividend arrears, at June 30, 1945, amounted to $6,430,025, or $88.69 per share, on the $7 preferred stock, and $3,610,950, or $76.02 per share, on the $6 preferred stock.

The plan provides for the following:

(1) Interstate will have a new capital structure consisting of $19,000,000 principal amount of new first mortgage bonds and 3,000,000 shares of new common stock of the par value of $3.50 per share.

(2) The validity, extent, and rank of the indebtedness of Interstate to Ogden represented by the $2,475,000 demand note and the $100 debenture held by Ogden and the relative rights of Ogden with respect to the 12,569 shares of Interstate's preferred stocks held by Ogden will be determined by the Commission.

(3) The new first mortgage bonds will be sold pursuant to competitive bidding.

(4) Such number of the 3,000,000 shares of new common stock will be sold pursuant to competitive bidding as may be necessary to raise funds sufficient, when added to the proceeds of the sale of the new bonds, for the following purposes:

(a) Reimbursement of the treasury or discharge of obligations of the company up to an amount not exceeding $1,500,000 for new construction completed or in progress prior to the effective date of the plan.

(b) Payment and discharge at the principal amount thereof, but without payment of any redemption premium, of the $26,035,500 principal amount of presently outstanding first mortgage bonds.

(c) Payment and discharge at the principal amount thereof, but without payment of any redemption premium, of the $7,500,000 principal amount of presently outstanding 6% debentures, except the $100 debenture held by Ogden, and payment of the amount of debt, including interest, determined by the Commission to be owing to Ogden with respect to the demand note and the debenture held by it.

(5) The entire balance, if any, of the 3,000,000 shares of new common stock remaining unsold will be distributed to the holders of the preferred stocks as may be determined by the Commission (including Ogden to the extent permitted by such determination). Such distribution will be made on a basis which will accord different treatment to the two classes of preferred stock in accordance with their respective rights as to dividends.

(6) The present common stock of Interstate will be surrendered for cancellation upon the effective date of the plan.

(7) As of the effective date of the plan, the excess of the cost to Interstate of utility plant over the original cost thereof will be written off.

The filing further states that Interstate is advised that it is the position of Ogden that the demand note held by Ogden ranks equally with Interstate's debentures, that said demand note is entitled to receive the same treatment as that accorded to the debentures and that the shares of the preferred stocks of Interstate held by Ogden rank pari passu with all other shares of the preferred stocks of Interstate and are entitled to receive the same treatment as such other shares.

It is further proposed that upon the entry by the Commission of an order or orders approving the plan, the Board of Directors of Interstate will request the Commission pursuant to section 11 (e) of the act to apply to a court of competent jurisdiction to enforce and carry out the terms of the plan.

II. On May 20, 1943, the Commission entered an order (1) directing, among other things, pursuant to section 11 (b) of the act, that Interstate shall take such steps as may be necessary to recapitalize so as to distribute voting power fairly and equitably among its security holders, and (2) approving, pursuant to section 11 (e) of the act, a plan filed by Ogden and certain of its subsidiaries which provided, among other things, that Interstate would be recapitalized (Holding Company Act Release No. 4307).

III. It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to the plan filed by Interstate herein;

It is ordered, That a hearing in respect of this matter under the applicable provisions of the act and the rules of the Commission thereunder be held on October 24, 1945, at 10:00 a. m., e. s t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On that date, the hearing room clerk in Room 318 will advise as to the room in which the hearing will be held.

It is further ordered, That Henry C. Lank or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing. The officer so designated to preside at the hearing is hereby authorized to exercise all powers granted by the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That without limiting the scope of the issues presented by the plan filed herein, particular attention will be directed at said hearing to the following matters and questions:

1. Whether the plan, as proposed, or as it may hereafter be modified, is necessary to effectuate the provisions of section 11

(b) of the act and is fair and equitable to the persons affected thereby;

2. The manner and circumstances under which Ogden and its predecessor company, Utilities Power & Light Corporation, acquired the demand note of Interstate;

3. The manner and circumstances under which Ogden and its predecessor company, Utilities Power & Light Corporation, acquired the debenture and the preferred stocks of Interstate owned by Ogden;

4. The rank and participation which should be accorded Ogden in the recapitalization of Interstate in consideration of the demand note, debenture and preferred stocks owned by Ogden; and specifically whether such securities held by Ogden should be subordinated in whole or in part to, or otherwise not be permitted to participate on a parity with, the securities of Interstate held by the public;

5. Whether the funds escrowed with Manufacturers Trust Company, representing interest payments on the demand note of Interstate owned by Ogden, should be turned over to Ogden, and, if not, what disposition should be made of such funds;

6. Whether Interstate or any of its security holders as such have any valid claims against Ogden;

7. Whether the securities to be issued by Interstate in connection with the proposed plan are reasonably adapted to the security structure and earning power of Interstate and otherwise conform to the applicable standards of the act, and whether any terms and conditions should be imposed in connection therewith;

8. Whether in regard to the proposed retirement of the first mortgage 5% bonds and the 6% debentures of Interstate, the respective redemption premiums should be paid;

9. Whether the plan as filed, or as modified, makes appropriate provision for the payment of expenses, fees and remuneration in connection with the recapitalization of Interstate, in what amounts such expenses, fees, and remuneration should be paid, and the fair and equitable allocation thereof;

10. Whether the accounting entries proposed to be made in connection with the plan are proper and in accordance with sound accounting principles;

11. Generally, whether the plan and all proposed transactions incidental thereto are in all respects in the public interest and in the interests of investors and consumers and consistent with all applicable requirements of the act and the rules thereunder, and if not, what modifications and what terms and conditions should be required or imposed to satisfy the statutory standards;

12. Whether, in the event that the Commission shall approve the plan as filed or as modified, the Commission shall approve said plan for purposes of section 11 (d) of the act (as well as section 11 (e)) so as to permit the Commission of its own motion and irrespective of any request therefor on the part of Interstate to apply to a court for the enforcement of the plan pursuant to section 11 (d) of the act; and

13. Whether in the event that the Commission shall not approve the plan as filed or as modified, a plan proposed by the Commission or by any person having a bona fide interest in the recapitalization of Interstate should be approved by the Commission for purposes of section 11 (d) of the act, and, if proposed by the Commission, what the terms and provisions of such plan should be.

Notice is hereby given of said hearing to Interstate, to The Chase National Bank of the City of New York, Trustee of Interstate's First Mortgage 5% Bonds and 6% Debentures, and to all interested persons, said notice to be given to Interstate and The Chase National Bank of the City of New York by registered mail, and to all other persons by a general release of this Commission which shall be distributed to the press and mailed to all persons on the mailing list for releases issued under the act and by publication in the FEDERAL REGISTER.

It is further ordered, That Interstate shall give additional notice of said hearing to all of its security holders (insofar as the identity of such security holders is known to it) by mailing to each of said persons a copy of this notice and order at his last known address at least fifteen days prior to the date of said hearing;

It is further ordered, That any person desiring to be heard or otherwise wishing to participate in the proceedings, shall file with the Secretary of the Commission on or before October 22, 1945, his application therefor, as provided by Rule XVII of the rules of practice of the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

COMMONWEALTH & SOUTHERN CORP. (DEL.), ET AL.

NOTICE OF REARGUMENT ON VOTING PROVISIONS IN RECAPITALIZATION PLAN

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 2d day of October, A. D. 1945.

In the matter of The Commonwealth & Southern Corporation (Delaware), respondent, File No. 59-20; The Commonwealth & Southern Corporation (Delaware) and its subsidiary companies, respondents, File No. 59-8; The Commonwealth & Southern Corporation (Delaware), File No. 54-75.

The Commonwealth & Southern Corporation, a registered holding company, having filed a plan of recapitalization, and amendments thereto, under section 11 (e) of the Public Utility Holding Company Act of 1935; hearings having been held after appropriate notice; and the Commission having issued its findings and opinion on May 31, 1945 finding that certain modifications would be necessary before said plan could be approved pursuant to section 11 (e) of said act;

The Commonwealth & Southern Corporation having thereafter filed an amended plan dated as of June 14, 1945, and the Commission having on June 30, 1945 issued its supplemental findings, opinion and order approving the plan as amended; said plan having provided; among other things, that the Commission should apply to an appropriate Federal District Court for an order approving and enforcing the plan pursuant to sections 11 (e) and 18 (f) of the act provided that the plan shall first have received the affirmative vote of the holders of a majority of each class of stock of The Commonwealth & Southern Corporation voting at a meeting held for the purpose of voting on the plan;

The Commission having in its order of June 30, 1945 retained jurisdiction, among other things, to entertain such further proceedings, to make such supplemental findings and to take such further action as the Commission may deem appropriate in connection with the plan, the transactions incident thereto, and the consummation thereof;

It appearing to the Commission that substantial time has elapsed since the issuance of its order of June 30, 1945 without the vote of stockholders provided for in the plan having been secured and without arrangements having been completed for securing such vote of stockholders, and that it is appropriate in the public interest and in the interest of investors and consumers that the Commission reconsider its order approving the plan insofar as said plan makes provision for a vote of stockholders thereupon and hear oral argument as to whether or not the Commission should withdraw its order of June 30, 1945 and should approve said plan under section 11 (e) of the act if amended by The Commonwealth & Southern Corporation to eliminate the said provision for a vote of stockholders, or, if not so amended, the Commission should approve a plan as modified to eliminate the said provision for a vote of stockholders under section 11 (d) of the act.

It is hereby ordered, That oral argument be held on the 12th day of October, 1945 at 11:00 a. m. on the questions as to whether or not the Commission should withdraw its order of June 30, 1945 and, if said order should be withdrawn, whether or not the Commission should issue in lieu of said order of June 30, 1945 an order approving said plan under section 11 (e) of the act if amended by The Commonwealth & Southern Corporation to eliminate the said provision for a vote of stockholders or, if not so amended, the Commission should approve the plan as modified to eliminate the said provision for a vote of stockholders upon the plan under section 11 (d) of the act.

It is further ordered, That the Secretary of the Commission shall serve notice of this order by mailing a copy thereof by registered mail to each of the participants in this proceeding, and that notice thereof shall be given to all other persons by publication in the FEDERAL REGISTER.

By the Commission.

The President

EXECUTIVE ORDER 9638

CREATING THE CIVILIAN PRODUCTION ADMINISTRATION AND TERMINATING THE WAR PRODUCTION BOARD

By virtue of the authority vested in me by the Constitution and Statutes, including Title I of the First War Powers Act, 1941, and as President of the United States, it is ordered as follows:

1. All functions and powers of the War Production Board, established by Executive Order No. 9024 of January 16, 1942, and all agencies, officers (other than the Chairman and the other members of the War Production Board), employees, records, property, and funds of the Board, are transferred to a Civilian Production Administration which is hereby established in the Office for Emergency Management of the Executive Office of the President. The War Production Board is hereby terminated.

2. At the head of the Civilian Production Administration (hereinafter referred to as the Administration) there shall be a Civilian Production Administrator (hereinafter referred to as the Administrator) who shall be appointed by the President and receive a salary of $12,000 per annum unless the Congress shall otherwise provide, together with actual and necessary transportation, subsistence, and other expenses incidental to the performance of his duties. All the functions and powers vested in the Chairman of the War Production Board on the effective date of this order are transferred to the Civilian Production Administrator and may be performed by him through such officials, persons, or agencies as he shall determine. The Administrator shall exercise his functions and powers in accordance with the general policies established by the Director of War Mobilization and Reconversion.

3. The functions and powers transferred by this order shall, to the extent authorized by law, be utilized to further a swift and orderly transition from wartime production to a maximum peacetime production in industry free from wartime Government controls, with due regard for the stability of prices and costs; and to that end shall be utilized to: (a) expand the production of materials which are in short supply, (b) limit the manufacture of products for which materials or facilities are insufficient, (c) control the accumulation of inventories so as to avoid speculative hoarding and unbalanced distribution which would curtail total production, (d) grant priority assistance to break bottlenecks which would impede the reconversion process, (e) facilitate the fulfillment of relief and other essential export programs, and (f) allocate scarce materials and facilities necessary for the production of low-priced items essential to the continued success of the stabilization program of the Federal Government.

4. The Administrator may, to the extent authorized by law, terminate any function vested in the Administration by this order when he shall deem such action to be in the national interest. The Administrator shall be responsible for the orderly liquidation of all affairs relating to any function so terminated and shall also from time to time take all appropriate steps looking toward the liquidation of the Administration.

5. Such further measures and dispositions as may be determined by the Director of the Bureau of the Budget to be necessary to effectuate the transfers and terminations provided for in this order shall be carried out in such manner as the Director may direct and by such agencies as he may designate.

6. All prior regulations, orders, rulings, directives and other actions relating to any function transferred by this order shall remain in effect except insofar as they are in conflict with this order or are hereafter amended under proper authority.

7. All provisions of prior Executive Orders which are in conflict with this order are amended accordingly.

8. This order shall be effective as of the close of business on the third day of November, 1945.

EXECUTIVE ORDER 9639

AUTHORIZING THE SECRETARY OF THE NAVY TO TAKE POSSESSION OF AND OPERATE CERTAIN PLANTS AND FACILITIES USED IN THE TRANSPORTATION, REFINING AND PROCESSING OF PETROLEUM AND PETROLEUM PRODUCTS

WHEREAS after investigation I find and proclaim that there are interruptions in the operation of the plants and facilities used in the transportation, refining, and processing of petroleum and petroleum products designated in the list attached hereto and made a part hereof, as a result of existing and threatened strikes and other labor disturbances; that the war effort will be unduly impeded or delayed by such interruptions; and that the exercise, as hereinafter specified, of the powers vested in me is necessary to insure, in the interest of the war effort, the operation of these plants and facilities used in the transportation, refining, and processing of petroleum and petroleum products designated in the list attached hereto and made a part hereof;

NOW, THEREFORE, by virtue of the power and authority vested in me by the Constitution and laws of the United States, including Section 9 of the Selective Service Act of 1940 (54 Stat. 892) as amended by the War Labor Disputes Act (57 Stat. 163), as President of the United States and Commander in Chief of the Army and Navy of the United States, it is hereby ordered as follows:

1. The Secretary of the Navy is hereby authorized and directed to take possession of the plants and facilities used in the transportation, refining, and processing of petroleum and petroleum products designated in the list attached hereto and made a part hereof, or such part or parts of each of such plants and facilities as he deems necessary, and, to the extent he may deem necessary, to take possession of any real or personal property and other assets, wherever situated, used in connection with the operation of such plants and facilities; and to operate or to arrange for the use and operation of such plants and facilities in any manner that he deems necessary in the interest of the war effort.

2. In furtherance of the purposes of this order, the Secretary of the Navy is authorized to select and hire such employees and agents as he deems necessary and suitable to carry out the provisions of this order; to exercise any contractual or other rights of the owners of said plants, facilities, and property incident to the operation of said plants, facilities, and property or the production, sale, and distribution of the products and services thereof; to do any and all other things that he may deem necessary or desirable for, or incidental to, the use and operation of said plants, facilities, and property, or the production, sale, and distribution of the products and services thereof; and to take any other steps that he deems necessary to carry out the provisions and purposes of this order.

3. The Secretary of the Navy shall operate the plants, facilities, and property mentioned herein pursuant to the provisions of the War Labor Disputes Act and under the terms and conditions of employment which are lawfully in effect at the time possession of such plants, facilities, and property is taken under this order, subject to the provisions of Section 5 of the War Labor Disputes Act.

4. The Secretary of the Navy shall permit, upon such terms and conditions as he deems advisable, the management of the plants, facilities, and property taken under this order to continue its managerial functions to the extent consistent with the purposes of this order.

5. The Secretary of the Navy is authorized to take such action, if any, as he may deem necessary or desirable to provide protection for, and prevent interference with, the plants, facilities, and property taken under this order and all persons employed or seeking employment therein, their families and homes, and he is further authorized to take such appropriate disciplinary action, not inconsistent with law, as may be necessary to effectuate the purposes of this order. Upon the request of the Secretary of the Navy or his duly authorized representative, the Department of Justice, through the Federal Bureau of Investigation, shall immediately undertake and conduct an investigation of any matter affecting the operation of said plants, facilities, and property or government posession thereof hereunder.

6. In carrying out this order the Secretary of the Navy may act through or with the aid of such public or private instrumentalities, persons, or corporations as he may designate. All Federal agencies, including but not limited to the Department of Justice, the National Labor Relations Board, the Department of Labor, Department of the Interior, the National Selective Service System, and the Office of Price Administration, shall cooperate with the Secretary of the Navy to the fullest extent of their authority in carrying out the purposes of this order.

7. Possession, control and operation of any plant, facility, or property, or portion thereof, of which possession is taken under this order shall be terminated by the Secretary of the Navy as soon as practicable, but in no event more than sixty days after he determines that the productive efficiency of the plant, facility, or property, or portion thereof, prevailing prior to the existing interruptions referred to in the recitals of this order has been restored.

REGULATION

REGULATIONS FOR GRANTING ADDITIONAL WITHIN-GRADE SALARY ADVANCEMENTS AS REWARDS FOR SUPERIOR ACCOMPLISHMENT [1]

Pursuant to subsections (f) and (g) of section 7 of the Classification Act of 1923, as amended by sections 403 and 404 of the Federal Employees Pay Act of June 30, 1945 (Public Law 106, 79th Congress, Chapter 212, 1st Session), and to section 605 of the Federal Employees Pay Act of 1945, regulations are promulgated below.

SECTION 1. *Employees to whom these regulations apply.* These regulations apply to any officer or employee, except those in positions required to be filled by appointments by the President, by and with the advice and consent of the Senate, who (a) is compensated on a per annum basis; (b) occupies a permanent position within the scope of the compen-

[1] Codified under Title 5, Part 26, infra.

sation schedules fixed by the Classification Act of 1923, as amended; (c) has not reached the maximum rate of compensation for the grade of his position; and (d) who merits consideration for an award as a result of superior accomplishment.

SEC. 2. *Definitions.* (a) "Department" means any executive department or independent establishment or agency, including Government-owned or Government-controlled corporations, and the municipal government of the District of Columbia.

(b) "Permanent positions" means positions other than those designated as temporary by law and other than those established for a definite period of one year or less. Positions to which appointments are made under the War Service Regulations for the duration of the war and six months thereafter are permanent positions within the scope of this definition. Positions in which employees are serving definite probationary or trial periods, under Civil Service rules, or under regulations issued by the Civil Service Commission, shall not, for that reason alone, be regarded as being other than permanent positions.

(c) "Positions within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended", means positions in the departmental and field services, in the executive, legislative, and judicial branches, in Government-owned or Government-controlled corporations, and in the municipal government of the District of Columbia, the compensation of which has been fixed on a per annum basis, pursuant to the allocation of such positions to the appropriate grade either by the Civil Service Commission or by administrative action of the department, establishment, agency, or corporation concerned, in accordance with the compensation schedules of the Classification Act of 1923, as amended.

(d) "Superior accomplishment" means sustained work performance of a high degree of efficiency, the initiation and development of a suggestion which increases efficiency or brings about substantial economies in the public service, or a special service of an oustanding nature, which meets the standards of the Civil Service Commission for recognition as the basis for a reward in the form of an additional salary advancement.

(e) "Additional advancement" means within-grade salary advancement as a reward for superior accomplishment as distinguished from a periodic within-grade salary advancement under section 402 of the Federal Employees Pay Act of 1945.

SEC. 3. *Conditions of eligibility for additional advancements.* The granting of each additional advancement shall be subject to the following conditions:

(a) It must be made within the limit of available appropriations;

(b) It must be based on superior accomplishment which conforms with standards promulgated by the Civil Service Commission; and

(c) No more than one additional advancement may be made to any officer or employee within each of the time periods prescribed in section 402 of the Federal Employees Pay Act of 1945.

SEC. 4. *Prior approval by the Civil Service Commission.* Approval of the Civil Service Commission must be secured prior to making any additional advancement effective, unless approval of such advancements is made under authority delegated in accordance with these regulations.

SEC. 5. *Departmental plans for awarding additional advancements.* Each department which desires authority to approve additional advancements as rewards for superior accomplishments shall submit a plan to the Civil Service Commission (a) providing for a systematic review of the work performance of employees, (b) proposing a simple, orderly procedure for the selection of employees to be awarded additional advancements for superior accomplishment, (c) indicating the representatives of the head of the department proposed to be authorized to approve such advancements, (d) providing procedures for reporting additional advancements to the Civil Service Commission, and (e) proposing a method of publication of the plan to all employees. Such plans shall not become effective until approved by the Civil Service Commission, and no approved plan shall be revised or amended without the prior approval of the Commission. Subject to the foregoing provisions, any such departmental plan may be revised or amended from time to time as circumstances may require.

SEC. 6. *Delegation of authority to approve additional advancements.* Effective until November 1, 1945, the Civil Service Commission hereby delegates authority to the head of each department, or his designated representatives, to approve additional advancements as rewards for superior accomplishment which conforms with standards promulgated for that purpose by the Civil Service Commission. This authority will terminate on November 1, 1945, if no departmental plan has been approved prior to that date. Upon the approval of a departmental plan as provided in the foregoing section, the Civil Service Commission hereby delegates authority to the head of the department, and to his designated representatives operating under such plan, to approve additional advancements as rewards for superior accomplishment which conforms with the standards promulgated for that purpose by the Civil Service Commission.

SEC. 7. *Suspension or withdrawal of authority.* The Civil Service Commission may suspend or withdraw the authority to approve additional advancements delegated in these regulations, whenever, after post-audit of actions taken under such authority, it finds that (a) additional advancements are being approved which do not conform with the Commission's standards, (b) provisions of the departmental plan are not being followed, or (c) adequate statements supporting such additional advancements are not being received by the Commission.

SEC. 8. *Reports to be furnished to the Commission.* Additional within-grade salary advancements as rewards for superior accomplishment shall be reported to the Civil Service Commission with such supporting information as it may prescribe.

SEC. 9. Section 201, Chapter II of the regulations governing periodic within-grade salary advancements is hereby amended by adding the following sentence: "Positions in which employees are serving definite probationary or trial periods under Civil Service rules, or under regulations issued by the Civil Service Commission, shall not, for that reason alone, be regarded as being other than permanent positions."

SUBPART A—OVERTIME PAY REGULATIONS

§ 26.1 *Extent of regulations*—(a) *Employees to whom this subpart applies.* This subpart applies to all civilian officers and employees in or under the executive branch of the United States Government, including Government-owned or controlled corporations, except those specified in paragraph (b) of this section.

(b) *Employees to whom this subpart does not apply.* This subpart does not apply to:

(1) Elected officials;

(2) Heads of departments or independent establishments or agencies, including Government-owned or controlled corporations; i. e., heads of governmental establishments in the executive branch which are not component parts of any other such establishments;

(3) Officers and employees in or under the field service of the Post Office Department;

(4) Employees whose basic compensation is fixed and adjusted from time to time in accordance with prevailing rates by wage boards or similar administrative authority serving the same purpose, except that § 26.4 (c) (4) shall be applicable to such employees whose basic rate of compensation is fixed on an annual or monthly basis;

(5) Employees outside the continental limits of the United States, including those in Alaska, who are paid in accordance with local prevailing native wage rates for the area in which employed;

(6) Officers and employees of the Inland Waterways Corporation;

(7) Officers and employees of the Tennessee Valley Authority;

(8) Individuals to whom the provisions of section 1 (a) of the act entitled "An act to amend and clarify certain provisions of law relating to functions of the War Shipping Administration, and for other purposes," approved March 24, 1943 (Public Law No. 17—78th Congress), are applicable;

(9) Officers and members of the United States Park Police and the White House Police; and

(10) Employees of the Transportation Corps of the Army of the United States on vessels operated by the United States, vessel employees of the Coast and Geodetic Survey, and vessel employees of the Panama Railroad Company.

§ 26.2 *Definitions.* (a) "Basic workweek" for full-time officers and employees means the forty-hour workweek established pursuant to § 26.3 (a) (1).

(b) "Administrative workweek" for full-time officers and employees means the administrative workweek established pursuant to § 26.3 (a) (2).

(c) (1) "Basic rate of compensation" means the rate of compensation fixed by law or administrative regulation for the position held by the officer or employee, exclusive of overtime compensation and extra pay for night or holiday work, but inclusive of (i) any salary differential for duty outside the continental United States, or in Alaska, and (ii) the value of quarters, subsistence, and other maintenance allowances under section 3 of the act of March 5, 1928, 45 Stat. 193, U. S. Code, title 5, sec. 75a.

(2) Hereafter for all pay computation purposes basic per annum rates of compensation established by or pursuant to law shall be regarded as payment for employment during fifty-two basic workweeks of forty hours.

(d) "Irregular or occasional overtime duty" means hours of employment in excess of the regularly scheduled administrative workweek.

§ 26.3 *Regulations to be prescribed by heads of departments and agencies.*—(a) *Establishment of basic workweek and administrative workweek.* Heads of departments or independent establishments or agencies, including Government-owned or controlled corporations, shall, with respect to each group of full-time employees to whom this subpart applies, establish by general public regulation, to be effective July 1, 1945:

(1) A regularly scheduled basic workweek of forty hours in length which shall not extend over more than six of any seven consecutive days. Such regulation shall specify the names of the calendar days constituting the basic workweek and, for each of such calendar days, the number of hours of employment included within the basic workweek.

(2) (i) A regularly scheduled administrative workweek which shall consist of the forty-hour basic workweek established in accordance with subparagraph (1) of this paragraph, plus such period of overtime work as will be regularly required of each group of employees. The periods of time included in such administrative workweek which do not constitute a part of the basic workweek shall be identified by names of calendar days and by number of hours per day for purposes of leave and overtime pay administration.

(ii) In the case of employees whose work includes periods during which they are required to remain on duty and render "stand-by service" at or within the confines of their stations, the length of the administrative workweek, for the purpose of the regulations in this subpart, shall be the total number of regularly scheduled hours of duty per week (or in rotating-shift systems, the average number of regularly scheduled hours of duty per week for the cycle), including all such "stand-by" or "on call" time except that allowed by regulation of the department or independent establishment for sleep and meals.

(b) *Compensatory time off for irregular or occasional overtime duty.* Heads of departments or independent establishments or agencies, including Government-owned or controlled corporations, may, with respect to officers and employees to whom this subpart applies, prescribe regulations effective as of July 1, 1945, for the granting of compensatory time off from duty, in lieu of overtime compensation, for irregular or occasional duty in excess of forty-eight hours in any regularly scheduled administrative workweek, to those per annum employees requesting such compensatory time off from duty.

§ 26.4 *Overtime work and overtime compensation*—(a) *Overtime compensation authorized.* (1) Officers or employees to whom this subpart applies shall be paid overtime compensation, computed as provided in paragraph (c) of this section, for all hours of employment officially ordered or approved in excess of forty hours in any administrative workweek, including irregular or occasional overtime duty.

(2) Any per annum employee may request compensatory time off, in lieu of overtime pay, for irregular or occasional duty in excess of forty-eight hours in any regularly scheduled administrative workweek, in accordance with administrative regulations issued pursuant to § 26.3 (b). Unless compensatory time off for such irregular or occasional overtime duty is specifically requested by the employee it shall be paid for in money when due.

(3) Heads of departments or independent establishments or agencies, including Government-owned or controlled corporations, may delegate to any officer or employee authority to order or approve overtime in excess of the administrative workweek. No overtime in excess of the administrative workweek shall be ordered or approved except in writing by an officer or employee to whom such authority has been specifically delegated by the head of the department or independent establishment or agency, or Government-owned or controlled corporation.

(b) *Computation of overtime employment.* The computation of the amount of overtime employment of an officer or employee shall be subject to the following conditions:

(1) *Leave with pay.* Absence from duty on authorized leave with pay during the time when an employee would otherwise have been required to be on duty during the basic workweek (including authorized absence on legal holidays and during the compensatory time off provided for in §§ 26.3 (b) and 26.4 (a) (2) shall be considered to be employment and

shall not have the effect of reducing the amount of overtime compensation to which the employee may be entitled during an administrative workweek. Leave of absence with pay shall not be charged for any absence which does not occur during the forty hours prescribed as the basic workweek. If in an administrative workweek, the officer or employee does not actually work during any overtime period in excess of the forty hours prescribed as the basic workweek, no overtime compensation shall be paid.

(2) *Night or holiday duty.* Hours of night or holiday duty shall be considered as employment on the same basis as daytime hours or an ordinary day's duty for the purpose of computing the number of hours of overtime employment under the regulations in this subpart. Any extra compensation for night or holiday duty shall not, however, be included in any basic rate in computing overtime compensation under the regulations in this subpart.

(3) *Service subject to other overtime statutes.* Overtime services for which overtime compensation is paid under any of the following statutes shall not form a basis for overtime employment under the regulations in this subpart: act of February 13, 1911, as amended (U. S. C., title 19, secs. 261 and 267) involving inspectors, storekeepers, weighers, and other customs officers and employees; act of July 24, 1919 (41 Stat. 241; U. S. C., title 7, sec. 394) involving employees engaged in enforcement of Meat Inspection Act; act of June 17, 1930, as amended (U. S. C., title 19, sec. 1450, 1451, and 1452) involving customs officers and employees; act of March 2, 1931 (46 Stat. 1467; U. S. C., title 8, secs. 109a and 109b) involving inspectors and employees, Immigration and Naturalization Service; act of May 27, 1936, as amended (52 Stat. 345; U. S. C., title 46, sec. 382b) involving local inspectors of steam vessels and assistants, U. S. shipping commissioners, deputies and assistants, and customs officers and employees; act of March 23, 1941 (55 Stat. 46; U. S. C., sup. IV, title 47, sec. 154 (f) (2)) involving certain inspectors of the Federal Communications Commission; act of June 3, 1944 (Public Law 328—78th Congress) involving customs officers and employees.

(c) *Computation of overtime compensation.* (1) For employees whose basic compensation is at a rate less than $2,980 per annum, the overtime hourly rate shall be one and one-half times the basic hourly rate of compensation: *Provided,* That in computing such overtime compensation for per annum employees, the basic hourly rate of compensation shall be determined by dividing the basic per annum rate by two thousand and eighty (2,080).

(2) For employees whose basic compensation is at a rate of $2,980 per annum or more, the overtime hourly rate shall be in accordance with and in proportion to the following schedule, subject to the limitation contained in subparagraph (3) of this paragraph.

Basic rate of compensation per annum	*Overtime rate of compensation per 416 overtime hours*
$2,980	$894.000
$3,000	885.554
$3,200	877.108
$3,310	868.662
$3,420	860.216
$3,530	851.770
$3,640	843.324
$3,750	834.878
$3,860	826.432
$3,970	817.986
$4,080	809.540
$4,190	801.094
$4,300	792.648
$4,410	784.202
$4,520	775.756
$4,630	767.310
$4,740	758.864
$4,960	741.972
$5,180	725.080
$5,390	708.955
$5,600	692.831
$5,810	676.707
$6,020	660.583
$6,230	644.458
$6,440 and over	628.334

NOTE: In the foregoing schedule the overtime rate for 416 overtime hours for any basic rate of compensation in excess of $2,980 per annum is computed by subtracting from $894, 7.6782 per centum of the amount by which such basic rate is in excess of $2,980 per annum; with the condition that the rate for 416 overtime hours for all salaries of $6,440 or more shall be $628.334.

(3) Notwithstanding the provisions of subparagraph (2) of this paragraph, the overtime compensation payable to any officer or employee to whom the regulations in this subpart apply shall, with respect to any pay period, be limited to such rate as will not cause his aggregate compensation for such pay period to exceed a rate of $10,000 per annum: *Provided, however,* That any such officer or employee who was receiving overtime compensation on June 30, 1945, and whose aggregate rate of compensation on such date was in excess of $10,000 per annum may receive overtime compensation at such rate as will not cause his aggregate rate of compensation for any pay period to exceed the aggregate rate of compensation he was receiving on June 30, 1945, until he ceases to occupy the office or position he occupied on such date or until the overtime hours of work in his administrative workweek are reduced by action of the head of his department or independent establishment or agency, or Government-owned or controlled corporation, and when such overtime hours are reduced such rate of overtime compensation shall be reduced proportionately.

(4) Employees whose basic rate of compensation is fixed on an annual or monthly basis and adjusted from time to time in accordance with prevailing rates by wage boards or similar administrative authority serving the same purpose shall be entitled to overtime pay in accordance with the provisions of section 23 of the Act of March 28, 1934 (U.S.C., title 5, sec. 673c). The rate of compensation for each hour of overtime employment of any such employee shall be computed as follows:

(i) If the basic rate of compensation of the employee is fixed on an annual basis, divide such basic rate of compensation by two thousand and eighty (2080) and multiply the quotient by one and one-half; and

(ii) If the basic rate of compensation of the employee is fixed on a monthly basis, multiply such basic rate of compensation by twelve to derive a basic annual rate of compensation, divide such basic annual rate of compensation by two thousand eighty (2080), and multiply the quotient by one and one-half.

(5) Whenever, for the purpose of computing overtime pay under this subpart, it is necessary to convert a basic monthly or annual rate to a basic weekly, daily or hourly rate the following rules shall govern:

(i) A monthly rate shall be multiplied by 12 to derive an annual rate;

(ii) An annual rate shall be divided by 52 to derive a weekly rate;

(iii) A weekly rate shall be divided by 40 to derive an hourly rate; and

(iv) A daily rate shall be derived by multiplying an hourly rate by the number of daily hours of service required.

SUBPART B—PERIODIC WITHIN-GRADE SALARY ADVANCEMENT REGULATIONS

§ 26.51 *Extent of regulations; officers and employees to whom this subpart applies.* This subpart applies to all officers and employees, except those who are appointed by the President, by and with the advice and consent of the Senate, who (a) are compensated on a per annum basis, (b) occupy permanent positions within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended, and (c) have not reached the maximum rate of compensation for the grade in which their positions are respectively allocated.

§ 26.52 *Definitions.* (a) "Permanent positions" means positions other than those designated as temporary by law and other than those established for definite periods of one year or less. Positions to which appointments are made under the war service regulations for the duration of the war and six months thereafter are permanent positions within the scope of this definition. Positions in which employees are serving definite probationary or trial periods under civil service rules, or regulations issued by the Commission, shall not, for that reason alone, be regarded as being other than permanent positions.

(b) "Positions within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended", means positions in the departmental and field services, in the executive, legislative, and judicial branches, in Government-owned or Government-controlled corporations, and in the municipal government of the District of Columbia, the compensation of which has been fixed on a per annum basis, pursuant to the allocation of such positions to the appropriate grade either by the Commission or by administrative action of the department, establishment, agency, or corporation concerned, in accordance with the compensation schedules of the Classification Act of 1923, as amended.

(c) (1) "Equivalent increase in compensation" means any increase or increases in basic compensation which in total, at the time such increase or increases are made, are equal to or greater than the compensation increment in the lowest grade in which the employee has served during the time period of twelve or eighteen months, as the case may be.

(2) The following are not "equivalent increases in compensation": (i) increases in basic rates of compensation provided by section 405 of the Federal Employees Pay Act of 1945; (ii) rewards for superior accomplishment as provided in sections 403 and 404 of the Federal Employees Pay Act of 1945; or (iii) increases as the result of the establishment of a new minimum rate for any class of positions in accordance with section 401 of the Federal Employees Pay Act of 1945.

(d) "Current efficiency" means the official efficiency rating on record appropriate for within-grade salary advancement purposes, in accordance with the uniform efficiency-rating system.

(e) "War transfer" means any transfer authorized by the Commission under Executive Order Nos. 8973 of December 12, 1941, or 9067 of February 20, 1942 (3 CFR, Cum. Supp., Chap. II), War Manpower Commission Directive No. X (7 F. R. 7298, 11050; 9 F.R. 3534), or § 18.9 of this chapter, under conditions entitling the employee to reemployment in his former position or a position of like seniority, status, and pay.

(f) "Satisfactory record on war transfer" means a record or finding that the transferred employee has been involuntarily furloughed or terminated without cause such as would reflect on his suitability for reemployment in the Federal service, from the position to which transferred.

(g) "Service in the merchant marine" means service as an officer or member of the crew on or in connection with a vessel documented under the laws of the United States or a vessel owned by, chartered to, or operated by or for the account or use of the Administrator, War Shipping Administration, service as an enrollee in the United States Maritime Service on active duty, and, to such extent as said Administrator shall prescribe, any period awaiting assignment to such service and any period of education or training for such service in any school or institution under the jurisdiction of the Administrator.

(h) "Certificate of satisfactory service in the merchant marine" means the certificate issued by the War Shipping Administrator pursuant to the act of June 23, 1943, 57 Stat. 162, U. S. Code, 1940 ed., supp. IV, Title 50 app., secs. 1471–1475, providing reemployment rights for persons who leave their positions to serve in the merchant marine.

§ 26.53 *Computation of periods of service; service to be credited.* In computing the periods of service required for within-grade salary advancements there shall be credited to such service:

(a) Continuous civilian employment in any branch (legislative, executive, or judicial), executive department, independent establishment or agency, or corporation of the Federal Government or in the municipal government of the District of Columbia.

(b) Time elapsing on annual, sick, or other leave with pay.

(c) Time elapsing in a nonpay status (including break in service) not exceeding thirty days within any one time period of twelve or eighteen months, as the case may be.

(d) Service rendered prior to absence on furlough or leave without pay where such absence is in excess of thirty days but not exceeding one year.

(e) Service in the armed forces, in the merchant marine, or on war transfer subject to the following conditions: The employee must have (1) left his position to enter the armed forces or the merchant marine, or to comply with a war transfer, (2) been separated under honorable conditions from active duty in the armed forces, or have received a certificate of satisfactory service in the merchant marine, or have a satisfactory record on war transfer, and (3) been restored, reemployed, or reinstated in any pemanent position within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended, under regulations of the Commission, or the provisions of any law providing for restoration or reemployment, or any other administrative procedure with respect to employees not subject to civil service rules and regulations. Any employee entitled to be credited with service under this paragraph shall also be entitled to credit for civilian employment prior to leaving his position to enter the armed forces or the merchant marine, or to comply with a war transfer, in accordance with paragraphs (a), (b), (c), and (d) of this section.

§ 26.54 *Conditions of eligibility for periodic within-grade salary advancements—(a) Eligibility requirements and effective date.* Officers and employees to whom this subpart applies shall be advanced in compensation successively to the next higher rate within the grade at the beginning of the next pay period (including July 1, 1945) following the completion of (1) each twelve months of service if such officers or employees are in grades in which the compensation increments are less than $200 per annum or (2) each eighteen months of service if such officers or employees are in grades in which the compensation increments are $200 or more, subject to the following conditions:

(i) That no equivalent increase in compensation from any cause was received during such period;

(ii) That an officer or employee shall not be advanced unless his current efficiency rating is "Good" or better than "Good."

(iii) That the service and conduct of such officer or employee are certified by the head of the department or independent establishment or agency, or Government-owned or controlled corporation, or such official as he may designate, as being otherwise satisfactory.

(b) *Exceptions.* Conditions of § 26.54 (a) (2) (ii) and (iii) shall not apply upon the return to duty of any officer or employee (1) who, while serving under permanent, war service, temporary, or any other type of appointment, left his position to enter the armed forces or the merchant marine, or to comply with a war transfer, (2) who has been separated under honorable conditions from active duty in the armed forces, or has received a certificate of satisfactory service in the merchant marine, or has a satisfactory record on war transfer, and (3) who, under regulations of the Commission or the provisions of any law providing for restoration or reemployment, or under any other administrative procedure with respect to officers and employees not subject to civil service rules and regulations, is restored, reemployed, or reinstated in a permanent position within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended, in which he would otherwise be eligible for within-grade salary advancement under this subpart.

§ 26.55 *Effect of efficiency-rating changes.* In the event a change or adjustment is made in an officer's or employee's current efficiency rating, either by administrative action or as the result of a review and determination by a board of review in accordance with the provisions of section 9 of the Classification Act of 1923, as amended, the employee's eligibility for salary advancement shall be determined according to the efficiency rating as changed or adjusted and other conditions of the salary advancement plan, and any periodic within-grade salary advancement to which he may be entitled shall be made effective as of the date he would have received the advancement had no error been made in the original rating.

SUBPART C—REGULATIONS FOR GRANTING ADDITIONAL WITHIN-GRADE SALARY ADVANCEMENTS AS REWARDS FOR SUPERIOR ACCOMPLISHMENT

§ 26.101 *Extent of regulations; officers and employees to whom this subpart applies.* This subpart applies to any officer or employee, except those in positions required to be filled by appointments by the President, by and with the advice and consent of the Senate who (a) is compensated on a per annum basis; (b) occupies a permanent position within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended; (c) has not reached the maximum rate of compensation for the grade of his position; and (d) who merits consideration for an award as a result of superior accomplishment.

§ 26.102 *Definitions.* (a) "Department" means any executive department or independent establishment or agency, including Government-owned or Government-controlled corporations, and the municipal government of the District of Columbia.

(b) "Permanent positions" means positions other than those designated as temporary by law and other than those established for a definite period of one year or less. Positions to which appointments are made under the war service regulations for the duration of the war

and six months thereafter are permanent positions within the scope of this definition. Positions in which employees are serving definite probationary or trial periods under civil service rules, or under regulations issued by the Commission, shall not, for that reason alone, be regarded as being other than permanent positions.

(c) "Positions within the scope of the compensation schedules fixed by the Classification Act of 1923, as amended," means positions in the departmental and field services, in the executive, legislative, and judicial branches, in Government-owned or Government-controlled corporations, and in the municipal government of the District of Columbia, the compensation of which has been fixed on a per annum basis, pursuant to the allocation of such positions to the appropriate grade either by the Civil Service Commission or by administrative action of the department, establishment, agency, or corporation concerned, in accordance with the compensation schedules of the Classification Act of 1923, as amended.

(d) "Superior accomplishment" means sustained work performance of a high degree of efficiency, the initiation and development of a suggestion which increases efficiency or brings about substantial economies in the public service, or a special service of an outstanding nature, which meets the standards of the Commission for recognition as the basis for a reward in the form of an additional salary advancement.

(e) "Additional advancement" means within-grade salary advancement as a reward for superior accomplishment as distinguished from a periodic within-grade salary advancement under section 402 of the Federal Employees Pay Act of 1945.

§ 26.103 *Conditions of eligibility for additional advancements.* The granting of each additional advancement shall be subject to the following conditions:

(a) It must be made within the limit of available appropriations;

(b) It must be based on superior accomplishment which conforms with standards promulgated by the Commission; and

(c) No more than one additional advancement may be made to any officer or employee within each of the time periods prescribed in section 402 of the Federal Employees Pay Act of 1945.

§ 26.104 *Prior approval by the Commission.* Approval of the Commission must be secured prior to making any additional advancement effective, unless approval of such advancement is made under authority delegated in accordance with the regulations in this subpart.

§ 26.105 *Departmental plans for awarding additional advancements.* Each department which desires authority to approve additional advancements as rewards for superior accomplishment shall submit a plan to the Commission (a) providing for a systematic review of the work performance of employees, (b) proposing a simple, orderly procedure for the selection of employees to be awarded additional advancements for superior accomplishment, (c) indicating the representatives of the head of the department proposed to be authorized to approve such advancements, (d) providing procedures for reporting additional advancements to the Commission, and (e) proposing a method of publication of the plan to all employees. Such plans shall not become effective until approved by the Commission, and no approved plan shall be revised or amended without the prior approval of the Commission. Subject to the foregoing provisions, any such departmental plan may be revised or amended from time to time as circumstances may require.

§ 26.106 *Delegation of authority to approve additional advancements.* Effective until November 1, 1945, the Commission hereby delegates authority to the head of each department, or his designated representatives, to approve additional advancements as rewards for superior accomplishment which conforms with standards promulgated for that purpose by the Commission. This authority will terminate on November 1, 1945, if no departmental plan has been approved prior to that date. Upon the approval of a departmental plan as provided in the foregoing section, the Commission hereby delegates authority to the head of the department, and to his designated representatives operating under such plan, to approve additional advancements as rewards for superior accomplishment which conforms with the standards promulgated for that purpose by the Commission.

§ 26.107 *Suspension or withdrawal of authority.* The Commission may suspend or withdraw the authority to approve additional advancements delegated in the regulations in this subpart, whenever, after post-audit of actions taken under such authority, it finds that (a) additional advancements are being approved which do not conform with the Commission's standards, (b) provisions of the departmental plan are not being followed, or (c) adequate statements supporting such additional advancements are not being received by the Commission.

§ 26.108 *Reports to be furnished to the Commission.* Additional within-grade salary advancements as rewards for superior accomplishment shall be reported to the Commission with such supporting information as it may prescribe.

SUBPART D—NIGHT PAY DIFFERENTIAL REGULATIONS

§ 26.151 *Extent of regulations*—(a) *Employees to whom this subpart applies.* This subpart applies to all civilian officers and employees in or under the executive branch of the United States Government, including Government-owned or controlled corporations, except those specified in paragraph (b) of this section.

(b) *Employees to whom this subpart does not apply.* This subpart does not apply to:

(1) Elected officials;

(2) Heads of departments or independent establishments or agencies, including Government-owned or controlled corporations; i. e., heads of governmental establishments in the executive branch which are not component parts of any other such establishments;

(3) Officers and employees in or under the field service of the Post Office Department;

(4) Employees whose basic compensation is fixed and adjusted from time to time in accordance with prevailing rates by wage boards or similar administrative authority serving the same purpose;

(5) Employees outside the continental limits of the United States, including those in Alaska, who are paid in accordance with local prevailing native wage rates for the area in which employed;

(6) Officers and employees of the Inland Waterways Corporation;

(7) Officers and employees of the Tennessee Valley Authority;

(8) Individuals to whom the provisions of section 1 (a) of the act entitled "An act to amend and clarify certain provisions of law relating to functions of the War Shipping Administration, and for other purposes", approved March 24, 1943 (Public Law No. 17—78th Cong.), are applicable;

(9) Officers and members of the United States Park Police and the White House Police;

(10) Employees of the Transportation Corps of the Army of the United States on vessels operated by the United States, vessel employees of the Coast and Geodetic Survey, and vessel employees of the Panama Railroad Company;

(11) Employees of the Bureau of Engraving and Printing who are entitled to a night pay differential under the Act of July 1, 1944 (Public Law 394—78th Cong.); and

(12) Employees who are entitled to additional compensation for night work under any provision of law other than section 301 of the Federal Employees Pay Act of 1945.

§ 26.152 *Definitions.* (a) "Basic rate of compensation" means the rate of compensation fixed by law or administrative regulation for the position held by the officer or employee, exclusive of overtime compensation and extra pay for night or holiday work but inclusive of (1) any salary differential for duty outside the continental United States, or in Alaska, and (2) the value of quarters, subsistence, and other maintenance allowances under section 3 of the act of March 5, 1928, 45 Stat. 193, U. S. Code, title 5, sec. 75a.

(b) "Regularly scheduled tour of duty" means the regular administrative workweek prescribed by the general public regulations issued by the head of a department or independent establishment or agency, including Government-owned or controlled corporations, in accordance with § 26.3 (a) (2).

(c) "Night work" means that part of a regularly scheduled tour of duty which falls between 6 o'clock p. m. and 6 o'clock a. m.

(d) "Night pay differential" means the ten percent increase over the officer's or employee's basic rate of compensation authorized by section 301 of the Federal Employees Pay Act of 1945.

§ 26.153 *Night work and payment of night differential*—(a) *Night pay differential authorized.* Any officer or employee to whom this subpart applies shall be entitled to a ten percent increase over his basic rate of compensation for all hours of night work, computed in accordance with paragraph (b) (3) of this section.

(b) *Computation of night pay differential.* (1) *Leave.* Payment of a night pay differential is not authorized during any period when the officer or employee is in a leave status.

(2) *Overtime.* The night pay differential shall not be included in the basic rate of compensation in computing any overtime compensation to which the officer or employee may be entitled.

(3) *Computation of rate of night pay differential.* Whenever it is necessary to convert a basic monthly or annual rate to a basic weekly, daily, or hourly rate for the purpose of computing the amount of the night pay differential, the following rules shall govern:

(i) A monthly rate shall be multiplied by 12 to derive an annual rate;

(ii) An annual rate shall be divided by 52 to derive a weekly rate;

(iii) A weekly rate shall be divided by 40 to derive an hourly rate; and

(iv) A daily rate shall be divided by multiplying an hourly rate by the number of daily hours of service required.

Effective on and after July 1, 1945.

By the United States Civil Service Commission.

TITLE 29—LABOR

Chapter VI—National War Labor Board

Appendix—Industry Commissions and Panels

NATIONAL AIRFRAME PANEL

The National War Labor Board has amended paragraph (b) of section V of the order establishing the National Airframe Panel (9 F.R. 3176) to read as follows:

V. *Functions and procedure.* * * *

(b) *In voluntary cases.* The Panel shall have authority to make final rulings on voluntary wage and salary adjustments subject to the further provisions of this paragraph. Any wage or salary adjustment approved by the Panel "which may furnish the basis either to increase price ceilings or to resist otherwise justifiable reductions in price ceiling", or, if no price ceiling is involved, which may increase the cost to the government of a product or service being furnished under a procurement contract, shall become effective only if also approved by the Director of Economic Stabilization. Notice to this effect shall be contained in all rulings requiring this approval which are issued by the Panel. Either party may appeal from the ruling of the Panel in accordance with the Board's rules of procedure. Any member of the Panel may request that the case be submitted to the National War Labor Board for a final ruling.

Approved: July 24, 1945.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices, Department of the Treasury

PART 131—GENERAL LICENSES UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO

TRANSACTIONS ON BEHALF OF, OR INVOLVING PROPERTY OF, FRANCE AND ITS NATIONALS

OCTOBER 5, 1945.

General License No. 92 under Executive Order No. 8389, as amended, Executive Order No. 9193, as amended, section 5 (b) of the Trading with the Enemy Act, as amended by the First War Powers Act, 1941, relating to foreign funds control.

§ 131.92 *General License 92*—(a) *Certain transactions involving France or nationals thereof or relating to French property authorized.* A general license is hereby granted licensing any transaction referred to in section 1 of the order if (i) such transaction is by, on behalf of, or pursuant to the direction of France or any national thereof, or (ii) such transaction involves property in which France or any national thereof has at any time on or since the effective date of the order had any interest, *Provided*, That:

(1) Such transaction (i) is not by, on behalf of, or pursuant to the direction of any blocked country or any national thereof, other than France or any national of France, and (ii) does not involve property in which any blocked country or any national thereof, other than France or any national of France, has at any time on or since the effective date of the order had any interest; and

(2) No payment, transfer, or withdrawal, or other dealing with respect to:

(i) Any property in which on the date hereof any of the following has an interest: (*a*) Any person within France; or (*b*) any partnership, corporation, association, or other organization which is a national of France by reason of the interest therein of a person within France; or

(ii) Any income from such property accruing on or after the date hereof

shall be effected under, or be deemed to be authorized by, this section unless a designated agent of the Government of France has certified in writing that the Government of France has determined that no blocked country or national thereof, other than France or any national of France, has at any time between the effective date of the order and the date of the certification, had any interest in such property.

(b) *Certain other transactions authorized.* This section also authorizes any transaction which could be effected under General License No. 53 if France were a member of the generally licensed trade area: *Provided*, That this paragraph shall not be deemed to authorize any payment, transfer, or withdrawal, or other dealing, with respect to any property which is subject to subparagraph (2) of paragraph (b) hereof, unless certification has been made thereunder.

(c) *Application of license to nationals of France who are also nationals of other blocked countries.* The provisions of paragraph (a) hereof shall not apply with respect to any national of France who is also a national of any other blocked country: *Provided, however*, That for the purpose only of this section the following shall be deemed not to be nationals of any blocked country other than France:

(1) Any individual residing in France, except any citizen or subject of Germany or Japan who at any time on or since December 7, 1941 has been within the territory of either such country or within any other territory while it was designated as "enemy territory" under General Ruling No. 11;

(2) Any partnership, association, corporation, or other organization organized under the laws of France, unless it is a national of Germany, Japan, Bulgaria, Hungary or Rumania.

(d) *Waiver of General Rulings Nos. 3 and 17 and Public Circular No. 14.* The provisions of General Rulings Nos. 3 and 17 and Public Circular No. 14 are waived with respect to any transaction effected under this license.

(i) *Definition.* As used in this section, the term "France" shall include France and any colony or other territory subject to the jurisdiction of France.

APPENDIX A—GENERAL RULINGS UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO

TRANSACTIONS WITH RESPECT TO CHECKS, DRAFTS, ETC.

OCTOBER 5, 1945.

General Ruling No. 5A, as amended under Executive Order No. 8389, as amended, Executive Order No. 9193, as amended, sections 3 (a) and 5 (b) of the Trading with the Enemy Act, as amended by the First War Powers Act, 1941, relating to foreign funds control.

1. *Prohibition with respect to certain dealings in checks, drafts, etc.* Unless authorized by a license or other authorization of the Secretary of the Treasury expressly referring to this general ruling, the presentation, endorsement, acceptance, collection, payment, transfer, protest of, or any other dealing in or with respect to, any check, draft, bill of exchange, promissory note, transfer order, or other payment instruction is prohibited, if such instrument, prior to September 2, 1945, has been within, or there is reasonable cause to believe that it has been within, Germany, Japan, Italy, Bulgaria, Rumania or Hungary, or any territory which at any time was occupied or controlled by Germany or Japan.

2. *Certain transactions with respect to checks, drafts, etc. authorized.* (a) Notwithstanding the provisions of General Ruling No. 11, as amended, the return to the sender, except to any person who is within Germany or Japan or whose name appears on The Proclaimed List of Certain Blocked Nationals, of any check, draft, bill of exchange, promissory note, transfer order or other payment instruction, to which paragraph 1 hereof applies, is hereby authorized, provided such instrument is stamped or marked to indicate clearly that payment thereof is prohibited by General Ruling No. 5A.

(b) The sending, mailing, exporting, or otherwise taking of any check, draft, bill of exchange, promissory note, foreign currency, or any security from the United States to a blocked country may be effected pursuant to the terms and conditions of General Licenses Nos. 49, 50, 52, 70 and 92 and any other general license hereafter issued which expressly licenses any transaction referred to in section 1 of the Order with respect to a specified blocked country or countries.

(c) Persons departing from the United States for blocked countries are hereby authorized to carry:

(i) Travelers checks and checks drawn on the Treasurer of the United States provided such checks are issued in the name of the person carrying them;

(ii) United States currency in denominations of $20 or less and all foreign currencies.

Chapter VI—Selective Service System

[Amdt. 349]

PART 622—CLASSIFICATION

MINISTER OF RELIGION OR DIVINITY STUDENT

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

Amend subparagraph (4) of paragraph (a) of § 622.44 to read as follows:

§ 622.44 *Class IV-D: Minister of religion or divinity student.* (a) In Class IV-D shall be placed any registrant:

* * * * *

(4) Who has been accepted for admittance to a theological or divinity school referred to in subparagraph (3) above and who, under the general direction of such theological or divinity school, is pursuing in another institution a full-time course of study required by the theological or divinity school in which he has been accepted for admittance and who has been formally accepted as a candidate for the ministry by the highest authority governing ordination of a recognized church, religious sect, or religious organization.

The foregoing amendment to the Selective Service regulations shall be effective within the continental United States immediately upon the filing hereof with the Division of the Federal Register and shall be effective outside the continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register.

Chapter IX—War Production Board

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; E.O. 9599, 10 F.R. 10155; W.P.B. Reg. 1 as amended Dec. 31, 1943, 9 F.R. 64.

PART 903—DELEGATIONS OF AUTHORITY

[Directive 1 as Amended Oct. 4, 1945]

DELEGATION OF AUTHORITY TO THE OFFICE OF PRICE ADMINISTRATION WITH RESPECT TO RATIONING

Pursuant to the authority vested in me by Executive Order No. 9024 of January 16, 1942, and Executive Order No. 9040 of January 24, 1942, and in order to delegate to the Office of Price Administration authority to provide for the equitable rationing of products at the retail level, *It is hereby ordered*, That:

§ 903.1 *Directive 1.* (a) The Office of Price Administration is authorized and directed to perform the functions and exercise the power, authority and discretion conferred upon the President by section 2 (a) of the Act of June 28, 1940 (Pub. Law 671, 76th Cong., 54 Stat. 676) as amended by the Act of May 31, 1941 (Public Law 89, 77th Cong., 55 Stat. 236) with respect to the exercise of rationing control over (1) the sale, transfer or other disposition of products by any person who sells at retail to any person, and (2) the sale, transfer or other disposition of products by any person to an ultimate consumer. The term "ultimate consumer," as used by this directive, means a person acquiring products for the satisfaction of personal needs as distinguished from one acquiring products for industrial or other business purposes. The term "person", as used in this directive, includes an individual, partnership, association, business trust, corporation or any organized group of persons, whether incorporated or not: *Provided*, That in no event shall this paragraph (a) be deemed to authorize the Office of Price Administration to control the acquisition of products by or for the account of any of the following:

(1) The Army or Navy of the United States, the United States Maritime Commission, The Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics and the Office of Scientific Research and Development; or

(2) Government agencies or other persons acquiring such products for export to and consumption or use in any foreign country.

(b) The authority of the Office of Price Administration under this directive shall include the power to regulate or prohibit the sale, transfer or other disposition of products to any retailer who has acted in violation of any rationing regulation or order prescribed by the Office of Price Administration hereunder, and shall include the power to regulate or prohibit the sale, transfer or other disposition of products to any wholesaler or other supplier of any retailer, directly or indirectly if such wholesaler or other supplier has acted in violation of any rationing regulation or order prescribed by the Office of Price Administration hereunder. The Office of Price Administration is likewise authorized to require such reports and the keeping of such records, and to make such investigations, as it may deem necessary or appropriate for the administration of the rationing powers conferred herein; and it may take such measures as it may deem necessary or appropriate for the enforcement of any rationing regulation or order prescribed by it pursuant to this directive.

(c) The Office of Price Administration may exercise the power, authority and discretion conferred upon it by this directive through such officials, including part time and uncompensated special agents, and in such manner as it may determine.

(d) The Chairman of the War Production Board will, on request of the Office of Price Administration, advise the Office of Price Administration as to the portion of existing products available for rationing by the Office of Price Administration under this directive.

(e) The Chairman of the War Production Board may from time to time delegate to the Office of Price Administration such additional powers with respect to the exercise of rationing control, or amend the delegation herein in such manner and to such extent, as he may determine to be necessary or appropriate.

(f) The amendment, revocation or repeal of any delegation of rationing powers delegated in this or any supplementary directive or otherwise shall not deprive the Office of Price Administration of authority to continue in effect any requirements in its orders or regulations which relate to the preservation of records required to be made or kept before such amendment, revocation or repeal or appropriate by the Office of Price Administration for the administration of the rationing powers formerly conferred in any such delegation. In addition, no such amendment, revocation or repeal shall deprive the Office of Price Administration of control over the disposition of ration evidences issued pursuant to such powers.

(g) The amendment, revocation or repeal of any delegation of rationing powers delegated in this or any supplementary directive or otherwise, shall not have the effect of releasing or extinguishing any penalty or liability incurred for violation of any order, rule or regulation issued as a result of the exercise thereof, unless the amendment, revocation or repeal shall expressly so provide, and the delegation of such powers shall be treated as still remaining in force for the purpose of allowing or sustaining any proper proceeding, action or prosecution with respect to such penalty or liability.

NOTE: Paragraph (h), formerly paragraph (f), redesignated Oct. 4, 1945.

(h) Nothing herein shall be construed to limit or modify any order heretofore issued by the Director of Priorities of the Office of Production Management, nor to delegate to the Office of Price Administration the power to extend, amend or modify any such order.

Issued this 4th day of October 1945.

J. A. KRUG,
Chairman.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Order M-328B, Direction 6, as Amended Oct. 3, 1945]

SPECIAL RULES FOR M-328B PROGRAMS, (SCHEDULES C, D, J AND K) FOR THE FOURTH QUARTER OF 1945

The following amended direction is issued pursuant to M-328B:

1. This direction applies only to ratings assigned under Schedules C, D, J and K of Order M-328B.

2. The purpose of this direction is to limit the use of ratings assigned under Schedules C, D, J, and K of Order M-328B, to require the filing of a report by manufacturers participating in the programs and to require the use of a special rating extension form on CC rated orders placed under those M-328B programs. As amended, this Direction extends through October 12, 1945, the period during which manufacturers may use such CC ratings, and fixes October 13, 1945 as the date by which reports must be made on Form WPB-4342 by manufacturers. (The period during which suppliers may hold orders rated CC under those schedules before determining whether to accept or reject them as stated in Schedules J and K and Direction 7 to Order M-328B, is being extended from October 3 to October 6, by amendments of those instruments.)

3. Manufacturers participating in the M-328B programs for the fourth quarter of 1945 are currently receiving Form WPB-3732 which they filed under the order. This form authorizes them to use CC ratings to obtain delivery of the quantity and kind of material indicated on the form. This material is to be used for the manufacture of low-cost apparel under the schedules of Order M-328B.

4. So that the War Production Board can assist manufacturers in obtaining their full authorization of rated yardage, it must have prompt information on rated orders accepted and rated orders not accepted. Manufacturers are therefore asked to serve rated orders for their entire authorization before October 13, 1945, and they are required to file Form WPB-4342 (report form) on or before October 13, 1945. This form gives the War Production Board information needed to assist the programs.

5. In order to keep his CC rating authorization in force, each manufacturer must (1) serve CC rated orders before October 13, 1945, for the entire fourth quarter authorization which he received on Form WPB-3732 and (2) file Form WPB-4342, (report form), on or before October 13, 1945. If a manufacturer does those two things and if his rated orders are rejected, he may apply at any time to the nearest field office of the War Production Board for assistance in getting the rated orders accepted, and he may use the CC ratings to obtain the authorized material from other suppliers even after October 13, 1945. However, if a manufacturer has not both served CC rated orders for his entire authorization, as stated above, and also filed Form WPB-4342 (report form) by October 13, 1945, he may not apply the CC rating to any orders after that date.

In any event, every manufacturer receiving an authorization on Form WPB-3732 is required to file Form WPB-4342 (report form) by October 13, 1945, as explained above.

6. The restrictions in paragraph (4) above on the use of ratings after October 13, 1945, apply only to manufacturers. Any person receiving a CC rated order from a manufacturer after October 13, 1945, shall assume that the manufacturer is not prohibited by this direction from using the rating unless he knows or has reason to believe that the manufacturer has failed to comply with the requirements of this direction.

7. Notwithstanding any other order or regulation of the War Production Board, no person may use, apply or extend any CC rating which he knows or has reason to believe was assigned on Form WPB-3732 under Order M-328B unless his purchase order is accompanied by Form WPB-4343 (rating extension form) prepared in accordance with the instructions thereon.* If a supplier of finished fabrics receives and accepts a rated order for fabrics covered by Schedules C, D, J or K of Order M-328B accompanied by Form WPB-4343 and does not extend the CC rating he must immediately send the form to the War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., instead of sending it to his supplier. This form must be properly filled out on its face, and for cotton and rayon fabrics the reverse side must contain the name of the producers of fabric who have accepted orders from him bearing the special certification of Schedule J or Direction 7 to M-328B (for Schedules C or D) and must state the fabric, and the total quantity purchased on such certificates from the producers. After he has once given this information he need report on the reverse side of later forms only additional or decreased quantities of fabric which he has purchased on such certificates from producers.

*If a supplier of finished fabric, who receives Form WPB-4343 from a manufacturer, extends the rating to another supplier of finished fabric, he should fill in and sign Block 8 and forward the Form to the other suppliers after detaching the upper portion. If the other supplier, then extends the rating, he should also fill in Block 8 on a separate copy of the Form and forward it in like manner to his supplier.

Issued this 3d day of October 1945.

By J. JOSEPH WHELAN,
Recording Secretary.

SALES AT WHOLESALE OF CERTAIN COTTON PRODUCTS

A statement of considerations involved in the issuance of this amendment issued

[1] 10 F.R. 1183, 2014, 4156, 7117, 7497, 7667, 9337, 9540, 9963, 10021.

simultaneously herewith has been filed with the Division of the Federal Register.

Section 2.7 of Supplementary Regulation 14E is amended in the following respects:

1. Section 2.7 (a) (4) is added to read as follows:

(4) An "institutional wholesaler" is a wholesaler who in the year 1944 made more than 50% of dollar volume of his sales to commercial, industrial and institutional users (such as barber shops, hotels, steamship companies and hospitals).

2. Section 2.7 (a) (5) is added to read as follows:

(5) "Net cost" is the cost stated on your supplier's invoice less all available discounts. No freight or similar charge may be added.

3. Section 2.7 (b) is amended by adding to subparagraph (6) the following undesignated paragraph:

This subparagraph (6) shall not apply to sales covered by paragraph (f).

4. Section 2.7 (f) is amended to read as follows:

(f) *Sales of certain bed linens at wholesale.* (1) This paragraph applies to sales at wholesale of types 112, 128[2]; 140[2] and 180, and the back filled type[3] for which the manufacturer's maximum price is established by Revised Price Schedule No. 89—Bed Linens,[4] and also applies to sales at wholesale of "Mohawk" bed linens manufactured by Utica and Mohawk Cotton Mills, Inc., for which the manufacturer's maximum price as established by Revised Price Schedule No. 89, was adjusted by Order No. 15 under Supplementary Order No. 86, dated July 3, 1944.

(2) The maximum price for a sale at wholesale (other than for a sale by an "institutional wholesaler" to an institutional, commercial or industrial user) is the lower of:

(i) The sum of the net cost of the article being priced and 13.6% of that net cost for out-of-stock shipments, but, in the case of "drop shipments" the sum of the net cost of the article being priced and 7.5% of that net cost, or

(ii) The sum of the net cost of the article being priced and an amount derived by applying the seller's "1942 markup" to that "net cost."

The terms "net cost" and "institutional wholesaler" are defined in paragraph (a). The term "1942 markup" means the markup which you had in March 1942 for the type sheet or pillow tubing which includes that article. To find this markup you (1) find the article of this type for which you received the last invoice prior to March 31, 1942, and which article you delivered in March 1942 in the type of sale (out-of-stock or drop shipment) involved in the sale of the article you are pricing; (2) from the highest price at which you delivered that article in March 1942, for the type of sale involved in the sale of the article you are pricing subtract your last "net cost" as defined in paragraph (a) (5); (3) divide that net cost into the difference of (1) and (2). The result is your "1942 markup."

(3) The maximum price for a sale by an "institutional wholesaler" (defined in paragraph (a)) to an institutional, commercial or industrial user shall be the sum of:

(i) The seller's maximum price determined in accordance with the General Maximum Price Regulation.

(ii) 7.4% of the manufacturer's price established by Revised Price Schedule No. 89 prior to August 31, 1945.

(iii) The amount by which the manufacturer's maximum price in effect on August 30, 1945, under Revised Price Schedule No. 89 was increased after that date.

(4) The maximum prices for "cross stream" sales shall be established as follows: The maximum price for the first sale of an article covered by this paragraph when made by a wholesaler to a wholesaler, is the seller's net cost of that article (not exceeding his supplier's ceiling price.) For subsequent sales of the same article by a wholesaler to wholesaler, the maximum price is the net purchase price paid by the wholesaler who made the first "cross stream" sale.

Example: X, a wholesaler, buys sheets at $12 per dozen, net. He liquidates his business and sells the sheets to Y, another wholesaler. X's maximum price to Y is $12 per dozen although he sells the sheets to Y for $11 per dozen, net. Y wants to sell to Z, another wholesaler. Y's maximum price is $12 per dozen, net, which is the price paid by X who made the first "cross stream" sale.

This amendment shall become effective October 4, 1945.

Issued this 4th day of October 1945.

RETAIL CEILING PRICES FOR CERTAIN APPAREL AND HOUSE FURNISHINGS

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith has been filed with the Division of the Federal Register.

Maximum Price Regulation 580 is amended in the following respects:

1. Section 1 (c) is amended by substituting for the last sentence of the first undesignated paragraph the following sentence: "Notwithstanding the provisions of this paragraph (c), any seller at retail of an article for which a ceiling price has been established under section 13 of this regulation or for which a pricing method has been established under a general retail order issued under this regulation, shall, with respect to the sale of that article, be subject to that section or that order as the case may be."

2. Section 10 (b) is amended to read as follows:

(b) *How to price under this section.* (1) Under this section, except as provided below by subparagraph 2, you fix your maximum price under the provisions of the regulation which on the base date covered sales at retail of each article you wish to sell. Maximum prices fixed under this subparagraph (1) may be adjusted at any time by the OPA so that they will conform with the level of prices established by this regulation.

(2) You fix your maximum price of any article listed in General Retail Order No. 3 in accordance with the pricing methods specified in that order.

3. Section 10 (c) is amended to read as follows:

(c) *Reports.* Before offering or selling any articles which must be priced under this section, other than articles which you must price under General Retail Order No. 3, you must file with your OPA District Office a signed copy of a report stating your name and address, the approximate date on which you will begin to sell articles priced under this section, each category you wish to price under this section, and the regulations under which you intend to fix your maximum prices for each category listed in the report.

4. Section 16 (a) (2) is amended by inserting the words "or state the general retail order", after the words "section 7" and before the words "under which".

This amendment shall become effective October 4, 1945.

Issued this 4th day of October 1945.

AKOM SPORTSWEAR CO.

ESTABLISHMENT OF MAXIMUM PRICES

Maximum Price Regulation No. 580, Order 213. Establishing ceiling prices at retail for certain articles. Docket No. 6063-580-13-88.

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to section 13 of Maximum Price Regulation No. 580; *It is ordered:*

(a) The following ceiling prices are established for sales by any seller at retail of the following articles distributed at wholesale by Akom Sportswear Co., of 350 Fifth Avenue, New York 1, New York, and described in the manufacturer's application dated April 19, 1945:

KNITTED OUTERWEAR

Article	Brand name	Manufacturer's price line (per dozen)	Ceiling price at retail (per unit)
Sport shirt	Pep shirt	$17.90	$2.50
Sport coat	Deck coat	42.50	5.95

(b) The retail ceiling price of an article manufactured for the first time after the effective date of this order and which is sold by the manufacturer at the same price as another article of the same type with the same brand or company name and for which a retail ceiling price has been established by paragraph (a) shall be the retail ceiling price listed for that other article in paragraph (a).

(c) The retail ceiling prices contained in paragraph (a) shall apply in place of the ceiling prices which have been or would otherwise be established under this or any other regulation.

(d) On and after November 1, 1945, Akom Sportswear Co. must mark each article listed in paragraph (a) with the retail ceiling price under this order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

(Sec. 13, MPR 580)
OPA Price—$------

On and after December 1, 1945, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to December 1, 1945, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging and posting provisions of the applicable regulation.

(e) On or before the first delivery to any purchaser for resale of each article listed in paragraph (a), the seller shall send the purchaser a copy of this order.

(f) Unless the context otherwise requires, the provisions of the applicable regulation shall apply to sales for which retail ceiling prices are established by this order.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective October 5, 1945.

[MPR 580, General Retail Order 3]

BED LINENS

MODIFICATION OF CEILING PRICES

An opinion accompanying this General Retail Order No. 3 under Section 23 of Maximum Price Regulation 580[1] has been issued simultaneously herewith and filed with the Division of the Federal Register.

SECTION 1. *Scope of this order.* This order tells you how to establish ceiling prices for certain articles which are listed in this order. This order covers your pricing of these articles when you buy and sell them in substantially the same form. You must use this order to determine your ceiling prices for these articles and are otherwise subject to Maximum Price Regulation 580 regardless of the fact that you have a pricing chart and regardless of the fact that prior to this order you priced these articles under the provisions of any other regulation.

SEC. 2. *Ceiling prices for certain bed linens including bleached pillow tubing—* (a) *Items covered.* This section covers the pricing of the following articles[2]:

(1) Bed linens of type 180, 140, 128, and 112.

(2) Bed linens of the back filled type.

(3) Bleached pillow tubing of types 128 and 140.

(b) *Pricing methods.* (1) Except as provided in subparagraph (2), you calculate your ceiling price for any article listed in paragraph (a) by adding to the "net cost" of the article you are pricing a markup equal to 35% of that "net cost." ("Net cost" is defined in paragraph (c) (2).)

(2) If you and all retail sellers which are under common ownership or control with you had, in the year 1942, a total sales volume of $100,000 or more for all of the articles listed in paragraph (a), but your "1942 markup" on the article you are pricing was less than 35%, you calculate your ceiling price for the article you are pricing by adding to the net cost of the article an amount derived by applying your "1942 markup" to that net cost. ("1942 markup" is defined in paragraph (c) (1).)

(c) *Meaning of terms—*(1) *"1942 markup."* Your "1942 markup" on an article is the markup which you had in March 1942 for the type sheet or pillow tubing which includes that article. To find this markup you (1) find the article of this type for which you received the last invoice prior to March 31, 1942, and which article you delivered in March 1942; (2) from the highest price at which you delivered that article in March 1942, subtract your last "net cost" as defined below; (3) divide that net cost into the difference of (1) and (2). The result is your "1942 markup."

(2) *Net cost.* The term "net cost" is the cost stated on your supplier's invoice less all available discounts. No freight or similar charge may be added. However you may include as part of your net

[1] 10 F.R. 3015, 3468, 3642, 4236, 4494, 4611, 9962.

[2] The bed linens and bleached pillow tubing covered by paragraph (a) are those listed in Supplementary Order 131, (10 F.R. 11296),

[2] Bed linens of types 128 and 140 include types 128 and 140 of bleached pillow tubing.

[3] Types 112, 128, 140 and 180 and the back filled type are defined in Table 1, § 1316.111 of Revised Price Schedule No. 89. That Schedule requires bed linens, when sold by the manufacturer, to bear a label stating the type.

[4] "Bed linens" means finished sheets, finished pillow cases, finished bolster cases, bleached pillow tubing, domestic-type grey wide sheeting, brown sheeting and bleached sheeting. However, it refers only to goods made of cotton and does not include goods made wholly of combed yarn.

UNIVERSAL TOOL & STAMPING CO.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This order revises the maximum prices established by Order No. 3521, under § 1499.158 of Maximum Price Regulation No. 188, for sales and deliveries of certain articles manufactured by Universal Tool and Stamping Company, of Spencerville, Indiana.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the revised maximum prices are those set forth below:

Article	Maximum prices for sales by—			
	Manufacturer to—		Sellers other than manufacturer to—	
	Wholesalers (jobbers)	Retailers	Retailers	Consumers
Dual Action "V" Bar Wire Fence Stretcher	*Each* $1.50	*Each* $1.65	*Each* $1.65	*Each* $2.36

These maximum prices are for the articles described in the manufacturer's application dated September 18, 1944.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. These prices are f. o. b. factory, and subject to a cash discount of two percent for payment within ten days, net thirty days.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. These prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement:

OPA Retail Ceiling Price—$2.36
Do Not Remove or Obliterate

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order, for sales by the purchaser. This notice may be given in any convenient form.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on the 4th day of October 1945.

Issued this 3d day of October 1945.

The above maximum prices are exclusive of Federal Excise Tax. They are f. o. b. usual point of shipment and are subject to a discount of 2%, 10th prox.

These maximum prices are for the articles described in the manufacturer's application dated March 13, 1945.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement:

OPA Retail Ceiling Price—$------
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale at wholesale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on the 4th day of October 1945.

Issued this 3d day of October 1945.

CHESTER BOWLES,
Administrator.

TOLEDO PIPE THREADING MACHINE CO.

DETERMINATION OF MAXIMUM PRICES

Revised Order No. 46, under Maximum Price Regulation 67, new machine tools. The Toledo Pipe Threading Machine Company. Docket Nos. 6083–67.10A–41 and 6083–136.21–426.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 10a of Maximum Price Regulation 67 and section 21 of Revised Maximum Price Regulation 136; *It is ordered:*

Order No. 46 under Maximum Price Regulation 67 is redesignated revised Order No. 67 under Maximum Price Regulation 67 and is revised and amended to read as follows:

The maximum prices for sales by The Toledo Pipe Threading Machine Company, Toledo, Ohio, of pipe machines, power drives, parts and accessories and of tools, vises, work benches, oil, extra dies and parts, except items numbered 25 BR., 2½, 3, 4, 40, 80, 250, 300, 350 and 400, shall be determined as follows:

(a) The maximum prices for sales of pipe machines, power drives, parts and accessories coming under the jurisdiction of Maximum Price Regulation 67 shall be determined as follows: The manufacturer shall multiply by 110% the maximum prices he had in effect to a purchaser of the same class just prior to the issuance of this order.

(b) The maximum prices for sales of tools, vises, work benches, oil, extra dies and parts, except items numbered 25 BR., 2½, 3, 4, 40, 80, 250, 300, 350 and 400, shall be determined as follows:

The manufacturer shall multiply the list prices of all items filed with this office in his Distributor discount sheet, effective March 1, 1944, by 110%, except for items numbered 25 BR., 2½, 3, 4, 40, 80, 250, 300, 350 and 400, and shall deduct from such list prices all discounts, allowances and other deductions he had in effect to a purchaser of the same class.

(c) The maximum prices for sales of items listed in paragraph (b) except for items numbered 25 BR., 2½, 3, 4, 40, 80, 250, 300, 350 and 400 by resellers shall be determined as follows: The reseller shall add to the maximum net price he had in effect to a purchaser of the same class just prior to the issuance of this revised order the percentage amount by which his net invoiced cost has been increased due to the adjustment granted the manufacturer.

(d) The Toledo Pipe Threading Machine Company shall notify each person who buys the items listed in paragraph (b) except for items numbered 25 BR., 2½, 3, 4, 40, 80, 250, 300, 350 and 400, for resale of the percentage amount by which this order permits the reseller to increase his maximum net prices. A copy of each such notice shall be filed with the Machinery Branch, Office of Price Administration, Washington 25, D. C.

(e) All requests not granted herein are denied.

(f) This revised order may be revoked or amended by the Price Administrator at any time.

This revised order shall become effective October 5, 1945.

Issued this 4th day of October 1945.

JAMES G. ROGERS, Jr.,
Acting Administrator.

No charge may be added to the above maximum retail prices for the extension of credit except under the conditions specified and to the extent permitted by section 12a of Revised Maximum Price Regulation No. 499.

(c) *Notification.* Any person who sells the above watches to a purchaser for resale shall furnish the purchaser with a copy of this order or a price list incorporating the above prices and containing a certification that they are maximum prices established by the Office of Price Administration. In addition, he shall include on every invoice covering a sale of these watches the following statement:

OPA Revised Order No. 7 under RMPR 499 establishes the maximum prices at which you may sell these watches.

This notification requirement supersedes the notification requirement in section 12 of Revised Maximum Price Regulation 499 with respect to the watches covered by this order.

(d) *Tagging.* The importer shall include with every watch covered by this order delivered to a purchaser for resale after its effective date, a tag or label setting forth the maximum retail price of the particular watch. This tag or label must not be removed until the watch is sold to an ultimate consumer.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) Unless the context otherwise requires the definitions set forth in section 2 of Revised Maximum Price Regulation No. 499 shall apply to the terms used herein.

This order shall become effective October 5, 1945.

Issued this 4th day of October 1945.

CHESTER BOWLES,
Administrator.

AVAILABLE TRUCK CO.

ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 11 (c) of Revised Maximum Price Regulation 136; *It is ordered:*

(a) A reseller of Available motor trucks may sell, delivered at place of business, each Available motor truck, containing the chassis described in subparagraph (1) below at a price not to exceed the total of the suggested resale price in that subparagraph and the applicable charges in subparagraph (2) below (less the discounts the reseller had in effect on March 31, 1942):

(1) *Description.* Chassis, semi-trailer; with manufacturer's basic specifications and equipment identified as the following chassis models and including synthetic tire equipment of base tire sizes:

Chassis:	*Suggested resale price*
G-16	$1325.20
G-16-D	2596.45

(2) *Charges.* (i) A charge for extra, special, and optional equipment when sold as original equipment with the applicable chassis in subparagraph (1) above, which shall not exceed the reseller's invoiced cost (not in excess of the applicable maximum price); plus a percentage margin of 25% over net invoiced cost:

(ii) A charge for transportation which shall not exceed the charge Available Truck Company would make for the transportation of the trucks from the factory to the place of business of the reseller.

(iii) A charge equal to the charge made by the Available Truck Company in accordance with the method that the Available Truck Company had in effect on March 31, 1942, to cover federal taxes on tires and tubes and other federal excise taxes.

(iv) A charge equal to reseller's expense for payment of state and local taxes on the purchase, sale or delivery of the trucks;

(v) A charge equal to reseller's actual expense for handling and delivery.

(b) A reseller of Available motor trucks in any of the territories or possessions of the United States is authorized to sell the trucks described in paragraph (a) at a price not to exceed the maximum price established in that paragraph, to which it may add a sum equal to the expense incurred by or charged to it, for payment of territorial and insular taxes on the purchase, sale or introduction of the trucks; export premiums; boxing and crating for export purposes; marine and war risk insurance; and landing, wharfage and terminal operations.

(c) All requests not granted herein are denied.

(d) This order may be amended or revoked by the Administrator at any time.

NOTE: Where the manufacturer's invoice charge to the reseller is increased or decreased from the previous invoice charge because the manufacturer has a newly established price under section 8 of Revised Maximum Price Regulation 136, due to substantial changes in design, specifications or equipment of the truck, the reseller may add to its price under paragraph (a) or (b) the increase in price, plus its customary markup on such a cost increase, but in the case of a decrease in the price, the reseller must reduce its price under paragraph (a) or (b) by the amount of the decrease and its customary markup on such an amount.

This order shall become effective October 5, 1945.

Issued this 4th day of October 1945.

JAMES G. ROGERS, Jr.,
Acting Administrator.

PACKER BROS.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion accompanying this order, and pursuant to § 1358.102a of Maximum Price Regulation No. 260, as amended; *It is ordered*, That:

(a) Packer Brothers, 318 W 47th St., New York 19, N. Y., (hereinafter called "importer") and wholesalers and retailers may sell, offer to sell or deliver and any person may buy, offer to buy or receive each brand, frontmark and packing of the following imported cigars at the appropriate maximum list price and maximum retail price set forth below:

Brand	Frontmark	Packing	Maximum list price	Maximum retail price
			Per M	*Cents*
Bolivar	Aroma	50	$195.00	25
Belinda	Petit coronas in glass jars.	50	261.75	3 for $1
	Coronas in glass jars.	50	390.00	5
	Perfeccionados	25	203.00	2

(b) The importer and wholesalers shall grant, with respect to their sales of each brand and frontmark of imported cigars for which maximum prices are established by this order, the discounts they customarily granted during March 1942 on their sales of imported cigars of the same price class to purchasers of the same class, unless a change therein results in a lower price. Packing differentials charged by the importer or a wholesaler during March 1942 on sales of imported cigars of the same price class to puchasers of the same class may be charged on corresponding sales of each brand and frontmark of cigars priced by this order, but shall not be increased. Packing differentials allowed by the importer or a wholesaler during March 1942 on sales of imported cigars of the same price class to purchasers of the same class shall be allowed on corresponding sales of each brand and frontmark of cigars priced by this order and shall not be reduced. If a brand or frontmark of imported cigars for which maximum prices are established by this order is of a price class not sold by the importer or the particular wholesaler during March 1942, he shall, with respect to his sales thereof, grant the discounts and may charge and shall allow the packing differentials customarily granted, charged or allowed (as the case may be) during March 1942 by his most closely competitive seller of the same class on sales of imported cigars of the same price class to purchasers of the same class.

(c) On or before the first delivery to any purchaser of each brand and frontmark of imported cigars for which maximum prices are established by this order, the importer and every other seller (except a retailer) shall notify the purchaser of the maximum list price and the maximum retail price established by this order for such brand and frontmark of imported cigars. The notice shall conform to and be given in the manner prescribed by § 1358.113 of Maximum Price Regulation No. 260, as amended.

(d) Unless the context otherwise requires, the provisions of Maximum Price Regulation No. 260, as amended, shall apply to sales for which maximum prices are established by this order.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective October 5, 1945.

Issued this 4th day of October 1945.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-1072]

OGDEN CORP.

NOTICE OF FILING AND NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 3d day of October, A. D., 1945.

I. Notice is hereby given that a declaration pursuant to sections 6 (a) and 12 (c) of the Public Utility Holding Company Act of 1935 has been filed by Ogden Corporation ("Ogden"), a registered holding company.

All interested persons are referred to said declaration, which is on file in the office of the Commission, for a statement of the transactions therein proposed, which are summarized below:

Ogden proposes to reduce the par value of its common stock from $4 per share ($13,614,653) to 50 cents per share ($1,701,832) and to transfer the reduction of $11,912,821 to capital surplus. Ogden further proposes to distribute to its common stockholders a dividend of $3 per share in cash, aggregating $10,210,989.75, such distribution to be charged to earned surplus to the extent thereof ($368,127.85 as at March 31, 1945) and the remainder to capital surplus. It is stated that most of the cash necessary to pay the proposed dividend was realized by Ogden from the liquidation of its investments in The Laclede Gas Light Company and Laclede Power & Light Company.

II. Proceedings have heretofore been instituted by the Commission, and are pending, in respect of a plan filed by Ogden for the liquidation of Central States Utilities Corporation and Central States Power & Light Corporation, subsidiaries of Ogden (File Nos. 54-42, 54-69 and 59-65).

A proceeding is being instituted by the Commission concurrently herewith in respect of a plan of recapitalization filed by Interstate Power Company, a subsidiary of Ogden (File No. 54-130).

III. It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to the declaration filed by Ogden herein;

It is ordered, That a hearing in respect of this matter be held under the applicable provisions of the act and the rules of the Commission promulgated thereunder, on October 23, 1945 at 10:00 a. m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On that date, the hearing room clerk in Room 318 will advise as to the room in which the hearing will be held.

It is further ordered, That Willis E. Monty, or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That any person desiring to be heard in connection with the proceeding or proposing to intervene herein shall file with the Secretary of the Commission, on or before October 19, 1945, his request or application therefor, as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That, without limiting the scope of the issues presented by such declaration, particular attention will be directed at said hearing to the following matters and questions:

1. Whether the proposed reduction in the par value of the common stock of Ogden would be detrimental to the public interest or the interest of investors or consumers;

2. Whether the proposed payment by Ogden of all or any part of the proposed dividend would impair the financial integrity of Ogden or any of its subsidiary companies or the ability of Ogden to satisfy any valid claims which any of its subsidiary companies, or any of their security holders as such, may have against Ogden;

3. Whether the accounting entries proposed to be made in connection with the proposed reduction in capital and dividend payment are proper and in accordance with sound accounting principles;

4. What terms and conditions, if any, should be imposed in the public interest or for the protection of investors.

Notice is hereby given of said hearing to Ogden Corporation, Central States Utilities Corporation, Central States Power & Light Corporation and Interstate Power Company, and to all interested persons, said notice to be given to Ogden Corporation, Central States Utilities Corporation, Central States Power & Light Corporation and Interstate Power Company by registered mail, and to all other persons by a general release of this Commission which shall be distributed to the press and mailed to all persons on the mailing list for releases under the act and by publication in the FEDERAL REGISTER.

It is further ordered, That Ogden Corporation shall give additional notice of this hearing to all the security holders of Central States Utilities Corporation, Central States Power & Light Corporation and Interstate Power Company (insofar as the identity of such security holders is known or is available to Ogden) by mailing to each of said persons a copy of this notice and order at his last known address at least fifteen days prior to the date of hearing.

By the Commission.

NIAGARA HUDSON POWER CORP. ET AL.

NOTICE OF FILING AND NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 3d day of October 1945.

In the matter of Niagara Hudson Power Corporation, New York Power and Light Corporation, Union Bag & Paper Power Corporation; File No. 54-134.

Notice is hereby given that Niagara Hudson Power Corporation ("Niagara Hudson"), a subsidiary of The United Corporation, a registered holding company, New York Power and Light Corporation ("New York Power"), and Union Bag & Paper Power Corporation ("Union"), subsidiaries of Niagara Hudson, have filed a joint plan pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 for the purpose of effecting compliance with section 11 (b) of the act.

All interested persons are referred to said plan, on file in the office of this Commission, for a full statement of the transactions therein proposed, which are summarized as follows:

Niagara Hudson proposes to effectuate the merger of Union into New York Power and, in connection therewith, New York Power will issue 150,000 shares of its common stock, no par value, having an aggregate stated value of $4,256,740.72, to Niagara Hudson in exchange for all the outstanding capital stock of Union (consisting of 5,000 shares of no par value common stock having a stated value of $4,256,740.72).

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said plan and that said application shall not be granted except pursuant to further order of this Commission;

It is ordered, That a hearing under the applicable provisions of the act and rules promulgated thereunder be held on October 16, 1945, at 10:00 a. m., e. s. t., at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as the hearing room clerk in Room 318 will at that time advise. All persons desiring to be heard or otherwise wishing to participate in the proceedings shall file with the Commission on or before October 11, 1945 a written request relative thereto as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That William W. Swift, or any other officer or officers of the Commission designated by it for that purpose, shall preside at such hearing. The officer so designated is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That notice of said hearing be given to Niagara Hudson, New York Power and Union, and to all interested persons; said notice to be given to Niagara Hudson, New York Power, Union, and the Public Service Commission of the State of New York by registered mail, and to all other persons by publication of this notice and order in the FEDERAL REGISTER and by a general release of the Commission distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935.

It is further ordered, That, without limiting the scope of the issues presented by said application, particular attention will be directed at the hearing to the following matters and questions:

(1) Whether the proposed plan is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons affected thereby;

(2) Whether the proposed consideration to be received and paid in connection with the proposed sale and acquisition of the securities of Union is reasonable and bears a fair relation to the sum involved in or the earning capacity of the assets underlying the securities to be transferred.

(3) Whether the proposed acquisition by New York Power of common stock of Union and the subsequent merger of Union into New York Power will serve the public interest by tending toward the economical and efficient development of an integrated public utility system.

(4) Whether the accounting adjustments and entries proposed to be made in connection with the plan are proper and are in accordance with sound accounting principles and practice.

(5) Whether and to what extent it is necessary or appropriate in the public interest or for the protection of investors or consumers to impose terms and conditions in respect of the proposed transactions.

(6) Generally, whether in any respect the proposed transactions are detrimental to the public interest or to the interest of investors or consumers or will tend to contravene or circumvent any provisions of the act or of the rules and regulations promulgated thereunder.

By the Commission.

PENNSYLVANIA POWER AND LIGHT CO. ET AL.

SUPPLEMENTAL ORDER PERMITTING APPLICATION AND DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 3d day of October, A. D. 1945.

In the matter of Pennsylvania Power & Light Company, National Power & Light Company, and Electric Bond and Share Company; File No. 59-29. In the matter of Pennsylvania Power & Light Company, National Power & Light Company, and Electric Bond and Share Company; File No. 54-128. In the matter of Electric Bond and Share Company, National Power & Light Company, et al.; File No. 59-12. In the matter of Electric Bond and Share Company, National Power & Light Company, Pennsylvania Power & Light Company et al.; File No. 54-51; Application 10.

The Commission having on September 26, 1945, issued its order herein under the applicable sections of the Public Utility Holding Company Act of 1935 approving and permitting to become effective an application and declaration, as amended, of Pennsylvania Power & Light Company, an electric and gas utility company and a subsidiary of National Power & Light Company, a registered holding company, which in turn is a subsidiary of Electric Bond and Share Company, also a registered holding company, with respect to the issue and public sale by Pennsylvania Power & Light Company of $93,000,000 principal amount of First Mortgage Bonds —% Series, due 1975 and $27,000,000 principal amount of Sinking Fund Debentures, —% due 1965 in accordance with Rule U-50 (b) promulgated under said Act; and

The Commission in said order having reserved jurisdiction over the price to be paid for such bonds and debentures, their redemption prices, the interest rates thereon, the underwriters' spreads and their allocation, and all legal fees to be paid in connection with the proposed transactions; and

Pennsylvania Power & Light Company having filed a further amendment to said application and declaration stating that in accordance with the permission granted by said order of the Commission dated September 26, 1945, it offered said bonds for sale pursuant to the competitive bidding requirements of Rule U-50 and has received the following bids: [1]

Bidder	Percent of principal amount [1]	Interest rate	Cost to company
		Percent	
Smith, Barney & Co.----- The First Boston Corporation---------- Dillon, Read & Co., Inc.--- Halsey Stuart & Co., Inc...	$100.6599 100.4500	3 3	2.9666 2.9772

[1] Exclusive of accrued interest.

Said amendment further stating that Pennsylvania Power & Light Company has accepted the bid of the group headed by Smith, Barney & Co. for the bonds as set out above and that the bonds will be offered for sale to the public at a price of 101.375%, resulting in an underwriters' spread of .7151; and

The Commission having examined said amendment and having considered the record herein, and finding no reasons for imposing terms or conditions with respect to the price to be paid for said bonds, the redemption prices therefor, the interest rate thereon and the underwriters' spread and its allocation:

It is ordered, That jurisdiction heretofore reserved over the price to be paid for said bonds, the redemption prices therefor, the interest rate thereon, and the underwriters' spread and its allocation be, and the same hereby is, released and that the said application and declaration as further amended, be, and the same hereby is, approved and permitted to become effective forthwith subject, however, to the terms and conditions prescribed in Rule U-24; and

It is further ordered, That jurisdiction heretofore reserved over the price to be paid for the Sinking Fund debentures —%, due 1965, the redemption prices therefor, the interest rate thereon, and the underwriters spread and allocation in connection therewith and over all legal fees in connection with all of the transactions approved in our order of September 26, 1945 be, and the same hereby is, continued.

By the Commission.

CENTRAL NEW YORK POWER CORP.

NOTICE REGARDING FILING OF POST-EFFECTIVE AMENDMENT

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 3d day of October 1945.

Notice is hereby given that a post-effective amendment to a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Central New York Power Corporation, a public-utility subsidiary of Niagara Hudson Power Corporation and of The United Corporation, a registered holding company.

Notice is further given that any interested person may, not later than October 11, 1945, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such post-effective amendment, as filed, or as amended, may become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commision may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said post-effective amendment, which is on file in the office of the Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

By order dated April 23, 1945 (Holding Company Act Release No. 5753), as modified by order dated June 6, 1945 (Holding Company Act Release No. 5852) permitting a declaration, as amended and as modified, to become effective, the Commission, among other things, authorized Central New York Power Corporation to purchase on the open market from time to time during the period not to exceed one year from the date of the latter order, an aggregate of $1,000,000 principal amount of its outstanding non-callable Utica Gas and Electric Company Refunding and Extension Mortgage, 5% Fifty-year Bonds, due July 1, 1957, at prices not to exceed 135% of the principal amount thereof. Said purchases having been made, Central New York Power Corporation now proposes to purchase in the open market from time to time during a period not to exceed one year from the date of authorization sought herein an additional $1,000,000 principal amount of Utica Gas and Electric Company Refunding and Extension Mortgage, 5% Fifty-year Bonds, due July 1, 1957, at prices not to exceed 135% of the principal amount thereof.

By the Commission.

ASSOCIATED GAS AND ELECTRIC CO. ET AL.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 3d day of October 1945.

In the matter of Stanley Clarke, trustee of Associated Gas and Electric Company, Denis J. Driscoll and Willard L. Thorp, trustees of Associated Gas and Electric Corporation, Associated Electric Company, NY PA NJ Utilities Company; File No. 70-1147.

Notice is hereby given that an application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("the Act") by Stanley Clarke, Trustee of Associated Gas and Electric Company ("Ageco"), and Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation ("Agecorp"), both Ageco and Agecorp being in reorganization under Chapter X of the Bankruptcy Act, and two of their subsidiary holding companies, Associated Electric Company ("Aelec") and NY PA NJ Utilities Company ("NY PA NJ"); each of the above named companies is a registered holding company.

All interested persons are referred to said document which is on file in the office of the Commission for a statement of the transactions therein proposed, which may be summarized as follows:

Aelec, for itself and its subsidiaries (all of which have assigned their claims to Aelec), has asserted claims against its parent companies, Ageco and Agecorp, based upon allegedly illegal or wrongful actions of such parent companies prior to the appointment of Trustees by the reorganization court.

In accordance with an agreement of settlement and compromise approved by the District Court having jurisdiction over the reorganization proceeding, it is proposed that Aelec's claims against the estates of Ageco and Agecorp be compromised and settled in the following manner:

(a) Aelec will be allowed an unsecured claim against the joint estates of Ageco and Agecorp in the sum of $5,000,000, which will entitle Aelec to receive, under the joint plan of reorganization dated June 14, 1943, as amended, and as approved by this Commission and the United States District Court having jurisdiction over the reorganization proceedings, 107,000 shares of common stock of General Public Utilities Corporation, the company to emerge as the surviving company under the joint plan of reorganization. Under said plan such shares will be pledged with Guaranty Trust Company of New York as security for the outstanding bonds of Aelec.

(b) Agecorp will deliver to Aelec for cancellation 250,000 shares of Aelec's outstanding common stock (of which there are 650,000 shares, all now owned by Agecorp). Aelec will thereupon reduce its capital from $35,000,000 to $21,500,000.

(c) Agecorp will deliver or cause to be delivered to Aelec 166,600 shares, being all the outstanding shares, of common stock of Pennsylvania Edison Company.

Such 166,600 shares of Pennsylvania Edison Company common stock are now owned by NY PA NJ, all the outstanding securities of which are owned by Agecorp; NY PA NJ proposes to deliver such shares to Agecorp either (i) as a payment on account of NY PA NJ's indebtedness to Agecorp or (ii) in the event that the indebtedness of NY PA NJ to Agecorp shall have been cancelled prior to the delivery of such shares then as a dividend payable out of capital surplus of NY PA NJ.

The agreement under which it is proposed to deliver 107,000 shares of common stock of the surviving company further provides that such company is granted an option, for 90 days from the date of the release of such shares from the pledge to secure the Aelec bonds, to purchase such shares or any part thereof. The price to be paid per share is to be determined in accordance with a certain formula relating to the conversion price of new debentures of the surviving company.

The said application-declaration contains a request that the Commission enter an order reciting that the carrying out of the proposed transactions is necessary to effectuate the provisions of section 11 (b) of the act, and that such order conform to the definition of the term "order of the Securities and Exchange Commission" contained in section 373 (a) and contain the recitals, specifications and itemizations required by section 1808 (f) of the Internal Revenue Code, as amended; and

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to such matters:

It is ordered, That a hearing on such matters under the applicable provisions of the act and the rules of the Commission thereunder be held on November 5, 1945 at 11:00 a. m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held.

It is further ordered, That Willis E. Monty, or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order to the Public Utility Commission of the Commonwealth of Pennsylvania and to the applicants-declarants; and that notice of said hearing be given to all other persons by publication of this order in the FEDERAL REGISTER. Any person desiring to be heard or otherwise wishing to participate in said proceeding shall file with the Secretary of the Commission, on or before November 2, 1945, his request or application therefor, as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said application or declaration, particular attention will be directed at said hearing to the following matters and questions:

1. Whether the proposed transactions are in the public interest and in the interest of investors and consumers.

2. Whether the proposed acquisition by Associated Electric Company of the common stocks of the surviving company (General Public Utilities Corporation) and Pennsylvania Edison Company comply with the provisions of section 10 of the act.

3. Whether the proposed transactions are necessary or appropriate to effectuate the provisions of section 11 (b) of the act.

4. The propriety of the accounting treatment to reflect the proposed transactions on the books of the applicants-declarants.

5. Whether, and to what extent, it is necessary or appropriate in the public interest to impose terms or conditions in regard to the accounts or capital structure of Pennsylvania Edison Company, or otherwise in regard to the proposed transactions.

6. Whether, in all other respects, the proposed transactions comply with all the applicable provisions and requirements of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder.

By the Commission.

VOLUME 10 NUMBER 198

Washington, Tuesday, October 9, 1945

The President

EXECUTIVE ORDER 9640

CREATING AN EMERGENCY BOARD TO INVESTIGATE THE DISPUTES BETWEEN THE RAILWAY EXPRESS AGENCY, INC., AND CERTAIN OF ITS EMPLOYEES

WHEREAS disputes exist between the Railway Express Agency, Inc., the carrier, and certain of its employees represented by the International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America, a labor organization; and

WHEREAS, these disputes have not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS, these disputes, in the judgment of the National Mediation Board, threaten substantially to interrupt interstate commerce to a degree such as to deprive a large section of the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by section 10 of the Railway Labor Act, as amended (45 U.S.C. 160), I hereby create a board of three members, to be appointed by me, to investigate said disputes. No member of the said board shall be pecuniarily or otherwise interested in any organization of railway employees or any carrier.

The board shall report its findings to the President with respect to the said disputes within thirty days from the date of this order.

As provided by section 10 of the Railway Labor Act, as amended, from this date and for thirty days after the board has made its report to the President, no change, except by agreement, shall be made by the Railway Express Agency, Inc. or their employees in the conditions out of which the said disputes arose.

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices)

PART 161—REGULATIONS FOR THE ENFORCEMENT OF THE INSECTICIDE ACT OF 1910

REDESIGNATION OF OFFICERS AND AGENCY

Pursuant to the authority vested in the Secretary of the Treasury, the Secretary of Agriculture, and the Secretary of Commerce, by section 3 of the Insecticide Act of 1910 (36 Stat. 331, as amended; 7 U.S.C. 127), the following amendments to the regulations appearing in Title 7, Chapter I, Part 161, Code of Federal Regulations (7 CFR Cum. Supp. 161) are promulgated.

1. Section 161.2 (c) is amended to read as follows:

(c) "Administrator" means the Assistant Administrator for Regulatory and Market Service matters, Production and Marketing Administration, United States Department of Agriculture, or any officer or employee of that administration to whom he has heretofore lawfully delegated or to whom he may hereafter lawfully delegate the authority to act in his stead.

2. Section 161.2 is amended by adding after paragraph (i) thereof, the following:

(j) "Production and Marketing Administration" means the Production and Marketing Administration, United States Department of Agriculture.

3. Wherever the words "Agricultural Marketing Administration" appear in Part 161, they are deleted and the words "Production and Marketing Administration" are substituted therefor.

Done at Washington, D. C., this 2d day of October 1945.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

PART 2—RULES OF PRACTICE

TRIAL EXAMINER'S REPORT; EXCEPTIONS

The Commission, on October 2, 1945, amended § 2.20 (Trial examiner's report), and § 2.21 (Exceptions), so that said rules shall read as follows, effective as of July 1, 1945.

NOTE: In §§ 2.20 and 2.21, the numbers to the right of the decimal point correspond with the Roman numbers XX and XXI in the Rules of Practice, Federal Trade Commission, July 1, 1945.

§ 2.20 *Trial examiner's report.* The trial examiner shall, as soon as practicable and not later than thirty (30) days after receipt by him of the complete stenographic transcript of all testimony and all exhibits in the proceeding, make his report upon the facts, conclusions of fact, conclusions of law, and recommendations for appropriate action by the Commission.

A copy of such report shall forthwith be served upon each attorney for the Commission, upon each attorney for respondents, and upon each respondent not represented by counsel.

The trial examiner's report is not a report or finding of the Commission. Such report is advisory only and is not binding upon the Commission.

§ 2.21 *Exceptions.* Any respondent and the Commission's attorney may, within ten (10) days after receipt of a copy of the trial examiner's report, file exceptions to his report upon the facts, conclusions of fact, conclusions of law, and recommendation. Exceptions to his report upon the facts shall specify the particular items to which exception is taken, and shall designate by exact and specific reference the portions of the record which will be relied upon in support of such exceptions. Exceptions to conclusions of law shall briefly cite the statutory provisions or the principal authorities that will be relied upon in support of the exceptions to the conclusions of law. The exceptions shall include any additional facts, with supporting citations to the record, which the person filing the exception may deem material.

Seven (7) copies of the exceptions, the original signed in ink, shall be filed.

A copy of such exceptions shall forthwith be served upon each of the other attorneys and respondents who were served with a copy of the trial examiner's report.

If exceptions are to be argued orally, they shall be argued at the time of final argument upon the merits.

Promulgated as of this date in pursuance of the action of the Federal Trade Commission under the date of October 2, 1945, effective as of July 1, 1945.

(Sec. 6, 38 Stat. 721; 15 U.S.C. sec. 46)

By direction of the Commission.

OTIS B. JOHNSON,
Secretary.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

JULIUS C. SCHWARZ, ET AL.

§ 3.69 (a) *Misrepresenting oneself and goods—Business status, advantages or connections—Connections and arrangements with others:* § 3.69 (b) *Misrepresenting oneself and goods—Goods—Manufacture or preparation:* § 3.69 (b) *Misrepresenting oneself and goods—Goods—Nature:* § 3.72 (m 15) *Offering deceptive inducements to purchase or deal—Sales for non-commercial recipients or objectives:* § 3.96 (a) *Using misleading name—Goods—Source or origin—Maker.* In connection with the offering for sale, sale, and distribution of books of biographical reference or other similar publications in commerce, (1) using the term "Who's Who" in the title of any book of biographical reference; or representing in any other manner that the respondents are associated or connected with the publishers of "Who's Who in America" or that their publications are edited or compiled with the same accuracy, reliability, and selectivity as that used by the publishers of "Who's Who in America"; (2) representing, directly or by implication that respondents' books of biographical reference are designed to, or intended to, promote inter-American or international relationship; or (3) representing as an authoritative book of biographical reference any publication where the inclusion of the biography of any individual therein is dependent upon the purchase of, or agreement to purchase, such publication; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, Julius C. Schwarz, et al., Docket 5108, September 7, 1945]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 7th day of September, A. D. 1945.

In the Matter of Julius C. Schwarz, Freda Schwarz, and Rubin Rocker, Individuals, and W. W. in the Western Hemisphere, Inc., a Corporation

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, answers of the respondents, testimony and other evidence in support of the complaint and in opposition thereto taken before trial examiners of the Commission theretofore duly designated by it, report of Trial Examiner George Biddle upon the evidence and exceptions filed thereto, and brief filed in support of the complaint; and the Commission having made its findings as to the facts and its conclusion that the respondents, Julius C. Schwarz and Freda Schwarz (named in the complaint, respectively, as Julius C. Schwartz and Freda Schwartz) and Rubin Rocker, individuals, and W. W. in the Western Hemisphere, Inc., a corporation, having violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondents Julius C. Schwarz, Freda Schwarz, and Rubin Rocker, individuals, and respondent W. W. in the Western Hemisphere, Inc., a corporation, and its officers, and their respective representatives, agents, and employees, directly or indirectly through any corporate or other device or in any other manner in connection with the offering for sale, sale, and distribution of books of biographical reference or other similar publications in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the term "Who's Who" in the title of any book of biographical reference; or representing in any other manner that the respondents are associated or connected with the publishers of "Who's Who in America" or that their publications are edited or compiled with the same accuracy, reliability, and selectivity as that used by the publishers of "Who's Who in America."

2. Representing directly or by implication that respondents' books of biographical reference are designed to, or intended to, promote inter-American or international relationship.

3. Representing as an authoritive book of biographical reference any publication where the inclusion of the biography of any individual therein is dependent upon the purchase of, or agreement to purchase, such publication.

It is further ordered, That the respondent shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

Subchapter B—The Foreign Service

[Foreign Service Reg. S-12]

PART 122—VISAS FOR ALIENS

Pursuant to the authority vested in me by R. S. 161 (5 U.S.C. 22); by Executive Order 9452 of June 26, 1944 (3 CFR, 1944 Supp. 66), as amended by Executive Order 9514 of January 18, 1945 (10 F.R. 771); and by Executive Order 9521 of February 13, 1945 (10 F.R. 1991), sections 1 and 2 of this regulation are prescribed to constitute Chapter XXII of the Foreign Service Regulations in place of sections XXII-1 and XXII-3 of the Foreign Service Regulations (Title 22, Cum. Supp., Part 122, §§ 122.1 and 122.3 of the Code of Federal Regulations of the United States).

§ 122.1 *Duties of officers of the Foreign Service in connection with the enforcement of immigration laws.* Officers of the Foreign Service, except consular agents, shall familiarize themselves with the existing laws and regulations on the subject of immigration and visas, including the regulations issued by the Attorney General, the Commissioner of Immigration and Naturalization, or other officials acting in the name of the President, and shall perform duties required of them by the immigration laws or by the regulations issued thereunder. They shall submit reports to the Department on any actual, attempted, or suspected violation of the immigration laws or regulations and in an emergency may also suitably inform the appropriate immigration officials directly.

§ 122.2 *Granting of diplomatic visas.* Diplomatic visas may be granted abroad under such rules and regulations as the Secretary of State may prescribe.

In accordance with Executive Order 9521 of February 13, 1945 (10 F.R. 1991), it is determined that the subject-matter of that part of Executive Order 8400 of April 29, 1940, establishing sections 1 and 3 of Chapter XXII of the Foreign Service Regulations of the United States of America (Title 22, Cum. Supp., Part 122, §§ 122.1 and 122.3 of the Code of Federal Regulations of the United States), and the subject-matter of Executive Order 8535 of September 6, 1940, amending section 1 of Chapter XXII of the Foreign Service Regulations of the United States of America (Title 22, Cum. Supp., Part 122, § 122.1 of the Code of Federal Regulations of the United States) are covered by the present regulation which is designed and intended to supersede the above-mentioned parts of Executive Order 8400 and the above-mentioned Executive Order 8535. In consequence whereof said parts of Executive Order 8400 and said Executive Order 8535 have no further force and effect.

This regulation shall become effective immediately upon registration in the Division of the Federal Register, National Archives.

For the Secretary of State.

[SEAL] FRANK MCCARTHY,
Assistant Secretary.

TITLE 29—LABOR

Chapter IX—Department of Agriculture (Agricultural Labor)

[Supp. 86]

PART 1120—SALARIES AND WAGES OF AGRICULTURAL LABOR IN THE STATE OF NORTH DAKOTA

WORKERS ENGAGED IN HARVESTING POTATOES IN CERTAIN NORTH DAKOTA COUNTIES

§ 1120.1 *Workers engaged in harvesting potatoes in Pembina, Walsh, Steele, Grand Forks, Trail, Cass, and Cavalier Counties, State of North Dakota.* Pursuant to § 4001.7 of the regulations of the Economic Stabilization Director relating to salaries and wages issued August 28, 1943, as amended (8 F.R. 11960, 12139, 16702; 9 F.R. 6035, 14547; 10 F.R. 9478, 9628) and to the regulations of the War Food Administrator issued March 23, 1945 (10 F.R. 3177) entitled "Specific Wage Ceiling Regulations" and based upon a certification of the North Dakota USDA Wage Board that a majority of the producers of potatoes in the area affected participating in hearings conducted for such purpose have requested the intervention of the Secretary of Agriculture, and based upon relevant facts submitted by the North Dakota USDA Wage Board and obtained from other sources, it is hereby determined that:

(a) *Areas, crops and classes of workers.* Persons engaged in harvesting potatoes in Pembina, Walsh, Steele, Grand Forks, Trail, Cass, and Cavalier Counties, State of North Dakota, are agricultural labor as defined in § 4000.1 (1) of the regulations of the Economic Stabilization Director issued on August 28, 1943, as amended 8 F.R. 11960, 12139, 16702; 9 F.R. 6035, 14547; 10 F.R. 9478, 9628).

(b) *Maximum wage rates for harvesting potatoes.* (1) Maximum wages for picking potatoes—10 cents per 75- to 80-pound bag when board is not furnished, and 8 cents when board is furnished.

(2) Maximum wages for loading—$1.25 per hour.

(3) Maximum wages for driving truck or potato digger—$1 per hour.

(c) *Administration.* The North Dakota USDA Wage Board, the address of which shall be North Dakota USDA Wage Board, % E. J. Haslerud, Chairman, Extension Service, State College Station, Fargo, North Dakota, will have charge of the administration of this section in accordance with the provisions of the specific wage ceiling regulations issued by the War Food Administrator on March 23, 1945 (10 F.R. 3177).

(d) *Applicability of specific wage ceiling regulations.* This section shall be deemed to be a part of the specific wage ceiling regulations issued by the War Food Administrator on March 23, 1945 (10 F.R. 3177) and the provisions of such regulations shall be applicable to this section and any violation of this section shall constitute a violation of such specific wage ceiling regulations.

(e) *Effective date.* This Supplement No. 86 shall become effective at 12:01 a. m., Central Standard Time, October 5, 1945.

TITLE 30—MINERAL RESOURCES

Chapter VI—Solid Fuels Administration for War

PART 602—GENERAL ORDERS AND DIRECTIVES

DIRECTION TO PERSONS SHIPPING COAL PRODUCED IN DISTRICT NO. 1

The following direction is issued:

Pursuant to Executive Order No. 9332 (8 F. R. 5355), SFAW Regulation No. 1 (8 F.R. 5832; 8 F.R. 16320; 10 F.R. 1724), and effective forthwith, all persons shipping bituminous coal produced in District No. 1 intended or destined for export are prohibited until further notice from making such shipments without special permit from SFAW. Pending further notice, the operation of any permit or authorization heretofore granted pursuant to SFAW Regulation No. 31 (10 F.R. 8538; 10 F.R. 11154; 10 F.R. 11739) is suspended. Applications for special emergency permits under this general notice of direction shall be filed with the SFAW Area Distribution Manager for District No. 1 and must state all pertinent facts necessary to enable SFAW to determine whether or not such coal should, in view of the emergency occasioned by widespread work stoppages in the coal mines, be retained within the United States.

Issued this 4th day of October 1945.

C. J. POTTER,
Deputy Solid Fuels Administrator for War.

PART 602—GENERAL ORDERS AND DIRECTIVES

DIRECTION SENT TO CERTAIN PRODUCERS IN DISTRICT NO. 1

The following direction has been sent to certain coal producers in District No. 1:

Pursuant to Executive Order No. 9332, SFAW Regulation No. 1, and effective forthwith, you are prohibited until further notice from supplying or shipping by rail or water from any mine, preparation plant, or railroad scales bituminous coal produced in District No. 1 to any person or for any use except the following: (1) Hospitals; (2) public utilities (as defined in Regulation No. 27); (3) railroads; (4) commercial dock operators on Great Lakes, tidewater or river; (5) vessel or bunker fuel, and colliery fuel. You are directed to hold on track maximum number no-bills. If compliance with this direction tends to curtail production or cause undue hardship, Area Distribution Manager authorized to give consignments by telephone and confirm in writing.

Issued this 4th day of October 1945.

C. J. POTTER,
Deputy Solid Fuels Administrator for War.

TITLE 32—NATIONAL DEFENSE

Chapter III—Bureau of Mines

PART 303—GENERAL LICENSE PERTAINING TO EXPLOSIVES AND INGREDIENTS

§ 303.8 *General License No. 8 pertaining to explosives and ingredients.* A general license is hereby granted under the Federal Explosives Act of December 26, 1941 (55 Stat. 863), as amended, to any person as defined in the act and regulations, who is not otherwise prohibited by law or by regulation or by proclamation of the War Department, the Attorney General, or any other Federal agency from doing so, to manufacture, distribute, possess, purchase, accept, receive, acquire, store, sell, issue, or otherwise dispose of and use explosives

and ingredients, as defined in the act and regulations.

This general license relieves persons covered by it from the duty of applying for and securing licenses under the Federal Explosives Act and the regulations.

The authority of licensing agents under the Federal Explosives Act and regulations to issue licenses is hereby suspended until this general license shall have expired.

This general license shall expire when revoked by the Director of the Bureau of Mines or when the Federal Explosives Act and the regulations are of no further force or effect, whichever happens first.

R. R. SAYERS,
Director.

The foregoing license as amended is approved, and all regulations inconsistent therewith are waived.

Chapter IX—War Production Board

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; E.O. 9599, 10 F.R. 10155; W.P.B. Reg. 1 as amended Dec. 31, 1943, 9 F.R. 64.

PART 1001—TIN

[General Preference Order M-43, Direction 3]

ALLOCATION OF PIG TIN FOR FLUID MILK SHIPPING CONTAINERS

The following direction is issued pursuant to M-43:

Notwithstanding the provisions of General Preference Order M-43 and Schedule 1 of that order during the calendar quarter starting October 1, 1945 and in each calendar quarter after that, no person shall use any pig tin in the production of fluid milk shipping containers except as specifically authorized by letter from the War Production Board. Each person who wants to use pig tin for that purpose after October 1, 1945 should apply by filing a letter with the War Production Board, stating how much pig tin he wishes to use in each calendar quarter from October 1, 1945 through June 30, 1946. He should also state the amount of pig tin which he has used in the production of fluid milk shipping containers during the period July 1, 1945 through September 30, 1945. In general, authorizations will be issued so that each applicant will be permitted to use during the 3 calendar quarters between July 1, 1945 and June 30, 1946, an amount proportional to the applicant's average usage of pig tin for this purpose during the years 1938 through 1941 less the amount used in the third calendar quarter of 1945.

In general, the War Production Board authorizations will establish quarterly quotas in proportion to the amounts requested for each quarter. The total amount of pig tin which will be authorized under this direction is limited. Applicants who did not use pig tin in the production of fluid milk containers during the years 1938 through 1941 (including persons who were not in business at that time) may nevertheless apply and their applications will be considered on an equitable basis.

Issued this 5th day of October 1945.

PART 1001—TIN

[General Preference Order M-43, Direction 4]

ALLOCATION OF PIG TIN FOR BRASS MILL PRODUCTS

The following direction is issued pursuant to M-43:

(a) Notwithstanding provisions of General Preference Order M-43 or Schedule IV to that order, no manufacturer of brass mill products shall use any pig tin in the production of brass mill products except as authorized in this direction.

(b) The companies listed in this paragraph are authorized to use the quantities of tin in the production of brass mill products, listed opposite their names, during the period July 1, 1945 through December 31, 1945. Any quantities of pig tin already used by any of the listed companies since July 1, 1945 must be deducted from the quantities listed in determining the amount which may be used during the balance of the six month period.

PART 3281—PULP AND PAPER

[Order M-241, as Amended Oct. 5, 1945]

PAPER AND PAPERBOARD

General Conservation Order M-241 is amended to read as follows:

§ 3281.63 *General Conservation Order M-241*—(a) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time, except to the extent of any inconsistency, in which event the provisions of this order shall govern.

(b) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(2) "Produce" and "manufacture" mean and include all making and finishing operations prior to packing or packaging.

(3) "Finished production" means paper or paperboard ready for packing or packaging.

(4) "Grade" means any kind of paper or paperboard for which a caption or subcaption is provided in Form WPB-514 or any particular grade even though not specifically mentioned within such kind. Also included are all the coated papers not mentioned by captions but for which any captioned grade or item thereunder is used as a base stock.

Paper and paperboard under the following WPB-514 Captions in the table immediately following are specifically excluded from this order.

TABLE I

Type	*WPB-514 caption*
Container board	210000 through 219000.
Paperboard	220000 through 269000 (except 240000 through 249000, 253000 and "Sanitary food container" 224001 through 224005, 224008 and 261200, 261300, 262000).
Building boards	261200, 261300 and 262000.
Asbestos and asbestos filled paper	123000.

(5) "Paper merchant" means a person principally engaged in the business of buying and reselling paper and paperboard.

(c) *Reserve production.* (1) (i) Each manufacturer shall reserve in his total overall production of paper and paperboard for the month of October 1945, and for each calendar month thereafter time and supplies sufficient to produce and deliver within such month 20% of either his total production or his production of a stated "grade" or "class". The War Production Board may from time to time change such percentage and apply percentages to other grades or combinations, by notice in writing to each manufacturer or by publication in the FEDERAL REGISTER.

(ii) When production is reserved by applying a percentage to a "Class", the production of such "Class" for which the manufacturer is obligated shall be determined by applying the percentage to the average monthly production of such class which the manufacturer has, by record, reported for his most recent three calendar months on Form WPB-514.

(iii) On or before the 15th day of any month, the War Production Board may direct any manufacturer to employ his reserve production for any month to produce any grade of paper or paperboard which such manufacturer is qualified to produce and in any quantity not exceeding the percentage of his production designated for such month by the War Production Board less his tonnage credit current at the time against such month's reserve production under the provisions of paragraph (c) (3). Similar directions may be issued by the War Production Board after the 15th day of any month under paragraph (c) (2) (ii). The War Production Board may require the manufacturer to sell and deliver such tonnage to any person it may name. The manufacturer may refuse to so produce, sell, or deliver such reserve production only for the reasons specified for the refusal of rated orders in § 944.2 of Priorities Regulation No. 1.

(2) (i) If, on or before the 15th day of any month in which production is reserved, the manufacturer does not receive from the War Production Board directions as to the disposition of all production reserved in such month, he may employ, subject to the provisions of paragraph (c) 2 (ii) below, the production for which no directions have been received as he may desire consistent with the provisions of this and other orders of the War Production Board.

(ii) If, as of record with the War Production Board on the 15th day of any month, a manufacturer of paper or paperboard has not been credited with accepting voluntarily or by directive from the War Production Board an order or orders for paper and paperboard to be delivered directly or through another person to the Armed Forces (i. e., the first two procurement activities listed in paragraph (c) (4)) from his production in such month in a total amount equal to 30% of his reserve production by type, the manufacturer shall continue to be obligated for such month until the close of the fourth calendar day prior to the first day of the next succeeding month, for that portion of such percentage of his reserve production for which he has accepted no orders for delivery to the Armed Forces.

(3) (i) *Credit for directed tonnage.* Should the War Production Board direct a manufacturer of paper or paperboard to accept an order to be shipped from his reserve production, the reserve production for which such manufacturer is obligated shall be reduced (except as provided in the paragraph immediately following) by the tonnage specified in such directive, and such reduction concurrently recorded to such manufacturer's credit on the records of the War Production Board.

(ii) *When directed tonnage is not credited.* Credit against the reserve production obligations of a manufacturer is not given for the tonnage specified in a directive when the following conditions prevail:

(a) Any one of the first two procurement activities (the Armed Forces) requests a qualified manufacturer to bid on a contract or accept a purchase order from such activity, and

(b) The manufacturer fails to bid on the contract or refuses to voluntarily accept the purchase order, and

(c) The War Production Board records on the acceptance of contracts and purchase orders by such manufacturer against his reserve production show that the acceptance of such contract or part thereof or such purchase order at the time the request was issued would not have caused him to produce more tonnage in any month than his reserve production obligations for such month, and

(d) Because of such failure to bid on the contract or refusal to accept the purchase order, a directive is issued to the manufacturer by the War Production Board.

(iii) Any manufacturer who has accepted, directly or through another person, an order or orders for paper or paperboard to be produced for the account of any activity or use listed in paragraph (c) (4), shall immediately report such acceptance in triplicate on Form WPB-3270 and thereafter shall immediately report to the War Production Board on such form any change requested by the purchaser in any previously reported order or orders, if such change involves cancellation, or a change in quantity or in the month of manufacture. When the proper order or orders or requested changes reported on Form WPB-3270 have been correctly reported to the War Production Board, the manufacturer will be notified accordingly and credit against the manufacturer's reserve production will be recorded, subject to the provisions of paragraph (c) (2) (ii). Thereafter the manufacturer shall produce such orders according to his schedule as so reported to the War Production Board. (The reporting requirements of this paragraph have been approved by the Bureau of the Budget, pursuant to the Federal Reports Act of 1942.)

(4) Procurement activities:

(1R) United States Army, including the Army Map Service, and Army Air Forces.

(2R) United States Navy, including the Bureau of Aeronautics, Marine Corps, and Coast Guard.

(3R) United States Maritime Commission and War Shipping Administration.

(4R) Veterans Administration.

(5R) United States Government Printing Office.

(6R) United States Bureau of Engraving and Printing.

(7R) United States Post Office.

(8R) Procurement Division of United States Treasury excluding Foreign Economic Administration.

(9R) Producers of products, or parts thereof, for the procurement activities listed above, to the extent that the primary paper or paperboard is to be used exclusively as a component part of the product or part thereof, or is to be used exclusively for the necessary packaging of the product or part thereof, to be delivered on a contract or purchase order for such activity (report Dept. Order No. and name of converter or user).

(10R) The Treasury Procurement Division purchasing for the Foreign Economic Administration to the extent that such orders conform to quantities and types determined by the War Production Board and screened by F. E. A. as indicated by an identifying number preceded by the initials F. E. A., and are accepted by the mills for delivery prior to Jan. 15, 1946.

(d) *Restrictions on inventory.* Unless specifically authorized by the War Production Board:

(1) *Consumers Inventories except those covered by Order L-240.* No person shall knowingly deliver to any person except a paper merchant, and no person except a paper merchant shall accept delivery of, any quantity of paper or paperboard if such person's total inventory is, or will by virtue of such delivery become, in excess of the greater of (a) 50 tons or (b) 90 calendar days supply calculated either on the basis of his average rate of consuming such paper and paperboard during the latest preceding 3 full calendar months or as projected for the next ensuing 3 full calendar months.

(2) *Merchant's inventories.* No paper merchant shall accept delivery of, and no person shall knowingly deliver to a paper merchant, any quantity of paper or paperboard for his warehouse stock, if the dollar inventory value, as determined by customary accounting practice, of all paper and paperboard (excluding that which has been sold to and paid for by another person) in the merchant's store and warehouses exceeds, or by virtue of such delivery will exceed the greater of (a) $25,000.00 or (b) 50% of the total merchant cost price of the merchant's total dollar sales from his store and warehouse inventory during the first six months of 1944. Each affiliate, subsidiary, or branch, is to be considered individually in applying the provisions of this paragraph.

(3) *Mill inventories.* "Mill inventory" means all paper and paperboard other than that produced or being produced for prompt shipment against a definite order.

No person shall produce at any mill any quantity of paper or paperboard, if his total inventory at such mill is, or will by virtue of such production become, in excess of the greater of (a) 50 tons, or (b) 90 calendar days' supply on the basis of the average rate of shipment of paper or paperboard from such mill during the latest preceding three full calendar months.

(4) *Previous inventory authorizations for paper or paperboard.* Any specific written inventory authorization, exceptions or grants of appeal for paper or paperboard remain in effect according to their terms unless individually modified or revoked and a person who has been granted such authorization, exception or appeal may accept delivery of paper or paperboard to the extent permitted by his authorization, exception or appeal without regard to the provisions of this paragraph.

the average monthly production of such class which the manufacturer has, by record, reported for his most recent three calendar months on Form WPB–514.

(iii) On or before the 15th day of any month, the War Production Board may direct any manufacturer to employ his reserve production for any month to produce any grade of paper or paperboard which such manufacturer is qualified to produce and in any quantity not exceeding the percentage of his production designated for such month by the War Production Board less his tonnage credit current at the time against such month's reserve production under the provisions of paragraph (c) (3). Similar directions may be issued by the War Production Board after the 15th day of any month under paragraph (c) (2) (ii). The War Production Board may require the manufacturer to sell and deliver such tonnage to any person it may name. The manufacturer may refuse to so produce, sell, or deliver such reserve production only for the reasons specified for the refusal of rated orders in § 944.2 of Priorities Regulation No. 1.

(2) (i) If, on or before the 15th day of any month in which production is reserved, the manufaturer does not receive from the War Production Board directions as to the disposition of all production reserved in such month, he may employ, subject to the provisions of paragraph (c) 2 (ii) below, the production for which no directions have been received as he may desire consistent with the provisions of this and other orders of the War Production Board.

(ii) If, as of record with the War Production Board on the 15th day of any month, a manufacturer of paper or paperboard has not been credited with accepting voluntarily or by directive from the War Production Board an order or orders for paper and paperboard to be delivered directly or through another person to the Armed Forces (i. e., the first two procurement activities listed in paragraph (c) (4)) from his production in such month in a total amount equal to 30% of his reserve production by tonnage in any month, and

(a) Any one of the first two procurement activities (the Armed Forces) requests a qualified manufacturer to bid on a contract or accept a purchase order from such activity, and

(b) The manufacturer fails to bid on the contract or refuses to voluntarily accept the purchase order, and

(c) The War Production Board records on the acceptance of contracts and purchase orders by such manufacturer against his reserve production show that the acceptance of such contract or part thereof or such purchase order at the time the request was issued would not have caused him to produce more tonnage in any month than his reserve production obligations for such month, and

(d) Because of such failure to bid on the contract or refusal to accept the purchase order, a directive is issued to the manufacturer by the War Production Board.

(iii) Any manufacturer who has accepted, directly or through another person, an order or orders for paper or paperboard to be produced for the account of any activity or use listed in paragraph (c) (4), shall immediately report such acceptance in triplicate on Form WPB–3270 and thereafter shall immediately report to the War Production Board on such form any change requested by the purchaser in any previously reported order or orders, if such change involves cancellation, or a change in quantity or in the month of manufacture. When the proper order or orders or requested changes reported on Form WPB–3270 have been correctly reported to the War Production Board, the manufacturer will be notified accordingly and credit against the manufacturer's reserve production will be recorded, subject to the provisions of paragraph (c) (2) (ii). Thereafter the manufacturer shall produce such orders according to his schedule as so reported to the War Production Board. (The reporting requirements of this paragraph have been approved by the Bureau of the Budget, pursuant to the Federal Reports Act of 1942.)

der for such activity (report Dept. Order No. and name of converter or user).

(10R) The Treasury Procurement Division purchasing for the Foreign Economic Administration to the extent that such orders conform to quantities and types determined by the War Production Board and screened by F. E. A. as indicated by an identifying number preceded by the initials F. E. A., and are accepted by the mills for delivery prior to Jan. 15, 1946.

(d) *Restrictions on inventory.* Unless specifically authorized by the War Production Board:

(1) *Consumers Inventories except those covered by Order L–240.* No person shall knowingly deliver to any person except a paper merchant, and no person except a paper merchant shall accept delivery of, any quantity of paper or paperboard if such person's total inventory is, or will by virtue of such delivery become, in excess of the greater of (a) 50 tons or (b) 90 calendar days supply calculated either on the basis of his average rate of consuming such paper and paperboard during the latest preceding 3 full calendar months or as projected for the next ensuing 3 full calendar months.

(2) *Merchant's inventories.* No paper merchant shall accept delivery of, and no person shall knowingly deliver to a paper merchant, any quantity of paper or paperboard for his warehouse stock, if the dollar inventory value, as determined by customary accounting practice, of all paper and paperboard (excluding that which has been sold to and paid for by another person) in the merchant's store and warehouses exceeds, or by virtue of such delivery will exceed the greater of (a) $25,000.00 or (b) 50% of the total merchant cost price of the merchant's total dollar sales from his store and warehouse inventory during the first six months of 1944. Each affiliate, subsidiary, or branch, is to be considered individually in applying the provisions of this paragraph.

(e) *Miscellaneous provisions*—(1) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(2) *Audit and inspection.* All records required to be kept by this order shall upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(3) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(4) *Violations.* Any person who wilfully violates any provision of this order or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of or from processing or using materials under priority control and may be deprived of priorities assistance.

(5) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(6) *Communications.* All communications concerning this order shall unless otherwise directed be addressed to War Production Board, Paper Division, Washington 25, D. C. Ref.: M–241.

[Rubber Order R–1, Appendix II, as Amended May 30, 1945, Amdt. 8]

Appendix II, *Manufacturing Regulations*, as amended May 30, 1945, is hereby further amended by changing List 15, Regulations for the Use of High Tenacity Rayon Cord, to read as follows:

LIST 15—REGULATIONS FOR THE USE OF HIGH-TENACITY RAYON CORD

(a) In the manufacture of rubber products, high-tenacity rayon cord may be used only for the following listed products:

ORDER OF PREFERENCE AND TYPE OF PRODUCT

Group

1. Airplane tires.
2. Self-sealing fuel cells.
3. Bullet-sealing hose.
4. Combat (U. S.) tires, including only cross-sections 8.00 and larger.
5. Mileage contract bus tires:
   (a) Intercity bus tires.
   (b) City bus tires.
6. Synthetic special purpose tires, including:
   Tread types: Rock service, logger, earthmover and 18.00 and up mud-snow.
   Sizes: All.
7. Synthetic rubber truck and bus tires, including only:
   Tread types: Highway, mud-snow.
   Sizes: 8.25 through 14.00, 10 plies and more.
8. Synthetic rubber truck and bus tires, including only:
   Tread types: Standard low platform trailer.
   Sizes: 7.50 and up, 10 plies and more.
9. Synthetic truck and bus tires, including only:
   Tread types: Highway, mud-snow.
   Sizes: 7.00 and 7.50, 10 plies.
10. V-belts.
11. Synthetic truck and bus tires, including only:
    Tread types: Highway, mud-snow.
    Sizes: 7.50 cross-section, 6 and 8 plies, all rim diameters.
12. Tire repair materials.
13. Synthetic truck and bus tires, including only:
    Tread types: Highway, mud-snow.
    Sizes: 7.00 cross-section and smaller, 6 and 8 plies, all rim diameters.
14. Synthetic tires of the following types:
    Road grader.
    Tractor and implement.
    Tread types: All.
    Sizes: All.

(b) Any manufacturer using rayon must consume it in the order of preference in the above usage pattern, arranging to fulfill all requirements in the first group before any is used in the second group, and so on down the list.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 7A, as Amended Oct. 8, 1945]

TRANSFERS OF QUOTAS, PREFERENCE RATINGS; TRANSFERS OF A BUSINESS AS A GOING CONCERN

§ 944.28 *Priorities Regulation 7A*—(a) *What this regulation does.* This regulation explains when quotas, preference ratings and other rights under the priorities system may be transferred from one person to another and states the rules governing transfer of a business as a going concern.

(b) *Specific provisions in orders or regulations govern.* This regulation does not apply in any case where an applicable order or regulation provides a different rule.

(c) *What is meant by "quota".* As used in this regulation "quota" means a quantitative limit which is placed on the production or delivery of items, or on the acquisition or use of material, by an order or regulation of the WPB. Most quotas are in the form of a specified percentage of production or use during a previous base period or in the form of a specified number of items which may be produced.

(d) *Quota applies to actual manufacturer.* Where a manufacturer does not sell his product in his own name, but makes it for another person under whose name it is sold, and an order of the WPB imposes a quota on manufacturers of the product, that quota applies to the person who actually makes the product rather than to the one under whose name it is sold.

(e) *Distribution of quota where quota holder has several establishments.* Where the holder of a quota has several establishments, he may distribute his quota among them, and change the distribution in any way he wishes unless the quota was acquired on a transfer of a going business as explained in paragraph (h) (1) below.

(f) *Transfer of quotas forbidden in most cases.* No quota may be transferred from one person to another under any circumstances, except in connection with the transfer of a business as a going concern as explained in paragraph (h) (1) below or with the express permission of the WPB. Permission to transfer quotas may be expressly given in an order or regulation or on appeal as explained in paragraph (i) below.

(g) *Transfers of preference ratings and specific authorizations forbidden.* No person may transfer to another a preference rating or any right granted by specific authorization except where this is part of a transfer of a going business as explained in paragraph (h) (1) below. However, as more fully explained in Interpretation 5 to Priorities Regulation 1, when a rated contract is assigned, the rating remains applicable to the contract as assigned if, but only if, the assignee uses the material covered by the contract for substantially the same purpose for which the rated contract was placed. The transfer of a rating must be distinguished from the application or extension of a rating under Priorities Regulation 3. For example, a person has a preference rating to buy a certain machine and decides that he does not want it but wishes to transfer to another person his rating to buy the machine, the second person may not use the rating. On the other hand, if someone who has a rating wishes to buy an article from a supplier, the supplier may, under certain conditions, extend the same rating to get the article for delivery to the customer or to replenish his inventory. This is explained in detail in Priorities Regulation 3.

(h) *Transfer of business as a going concern.* (1) Whenever an entire business is transferred as a going concern to a new owner who continues to operate substantially the same business in the same establishment, using substantially the same trade-mark or trade-name, if any, all rights and obligations under WPB orders and regulations which applied to the business before the transfer continue applicable after the transfer, and the old owner no longer has them. The business under the new ownership has the same quotas, preference ratings, specific authorizations and other rights and duties created by WPB orders and regulations as it had under the old ownership. However, the new owner may not continue to exercise any such rights if he discontinues operation of the business he acquired or operates it as a substantially different business or in another establishment, or if he uses a substantially different trade-mark or trade-name. He may not, at any time, use any quota of the transferred business for any other part of his business.

(2) If, on dissolution of a firm, the entire business is not transferred as a going concern to a single successor, but is divided up in any way, application must be made to the WPB for a determination of quotas and other rights and duties under WPB orders and regulations.

(3) An order or regulation of the WPB which places any restriction on the transfer of any particular material or product does not apply to a transfer which is part of a transfer of the ownership of an entire business as a going concern, and WPB approval need not be obtained for any such transfer.

(i) *Permission in exceptional cases on appeal.* In any case where the above rules work an exceptional hardship, specific permission may be given on appeal for the transfer of a quota, a preference rating or a specific authorization or for other exceptions from the rules. An appeal for the transfer of a quota should be filed as an appeal from the order imposing the quota by the person who wishes it transferred to him. If the person from whom it is to be transferred agrees to the transfer, he should join in the appeal. It is not expected that permission will be granted for the purchase or sale of a quota for any consideration in any case where the principal purpose of the transaction is merely to transfer the quota.

Issued this 8th day of October 1945.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 12, as Amended Oct. 8, 1945]

RERATINGS

§ 944.33 *Priorities Regulation 12*—(a) *Purpose of this regulation.* This regulation tells what happens when the grade of a particular preference rating is changed. Such a change is referred to as a "rerating". A rerating does not increase the amount of materials which can be obtained; it changes only the grade of the rating. The rerating may either raise the original rating (for example, when an original rating of CC is raised to MM) or lower it (as when an original rating of MM is lowered to CC). These are referred to as "upward reratings" or "downward reratings".

(b) *How a rerating starts.* Every rating comes first from the War Production Board or from the Army, Navy or other government agency operating under authorization from the War Production Board. Sometimes this rating is found to be too high or too low. The War Production Board or other government agency may then rerate in one of the following ways:

(1) By issuing a new regulation or order or certificate (such as Form WPB–541A); or

(2) By amending an existing regulation, order or certificate; or

(3) By issuing a specific authorization or direction changing the grade of the rating. This authorization or direction may be issued on an official form or by letter or telegram.

(c) *Use of new rating where the original rating has not been used.* If a rating is changed before it has been used by the person authorized to use it, he may use only the new rating, whether higher or lower than the old. The paragraphs following do not deal with this kind of case, but only with the situation where the person has already placed his order before the rerating occurs.

(d) *Upward reratings.* (1) When a person receives an upward rerating from his customer, he must immediately rerate each unfilled order to which he has extended the customer's old rating, by giving notice of the rerating to his supplier if the use of the rerating is necessary to enable him to fill the customer's order on time.

(2) When an upward rerating occurs in any other case, a person may, but is not required to, use the higher rating on orders already placed by him but not yet filled. (This may occur either on application of the rating or on extension under Priorities Regulation No. 3.)

(e) *Downward reratings.* (1) Whenever a downward rerating is issued to a named person, he must immediately rerate each unfilled order to which he has applied the old rating by giving notice of the rerating to his supplier, unless the rerating certificate or letter or other rerating instrument states otherwise.

(2) If a regulation or order of the War Production Board, which assigns a rating to a class or group of persons without naming them individually, is amended to lower the grade of the rating, they may not apply the old rating to orders placed after the amendment. Orders to which they have already applied the rating for delivery within three months after the amendment remain validly rated but they must rerate all orders which they have placed for delivery after three months from that date, by giving notice of the rerating to their suppliers.

(3) If any person receives a downward rerating from his customer, he must immediately rerate each order for more than $25 worth of material to which he has extended the customer's old rating, by giving notice of the rerating to his supplier. (For the rules about cancellation of preference ratings, see § 944.4a of Priorities Regulation 1.)

(f) *Rerating procedure.* Where a person (other than a Government agency itself authorized to issue ratings) has placed a rated order which is still unfilled and the rating is changed, the way to use the new rating is to give notice of the rerating by sending to the person with whom the rated order was placed a letter or telegram stating that there has been a rerating and giving the new rating. The information given must be definite enough so that the person receiving it will know exactly the items rerated, the old and new rating, and the original purchase order referred to.

(g) *Partial reratings.* In some cases a purchaser may have used one grade of rating to cover more than one unit in a single purchase order. If some units are then rerated downward the new rating must be used by him for these items but the higher unchanged rating stands for all items not rerated. However, if giving effect to such a rerating would require the supplier to deliver fractional parts of a customary sales unit, he may either fill the order as rerated or treat the customary sales unit as though it bore the lowest rating applicable to any part of it.

(h) *Effect of rerating on sequence of filling rated orders.* Section 944.7 of Priorities Regulation 1 covers the subject of sequence of filling rated orders. The general rules of that section apply also where a rerating occurs. The only difference is that a rerated purchase or delivery order is to be treated by the person with whom the order was placed as if it had carried the new rating at the time the old rating was received by him. He must make any change in his production and delivery schedules necessary to give effect to the rerating except that:

(1) Material specifically produced for a rated order is not to be diverted and delivered under a higher rerated order if such material is completed at the time the rerating is received, or is in production and scheduled for completion within fifteen days thereafter, unless such diversion is specifically directed by the War Production Board, or unless the new rating is AAA; and

(2) No person is required by reason of a rerating to terminate or interrupt immediately a schedule of production or operations in any case where such ter-

mination or interruption would result in a substantial loss of production or delay in operations: *Provided, however,* That in any such case termination or interruption of the schedule required by the rerating shall not be postponed more than forty days after receipt of the rerating.

(i) The War Production Board may specify different rules for the treatment of outstanding ratings at the time it rerates them.

Issued this 8th day of October 1945.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 17 as Amended Oct. 8, 1945]

POST EXCHANGES AND SHIP'S SERVICE DEPARTMENTS

§ 944.38 *Priorities Regulation 17*—(a) *Definitions.* For the purpose of this regulation:

(1) "Orders for military exchanges or service departments" means contracts or purchase orders for material or equipment to be delivered to or for the account of (or to be physically incorporated in material or equipment to be delivered to or for the account of) any U. S. Army or Marine Corps Post Exchange or U. S. Navy or Coast Guard Ship's Service Department or War Shipping Administration Training Organization Ship's Service activities.

(2) "Overseas orders" means orders for military exchanges or service departments calling for shipment outside the 48 states of the United States and the District of Columbia. Unless an order is clearly identified on its face as coming within this definition, it shall not be regarded as an overseas order.

(b) [Deleted Oct. 8, 1945.]

(c) *Applicability of military exemptions.* Whenever any rule, regulation or order of the War Production Board contains an exception or exemption for material or equipment to be delivered to, or for the account of, or for material to be physically incorporated in material or equipment to be delivered to, or for the account of, the Army or Navy of the United States, such exception or exemption shall not apply to orders for military exchanges or service departments except in cases where such orders bear a preference rating.

(d) *Effect of quota provisions.* (1) Notwithstanding Priorities Regulation 1, whenever any rule, regulation or order of the War Production Board limits the amount of any material that may be received, processed, sold or delivered by any person to a percentage of previous amounts thereof received, processed, sold or delivered by him, or otherwise expressly fixes a quota for him, orders for military exchanges or service departments chargeable against his quota need not be accepted by such person in excess of 45 percent of such quota.

(2) Whenever any rule, regulation or order of the War Production Board fixes a quota limiting the amount of any material that may be received, processed, sold or delivered by any person, and contains an exception or exemption for material or equipment to be delivered to or for the account of the Army or Navy of the United States, but does not expressly permit or forbid such person, in computing his quota, to exclude therefrom orders for military exchanges or service departments, any of these orders which bear a rating are to be included in such exception or exemption. Orders for military exchanges or service departments which do not bear a rating shall not be included in such exception or exemption, and must be charged against the quota of the person filling them.

(e) *Effect on other provisions.* In case any provision in any regulation or in any order of the War Production Board is inconsistent with any provision in this regulation, the provisions of this regulation shall govern unless such other provision expressly states that this regulation shall be inapplicable.

DELIVERIES INTO THE DOMINION OF CANADA

§ 944.43 (a) Preference ratings for deliveries to be made into the Dominion of Canada from the United States will be authorized by the War Production Board only upon the recommendation of the Priorities Officer of the Department of Munitions and Supply in Canada.

(b) Any person in Canada authorized to use a rating may do so by endorsing the following certification on his purchase order:

The undersigned purchaser certifies, subject to the penalties of section 16 of the Canadian Wartime Industries Control Board Regulations, to the seller, to the Canadian Priorities Officer, and to the War Production Board, that, to the best of his knowledge and belief, the undersigned is authorized, under applicable Canadian orders to place this delivery order, to receive the item(s) ordered for the purpose for which ordered, and to use any preference rating which the undersigned has placed on this order.

NOTE: Deleted Oct. 8, 1945.

(c) The certification shall be signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for the purpose.

(d) The above certification must be used instead of any other certification where a rating is used by a person in Canada. Any certification which is specified for any other purpose by any regulation or order (except one requiring administrative action such as an allocation or express authorization) may be omitted from purchase orders endorsed with the above certification.

(e) Purchase orders bearing the above certification must be given the same effect by suppliers in the United States as orders carrying preference ratings and originating within the United States.

(f) No person shall use the above certification, or any preference rating on an order placed with a supplier in the United States calling for delivery to Canada unless such use is authorized under Canadian orders.

(g) Suppliers in the United States who receive rated orders for delivery into the Dominion of Canada bearing the above form of certification may extend the ratings to the same extent as ratings originating in the United States, but must use the regular form of certification provided for use within the United States.

(h) This regulation does not apply to materials exported directly to agencies of the United States Government in Canada.

Issued this 8th day of October 1945.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 23, as Amended Oct. 8, 1945]

EXPERIMENTAL MODELS

§ 944.44 *Priorities Regulation 23*—(a) *Background and purpose of this regulation.* Certain orders and regulations of the War Production Board limit or prohibit the manufacture of certain articles or the use of certain materials in making the articles. These restrictions apply to the manufacture of experimental models of the articles and therefore prevent persons from making such experi-

mental models. The purpose of this regulation is to override those orders and regulations so as to allow experimental models of the restricted articles to be made under certain conditions. Nobody needs to read this regulation unless he wants to make experimental models of an article which cannot be made under existing orders and regulations.

(b) *Meaning of the term "experimental model."* The term "experimental model" means any model of a consumer or industrial product (e. g. refrigerator or printing press) which is made, as an experiment, for the purpose of determining whether it will be superior to or cheaper to make than present models and whether it can be reproduced on a commercial basis. The term does not include any models, such as samples, which are made for the purpose of promoting sales or creating a consumer demand for such articles. Nor does the term include experimental models of buildings or structures which involve construction Such experimental construction jobs may be carried on only to the extent permitted under Order L-41.

(c) *Effect of other orders and regulations on manufacture of experimental models.* In spite of any order or regulation of the War Production Board limiting or prohibiting the manufacture of any article or the use of any material in making an article, any person may manufacture experimental models of any article and may use any materials in making them. However, in any case where the manufacture of experimental models of an article or the use of materials in making them would, but for this regulation, be prohibited by another order or regulation, the models may be made only within the limitations set forth in paragraph (e). This paragraph does not apply in any case where a WPB order specifically limits use of material for experimental purposes. In such cases, the limitations of the order must be followed and not the provisions of this regulation.

(d) [Deleted May 9, 1945.]

(e) *Limitations on making models.* No person may make experimental models (of the types which could not be made but for this regulation) unless all of the following restrictions are complied with:

(1) [Deleted Aug. 29, 1945.]

(2) Experimental models of an article may be made only in the minimum number and the minimum size required to determine the suitability of the article for commercial production and use, as distinct from promoting sales or creating a consumer demand. This does not permit a person to make trial production runs of experimental models.

(3) Materials which were allocated or allotted specifically for another purpose may not be used to make experimental models, except as permitted by § 944.11 of Priorities Regulation 1.

(4) [Deleted May 9, 1945.]

(f) *Illustrations.* The effect of this regulation is illustrated in the following examples:

(1) Where an order prohibits the production or assembly of a certain article, this regulation permits a person to make experimental models of the article, regardless of the order.

(2) Where an order prohibits the use of a certain material in making an article, this regulation permits a person to use the material in making experimental models of the article, regardless of the order.

(3) Where an order prohibits producers from making more than a certain number of sizes of an article, this regulation permits such producers to make additional sizes of the article for experimental purposes.

(4) Where an order prohibits producers from making an article except in accordance with production schedules approved by the War Production Board, this regulation permits such producers to make experimental models of the article even though such experimental models do not appear in the production schedules approved under this order.

(5) In each of the above four cases the limitations set forth in paragraph (e) of this regulation must be complied with. However, where experimental models can be made within the provisions of existing orders and regulations of the War Production Board, this may be done without complying with the limitations of paragraph (e). For example, where the manufacture of an article is restricted by an order which merely limits the number of the article that can be made, a person may make experimental models of the article within his quota under that order without complying with the limitations of paragraph (e). However, if he wants to make experimental models of the article outside of his quota, he must comply with those limitations.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-84, as Amended Oct. 5, 1945]

MANILA (ABACA) AND AGAVE FIBER AND CORDAGE

§ 3290.221 *Conservation Order M-84—*

(a) *Restrictions on processing of fiber or yarn into rope.* (1) No processor may put into process manila fiber or manila yarn to manufacture rope except:

(i) For an end use allowed in Schedule A.

(ii) To fill orders placed by or for the account of any United States Government agency having in effect a plan, approved by the War Production Board, to screen its orders and requisitions for rope and to eliminate unnecessary end uses of rope manufactured from critical fibers. Only the Army, Navy, and Maritime Commission now have such approved plans in effect. The Army and Navy approved plans require that orders for their account for rope made in whole or in part from manila, shall be approved by the War Production Board, and therefore no processor shall accept any such order unless the acceptance is approved by the War Production Board on application from or on behalf of the processor. Application may be made by the processor or on his behalf by letter or telegram addressed to the War Production Board, Cordage Branch, Washington 25, D. C., stating government contract and item number, quantity and kind of fiber required, and the size of the rope to be made. The War Production Board will consult with the Service or agency involved and approve applications if the proposed end use of the rope, in view of current supplies, justifies the use of the fiber.

(2) No processor may in any calendar quarter put into process for the manufacture of rope more manila and agave fiber than the following percentages of his basic monthly poundages:

	Percent
(i) Manila	83.25
(ii) Agave	614

Use of "extenders" shall not be charged against the permitted quantity of agave. Specific directions may be issued to exceed the above percentages of either fiber, to permit increased deliveries to particular claimant agencies. If a processor is permitted to exceed his quota of either fiber, he may be required to accept a corresponding decrease in his quota of the other fiber.

(b) *Restrictions on processing of fiber or yarn into other products.* (1) No processor may put into process any manila or agave, or yarns made from those fibers, to manufacture any product except rope twine as permitted in Schedule B, or as specifically authorized or directed in writing by the War Production Board. The use of agave, other than cantala or sisalana from Java and Haiti, may be authorized from time to time by the War Production Board for binder or baler twine.

(c) *Further restrictions on processing.* (1) The War Production Board may issue specific directions to processors who have received manila or agave, or yarn by allocation under this order or any other War Production Board order or by delivery from any United States Government agency, as to the purpose and kind of product for which the fiber may be processed and as to the extension of more critical fibers by mixture with less critical ones (i. e. use of "extenders") in the manufacture of any product.

The War Production Board may from time to time issue specific instructions regarding the percentage of extender to be used in the manufacture of agave sisalana rope.

(d) *Restrictions on delivery of rope and twine.* (1) No processor or dealer may sell, deliver, or accept delivery of new rope or new twine, produced in the United States in whole or in part from manila or agave fiber or yarn, for end uses for which the product may not be manufactured under this order.

(2) No person may sell or deliver new binder or new baler twine if he knows or has reason to believe that:

(i) The binder twine will not be used with mechanical harvesting equipment or in the growing, harvesting or deliver-

ing of agricultural crops, or that the binder twine will be converted into rope or any other product.

(ii) The baler twine will not be used in a self-tying machine for baling hay, straw or other fodder crops.

(3) No person may use new binder or new baler twine to manufacture rope for sale.

(4) No processor or dealer may sell or deliver to an owner, operator or agent of a vessel any manila rope processed from fiber which he knows or has reason to believe was allocated to the War Shipping Administration, except to fill purchase orders or emergency stock withdrawal certificates approved in writing by the War Shipping Administration.

(e) *Allocation of non-military cordage.* (1) The War Production Board may in accordance with Program Determinations, state the quantity of manila and agave which each processor must, out of his production during stated periods, process into cordage, as allowed by Schedules A and B, to be delivered or set aside for delivery only to fill non-military orders and only to the extent specified for particular non-military uses. From that quantity, the processor may not fill any other orders, except orders rated AAA. When that cordage is sold by the processor, he must inform the buyer of the particular non-military use for which it must be used. The buyer may use or sell that cordage only for the specified non-military use or an AAA order.

(f) *Allocation of fiber and yarn.* No processor shall make or accept delivery of any manila or agave fiber contrary to directions which from time to time the War Production Board may issue. The War Production Board may from time to time allocate to processors the available supplies of manila and agave fiber and specifically direct the time, manner, and quantities in which deliveries to processors shall be made or withheld.

(g) *End use information.* No person may sell or deliver any product controlled by this order to any person who he knows or has reason to believe will use the product in a manner which this order does not permit. He should satisfy himself as to this in some reasonable manner before delivering. He may, but need not, require a statement in writing showing the specific purpose or use for which the item is ordered.

(h) *Restrictions on the use of damaged material.* Any processor or dealer who has in his possession damaged or defective manila or agave fiber or cordage, may report by letter the extent of the damage and state to the War Production Board the percentage not suitable for the manufacture of products or for use permitted by this order. He may then upon receipt of acknowledgment, without objection from the War Production Board, use or dispose of any portion unsuitable for the manufacture of products permitted by this order, free from its restrictions.[1]

[1] This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(i) *Reports.* Processors of manila and agave fiber shall report monthly on Form WPB–2901, Parts 1, 2 and 3.

(j) *Imports.* The importation of material or products covered by this order shall be made in conformity with the provisions of General Imports Order M–63, as amended from time to time.

(k) *Definitions.* In this order:

(1) "Manila" means fiber, spinnable over machinery which is commonly known in the trade by this term and also known as abaca or Manila hemp, wherever grown (either stripped or decorticated), but does not mean the fiber grades of T2 and T3, O or Y, or equivalent, as established by the Insular Government of the Philippine Islands, processor's mill waste or bagasse.

(2) "Agave" means fiber, spinnable over machinery of the species agave sisalana, agave fourcroydes, and agave cantala, of all grades and qualities including tow and fiber under 20" in length, commonly known in the trade as sisal, henequen, cantala, and maguey, and sometimes preceded by an adjective designating the country or district of origin, but does not include processor's mill waste or bagasse.

(3) "Rope" means any rope or cable, treated or untreated, composed of three or more strands each strand composed of two or more yarns, but does not include strings and twines of whatever construction which are commonly used for tying, sewing, baling or other commercial packaging use.

(4) "Twine" means any single or plied yarn or roving, including marlin, for use as a tying material, for sewing or for any similar purpose, but does not include any product falling within the definition of "rope", "binder twine" or "baler twine."

(5) "Binder twine" means a single yarn twine usually containing agave, but sometimes containing manila, istle, jute, coir, hemp, cotton or paper, suitable for use in a harvesting machine and of the type customarily heretofore manufactured. It is put up in balls of approximately five to eight pounds, packed six to ten to the bale. It measures five hundred feet to the pound with a plus or minus tolerance of five per cent, and contains a lubricant of at least ten per cent of the weight of the twine and an insect repellant. It is also known as binding twine.

(6) "Baler twine" means a single yarn usually made of agave fiber and used in a self-tying machine for baling hay, straw or other fodder crops.

(7) "Basic monthly poundage" of manila fiber with respect to any processor shall be the average number of pounds per month of manila cordage sold by such processor during the period January 1 through December 31, 1939. Where this order specifies a percentage of the basic monthly poundage to be processed, sold or delivered during any period, any processor keeping his books on a weekly basis shall apply the said percentage to the weekly periods most nearly approximating the period specified.

(8) "Basic monthly poundage" of agave fiber with respect to any processor for any month shall be the average number of pounds per month of both manila and agave cordage sold by such processor during the period from January 1, 1939, to December 31, 1941, minus 37 per cent of such person's manila fiber basic monthly poundage calculated as prescribed in paragraph (1) (11): *Provided*, That any processor keeping his books on a weekly basis may calculate his basic monthly poundage from the fifty-two week period of the 1939 calendar year and adjust any other calculations or quota under this order.

(9) "Processor" means any person (other than a United States Government agency) who spins, twists or otherwise uses any fiber or yarn in the manufacture of rope or twine, or who uses manila or agave fiber in the manufacture of any other product.

(10) "Non-military" as applied to use or orders means any use or order not for direct or ultimate delivery to, or incorporation into any material for direct or ultimate delivery to the U. S. Army, Navy, Maritime Commission, or War Shipping Administration or to facilities controlled by the War Shipping Administration. It includes cores and centers for wire rope, regardless of their ultimate use.

(l) *Appeals.* Any appeal from the provisions of this order should be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(m) *Applicability of regulations.* Except as specifically otherwise provided this order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time.

(n) *Violations.* Any person who wilfully violates any provision of this order, or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the War Production Board.

(o) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to the Textile, Clothing & Leather Bureau, War Production Board, Washington 25, D. C., Ref.: M–84.

Issued this 5th day of October 1945.

WAR PRODUCTION BOARD,

SCHEDULE A—MANILA CORDAGE END USE

This list specifies the permitted end uses for which rope may be manufactured from manila. It does not, however, restrict manufacture for and delivery to the Army, Navy and Maritime Commission.

Fibers other than manila may be used in the manufacture of rope for any end use subject to applicable provisions of any War Production Board order dealing specifically with such fibers.

End use	*Definition*
Auxiliary line-Lyle gun	A 3" circ. hawser-drawn to or from a vessel by means of a whip line and which is used to support a breeches buoy.
Cracker	A short length of fiber drilling cable used in conjunction with a wire drilling cable affording spring or elasticity to the wire line. Generally 2½" diam. and larger.
Drilling cables-gas wells (2" diam. and larger).	Used for operating the tools in "cable tool" drilling.
Drilling cables-oil wells (2" diam. and above).	Used for operating the tools in "cable tool" drilling.
Falls-Ammunition	The hoisting rope used to raise and lower ammunition.
Falls-Lifeboat, oceangoing ships	A rope used generally in conjunction with a pair of davits, used to raise or lower lifeboats which contain people.
Falls-Purse boat	A pair of tackles suspended from davits used to raise and lower the purse boats and seine which weigh about 5 tons.
Falls-Powder tank	Used in handling powder tanks (lowering and hoisting).
Life line	See auxiliary line-lyle gun.
Purse line	A line rove through rings attached to the bottom of a seine. By hauling on this line the bottom of the net is closed or pursed.
Shot lines—Lyle guns	Soft laid rope used in connection with Lyle guns for rescue work on disabled ships.
Torpedo lines—Oil well	Approximately ¼" diam. rope used to lower explosives into oil or gas well preparatory to "shooting" the well.

SCHEDULE B—TWINE END USE

This list specifies the permitted end uses for which twine may be manufactured from manila and agave. The use of agave fiber for the manufacture of binder and baler twine will be authorized as stated in paragraph (b) (1). Manila is not permitted at present for twine and agave is permitted only where indicated.

End use	Definition	Manila	Agave
Bale rope	A heavy wrapping twine for securing large bales or bundles		
Christmas tree twine	A single ply twine, usually tarred or dyed for binding Christmas trees in bundles for shipping.		
Fodder yarn	Single yarn generally tarred, put up in stranded or many end form, used in tying up fodder. This yarn is comparable to, in certain parts of the country where a mechanical binder is used for harvesting, a binder twine. In other parts where the binding of sheaves is done by hand, fodder yarn is used.		
Hambroline	See seizing stuff		
Hanging twine—Hard fiber nets.	Twine used to hang hard fiber nets to lines	----------	Yes
Hanging twine—Soft fiber nets.	Twine used to hang soft fiber nets to lines	----------	Yes
Heading twine	See Marline-Lobster	----------	Yes
Hide rope	Twine-twisted into strand form usually 50 ends. 2 or 3 ply		
House line	See seizing stuff		
Lathyarn	A single yarn put up in stranded or many end form either tarred or untarred.		
Marline	See seizing stuff.		
Marline—Lobster	A twine required in the manufacture of the inside tunein of lobster pots.	----------	Yes
Nettwine—Otter trawls	A hard laid twine, usually 2, 3, or 4 ply in sizes from #600 to #1350 used for the manufacture of hard fiber fishing nets. Also for mending nets.	----------	Yes
Piping cord	The cord used in a roll edge trim for furniture, etc		
Ring yarns	See wrapping twine. A single yarn usually put up in stranded or many end form and used for general tying purposes.		
Roundline	See seizing stuff.		
Seizing stuff	A general term covering fine sizes of rope and twine used for seizing larger ropes and cables.		
Sewing twine	Twine used for bag closing and for general sewing.		
Shingle yarn	A yarn put up in single end form, used for tying up bundles of shingles. Tarred and untarred.		
Small stuff	See seizing stuff.		
Spun yarn	See seizing stuff.		
Tube rope	A heavy wrapping twine of soft twist for securing large bales and bundles.		
Wormline	See seizing stuff.		
Wrapping and tying twine	Single yarn used as twine, or plied twine twisted or laid, used for tying, packaging, baling or bundling.	----------	(*)

*Agave tow only with or without admixture of other fibers.

PART 3291—CONSUMERS DURABLE GOODS

[Supplementary Limitation Order L-5-d, Revocation]

NEW DOMESTIC MECHANICAL REFRIGERATORS

Section 3291.11 *Supplementary Limitation Order L-5-d*, and all authorizations issued under it, are revoked effective October 10, 1945 at 12:01 a. m. eastern standard time. Transfers of new domestic mechanical refrigerators may then be made without regard to the provisions of Order L-5-d, any authorization issued under it, or any grant of appeal, or authorization relaxing its restrictions. This revocation does not affect any liabilities incurred for violation of the order, or of actions taken by the War Production Board under the order. Transfers of new domestic mechanical refrigerators, formerly controlled by L-5-d, remain subject to all other applicable orders and regulations of the War Production Board.

Issued this 5th day of October 1945.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328B, Supp. XIII to Schedule A, as Amended Oct. 8, 1945]

The following Supplement XIII to Schedule A is issued pursuant to Conservation Order M-328B § 3290.120a:

CHILDREN'S SNOW SUIT PROGRAM NO. 2

Item No.		Sizes	Table I prices	Table II prices
1	Snow or Ski Suits—(Toddlers')	1 to 4	$4.75	$7.75
2	Snow or Ski Suits—(Children's)	2 to 6X	6.75	10.75
3	Snow or Ski Suits—(Children's)	3 to 8	6.75	10.75
4	Snow or Ski Suits	7 to 14	8.75	12.75
5	Legging Sets or Coat and Ski Pants Sets—(Toddlers')	1 to 4	6.75	9.75
6	Legging Sets or Coat and Ski Pants Sets—(Children's)	2 to 6X	8.75	12.75
7	Legging Sets or Coat and Ski Pants Sets	3 to 8	8.75	12.75
8	Legging Sets or Coat and Ski Pants Sets	7 to 14	10.00	14.75
9	Separate Ski Pants—(Children's)	2 to 6X	2.50	3.75
10	Separate Ski Pants—(Children's)	3 to 8	2.50	3.75
11	Separate Ski Pants	7 to 14	3.25	4.75

FABRICS AND COMPONENTS FOR CHILDREN'S SNOW SUIT PROGRAM NO. 2

1. Melton type fleeces or napped fabrics (woven), 19 to 26 ounces. (54 inches to 60 inches width), 25 percent or more of wool by weight.
2. Knitted fleeces or knitted napped fabrics. (54 inches to 60 inches width).
3. Rayon taffeta or twill, for coat linings only in legging sets.
4. Broad woven cotton flannel in plaids, stripes and plain shades.
5. Soft filled sheeting for interlining to be used with rayon linings only.
6. Wristlets and anklets for items 1, 2, 3 and 4.
7. Anklets only for Items 5 to 11 inclusive, if needed.
8. Two zippers for each legging set, snow or ski suit. Zippers to be used only at the anklets of the leggings or ski pants. (5 inches through 9 inches inclusive).
9. ¼ yard buckram or canvas for each garment.
10. ¼ inch or 3/16 inch of #17 unbleached tape not more than 2 yards.
11. ¾-inch bias binding for bottoms of coats of legging set or coat and ski pants if made as open bottoms up to 1½ yards per garment.
12. ¼-inch elastic for belt of ski pants or leggings. Not more than 8 inches per garment.

FILING OF APPLICATIONS AND STANDARDS FOR PROCESSING THEM

(a) Application on Form WPB-3732 (set forth separately and identify in column (f) of Form: (1), 1944 production on your fa-

cilities for your own account; (2), 1944 production on your facilities for the account of others; (3), 1944 production of others for your account).

All applicants under this program who supply production figures in column (f) of Form WPB-3732 as prescribed in paragraph (a), subparagraph (2) above, "1944 production on your facilities for the account of others", shall be subject to the provisions of paragraphs (i) and (k) of this supplement to the extent of such production and must therefore submit the information required in paragraph (i) in writing on or before May 15, 1945, with respect to such production. This information will be attached to and made a part of the application.

(b) Application must be filed on or before April 15, 1945.

(c) These items will be required to be produced during the second, third and fourth quarters of 1945 in as near equal installments as deliveries of the fabric will permit.

(d) Applications will be considered only for the fabrics and components specified above. Applications calling for other fabrics or components will be denied.

(e) Applicants should base their estimated production on their present labor and machinery. If the quantity applied for is greater than that produced in 1944, a statement must be submitted describing facilities which are available now and were not used for this purpose in 1944.

(f) Priorities assistance will be granted to the extent of 60 percent of the fabric available for this program to persons producing these items at or below prices indicated in Table I above, and the remaining 40 percent will be allocated to those producing these items in prices at or below those indicated in Table II above. This does not, of course, authorize any person to exceed his OPA ceiling price for any item in this program. (For example: Item (1), Snow Suits or Ski Suits (Toddlers'), sizes 1 to 4, at least 60 percent will be allocated to persons producing at $4.75 or below and the remaining 40 percent will be allocated to those producing from $4.76 up to and including $7.75).

(g) Applicants when filing Form WPB-3732 must provide the following information:

(1) The item he wishes to produce, such as snow or ski suit, legging set or coat and ski pants set, or ski pants. Also identify the item by number—for example, snow or ski suit in size range 1 to 4 is #1—leggings set or coat and ski pants set in size range 1 to 4 is #5, etc.

(2) The size range.

(3) Price at which sold.

(4) Quantity in units of each item in each size range and in each price range.

(5) Type of materials used (such as melton type woven fleece or knit back fleeces). In addition to the information enumerated herein all other questions required by Form WPB-3732 must be answered.

(h) Each applicant who produced during the base period (1944) items listed in this program, must in producing such items from materials obtained with a rating under this program, meet the same specifications, including standards of quality, workmanship, inspection, pressing, folding, and all other operations pertinent to the preparation of the completed garments for marketing, used by the applicant in producing such items sold at the same or nearest higher price during the year 1944.

(i) Each applicant who did not, during the base period, produce the items for which he makes application, shall file with his application the specifications (including the proposed sales price) of the item he proposes to manufacture and, if required by the WPB, a sample. If his application is granted, the applicant must meet the specifications filed. These specifications shall include, but not be limited to, specifications as to dimensions, type of fabric, and stitches per inch, as well as such other essential points as may insure a quality garment, and the price at which the applicant proposed to sell each such item.

(j) Each applicant must include a statement under the section entitled "remarks" on Form WPB-3732 that he has complied with the OPA regulations regarding the prices he has included in columns (d) and (e) of the form.

(k) Applicants desiring to participate in the Children's Snow Suit Program No. 2 who did not produce such items during 1944 shall not sell more than 10 percent of the quantity of items produced with priority assistance granted under this program to any purchaser. Purchasers who are subject to common control shall be deemed a single purchaser.

(l) Application of any person able to produce the particular items in this program will be entertained.

(m) If the applications exceed the quantity of production of a particular item required under this program, grants of priority assistance will be apportioned equitably on the basis of production during 1944. However, any person who did not produce the item in 1944 and who wants to make it or whose facilities for the production of the item have increased since 1944 or who wants to increase the production of the item may apply for priorities assistance under the program, but his application will not be entertained unless it is accompanied by a signed statement setting forth the facilities or increased facilities he owns or has under contract for his exclusive use to produce the item(s) applied for within the program period. Where facilities or increased facilities are available because of a change from the production of other items, he must state whether production will be reduced on any other items and specify the items. Such applications will be granted on an equitable basis.

(n) [Deleted July 3, 1945.]

(o) Applications which do not provide completely and accurately the information required may be denied.

[Order M-375, Revocation of Direction 2]

RESTRICTIONS ON SALE OF RUBBER COATED WORK GLOVES

Direction 2 to Order M-375 is revoked. This revocation does not affect any liabilities incurred for violation of the direction or of actions taken by the War Production Board under the direction. The manufacture, use and delivery of rubber coated work gloves remain subject to all other applicable orders and regulations of the War Production Board.

Issued this 5th day of October 1945.

Chapter XI—Office of Price Administration

PART 1390—MACHINERY AND TRANSPORTATION EQUIPMENT

[RMPR 136, Amdt. 14]

MACHINES, PARTS, AND INDUSTRIAL EQUIPMENT

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 19 is amended by adding paragraph (l) to read as follows:

(l) *Washing machine wringers.* The maximum prices for washing machine wringers shall be determined by orders issued pursuant to the provisions of this paragraph in accordance with the standards for reconversion pricing set forth in Maximum Price Regulation 188, section 159e (Amendment 67), such standards being applied to individual companies.

The price increase factor will be determined on the basis of industry-wide and individual company surveys and will represent costs experienced during the last period of normal production adjusted for subsequent lawful changes in the level of material prices and in basic wage rate schedules of factory workers, plus the company's peace-time profit margin over costs.

This amendment shall become effective October 13, 1945.

Issued this 8th day of October 1945.

CHESTER BOWLES,
Administrator.

PART 1499—COMMODITIES AND SERVICES

[MPR 211,[1] Amdt. 9]

COTTON GINNING SERVICES AND BAGGING AND TIES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Section 1499.559 is added to read as follows:

§ 1499.559 *Suspension of maximum prices.* The maximum prices established by this regulation for cotton ginning services are suspended as of October 5, 1945 for an indefinite period of time. Notwithstanding the provisions of the General Maximum Price Regulation,[2] Revised Price Schedule No. 49,[3] and Maximum Price Regulation No. 165,[4] this suspension of maximum prices for cotton ginning services shall constitute a suspension of maximum prices for bagging and for ties sold as part of, or in connection with, the service of ginning cotton.

This amendment shall become effective October 5, 1945.

Issued this 5th day of October 1945.

PART 1347—PAPER, PAPER PRODUCTS AND RAW MATERIALS FOR PAPER AND PAPER PRODUCTS, PRINTING AND PUBLISHING

[RMPR 266]

CERTAIN TISSUE PAPER PRODUCTS

Maximum Price Regulation No. 266 is redesignated as Revised Maximum Price Regulation No. 266 and is revised and amended to read as set forth herein.

In the judgment of the Price Administrator the maximum prices established by this revised regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended. Insofar as this regulation uses specifications and standards which were not, prior to such use, in general use in the trade or industry affected, or insofar as their use was not lawfully required by another Government agency, the Administrator has determined, with respect to such standardization, that no practicable alternative exists for securing effective price control with respect to the commodities subject to this regulation.

A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.

Sec.

1. Prohibition against dealing in toilet tissue and paper towels at prices above the maximum prices.
2. Adjustable pricing.
3. Export sales.
4. Application to import transactions.
5. Less than maximum prices.
6. Federal and State taxes.
7. Applicability of the General Maximum Price Regulation.
8. Evasion.
9. Violation.
10. Records and reports.
11. Licensing.
12. Petitions for amendment and applications for adjustment.
13. Definitions.
14. Applicability.
15. Appendix A: Maximum prices for toilet tissue.
16. Appendix B: Maximum prices for paper towels.

AUTHORITY: § 1347.501, issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; Pub. Law 108, 79th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681; E.O. 9599, 10 F.R. 10155.

SECTION 1. *Prohibition against dealing in toilet tissue and paper towels at prices above the maximum prices.* On and after October 10, 1945, regardless of any contract, agreement or other obligation, no person shall sell or deliver any toilet tissue or paper towels, and no person in the course of trade or business shall buy or receive any toilet tissue or paper towels at prices higher than those set forth in sections 15 and 16, and no person shall agree, offer, solicit or attempt to do any of the foregoing.

The basic pricing provisions of this regulation, for different types of sellers are as follows:

TOILET PAPER

For manufacturers, section 15, Appendix A, (a) and (b)
For distributors, section 15, Appendix A, (c)
For retailers, section 15, Appendix A, (d)

PAPER TOWELS

For manufacturers, section 16, Appendix B, (a) and (b)
For distributors, section 16, Appendix B, (c)
For retailers, section 16, Appendix B, (d)

SEC. 2. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 3. *Export sales and sales for export.* (a) The maximum prices at which a person may export any products covered by this regulation shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation issued by the Office of Price Administration.

(b) On sales and deliveries for export of any product covered by this regulation a manufacturer may add to his maximum domestic price for such product any differential which he maintained for such product during October 1 to 15, 1941, or March 1942, whichever is lower, and subject to the same discounts: *Provided,* That in no event shall such maximum domestic price plus the differential exceed the highest price charged for the sale of such product for export during March 1942. On sales of new brands for export a manufacturer may add to his maximum domestic price the same dollar-and-cent export differential which was applied during the appropriate base period to the manufacturer's most comparable brand.

SEC. 4. *Application to import transactions.* This regulation applies to transactions in commodities to be imported into the continental United States.

SEC. 5. *Less than maximum prices.* Lower prices than those established by this regulation may be charged, demanded, paid or offered.

SEC. 6. *Federal and State taxes.* Any tax upon or incident to, the sale or delivery of tissue products covered by this regulation imposed by any statute of the United States, or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such commodity and in preparing the records of such seller with respect thereto.

(a) As to a tax in effect prior to October 15, 1941, (1) if the seller paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and collected from the seller but the seller did not customarily state and collect separately from the purchase price during October 1–15, 1941 the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the seller may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining the maximum price under this regulation.

(2) In all other cases, if, at the time the seller determines his maximum price the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount or tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum price under this regulation.

(b) As to a tax or increase in a tax which becomes effective after October 15, 1941, if the statute or ordinance imposing such tax or increase does not prohibit the seller from stating and collecting the tax or increase separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum prices, the amount of the tax or increase actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased.

SEC. 7. *Applicability of the General Maximum Price Regulation.* The provisions of this regulation supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries of tissue products for which maximum prices are established herein.

SEC. 8. *Evasion.* The price limitations established herein shall not, directly or indirectly, be circumvented or evaded by modifying, discontinuing or altering any customary trade practice, freight policy, allowance or discount of the seller, or by increasing terms for the extension of credit, or by splitting orders, or by deteriorating the quality of any commodity except as otherwise permitted herein, or by changing the selection or style of processing or the wrapping or packaging

of tissue products covered by this regulation or by any other means.

SEC. 9. *Violation.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 10. *Records and reports.* (a) Every person, except retailers, making sales or purchases of toilet tissue and paper towels in the course of trade or business after October 9, 1945, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942 remains in effect, complete and accurate records of each such purchase or sale showing the date thereof, the name and address of the purchaser or seller, the price received, and the amount of toilet tissue and paper towels in each case bought or sold.

(b) Within twenty-one (21) days after the effective date of Revised Maximum Price Regulation 266 each manufacturer shall file, unless he has already so filed, with the Office of Price Administration, Washington, D. C. the maximum price established by the regulation for each product or grade which he manufactures, setting forth for each such product and/or grade the manner in which such maximum price has been determined. In the case of a product or grade wherein the manufacturer determines his maximum price under the provisions of section 15 (a), section 15 (b), section 16 (a) and/or section 16 (b), he shall state for each such product or grade the furnish, basis weight, sheet size, sheet count, method of handling freight and other relevant factors, indicating the calculation, the resulting maximum price and the highest price charged for such product or grade during October 1–15, 1941 and March 1942.

(c) Any manufacturer who reduces or has reduced the chemical pulp content or basis weight of a product under the provisions of section 15 (a) (8) or (9), or section 16 (a) (10) or (11) shall file the following data with the Office of Price Administration, Washington, D. C.:

(1) The chemical pulp content and basis weight on November 26, 1942.

(2) All subsequent changes in the chemical pulp content and basis weight, and the dates of these changes.

(3) These data shall be filed within 21 days after the effective date of this revised regulation, if not previously filed, except that data relating to changes made subsequent to the effective date of this revised regulation shall be filed within 21 days after the date of such change.

SEC. 11. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 12. *Petitions for amendment and applications for adjustment.* (a) Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration.

(b) The Office of Price Administration may adjust the maximum prices established under this regulation for a manufacturer of a commodity if it finds:

(1) That such maximum price subjects him to substantial hardship, and that either

(2) Continuance of the seller's production of the commodity is required to meet a military or essential civilian need, or

(3) Loss of the seller's production of the commodity will force his customers to resort to higher priced sources of supply, and that no adequate substitute for the commodity is available to his customers at a price equal to or lower than the adjusted maximum price which he requests.

(c) *Form of application for adjustment.* Applications for adjustment shall be filed in accordance with Article III of Revised Procedural Regulation No. 1, with the Office of Price Administration, Washington, D. C. In addition the applicant shall set forth the following data:

(1) Statement of the applicant's maximum price, the section of this regulation under which such price is determined, the proposed adjusted maximum price, the complete specifications of the commodity, and the length of time the applicant has been producing the commodity.

(2) Completed Forms 695–371a and 695–371b for the last two quarterly accounting periods.

(3) Statement of the seller's over-all financial condition, including the information required by OPA Form A (Annual Financial Report) for the fiscal year next preceding the filing of the application, and the information required by OPA Form B (Interim Financial Report) for each quarterly period subsequent to the period covered by the A report: *Provided*, That for cause shown the latter requirement may be waived in whole or in part at the discretion of the Administrator.

(4) A complete statement of the reasons why the applicant believes he will be unable to maintain his production of the commodity at his established maximum price.

(d) Notwithstanding any other provision of this regulation, in the event that an adjustment is or has been granted under paragraph (b) above, each subsequent reseller may add the exact dollar and cents amount of the increase to his maximum price. Each manufacturer and each reseller shall in every first shipment or delivery to a customer include a notice, as described below, of the change in maximum price of each carton or case containing the item, or securely attach it to such carton or case, and also indicate the change on the invoice accompanying the shipment.

The form of the written notice of change follows:

(Insert date)

Our O. P. A. ceiling price for (describe the item by the appropriate specifications as shown in the letter order).

We are authorized to inform you that if you are a wholesaler or retailer, under Revised Maximum Price Regulation No. 266 you may recalculate your ceiling price for this item on the first delivery of it to you containing this notification on or after (insert here effective date of price change). You may add to your ceiling price per case (insert actual increase in dollars and cents).

SEC. 13. *Definitions.* (a) When used in this regulation the term:

(1) "Person" includes an individual, corporation, partnership, association, any other organized group of persons or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof or any other government, or any of its political subdivisions, and any agency of any of the foregoing.

(2) "Manufacturer" means any person who converts tissue for use as toilet tissue or paper towels and includes the agents of such person.

(3) "Retailer" includes any person the major portion of whose sales are resale items sold to the ultimate consumer.

(4) "Distributor" includes any person other than a manufacturer or retailer the major portion of whose sales are to retailers, industrial and institutional users, or other distributors.

(i) "Wholesale grocer" includes distributors, the major portion of whose sales are to retail grocery stores.

(ii) "Wholesale druggist" includes distributors, the major portion of whose sales are to retail drug stores.

(iii) "Paper merchant" includes any person other than a retailer, wholesale druggist, or wholesale grocer who buys any commodity listed in this regulation in any quantity from a manufacturer or other seller and who resells such commodity.

(5) "Industrial, institutional and commercial user" includes all users who purchase toilet tissue and paper towels for general use by their employees, inmates and guests, and do not resell any of these items.

(6) "Most closely competitive seller of the same class." "Seller of the same class" means a seller (1) performing the same function (for example, manufacturing, distributing, retailing, processing, storing, installing, or repairing), (2) of similar type (for example, department store, mail order house, chain store, specialty shop, cut-rate store), (3) dealing in the same type of commodities or services, and (4) selling to the same class of purchaser. A seller's "most closely competitive seller of the same class" shall be a seller of the same class who (a) is selling the same or a similar commodity, and (b) is closely competitive in the sale of such commodities, and (c) is located nearest to the seller.

(7) "Similar". One commodity shall be deemed "similar" to another commodity, if the first has the same use as the second, affords the purchaser fairly equivalent serviceability, and belongs to

a type which would ordinarily be sold in the same price line. In determining the similarity of such commodities, differences merely in style or design which do not substantially affect use, or serviceability, or the price line in which such commodities would ordinarily have been sold, shall not be taken into account.

(8) "Purchaser of the same class" refers to the practice adopted by the seller in setting different prices for commodities or services for sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, jobber, retailer, government agency, public institution, individual consumer) or for purchasers located in different areas or for different quantities or grades or under different conditions of sale.

(9) "Toilet tissue" includes all tissue papers having a basis weight of 8 to 16 pounds, inclusive (24 x 36—500), a square inch area per sheet of 16 to 41 inches, inclusive, made from either chemical pulp or mechanical pulp or a combination of the two and designed for toilet use.

(10) "Paper towels" includes all absorbent, creped or embossed papers having a basis weight between 22 and 40 pounds, inclusive, (24 x 36—500), a square inch area per sheet of 80 to 220 inches, inclusive, made from chemical pulp or mechanical pulp or a combination of the two and designed principally for drying purposes.

(11) "Facial type toilet tissue" includes two or three ply toilet tissue manufactured on a type of paper machine where paper is creped, and adhering to the dryer with a moisture range not exceeding 10%.

(12) "Wet-strength paper towel" refers to one that has a wet-tensile strength of at least 1.5 pounds per inch width when tested according to TAPPI Method No. T404 M-41 with the tensile lode applied ten seconds after the specimen, clamped in the testing machine, has been streaked transversely along a path at least one-quarter inch wide with an excess of water at room temperature, providing the toweling is capable of becoming at least 80% saturated[1] when submerged 10 seconds in water at room temperature and provided the ratio of the wet-tensile to the dry-tensile strength is at least 20 percent.

(13) "New product" means a product under this regulation the utility and form of which differ entirely from any product now being produced by the manufacturer.

(14) "New grade" means any proposed product the utility and form of which are similar to any product now being produced by the manufacturer but which differs in either one of the following respects:

(i) Reduction in actual chemical pulp content or actual basis weight to an amount greater than that allowed in section 15, Appendix A (a) (8) or (9), or section 16, Appendix B (a) (10) or (11).

(ii) Increase in actual chemical pulp content or actual basis weight above that of any other product reported, as required by section 10: *Provided*, That such increase in the grade or brand to be priced will establish a different chemical pulp content class or basis weight class from any other grade or brand now produced by the manufacturer as defined in the formula in section 15, Appendix A (a) (Toilet Tissue) or in section 16, Appendix B (a) (Towels).

(15) "Revised product" means any product in which any of the following specifications are changed:

(i) Sheet width or length.

(ii) Towel area from one class to another.

(iii) Number of sheets or number of towels per roll or package.

(iv) Number of rolls or packages per case.

(v) Change in brand name.

(16) "Basis weight" refers to the weight of a 500-sheet ream of paper 24 x 36 inches per sheet.

(17) "Chemical pulp" refers to the chemical fibre content which must be either virgin chemical fibre or 100% chemical fibre wastepaper properly deinked.

(18) "Zone 1" includes Maine, New Hampshire, Vermont, Massachusetts, Connecticut, New York, New Jersey, Rhode Island, Pennsylvania, Delaware, Maryland, District of Columbia, Virginia, West Virginia, Ohio, Kentucky, Indiana, Michigan, Wisconsin, Illinois, Missouri, Iowa, Minnesota, North Dakota—East of Grand Forks and Fargo, South Dakota—East of and including Watertown and Sioux Falls, Nebraska—East of and including Grand Island, Kansas—East of and including Topeka.

(19) "Zone 2" includes North Carolina, South Carolina, Tennessee, Georgia, Florida, Alabama, Mississippi, Louisiana, Arkansas, Oklahoma, Texas—except Laredo and El Paso, Kansas—West of Topeka, Nebraska—West of Grand Island, South Dakota—West of Watertown and Sioux Falls, North Dakota—West of Grand Forks and Fargo.

(20) "Zone 3" includes Arizona, Utah, Nevada—excluding Reno, Idaho—South of Panhandle and East of Boise, Montana, Wyoming, New Mexico, Laredo and El Paso in Texas, Colorado.

(21) "Zone 4" includes Washington, Oregon, California, Reno in Nevada, Idaho (including Boise) except that part of Idaho in Zone 3.

(22) "Case" refers to the shipping container in which toilet tissue or 3750 paper towels are packed.

(23) "Markup" refers to that percentage of cost, exclusive of cash discount, which is taken to arrive at the selling price.

(24) "Prices charged for deliveries during March 1942" shall have the same meaning as the phrase "highest price charged during March 1942" in the General Maximum Price Regulation.

(25) "Sale for export" means a sale to a buyer in the continental United States who does not take title on behalf of a foreign principal, but buys for his own account with the intent either to resell the commodity to a foreign buyer or to ship it abroad for his own use.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to other terms used herein.

SEC. 14. *Applicability.* The provisions of this regulation shall be applicable within the continental limits of the United States.

SEC. 15. *Appendix A: Maximum prices for toilet tissue*—(a) (1) *Manufacturers' maximum prices for sales of toilet tissue on a uniform nationally delivered basis.* Where a manufacturer sells on a uniform nationally delivered basis his maximum prices shall be computed as follows: *Provided*, That in no case shall the price as calculated below exceed the price which was charged for deliveries during March 1942:*

Basis weight classes (24" x 36"—500)[1]	Chemical pulp content[2]		
	100% bleached price factor X	75%–99% price factor Y	Less than 75% price factor Z
1. Less than 11.00	$1.09	$1.05	$1.00
2. 11.0 to 11.99	1.15	1.10	1.05
3. 12.0 to 12.99	1.20	1.15	1.10
4. 13.0 and over	1.26	1.20	1.15

[1] The classes are established on the weight of a ream of 500 sheets of paper 24" x 36". A manufacturer is permitted a 5% tolerance per case, but in no event can the basis weight vary plus or minus from the stated basis weight by more than 5% on any case.

[2] The groups are established on a basis of chemical pulp content. Products in Group X shall have 100% bleached chemical pulp; products in Group Y shall have 75%–99% chemical pulp; products in Group Z shall have less than 75% chemical pulp.

(i) The maximum basis weight to be used in computing the manufacturer's maximum price shall be either the basis weight ascribed by the manufacturer, or the actual basis weight of the same item from January 1, 1942 to November 12, 1942, whichever is lower.

(ii) For toilet tissue 4½ inches in width, the case price shall be computed by multiplying the applicable price factor (derived from column X, Y or Z) by the number of linear inches of paper in the case divided by 100,000, as illustrated below:

$$\frac{\text{Number of Linear Inches in the Case (Length of Sheet x Sheets per Case)}}{100{,}000}$$

(iii) Widths greater or less than 4½ inches take a proportionate increase or reduction in the price resulting from application of the formula in subdivision (a) (1) (ii) above, except that in the case of interfolded toilet tissue the maximum price per case for such tissue 4 inches wide shall be calculated by deducting from the maximum price established by this regulation for a case of 100,000 sheets 4½ inches wide that differential customarily employed by the manufacturer during the period October

[1] $\frac{B-A}{C-A}$ = 80% where A is weight of two single ply speciments each 5 inches square weighed in air dry condition (45 to 50 percent relative humidity). B is weight after being submerged in distilled water at 70 degrees Fahrenheit for 10 seconds and then drained freely for 10 seconds. C is weight after being submerged in distilled water at 70 degrees Fahrenheit for 24 hours and then drained freely for 10 seconds.

*Except in the case of manufacturers who have been granted relief in accordance with former § 1347.510 of MPR 266.

1–15, 1941; or 35¢ per case of 100,000 sheets, whichever is greater.

(iv) In the event that the maximum price as calculated above is less than the highest carload price which was charged, on a uniform nationally delivered basis, by the manufacturer during the period of October 1 to October 15, 1941, the maximum price shall be such October 1 to 15, 1941, carload price. Freight practices which were employed by the manufacturer during such period may be continued: *Provided*, That the manufacturer shall not require the purchaser to pay a larger proportion of transportation costs incurred in the delivery of the toilet tissue than the manufacturer required purchasers of the same class to pay during the period of October 1 to 15, 1941.

(2) *Manufacturers' maximum prices for sales on a zone basis.* When a manufacturer does not sell on a nationally delivered basis, his maximum delivered prices, which in no event shall exceed the prices charged by the manufacturer for deliveries during March 1942,* shall be computed in accordance with the procedure of paragraph (a) (1) of this section, with the adjustments as shown in the following table:

Location of manufacturing plant	Point of delivery	Addition to or subtraction from applicable price factor
1. Zone 1	Zone 1	Deduct $0.03.
2. Zone 1	Zone 2	Add $0.01.
3. Zone 1 Zone 4	Zone 3	Add $0.03.
4. Zone 1	Zone 4	Add $0.03.
5. Zone 2 Zone 3 Zone 4	Anywhere in continental United States (subject to (3) above).	No addition or deduction.

(i) In the event that the maximum price as calculated in accordance with the provisions of paragraph (a) (2) of this section is less than the highest carload price which was charged by the manufacturer on sales into any particular zone during the period of October 1 to October 15, 1941 the maximum price shall be such October 1 to October 15, 1941 price for sales into the same zone.

(3) *F. O. B. mill prices for manufacturers selling on a nationally delivered or zone basis.* When a shipment of toilet tissue is made on an f. o. b. mill basis, the manufacturer's maximum f. o. b. mill price, which in no event shall exceed the highest f. o. b. mill price, charged for the same grade by the manufacturer during March, 1942,* shall be computed as follows:

(i) For manufacturers selling on a uniform nationally delivered basis, the f. o. b. mill price shall be computed in accordance with the provisions of paragraph (a) (1) of this section less the sum of 60¢ per cwt.

(ii) For manufacturers selling on a zone delivered basis, the f. o. b. mill price shall be computed in accordance with the provisions of paragraph (a) (2) of this section for deliveries in the zone in which the manufacturer's mill is located less the sum of 50¢ per cwt. The resultant f. o. b. mill price shall be the maximum f. o. b. mill price charged in all f. o. b. mill sales to all zones.

(iii) On shipments to other than government claimant agencies under (i) or (ii) above, the resultant f. o. b. mill price plus the freight charges to the point of delivery shall in no event exceed the manufacturer's maximum delivered price determined under this regulation.

(4) *Manufacturers' maximum price for shipments of other than carload lots to one consignee.* (i) On shipments of other than carload lots (excepting less-than-carload shipments) to one consignee, the manufacturer may add to the maximum carload price established by this regulation the established differentials which he had in effect during the period of October 1 to October 15, 1941.

(ii) On shipments of less-than-carload lots, the manufacturer may add to the maximum carload price established by this regulation the lesser of the following:

(*a*) That differential between his carload and his less-than-carload price which he employed during the period of October 1 to October 15, 1941, or

(*b*) 5.05% plus the difference between the carload and the less-than-carload rate of freight.

(5) *Manufacturers' maximum prices for sales made directly to industrial, institutional and commercial users, and to purchasers other than distributors.* On sales made directly to industrial, institutional and commercial users, and to purchasers other than distributors, a manufacturer who, during the period of October 1 to October 15, 1941, had an established practice of selling to such purchasers at prices in excess of those established for other classes of purchasers, may compute the maximum price for such sales by multiplying the manufacturers' maximum price as established by this regulation, by the lesser of the following amounts.

(i) The highest markup which the manufacturer applied to sales of toilet tissue of a given grade to a purchaser of the same class during the period of October 1 to October 15, 1941, or

(ii) The markups permitted paper merchants in section 15 (c) (1) (ii).

In no event may the resulting maximum price exceed the highest price charged for such sales made during March 1942.

(6) *Facial type toilet tissue.* The maximum price for facial type toilet tissue shall be computed in accordance with the provisions of paragraph (a) of this section, except that $0.23 may be added to the price factor in Class 1, Group X. In no event may the price of any facial type toilet tissue exceed the price which was charged by the manufacturer for deliveries during March 1942.

(7) *Special products.* (i) Special small diameter rolls of toilet tissue packaged for use on Pullman cars are excluded from this Revised Maximum Price Regulation No. 266, and are covered by the General Maximum Price Regulation.

(ii) Toilet tissue put up to conform with the new specification for the armed forces in special waterproof envelopes each containing 100 sheets is excluded from this regulation and is covered by the General Maximum Price Regulation.

(8) The manufacturer may reduce the chemical pulp content by not more than 15% of the chemical pulp content upon which the present maximum price for his product established by this regulation is based, without revising such maximum price.

(9) The manufacturer may reduce the basis weight by not more than 5% of the basis weight upon which the present maximum price for his product established by this regulation is based, without revising such maximum price.

(10) If a manufacturer under this regulation supplies cabinets or dispensers for toilet tissue either by sale, rent, lease or otherwise, he shall continue the same practices and charges employed during March 1942, except that in the event of a sale, he shall apply the same percentage markup to his new cost as he applied to his cost of the same or similar article in March 1942. If a manufacturer under this regulation, after March 1942, provides for the first time such dispensers or cabinets, he shall follow the practice of his closest competitive seller with respect to such cabinets or dispensers.

(b) *Maximum prices for new products, new grades and revised products of toilet tissue.* (1) The manufacturer's maximum price for a new product as defined in section 13 (a) (13) is to be determined by the formula in Appendix A (a) (1) for nationally delivered mills or Appendix A (a) (2) for zone delivered mills.

(2) The manufacturer's maximum price for a new grade as defined in section 13 (a) (14) is to be determined as follows: The manufacturer shall first select as a comparable product one, produced by him, the utility and form of which are similar and the actual basis weight and actual chemical pulp content of which are nearest to the actual basis weight and actual chemical pulp content of the item for which a maximum price is requested. When possible the comparable product should contain the same number of sheets per unit and units per case as the product for which a maximum price is requested. In the event that two products are judged to be comparable products, the one whose manufacturing costs are nearest the manufacturing costs of the item for which a maximum price is requested shall be the comparable product.

The sum of the current manufacturing costs, freight and cash discounts on the comparable grade must be subtracted from its maximum price. The resultant figure is to be added to the sum of the current manufacturing costs, freight and cash discounts for the new grade or brand. This resultant figure will then be the maximum selling price of the new grade or brand.

The manufacturing costs in these cases shall be computed on the basis of costs prevailing at the time when such in line price is being determined and in accordance with the manufacturer's usual method of determining manufacturing costs during March 1942.

A maximum price determined by a manufacturer under this section must be reported to and confirmed by the Office of Price Administration. If this confirmation is not obtained prior to the time of making the sale, the manufacturer must agree to refund to the purchaser any amount paid in excess of the confirmed maximum price.

Confirmation of the maximum price determined under this section shall be obtained as follows:

The seller shall submit to the Office of Price Administration in Washington, D. C., a statement setting forth all of the relevant facts including the following:

(i) Description of the grade being priced;

(ii) Sample thereof;

(iii) Designation of market area of comparable product and proposed market area of new grade;

(iv) Completed Forms 695–371a and 695–371b, which cover cost and price data on the new grade and on the most comparable grade with which the price comparison was made.

(3) The manufacturer's maximum price for a revised product as defined in section 13 (a) (15) shall be determined as follows:

(i) *For sheet width change or length change.* The manufacturer shall use as the comparable product one having the same actual basis weight and actual chemical pulp content, and then proceed as outlined in (b) (2) above.

(ii) *For change in sheet count or rolls per case.* The revised product shall be priced proportionately to the grade before the change.

(iii) *For change in brand name only.* The product retains the same price as the grade before the change.

(4) Any maximum price which cannot be determined under any of the previous provisions of this section shall be determined by the Office of Price Administration in Washington, D. C., upon receipt of an application from the manufacturer setting forth a description of the grade and the reasons why it cannot be priced under any other provision of the regulation. The applicant shall furnish with such application information required on Forms 695–371a and 695–371b with respect to the costs of such grade.

(c) *Distributors' maximum prices.* (1) The distributor's maximum price, which may in no event exceed the highest price charged for deliveries during March 1942, except as provided in Section (12) (d), or, if no sales were made, the highest offering price during March 1942, is to be computed by multiplying the manufacturer's maximum price by the lesser of the following amounts:

(i) The highest markup which the distributor applied to sales of toilet tissue of a given grade to a purchaser of the same class during March 1942, or

(ii) On sales by—

	Paper merchants	Wholesale druggists	Wholesale grocers
	Percent	*Percent*	*Percent*
1. 1 to less than 3 cases	145	120½	117½
2. 3 to less than 10 cases	127½	120½	117½
3. 10 to less than 25 cases	125	120½	117½
4. 25 to less than 100 cases	122½	120½	117½
5. 100 to less than C/L	117½	120½	117½
6. Carload	105	120½	117½

(2) Where a distributor purchases toilet tissue from a manufacturer whose petition under former § 1347.510 has not been denied by the Office of Price Administration, such distributor, upon receipt of the notice provided for in such section, need not be restricted by his own March 1942 price for sales of such toilet tissue, except that the resulting maximum price shall not be in excess of the March 1942 price charged for deliveries of the same or similar commodity by his most closely competitive seller of the same class.

(3) In the event that the markup in (c) (1) (ii) above is less than 85% of the markup set forth in paragraph (c) (1) (i) above, the maximum price shall be computed by multiplying the manufacturer's maximum price by 85% of such markup set forth in paragraph (c) (1) (i) above.

(4) Wholesale grocers and wholesale druggists who, during the period of October 1 to October 15, 1941, operated wholesale paper departments and had an established practice of selling toilet tissue to industrial, institutional and commercial users at markups approximating those set forth in paragraph (c) (1) (ii) for paper merchants during such period, may compute their maximum prices for sales on such products to such purchasers in accordance with the markups provided for paper merchants in paragraph (c) (1) (ii), or in accordance with their markups applied to sales to a purchaser of the same class during March 1942, whichever is lower.

(5) Paper merchants, wholesale druggists, and wholesale grocers who purchased toilet tissue from other merchants or distributors may not charge a price in excess of the maximum price which would be applicable if the purchase had been made directly by them at the manufacturer's ceiling price computed in accordance with paragraphs (a) and (b) of this section.

(6) On less-than-case sales by recognized service distributors, a markup may be charged not in excess of 165%, and on less-than-case sales by wholesale druggists, and grocers, the markup may exceed the markups specified in paragraph (c) (1) of this section by an amount not in excess of the differential between one case and less-than-case lots which was charged on deliveries made during March 1942.

(7) For sales in carload lots involving shipment from the manufacturer to a person purchasing from a merchant or distributor where local delivery by the merchant or distributor from a warehouse or rail siding is required, there may be added to the maximum price established herein the actual delivery expense (except that no rail freight shall be included), which in no event shall exceed the applicable local common carrier rate. Such expense shall be separately noted in the invoice or other evidence of sale.

(8) On sales of less-than-carload lots to points outside his recognized free delivery zones or areas, the merchant or distributor may add to his maximum price the lesser of the following differentials:

(i) The amount which he charged on such sales made during the period of October 1 to October 15, 1941, or, if he made no such sales, the amount which he would have charged on such sales to purchasers of the same class; or

(ii) The actual freight.

(9) When a merchant or distributor supplies cabinets or other fixtures for the dispensing of toilet tissue in connection with the sale of such product, he may make a charge for the sale of such cabinet or fixture at a price not exceeding 150 percent markup of the cost to him of such cabinet or fixture. Such charges shall be set forth in the invoice or other evidence of sale, and may be amortized over a definite period of time.

(10) On sales of toilet tissue purchased from a manufacturer who determined his maximum price on an f. o. b. mill basis as outlined in paragraph (a) (3) above, the distributor may base his maximum markup upon the sum of such charges (not exceeding carload rate of freight) to the point of delivery, or upon the maximum zone price which would apply at the given destination, whichever is lower.

(d) *Retailer's maximum prices.* The retailer's maximum price for toilet tissue which may in no event exceed the ceiling price in effect on November 30, 1943, except as provided in Section (12) (d), is to be calculated as follows (for unit and multiple sales separately):

(1) *The maximum price rule.* The retailer shall first find his "net cost" of the brand he is pricing. He must then multiply that "net cost" by his "March 1942 percentage markup." The meaning of "net cost" and "March 1942 percentage markup" are explained in (2) and (3) which follow.

(2) *The meaning of "net cost."* "Net cost" as used in the maximum price rule above means the amount the retailer paid for the brand delivered at his customary receiving point, less all discounts and all allowances permitted him, except the discount for prompt payment. "Net cost" refers to a customary quantity from a customary supplier and by the customary mode of transportation.

(3) *The meaning of "March 1942 percentage markup."* The percentage which the retailer shall use as his "March 1942 percentage markup" depends upon whether or not in March 1942 he sold such brand of toilet tissue:

(i) If the retailer did sell such brand of toilet tissue in March 1942, he shall

(*a*) Take the highest price at which he made sales of such toilet tissue during March 1942, and

(*b*) Divide this price by his "net cost" of such brand which appears on his last invoice in March 1942.

The resulting figure is the retailer's "March 1942 percentage markup." This is the figure by which the retailer should multiply his new cost to arrive at his ceiling price.

(ii) If the retailer did not sell such brand of toilet tissue during March 1942, he shall use his "March 1942 percentage markup," calculated as in (d) (3) (i) above, on the largest volume brand of toilet tissue which he sold during March 1942.

(4) *Fractions of cents.* If the calculation of a maximum price for a customary unit of sale under this regulation results in a fraction of less than one-half cent, the maximum price shall be reduced to the nearest lowest cent; if the calculation results in a fraction one-half

* Maximum prices heretofore established under former Appendix A (a) (1) (iv) shall remain in effect.

cent or more, it should be increased to the nearest higher cent. Calculations shall be made separately for multiple sales and for unit sales of such products.

(5) *Examples.* A retailer purchases from his supplier a case of X brand of toilet tissue at a net cost of $4.87 in December 1942. His last March 1942 purchase of X brand was made at a net cost of $5.00 per case. His highest March 1942 price was 7 cents per roll. He shall find his ceiling price for X brand toilet tissue as follows:

(i) (a) He shall divide 7 cents (his highest March 1942 retail price by 5 cents (his last net cost in March 1942))

1.40
5/7.00
5
20
20

The resulting figure of 1.40 is his "March 1942, percentage markup."

(b) He multiplies $4.87 (his net cost) by 1.40 (his "March 1942 percentage markup")

$4.87
1.40
19480
487
$6.8180

(c) $6.818 per case of 100 rolls or 7 cents per roll is the retailer's ceiling price, providing this does not exceed his November 30, 1943 price.

(ii) A retailer purchases from his supplier a case of Y brand of toilet tissue at a net cost of $4.60 in December 1942. Assume the "March 1942 percentage markup" on Y brand of toilet tissue was 1.32. The calculations are as follows:

$4.60
1.32
920
1380
460
$6.0720

The retailer's ceiling price is $6.07 per case of 100 rolls or 6 cents per roll, providing this does not exceed his November 30, 1943 price.

(iii) Assume the retailer's March 1942 selling price was 3 for 19 cents, the new cost is $4.77 and his last March 1942 invoice was $5.00. His "March 1942 percentage markup" is calculated as follows:

1.266
5/6.330 (⅓ of 19)
5
13
10
33
30
30
30

The resulting figure of 1.266 is his "March percentage markup" over net cost. His ceiling price is determined as follows:

Multiply $4.77 (his new cost) by 1.266 (his "March 1942 percentage markup"). The retailer's ceiling price is $6.04 per case of 100 rolls or 3 rolls for 18 cents, provided this does not exceed his November 30, 1943, price.

SEC. 16. *Appendix B: Maximum prices for paper towels*—(a) (1) *Manufacturer's maximum prices for sales on a uniform nationally delivered basis.* Where a manufacturer sells on a uniform nationally delivered basis, his maximum prices which in no event shall exceed the price charged for deliveries during March 1942* shall be as follows:

TOWELS DISPENSED IN SINGLE THICKNESS

Towel area for interfolded towels (sq. in.)	Less than 25 lb (V)	Basis weight classes [1] 24" x 36"—500			
		25 lb 27.9 lb (W)	28 lb 33.9 lb (X)	34 lb 37.9 lb (Y)	38 lb. and over (Z)
1. 65 to 108.9	$1.65	$1.85	$2.20	$2.40	$2.50
2. 109 to 119.9	1.80	2.00	2.30	2.55	2.65
3. 120 to 134.9	1.95	2.15	2.45	2.70	2.80
4. 135 to 147.9	2.05	2.25	2.55	2.80	2.90
5. 148 and over	2.15	2.35	2.65	2.90	3.00
6. Household Roll [2]	2.60	2.90	3.30	3.50	3.65

TOWELS DISPENSED IN DOUBLE THICKNESS

7. 70 to 84.9	$2.60	$2.80	$3.25	$3.45	3.55
8. 85 to 99.9	2.80	3.00	3.45	3.70	3.80
9. 100 to 109.9	3.00	3.20	3.65	3.95	4.10
10. 110 and over	3.20	3.45	3.90	4.20	4.35

[1] The classes are established on basis weights of 24" x 36"—500. A manufacturer is permitted a 5% tolerance per case, but in no event may the basis weight vary plus or minus from the stated basis weight by more than 5% of any case.

[2] The maximum prices for household rolls are for cases of 7,500 towels, 7½" x 11". When the case count or sheet size varies, a directly proportionate adjustment in price shall be made.

(i) These maximum prices are for cases of towels with a furnish containing less than 65% chemical pulp.[3] Where the chemical pulp content is between 65% and 90%, 4% may be added to the case price; where the chemical pulp content is over 90%, 8% may be added to the case price.

(ii) The maximum basis weight to be used in computing the manufaeturer's maximum price shall be either the basis weight ascribed by the manufacturer, or the actual basis weight of the same item from January 1, 1942 to November 12, 1942, whichever is lower.

(iii) In the event that the maximum price as calculated above is less than the highest carload price which was charged, on a uniform nationally delivered basis, by the manufacturer during the period of October 1 to October 15, 1941, the maximum price shall be such October 1 to 15, 1941, carload price. Freight practices which were employed by the manufacturer during such period may be continued: *Provided,* That the manufacturer shall not require the purchaser to pay a larger proportion of transportation costs incurred in the delivery of the paper towels than the manufacturer required purchasers of the same class to pay during the period of October 1 to 15, 1941.

(2) *Manufacturers' maximum prices for sales on a zone basis.* When a manufacturer does not sell on a nationally delivered basis, his maximum delivered prices, which in no event may exceed the prices charged for deliveries made during March 1942,* shall be computed in accordance with the procedure of paragraph (a) (1) of this section, with the adjustments as shown in the following table:

Location of manufacturing plant	Point of delivery	Addition to or subtraction from applicable case price
1. Zone 1	Zone 1	Deduct $0.10.
2. Zone 1	Zone 2	Add $0.05.
3. Zone 1	Zone 3	Add $0.20.
Zone 4		
4. Zone 1	Zone 4	Add $0.30.
5. Zone 2	Anywhere in continental United States (subject to (3) above).	No addition or deduction.
Zone 3		
Zone 4		

(i) In the event that the maximum price as calculated in accordance with the provisions of subparagraph (2) of this section is less than the highest carload price which was charged by the manufacturer on sales into any particular zone during the period of October 1 to October 15, 1941, the maximum price shall be such October 1 to October 15, 1941 price for sales into the same zone.

(3) *F. o. b. mill prices for manufacturers selling on a nationally delivered or zone basis.* When a shipment of paper towels is made on an f. o. b. mill basis, the manufacturer's maximum f. o. b. mill price, which in no event shall exceed the highest f. o. b. mill price charged for the same grade by the manufacturer during March 1942, shall be computed as follows:

(i) For manufacturers selling on a uniform nationally delivered basis, the f. o. b. mill price shall be computed in accordance with the provisions of paragraph (a) (1) of this section less the sum of 60¢ per cwt.

(ii) For manufacturers selling on a zone delivered basis, the f. o. b. mill price shall be computed in accordance with the provisions of paragraph (a) (2) of this section for deliveries in the zone in which the manufacturer's mill is located less the sum of 50¢ per cwt. The resultant f. o. b. mill price shall be the maximum f. o. b. mill price charged in all f. o. b. mill sales to all zones.

(iii) On shipments to other than government claimant agencies under (i) or (ii) above, the resultant f. o. b. mill price plus the freight charges to the point of delivery shall in no event exceed the manufacturer's maximum delivered price determined under this regulation.

(4) *Manufacturers' maximum prices for shipments of other than carload lots to one consignee.* (i) On shipments of other than carload lots (excepting less-than-carload shipments) to one consignee, the manufacturer may add to the maximum carload price established by this regulation the established differentials which he had in effect during the period October 1 to October 15, 1941.

(ii) On shipments of less-than-carload lots, the manufacturer may add to the maximum carload price established by this regulation the lesser of the following:

(a) That differential between his carload and the less-than-carload price which he employed during the period of October 1 to October 15, 1941, or

(b) 5.05% plus the difference between the carload and the less-than-carload rate of freight.

(5) *Maximum prices for sales to industrial, institutional and commercial users and to purchasers other than distributors.* On sales made directly to industrial, institutional and commercial users or to purchasers other than distributors a manufacturer who, during the period of October 1 to October 15, 1941, had an established practice of selling to such purchasers, at prices in excess of those established for other classes of purchasers, may compute his maximum price for such sales by multiplying the manufacturer's maximum price as established by this regulation by the lesser of the following amounts:

(i) The highest markup which the manufacturer applied to sales of paper towels of a given grade to a purchaser of the same class during the period of October 1 to October 15, 1941; or

(ii) The markups permitted paper merchants in section 16 (c) (1) (ii).

In no event may the resulting maximum price exceed the highest price charged for such sales made during March 1942.

(6) Where towels are made from 100% chemical pulp, and where the following minimum strength and absorbency tests are met, the maximum price, calculated in accordance with the provisions of paragraphs (a) and (b) of this section may be exceeded by not more than 65¢ per case.

Delivery from dispenser	Basis weight	Strength [4]	Absorbency [5]
		Lbs.	*Seconds*
Single	Under 32 lb	20	200
Single	32 lb.–37 lb	25	175
Single	38 lb. and over	30	125
Double	Under 32 lb	40	20
Double	32 lb.–37 lb	50	15
Double	38 lb. and over	60	19

[4] Pounds per square inch, as measured by the Mullen test.

[5] Seconds required for the absorption of one-half cubic centimeter of water placed on the top of the sheet, according to Bureau of Standards test CU-T-501.

(7) Manufacturer's maximum prices for wet-strength paper towels shall not exceed those in the (X) basis weight class, the group to be determined by the sheet size.

(8) Continuous roll towels take a proportionate price on an area basis, to household roll towels, except that continuous unsheeted roll towels for use in special controlled-delivery dispensers and containing special cores or ends of metal, wood or both may take a differential of 20¢ a case in excess of the maximum price established by this regulation.

(9) Household folded paper towels shall be priced on the same basis as industrial folded towels.

(10) The manufacturer may reduce the chemical pulp content by not more than 13% of the chemical pulp content upon which the present maximum price for his product established by this regulation is based, without revising such maximum price.

(11) The manufacturer may reduce the basis weight by not more than 10% of the basis weight upon which the present maximum price for his product established by this regulation is based, without revising such maximum price.

(12) *Special products.* Paper towels sold through coin-operated vending machines are excluded from this regulation, and are covered by the General Maximum Price Regulation.

(13) If a manufacturer under this regulation supplies cabinets or dispensers for paper towels either by sale, rent, lease or otherwise, he shall continue the same practice and charges employed during March 1942, except that, in the event of a sale he shall apply the same percentage markup to his new cost as he applied to his cost of the same or similar article in March 1942. If a manufacturer under this regulation, after March 1942 provides for the first time such dispensers or cabinets, he shall follow the practice of his most closely competitive seller with respect to such cabinets or dispensers.

(b) *Maximum prices for new products, new grades and revised products of paper towels.** (1) The manufacturer's maximum price for a new product as defined in section 13 (a) (13) is to be determined by the formula in Appendix B (a) (1) for nationally delivered mills or Appendix B (a) (2) for zone delivered mills.

(2) The manufacturer's maximum price for a new grade as defined in section 13 (a) (14) is to be determined as follows: The manufacturer shall first select as a comparable product one, produced by him, the utility and form of which are similar and the actual basis weight and actual chemical pulp content of which are nearest to the actual basis weight and actual chemical pulp content of the item for which a maximum price is requested. When possible, the comparable product should contain the same number of sheets or towels per unit and units per case as the product for which a maximum price is requested. In the event that two products are judged to be comparable products, the one whose manufacturing costs are nearest the manufacturing costs of the item for which a maximum price is requested shall be the comparable product.

The sum of the current manufacturing costs, freight and cash discounts on the comparable grade must be subtracted from its maximum price. The resultant figure is to be added to the sum of the current manufacturing costs, freight and cash discounts for the new grade or brand. This resultant figure will then be the maximum selling price of the new grade or brand.

The manufacturing costs in these cases shall be computed on the basis of costs prevailing at the time when such in line price is being determined and in accordance with the manufacturer's usual method of determining manufacturing costs during March 1942.

A maximum price determined by a manufacturer under this section must be reported to and confirmed by the Office of Price Administration. If this confirmation is not obtained prior to the time of making the sale, the manufacturer must agree to refund to the purchaser any amount paid in excess of the confirmed maximum price.

Confirmation of the maximum price determined under this section shall be obtained as follows:

The seller shall submit to the Office of Price Administration in Washington, D. C., a statement setting forth all of the relevant facts including the following:

(i) Description of the grade being priced;

(ii) Sample thereof;

(iii) Designation of market area of comparable product and proposed market area of new grade.

(iv) Completed Forms 695–371a and 695–371b, which cover cost and price data on the grade and on the most comparable grade with which the price comparison was made;

(3) the manufacturer's maximum price for a revised product as defined in section 13 (a) (15) shall be determined as follows:

(i) *For change in towel area from one class to another.* The manufacturer shall use as the comparable product one having the same actual basis weight and chemical pulp content, and then proceed as in (b) (2).

(ii) *For change in towel count or packages per case.* The revised product shall be priced proportionately to the grade before the change.

(iii) *For change in brand name only.* The product retains the same price as the grade before the change.

(4) Any maximum price which cannot otherwise be determined under this regulation shall be determined by the Office of Price Administration in Washington, D. C., by order upon receipt of an application from the manufacturer setting forth a description of the grade and the reasons why it cannot be priced under any other provision of this regulation. The applicant shall furnish with such application completed Forms 695–371a and 695–371b with respect to the costs of such grade.

(c) *Distributors' maximum prices.* (1) The distributor's maximum price, which may, in no event, exceed the highest price charged for deliveries during March 1942, except as provided in Section (12) (d), or if no sales were made the highest offering price during March 1942, is to be computed by multiplying the manufacturer's maximum price by the lesser of the following amounts:

(i) The highest markup which the distributor applied to sales of paper towels of a given grade to a purchaser of the same class during March 1942, or

(ii) On sales by:

	Paper merchants	Wholesale druggist	Wholesale grocers
	Percent	*Percent*	*Percent*
1. 2 cases or less	155	120⅜	117½
2. 3 to less than 6 cases	140	120½	117½
3. 6 to less than 25 cases	127½	120½	117½
4. 25 to less than 200 cases	122½	120½	117½
5. 200 cases to less than C/L	117½	120½	117½
6. Carload	105	120½	117½

(2) Where a distributor purchases paper towels from a manufacturer whose petition under former § 1347.510 has not

[3] The groups are defined as follows: N—Less than 65% chemical pulp; O—65% to 90% chemical pulp; P—Over 90% chemical pulp.

*Except in the case of manufacturers who have been granted relief in accordance with former § 1347.510 of Maximum Price Regulation 266.

*Maximum prices heretofore established under former Appendix B (a) (1) (vii) shall remain in effect.

been denied by the Office of Price Administration, such distributor, upon receipt of the notice provided for in such section, need not be restricted by his own March 1942 price for sales of such paper towels, except that the resulting maximum price shall not be in excess of the March 1942 price charged for deliveries of the same or similar commodity by his most closely competitive seller of the same class.

(3) In the event that the mark-up as determined under paragraph (c) (1) (ii) above is less than 85% of the mark-up set forth in paragraph (c) (1) (i) above, the maximum price shall be computed by multiplying the manufacturer's maximum price by 85% of such mark-up set forth in paragraph (c) (1) (i) above.

(4) Wholesale grocers and wholesale druggists who, during the period of October 1 to October 15, 1941, operated wholesale paper departments and had an established practice of selling paper towels to industrial, institutional and commercial users at markups approximating those set forth in paragraph (c) (1) (ii) for paper merchants during such period, may compute their maximum prices for sales on such products to such purchasers in accordance with the markups provided for paper merchants in paragraph (c) (1) (ii), or in accordance with their markups applied to sales to a purchaser of the same class during March 1942, whichever is lower.

(5) Paper merchants, wholesale druggists, and wholesale grocers who purchase paper towels from other merchants or distributors may not charge a price in excess of the maximum price which would be applicable if the purchases were made directly by them at the manufacturer's ceiling price computed in accordance with paragraphs (a) and (b) of this section.

(6) On less-than-case sales by wholesale druggists and wholesale grocers, the markup may exceed the markups specified in paragraphs (c) (1) and (c) (2) of this section by an amount not in excess of the differential between one case and less-than-case lots which was charged on deliveries made during March 1942.

(7) For sales in carload lots involving shipment from the manufacturer to a person purchasing from a merchant or distributor where local delivery by the merchant or distributor from a warehouse or rail siding is required, there may be added to the maximum price established herein the actual delivery expense (except that no rail freight shall be included), which in no event shall exceed the applicable local common carrier rate. Such expense shall be separately noted in the invoice or other evidence of sale.

(8) Where a merchant or distributor supplies cabinets or other fixtures for the dispensing of paper towels in connection with the sale of such products, he may make a charge for the sale of such cabinet or fixture at a price not exceeding 150 per cent markup of the cost to him of such cabinet or fixture. Such charge shall be set forth in the invoice or other evidence of sale, and may be amortized over a definite period of time.

(9) On sales of less than carload lots to points outside his recognized free delivery zones or areas, the merchant or distributor may add to his maximum price the lesser of the following differentials:

(i) The amount which he charged during the period of October 1 to October 15, 1941, or if he made no such sale, the amount which he would have charged on such sales to purchasers of the same class; or

(ii) The actual freight.

(10) On sales of paper towels purchased from a manufacturer who determined his maximum price on an f. o. b. mill basis as outlined in paragraph (a) (3) above, the distributor may base his maximum markup upon the sum of such f. o. b. mill maximum price and freight charges (not exceeding carload rate of freight) to the point of delivery, or upon the maximum zone price which would apply at the given destination, whichever is lower.

(d) *Retailer's maximum prices.* The retailer's maximum price for paper towels, which may in no event exceed the ceiling price in effect on November 30, 1943, except as provided in Section (12) (d), is to be calculated as follows (for unit and multiple sales separately):

(1) *The maximum price rule.* The retailer shall first find his "net cost" of the brand he is pricing. He must then multiply that "net cost" by his "March 1942 percentage markup." The meaning of "net cost" and "March 1942 percentage markup" are explained in (2) and (3) which follow:

(2) *The meaning of "net cost."* "Net cost" as used in the maximum price rule above means the amount the retailer paid for the brand delivered at his customary receiving point, less all discounts and all allowances permitted him, except the discount for prompt payment. "Net cost" refers to a customary quantity from a customary supplier and by the customary mode of transportation.

(3) *The meaning of "March 1942 percentage markup."* The percentage which the retailer shall use as his "March 1942 percentage markup" depends upon whether or not in March 1942 he sold such brand of paper towels:

(i) If the retailer did sell such brand of paper towels in March 1942, he shall:

(*a*) Take the highest price at which he made sales of paper towels during March 1942, and,

(*b*) Divide this price by his "net cost" of such brand which appeared on his last invoice in March 1942.

The resulting figure is the retailer's "March 1942 percentage markup". This is the figure by which the retailer should multiply his new cost to arrive at his ceiling price.

(ii) If the retailer did not sell such brand of paper towels during March 1942, he shall use his "March 1942 percentage markup" calculated as in (d) (3) (i) above, on the largest volume brand of paper towels which he sold during March 1942.

(4) *Fractions of cents.* If the calculation of a maximum price for a customary unit of sale under this regulation results in a fraction of less than one-half cent, the maximum price shall be reduced to the nearest lower cent; if the calculation results in a fraction one-half cent or more, it should be increased to the nearest higher cent. Calculations shall be made separately for multiple sales and for unit sales of such products.

(5) *Example.* A retailer purchases from his supplier a case of X brand of household roll towels at a net cost of $3.90 in December 1942. His last March 1942 purchase of X brand was made at a net cost of $4.20 per case. His highest March 1942 price was 10 cents per roll. He shall find his ceiling price for X brand of household roll towels as follows:

(i) He shall divide 10 cents (his highest March 1942 retail price) by 8.4 cents per roll (his last net cost in March 1942).

```

8.4/10.000

-------
760
756
-------

```

The resulting figure of 1.19 is his "March 1942 percentage markup."

(ii) He multiplies 7.8 cents (his net cost per roll) by 1.19 (his "March 1942 percentage markup")

```

(iii) His ceiling price is $.09282 or 9 cents per roll, provided it does not exceed his November 30, 1943, price.

Copies of all forms required by this regulation are available upon request to the Office of Price Administration, Washington, D. C.

This regulation shall become effective October 10, 1945.

NOTE: All record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1305—ADMINISTRATION

[SO 119, Amdt. 6]

INDIVIDUAL ADJUSTMENTS FOR RECONVERTING MANUFACTURERS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order No. 119 is amended in the following respects:

1. The item "Machines, Office" in the Product List of Appendix A under the heading Durable Goods Price Branch is amended to read:

Machines, Office (of the following categories)
(a) Check handling machines.
(b) Coin handling machines.
(c) Postage Meter machines.
(d) Cash registers.
(e) Perforating, marking and cancelling machines.
(f) Stamp affixing machines.
(g) Office typewriters (except electric).
(h) Portable typewriters.

2. The following is added to Appendix B:

Wool Floor Coverings. (The term "wool floor coverings" means loom woven floor coverings, the surface of which contain at least twenty-five percent wool. The term includes only floor coverings of the axminster, velvet, tapestry, wilton, brussels, chenille, smyrna and ingrain types of weave, and all variations of these types of weaves, if woven on a loom. It also includes floor coverings having a synthetic or leno back if the essential wearing part of the article is loom woven.)

This amendment shall become effective on October 10, 1945.

Issued this 5th day of October 1945.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[MPR 334,[1] Amdt. 3]

RABBITS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 334 is amended in the following respects:

1. Section 1364.1051 is amended to read as follows:

§ 1364.1051 *Prohibition against selling at prices above the maximum.* On and after March 1, 1943, regardless of any contract or agreement or other obligation, no person shall sell or deliver live or dressed domestic rabbits or sell any slaughtering service, and no person in the course of trade or business shall buy or receive any live or dressed domestic rabbits at a price higher than the applicable price established by § 1364.1052 of this Maximum Price Regulation No. 334, and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of live or dressed domestic rabbits, if, prior to February 25, 1943, such products had been delivered to a carrier, other than a carrier owned or controlled by the seller, for shipment to the purchaser.

2. The heading of § 1364.1052 is amended to read as follows:

§ 1364.1052 *Maximum prices for live and dressed domestic rabbits.*

3. Paragraph (a) of § 1364.1052 is amended to read as follows:

(a) The maximum prices for domestic rabbits, alive or dressed, and for custom slaughter service, shall be the applicable base price determined in accordance with the provisions of this paragraph (a) minus the required deductions, if any, specified in paragraph (b), plus the permitted additions, if any, specified in paragraph (c).

(1) The applicable base price for live white rabbits shall be 24 cents per pound delivered.

(2) Except as provided in paragraph (d) of this § 1364.1052, the applicable base price for domestic rabbits sold at wholesale shall be:

(i) 44 cents per pound delivered for dressed rabbits.

(ii) 30 cents per pound delivered for hog dressed rabbits.

(3) Except as provided in paragraph (d) of this § 1364.1052, the applicable base price for dressed rabbits sold to purveyors of meals by persons other than retailers shall be 47 cents per pound delivered.

(4) The applicable base price for sales at retail shall be:

(i) 55 cents per pound for dressed rabbits.

(ii) 35 cents per pound for hog dressed rabbits.

(5) The maximum prices that any processor may charge for custom slaughter service shall be:

(i) 20 cents per rabbit, or

(ii) the skin and by-products from the dressed rabbit.

4. Section 1364.1053 is amended to read as follows:

§ 1364.1053 *Less than maximum prices.* Prices lower than those specified in § 1364.1052 of this Maximum Price Regulation No. 334 may be charged, demanded, paid or offered for live or dressed domestic rabbits, or for custom slaughtering service.

5. Paragraphs (a), (b) and (c) of § 1364.1054 are amended and paragraph (g) of § 1364.1054 is added, respectively to read as follows:

(a) To sales of domestic rabbit breeding stock when sold for breeding purposes.

(b) To sales of live domestic rabbits when sold for scientific or other experimental purposes.

(c) To sales of live domestic rabbits when sold as pets or for exhibition or show purposes.

(d) To sales of live or dressed wild rabbits.

6. Section 1364.1059 is amended to read as follows:

§ 1364.1059 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 334 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to, live or dressed domestic rabbits, separately or in conjunction with any other commodity or services, or by way of commission, service, transportation, wrapping, packaging, or other charge, or discount, premium, or other privilege, or by tying agreement or other trade understanding, or by any other means.

7. Section 1364.1061 is amended to read as follows:

§ 1364.1061 *Records and reports.* (a) Every person, other than a retailer, making sales of live or dressed domestic rabbits subject to this regulation, on and after March 1, 1943, shall make and preserve for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, is in effect, a complete and accurate record of each such sale, showing the date thereof, the name and address of the buyer and seller, the quantity, weight and unit price for each type of live or dressed domestic rabbit subject to this regulation, and the price charged or received therefor.

(b) Every person making sales of dressed domestic rabbits at retail, subject to this regulation, on and after March 1, 1943, who has customarily given a purchaser a sales slip or receipt shall continue to do so. Upon request from a purchaser, any retailer, regardless of previous custom, shall give the purchaser a receipt showing the date, name and address of the retailer, weight, and unit price of the dressed domestic rabbit sold, and the total price received from the purchaser.

8. Subparagraphs (4), (5), (13), (15) and (19) of § 1364.1062 (a) are amended respectively to read as follows:

(4) "Processor" means a person who converts live domestic rabbits into dressed domestic rabbits and/or who owns or controls in whole or in substantial part an interest in a processing plant.

(5) "Pick-up man" means a person other than a producer, processor, or jobber, who does not own, control, or have an interest in a rabbitry or processing plant, and who is not owned or controlled by any person who owns or controls a rabbitry or processing plant and who buys live domestic rabbits from producers and sells them to processors.

(13) "Sales at wholesale" means sales of rabbits other than at retail or to purveyors of meals.

(15) "Processing plant" means any place where live domestic rabbits are killed and/or dressed.

[1] 8 F.R. 2505, 15937; 9 F.R. 796.

(19) "Wild rabbit" means any rabbit which has not been produced or raised or fed in captivity.

9. Subparagraph (20) to § 1364.1002 (a) is added to read as follows:

(20) "Domestic rabbit" means any rabbit which has been produced or raised in captivity, and includes any rabbit which has been fed in captivity before processing.

This amendment shall become effective October 10, 1945.

NOTE: The record-keeping provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 5th day of October 1945.

VEGETABLE WAXES AND BEESWAX

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 264 is amended in the following respects:

1. By amending the heading of Appendix A to read as follows:

APPENDIX A—MAXIMUM PRICES FOR VEGETABLE WAXES AND BEESWAX PURCHASED FROM A FOREIGN SELLER

PART 1445—LIVESTOCK

[MPR 469, Amdt. 15]

LIVE HOGS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 469 is amended in the following respects:

1. Paragraph (a) of section 1 is amended to read as follows:

(a) To sales or deliveries of live hogs for breeding or for serum purposes, or of live hogs weighing less than 140 pounds for feeding for more than one month: *Provided*, That all hogs sold to a dealer, an order buyer or a slaughterer, other than a farm slaughterer as defined in Control Order No. 1, shall be deemed to be sold for slaughtering purposes. On and after October 9, 1945, if hogs are sold to a dealer, an order buyer or a slaughterer for any exempt purpose the dealer, order buyer, or slaughterer, or any authorized person acting in such purchaser's behalf shall provide the seller with a signed statement indicating the specific exempt purpose for which such hogs are being bought before such sale shall be exempt. On and after October 9, 1945, any seller selling hogs to a dealer, an order buyer or a slaughterer for an exempt purpose shall require such purchaser to provide him with the signed statement hereinbefore required, and such seller, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, shall keep and preserve such signed statement for inspection by the Office of Price Administration.

2. Paragraphs (b), (c), (d) and (e) of section 2 are amended respectively to read as follows:

(b) "Terminal market" means one of the municipalities named in Schedule I of Appendix A (section 13), and includes all of the public markets, slaughter houses, and places which, except for their location in such municipality, otherwise meet the requirements of a "buying station" as specified in this regulation.

(c) "Interior market" means one of the municipalities named in Schedule II of Appendix A (section 13), and includes all of the public markets, slaughter houses, and places which, except for their location in such municipality, otherwise meet the requirements of a "buying station" as specified in this regulation.

(d) "Buying station" means any fixed place of business, other than a terminal market or an interior market, where live hogs are weighed for sale and sold to the buyer and where a regular market is maintained. As used herein, "regular market" means a fixed place of business where hogs are regularly purchased and sold and where some person is, or persons are, regularly engaged in the business of buying and/or selling hogs. No place shall operate as a buying station which does not meet all of the requirements for buying stations specified in this regulation.

(e) No place shall be deemed a terminal market, an interior market or a buying station unless it is equipped with scales adapted to the weighing of livestock, and equipped with pens, chutes, and other facilities for loading, unloading, sorting and holding hogs.

3. Section 4 is amended by changing the words preceding subparagraph (1) of paragraph (a) thereof to read as follows:

SEC. 4 *Service charges to buyers.* Note: Sales of hogs purchased at "public markets", as defined in paragraph (c) hereof, are exempt from the provisions of this section 4. Charges for services rendered in connection with such sales are subject to the jurisdiction of the Secretary of Agriculture pursuant to the Packers and Stockyards Act of 1921, as amended.

(a) *Dealer's service charge to slaughterers.*

4. Subparagraph (3) to section 4 (a) is added to read as follows:

(3) A dealer is a person who regularly utilizes a fixed place of business which meets the requirements of a buying station, who buys live hogs from the producer at such fixed place of business or at an auction market, and who resells such hogs to a slaughterer. The charges permitted by subparagraph (1) of this section 4 (a) shall apply only (i) to sales to slaughterers of hogs weighed at the fixed place of business regularly utilized by the dealer and purchased from the producer by the dealer at such fixed place of business; or (ii) to sales of hogs weighed at an auction market and purchased at such auction market by the dealer and resold to a slaughterer.

5. Paragraph (b) of section 4 is amended to read as follows:

(b) *Order buyer's service charges to slaughterers.* (1) On and after October 9, 1945, and notwithstanding the terms of any contract or agency, contract of employment or other contractual arrangement heretofore entered into by a slaughterer and an order buyer (except contracts calling for the payment of salary or wages at regular fixed intervals and which are not dependent upon the volume of hogs purchased for the slaughterer by the order buyer), no slaughterer shall pay, give, grant, or assume liability to pay, give, or grant wages, commissions, fees, dividends, bonuses, gratuities or other forms of compensation to an order buyer in excess of $0.05 per hundredweight for the services performed by such order buyer in purchasing hogs for the account of such slaughterer; and no order buyer shall accept, claim, or otherwise receive wages, commissions, fees, dividends, bonuses, gratuities or other forms of compensation from a slaughterer in excess of $0.05 per hundredweight for the services performed by such order buyer in purchasing hogs for the account of such slaughterer.

(2) An order buyer is a person who, as the agent of a slaughterer, purchases hogs for such slaughterer and meets all of the following requirements:

(i) The hogs purchased by such agent must be weighed for purchase at a terminal market, an interior market or a buying station.

(ii) The hogs purchased by such agent must be for the account of the slaughterer.

(iii) The title to the hogs purchased must not vest in the agent, but shall vest immediately in the slaughterer. Nothing herein contained, however, shall be construed to prevent such an agent from asserting any lien he may have acquired against hogs in his possession for money expended by him on behalf of such slaughterer in the purchase of the particular lot of hogs against which the lien is asserted.

(iv) The invoice, receipt or other written evidence of sale must indicate that title to the hogs purchased is transferred directly from the seller to the slaughterer.

(v) The legal authority to bind the slaughterer to pay the seller for the hogs purchased by such agent on behalf of the slaughterer must exist. Nothing herein contained, however, shall be construed to prevent such slaughterer's agent from paying the seller on behalf of the slaughterer from funds belonging to the agent.

6. Paragraph (d) of section 4 is added to read as follows:

(d) *Feeding and bedding charges.* Any dealer or order buyer who furnishes necessary feed or bedding for hogs after being weighed for purchase by a slaughterer and which are either awaiting shipment or are in transit to such slaughterer may charge the slaughterer an amount not to exceed the prevailing market cost of the feed consumed or the bedding used at the point where such feed and/or bedding was provided if the shipment is other than by rail. If the shipment is by rail, the total amounts charged shall be at the same rates which the rail carrier could have charged under its tariffs if it had performed the services. Where such charges are made, under either set of circumstances, an accurate written statement of the items entering into such charge must be given the slaughterer.

7. Paragraph (c) of section 7 is amended to read as follows:

(c) All expenses of transporting the hogs to the place of weighing shall be paid by the seller. If the buyer transports the hogs to the place of weighing, a transportation charge of not less than 5 cents per 100 pounds for distances up to and including 6 miles, and not less than 10 cents per 100 pounds for distances over 6 miles, must be deducted from the applicable ceiling price to be paid to the seller by the buyer. The amount of such transportation charge must be shown on the invoice, receipt or other written record of the sale.

8. Section 10 is amended to read as follows:

SEC. 10 *Prohibitions.* (a) On and after October 4, 1943, the date this regulation takes effect, if any person sells or delivers or negotiates the sale or delivery of live hogs at prices higher than the ceiling prices herein established, or if any person in the course of trade or business buys or receives or negotiates the purchase or receipt of live hogs at prices higher than the ceiling prices herein established, or otherwise violates any of the provisions of this regulation, he is subject to the criminal penalties, civil enforcement actions and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(b) The sale of any hog at farm weights to any buyer for purposes other than breeding, serum production or feeding for more than one month is prohibited. "Farm weight" means the weight of the hog as determined by any manner other than weighing the hog on scales that are located at a terminal market, interior market or buying station.

(c) Specifically, but not exclusively, the following practices are prohibited:

(1) The sale or purchase of slaughter hogs conditioned upon the sale or purchase of breeding hogs, serum hogs or hogs for feeding purposes as indicated in section 1 (a).

(2) The sale or purchase of hogs conditioned upon the sale or purchase of any other commodity by either the seller or the buyer of the hogs.

(3) The sale or purchase of hogs conditioned upon the performance of any service by either the seller or the buyer of the hogs and for which provision is not made in this regulation, or, if the sale is made at a public market, in the rules and regulations established by the Secretary of Agriculture pursuant to the Packers and Stockyards Act of 1921, as amended.

(4) The charging or receiving, or the owing or paying of any consideration, whether money or otherwise, for services not authorized to be performed and paid for under the provisions of this regulation, or, if the sale is made at a public market, for services not authorized to be performed and paid for under the provisions of the rules and regulations established by the Secretary of Agriculture pursuant to the Packers and Stockyards Act of 1921, as amended.

(5) The payment of fees or any other form of compensation for "finding", or otherwise locating hogs for a purchaser.

9. To the list of interior markets set forth in Schedule II of section 13, Appendix A, the following are added:

	Per cwt.
Sheridan, Wyoming	$14.45
Suffolk, Virginia	14.60
Tallahassee, Florida	14.35

10. Paragraph (a) of Item 14 of Schedule III of section 13, Appendix A, is amended by the elision of the words "Pawnee" and "Richardson".

11. Paragraph (b) of Item 27 of Schedule III of section 13, Appendix A, is amended by the addition of a comma after the word "Adams", to be followed by the names of two counties, to read as follows: "* * *, Clinton, Brown."

This amendment shall become effective October 9, 1945.

NOTE: The record keeping and reporting provisions of this amendment have been approved by the Bureau of the Budget.

Issued this 5th day of October 1945.

CHESTER BOWLES,
Administrator.

Approved: September 28, 1945.

CLINTON P. ANDERSON,
Secretary of Agriculture.

PART 1499—COMMODITIES AND SERVICES

[RMPR 165, Amdt. 1 to Supp. Service Reg. 54]

LINEN SUPPLY SERVICE IN ATLANTA REGION

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Service Regulation 54 is amended in the following respects:

1. The title of the regulation is amended to read as follows: "Linen Supply Service in the Atlanta Region."

2. In § 1499.688 (a), the reference to "Atlanta, Georgia, area" is amended to read "Atlanta Region".

3. Section 1499.688 (d) (1) is amended to read as follows:

(d) *Definitions.* (1) "The Atlanta Region" means the States of Virginia, Tennessee, North Carolina, South Carolina, Mississippi, Alabama, Georgia, and Florida.

4. Section 1499.688 (f) is amended to read as follows:

(f) *Notice requirements.* Within 45 days from October 10, 1945, every seller of linen supply services covered by this regulation shall notify each of its customers of the maximum prices established herein.

5. Section 1499.688 is amended by adding a new paragraph (j) to read as follows:

(j) *Elections.* (1) Any seller of linen supply services located in the Atlanta Region who has filed maximum prices under RMPR 165 higher than the maximum prices established for the services under this regulation, may elect to remain subject to RMPR 165 by filing within 30 days from October 10, 1945 a written notice of its election with its War Price and Rationing Board for the area in which its place of business is located and a copy with the District Office of the Office of Price Administration for the district where its place of business is located and from which its sales of linen

[1] 9 F.R. 5727, 12746; 10 F.R. 1142.

supply services are made. Within the 30 day election period, any establishment may continue to sell at its maximum prices established under RMPR 165.

(2) Any seller electing to remain subject to its RMPR 165 prices, may not thereafter sell at any of the prices listed in Appendix A of this regulation, unless such prices do not exceed its RMPR 165 prices.

(3) A "new seller" may elect to become subject to the provisions of Supplementary Service Regulation No. 44 rather than this regulation by filing within 30 days from its first sale of linen supply service an application for the establishment of prices in accordance with the provisions of SSR 44. From and after the effective date of an order establishing prices under SSR 44, such "new seller" may not sell at any of the prices listed in Appendix A of this regulation, unless such prices do not exceed its SSR 44 prices. Until the effective date of such an order under SSR 44, a "new seller" shall be subject to the maximum prices established in this regulation. A "new seller" means an establishment first entering into the business of selling linen supply service after October 10, 1945.

This amendment shall become effective October 10, 1945.

Issued this 5th day of October 1945.

PART 1306—IRON AND STEEL

[MPR 4,[1] Amdt. 3]

IRON AND STEEL SCRAP

A statement of the considerations involved in the issuance of this Amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 4 is amended in the following respects:

1. Section 7 (b) (1) is amended to read as follows:

(1) *Restrictions on use.* The price established for Grade 17 (rerolling rails) may be charged only when purchased and sold for rerolling use; otherwise the maximum price for such grade shall not exceed the price established for Grade 16 (scrap rails in random lengths). (The term "re-rolling rails" includes any rails which are sold to be used for rerolling, irrespective of whether or not such rails are usable for relaying.)

2. Section 7 (b) (2) is added to read as follows:

(2) The price established for Grade 32 (Wrought Iron) may be charged only when sold to a producer of Wrought Iron; otherwise, the maximum price for such grade shall not exceed the price established for the base grade, No. 1 Railroad Heavy Melting Steel.

3. Section 12 (c) is added to read as follows:

(c) Where the War Production Board allocates for rail shipment, cast iron scrap which has been stored at the dock for water movement, the consumer may pay the dock charges set forth in paragraph (a) above.

4. The last sentence of section 13 (b) is amended to read as follows:

(b) The transportation charge for delivering any grade of iron and steel scrap in a truck owned or controlled by the shipper or broker need not fall below $1.50 per gross ton.

5. Section 13 (d) is amended to read as follows:

(d) Where delivery of any grade of cast iron scrap is made solely by truck, transportation charges in excess of $1.50 per gross ton may not be added to the maximum shipping point price, or in the case of railroad cast iron scrap the maximum on-line price, unless the shipper of the scrap shall execute and deliver to the consumer or his broker the shipping notice required in section 29 (c).

6. Section 18 (a) is amended to read as follows:

(a) When grades of scrap commanding different maximum prices under the provisions of this regulation are shipped in the same vehicle, the maximum price for each grade as established in sections 4, 8, 10, or 11, whichever is applicable, may only be charged where the shipping notice as required by section 29 (c) of this regulation designates the quantity of each grade contained in the vehicle.

7. Section 29 (c) is amended to read as follows:

(c) On each shipment of scrap to the consumer, including rail, water or truck movement, the shipper must execute and mail (or deliver) to the consumer or his broker a shipping notice simultaneously with the shipment of the scrap. Such shipping notice must contain the date of shipment, number and initial of the car, the name of the vessel, or the name of the trucker (or trucking firm), the consumer's and/or broker's purchase order number, the specific grade or grades of scrap as they are designated in the applicable sections of this regulation, the shipping point, and the signature of the shipper or his duly authorized representative.

This amendment shall become effective October 13, 1945.

Issued this 8th day of October 1945.

PART 1346—BUILDING MATERIALS

[RPS 40, Amdt. 6]

BUILDERS' HARDWARE AND INSECT SCREEN CLOTH

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Price Schedule No. 40 is amended in the following respects:

A new § 1346.6b is added to read as follows:

§ 1346.6b *Modification of maximum prices for certain specified items of builders' hardware*—(a) *Scope of this section.* In order to immediately remove price as an impediment to the production of certain low-end items of builders' hardware, the OPA will permit manufacturers and resellers to increase their maximum prices as established under § 1346.1 of this schedule or the General Maximum Price Regulation in accordance with the provisions of this section.

(b) *Manufacturers' and jobbers' maximum prices.* Manufacturers and jobbers of any item listed in paragraph (e) below, may increase their maximum net prices as established under § 1346.1 by 10 percent.

(c) *Retailers' maximum prices.* Retailers of any item listed under paragraph (e) may increase their maximum prices to each class of purchaser as established under the GMPR by 10 percent. To the extent that this section modifies retailers' maximum prices, this section supersedes the GMPR with respect to maximum prices for such retailers.

(d) *Notification.* Any person, except a retailer, modifying his maximum prices under the provisions of this section shall notify, in writing, each of his purchasers, at or before the issuance of the first invoice after October 8, 1945, of his modified dollar-and-cents maximum price.

(e) *Items covered by this section.* There follows a list of commodity groups showing thereunder the specific items of builders' hardware covered by this section. Only the specific items listed under each commodity group are covered. Additional items may be added to this list by the Price Administrator.

PART 1352—FLOOR COVERINGS

[RPS 57,[1] Amdt. 5]

WOOL FLOOR COVERINGS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith; and has been filed with the Division of the Federal Register.

Revised Price Schedule No. 57 is amended in the following respects:

1. The last sentence of the second paragraph of the preamble is deleted.

2. Section 1352.1 (b) is amended to read as follows:

(b) (1) The maximum price for the sale by a manufacturer of any unit of wool floor covering not in his price list in effect on October 13, 1941, but sold (or contracted to be sold) by him during the period from January 1, 1941 to October 13, 1941, inclusive, or for any unit differing therefrom only in color or pattern, shall be 105 percent of the highest net price, f. o. b. manufacturer's point of shipment, at which such unit was sold (or contracted to be sold) by him during such period to the same person, or to a person in the same general class.

(2) (i) If the manufacturer did not sell a particular unit, described in (1) above to the same person or to a person in the same general class, during the period from January 1, 1941 to October 13, 1941, he shall determine his maximum price for sales of that unit by applying to his maximum price for sales of that unit to other classes of purchasers, the terms, allowances and other price differentials which he allowed on sales of similar articles during that period.

(ii) However, if the manufacturer made no sales to the same person, or to a person in the same general class, during the period from January 1, 1941 to October 13, 1941, he must apply to the Office of Price Administration, Durable Goods Price Branch, Washington, D. C., for the establishment of his maximum prices for such sales under paragraph (c) of this section, and he may not make any such sale or delivery until an order has been issued by the Office of Price Administration establishing his maximum price for such sales.

3. Section 1352.1 (c) is amended to read as follows:

(c) (1) This paragraph provides a method whereby a manufacturer's maximum prices will be established if the unit was not in the manufacturer's price list in effect on October 13, 1941, and he did not sell or offer it for sale during the period from January 1, 1941 to October 13, 1941; or the manufacturer made no sales to a particular class of purchaser of wool floor coverings during the period from January 1, 1941 to October 13, 1941; or the manufacturer has never manufactured and sold wool floor coverings prior to the effective date of this schedule.

(2) Any person whose maximum prices must be determined under this paragraph (c) shall file a signed report in duplicate with the Office of Price Administration, Washington 25, D. C., setting forth the following:

(i) The date of the report.

(ii) The manufacturer's name and address.

(iii) The specifications of the article which shall include a statement of the following:

The manufacturer's name, number or other designation of the article.
The type and kind of the article.
The pitch of the article.
The number of wires or rows, per inch.
The height of the pile, or the size of the wires.
The number of frames.
The number of shots in the weave.
With respect to the pile yarn: the material, the size; the ply; the weight per square yard, and the dye method.
With respect to the chain, the stuffer, and the filling: the material; the size; the ply; the weight per square yard; and a statement of whether it is natural or dyed;
With respect to the back: a statement of whether it is regular, leno, or synthetic; and whether it is starched. In addition, if the back is leno or synthetic, a statement of the exact kind of backing material, and a statement of its dry weight per square yard.
The total weight per square yard.
All other construction details not specified above.

(iv) If the applicant is a new manufacturer, or if he is applying for a maximum price for a new article, he shall submit the direct material and direct labor cost of producing the article, (broken down by major operations), computed on a square yard basis.

(v) If the applicant is a new manufacturer, he shall submit the name or number of two comparable articles; and the names and addresses of the manufacturers of those comparable articles.

(3) The manufacturer shall submit with his report a sample, 9" x 12" or a small mat of the article to be priced; and, where possible, samples, 9" x 12", or small mats of the comparable articles referred to in the report.

(4) After receipt of the manufacturer's report and samples or acting on its own motion the Office of Price Administration will issue an order establishing maximum prices for the manufacturer's sales, which maximum prices will be in line with the level of maximum prices established under this schedule. No sale or delivery of any article which must be priced under this paragraph (c) may be made until the issuance of an order establishing the manufacturer's maximum prices. The maximum prices, so established, shall apply to all sales and deliveries of the article by the manufacturer since this schedule became applicable to such sales and deliveries.

4. Section 1352.4 is revoked.

5. Section 1352.6 is amended to read as follows:

§ 1352.6 *Records.* Each manufacturer making sales of wool floor coverings on or after December 16, 1941 shall keep complete and accurate records of such sales for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect. Such records shall show, with respect to each such sale, the date thereof, the name and address of the buyer, the name, number or other designation of each unit sold, the price received for each unit, and the quantity sold.

6. Section 1352.7 is revoked.

7. Section 1352.11 is amended to read as follows:

§ 1352.11 *Definitions.* When used in this schedule, the following terms shall have the following meanings:

(a) "Person" includes an individual, corporation, or any other organized group; their legal successors or representatives; the United States, or any other government, or any of their political subdivisions.

(b) "Manufacturer" means a person operating a factory, plant or mill in which the actual weaving of wool floor coverings is performed.

(c) "Wool floor covering" means a loom woven floor covering, the surface of which contains at least twenty five percent wool. The term includes only floor coverings of the axminster, velvet, tapestry, wilton, brussels, chenille, smyrna and ingrain types of weave, and all variations of these types of weaves, if woven on a loom. It also includes floor coverings having synthetic or leno back if the essential wearing part of the article is loom woven.

(d) "Unit" means the specific article of wool floor covering sold or offered for sale.

This amendment shall become effective on October 13, 1945.

NOTE: The record keeping and reporting provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

RETAIL CEILING PRICES FOR PORK CUTS AND CERTAIN SAUSAGE PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 336 is amended by changing subparagraph (2) of section 12 (b) to read as follows:

(2) If you sell food in a retail store in which there are other food retailers, none of whom sells a complete line of the same general class of food, you must find your group by taking the combined "annual gross sales" of all the food retailers in that store. If you are unable to get the "annual gross sales" from the other food retailers in that store, you shall apply in writing, to your nearest OPA District Office, for a determination of your group, stating your own "annual gross sales" figure for the applicable year. Each District Director is authorized to act on requests covering stores located within his district, and action taken shall be by order.

This amendment shall become effective October 13, 1945.

NOTE: The reporting provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 8th day of October 1945.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 25—MEDICAL

HOSPITALIZATION AND DOMICILIARY CARE

§ 25.6045 *Persons entitled to hospital observation and physical examination.* Hospitalization for observation and physical (including mental) examination may be effected when requested by an authorized official, or when found necessary in physical examination of the following persons:

(a) Claimants or beneficiaries of the Veterans' Administration, for purposes of disability compensation, pension, emergency officers' retirement pay, medical feasibility for vocational training under Public No. 16, 78th Congress, and Government insurance.

(b) Claimants or beneficiaries referred from a facility to a diagnostic center for study to determine the clinical identity of an obscure disorder, or for advice as to treatment.

(c) Employees of the Veterans' Administration, when necessary to determine their mental or physical fitness to perform official duties.

(d) Claimants or beneficiaries of other Federal agencies:

(1) Bureau of War Risk Litigation, Department of Justice—plaintiffs in Government insurance suits.

(2) United States Civil Service Commission—annuitants or applicants for retirement annuity, and such examinations of prospective appointees as may be requested.

(3) United States Employees Compensation Commission—to determine identity, severity or persistence of disability.

(4) Railroad Retirement Board—applicants for annuity under Public No. 162, 75th Congress.

(5) Other Federal agencies.

(e) Pensioners of nations allied with the United States in World War I upon authorization from accredited officials of the respective governments. [57 Stat. 43; 38 U.S.C. 701]

§ 25.6046 *Persons entitled to hospital treatment or domiciliary care.* Hospital treatment or domiciliary care may be provided:

(a) Subject to the eligibility provisions of §§ 25.6047 and 25.6048, for:

(1) Persons discharged from the United States Army, Navy, Marine Corps or Coast Guard, after service in a war or peacetime period; retired emergency officers of the World War.

(2) Persons retired from the Army, Navy, Marine Corps or Coast Guard, including members of the Fleet Naval Reserve or Marine Corps Reserve on retainer pay, who had served honorably during the war period (Public No. 198, 76th Congress, as amended by Public No. 365, 77th Congress).

(3) Persons retired from the Army of the United States under Public No. 18, 76th Congress, as amended by Public No. 262, 77th Congress.

(4) Persons retired from the Army, Navy, Marine Corps or Coast Guard, Regular Establishment, not having had war service who elect to receive pension or compensation under laws administered by the Veterans Administration in lieu of retirement pay (Public No. 314, 78th Congress).

(b) Not subject to the eligibility provisions of §§ 25.6047 and 25.6048, for:

(1) Persons in active service with the United States Army (Public No. 177 and Public No. 852, 76th Congress), or United States Navy or Marine Corps (Public No. 675, 70th Congress), when duly referred with authorization therefor, may be supplied hospital treatment. Emergency treatment may be rendered such persons upon their own application, when absent from their commands: *Provided*, That covering formal authorization be procured as promptly as possible after the emergency treatment is begun. (See §§ 25.6018 and 25.6019.)

(2) Hospital treatment may be provided, upon authorization, for beneficiaries, of the United States Public Health Service, Employees Compensation Commission and other Federal agencies. (See §§ 25.6020, 25.6022, and 25.6025.)

(3) Pensioners of nations allied with the United States in World War I may be supplied hospital treatment when duly authorized. (See § 25.6026.)

(c) Emergency hospital treatment may be provided for:

(1) Persons having no prima facie eligibility therefor, as a humanitarian service.

(2) Persons admitted because of presumed discharge or retirement from the armed forces, but subsequently found to be ineligible as such.

(3) Employees (not potentially eligible as ex-members of the armed forces) and members of their families, when residing on reservations of field stations of the Veterans' Administration, and when they cannot feasibly obtain emergency treatment from private facilities. (See §§ 25.6027, 25.6028 and 25.6029.)

(d) Persons comprehended under the provisions of (b) and (c) may be supplied hospitalization after the needs of emergency applicants under (a) are fully met. See §§ 25.6018 to 25.6029, inclusive, as to per diem rates for persons hospitalized under (b) and (c). [53 Stat. 557, 55 Stat. 733; 10 U.S.C. 369a, 38 U.S.C. Supp. 12]

§ 25.6047 *Eligibility for hospital treatment or domiciliary care of persons discharged or retired from military or naval service.* Within the limits of Veterans Administration facilities, hospital treatment or domiciliary care may be furnished the following applicants in the specified order of preference:

(a) Hospital treatment for:

(1) Persons who served during the period of World War I as defined in §35.010, paragraphs (a) and (d), as amended; or in any war prior to the Spanish-American War; or during the Spanish-American War, Philippine Insurrection or Boxer Rebellion from April 21, 1898 to July 4, 1902 (or to July 15, 1903, if the service was in Moro Province), or on or after December 7, 1941, and before the termination of hostilities in World War II (as determined by proclamation of the President or by concurrent resolution of the Congress), including those who had active duty as a member of the Women's Army Corps, Women's Reserve of the Navy and Marine Corps, and the Women's Reserve of the Coast Guard—when discharged under other than dishonorable conditions from a period of war service, and when suffering from an injury or disease incurred or aggravated in line of duty in that period of active military or naval service, and for which they are medically determined to be in need of hospital treatment.

(2) Retired officers and retired enlisted men of the Army, Navy, Marine Corps and Coast Guard, including members of the Fleet Naval Reserve or Marine Corps Reserve on retainer pay, who had honorable service in a period of war, as defined in (a) (1) hereof, and are medically determined to need hospital treatment for an injury or disease that was incurred in line of duty in active military or naval service (Public No. 198, 76th Congress; Public No. 365, 77th Congress).

(3) Persons included in § 35.011 (c) who are suffering from injuries or diseases incurred in line of duty, for which they are receiving disability compensation, and for which they are in need of hospital treatment.

(4) Persons included in Public No. 300, 78th Congress, who, on or after December 7, 1941, and prior to the termination of present hostilities, suffered or shall suffer an injury or disease in line of duty for which they are receiving disability compensation or pension and for which they are in need of hospital treatment.

(b) Hospital treatment for:

(1) Officers and enlisted personnel of the Army, Navy, Marine Corps and Coast Guard, or reserve officers and members of the Enlisted Reserve, or officers and enlisted men of the National Guard of the United States, or persons accepted for selective training, who were discharged under other than dishonorable conditions from Federal service for disability incurred in line of duty, or who are in receipt of pension for service-connected disability, when suffering from injuries or diseases incurred or aggravated in line of duty in active Federal service, and for which they are medically determined to be in need of hospital treatment. Cadets and midshipmen discharged from the academies at West Point and Annapolis, who meet these requirements as to character of discharge or receipt of pension are eligible under this paragraph, regardless of the requirement as to active military or naval service. (See also section 10, Public No. 144, 78th Congress.)

(i) For applicants not in receipt of pension for service-connected disability, the official records of the Army or Navy, respectively, relative to findings of line of duty for its purposes, will be accepted in determining eligibility for hospital treatment under this paragraph (b); except that where the official records of the Army or Navy show a finding of disability not incurred in line of duty and evidence is submitted to the Veterans' Administration which permits of a different finding, the decision of the Army or Navy will not be binding upon the Veterans' Administration, which will be free to make its own determination of line of duty incurrence upon the evidence so submitted. It will be incumbent upon the applicant to present such controverting evidence and, until he so acts and a determination favorable to him is made by the Veterans' Administration, the finding of the Army or Navy will control and hospitalization will not be authorized. Such controverting evidence, when received from an applicant, will be referred to the adjudicating agency which would have jurisdiction if the applicant were filing claim for pension or disability compensation, and the determination of such agency as to line of duty, which is promptly to be communicated to the manager of the facility receiving the application for hospitalization, will govern his disapproval or approval of admission, other eligibility requirements having been met. Where the official records of the Army or Navy show that the disability on account of which a veteran was discharged or separated from his peacetime service under other than dishonorable conditions was incurred in line of duty, such showing will be accepted for the purpose of determining his eligibility for hospitalization, notwithstanding the fact that the Veterans' Administration has made a determination in connection with a claim for monetary benefits that the disability was incurred not in line of duty. See also Public No. 648, 75th Congress, defining line of duty, whether on active duty or authorized leave, relative to applicants whose only military or naval service was in a period other than wartime.

If the applicant's only service was in a period other than wartime and his last discharge or separation was not honorable, hospital treatment will be furnished only for a disease or injury incurred in line of duty in a period of service from which he was discharged or separated under other than dishonorable conditions for disability incurred in line of duty.

(ii) When the applicant is in receipt of a pension for a service-connected disability, inquiry will not be made as to the character of discharge from service. The same waiver as to character of discharge will be applicable to paragraph (c) of this section:

(iii) In those exceptional cases where the official records of the Army or Navy show honorable discharge because of expiration of period of enlistment or any other reason save disability, but also show a disability incurred in line of duty during the said enlistment; and the disability so recorded is considered in medical judgment to be or to have been of such character, duration, and degree as to have justified a discharge for disability had the period of enlistment not expired or other reason for discharge been given, the medical director, upon consideration of a clear, full statement of the circumstances submitted to him is authorized to approve admission of the applicant for hospital treatment, provided other eligibility requirements are met. A typical case of this kind would be one where the applicant was under treatment for the said disability recorded during his service at the time discharge was given for reason other than disability.

(2) Persons retired from the Army of the United States under Public No. 18, 76th Congress, as amended by Public No. 262, 77th Congress, who had service only in a period other than wartime and who are suffering from a disease or injury incurred in line of duty which is medically determined to require hospital treatment.

(3) Persons defined in § 25.6046 (a) (4) who are in need of hospital treatment for that disease or injury for which they are receiving disability pension.

(4) Persons included in Public No. 300, 78th Congress, who on or after August 27, 1940, and prior to December 7, 1941, suffered an injury or disease in line of duty for which they are receiving disability compensation or pension and for which they are in need of hospital treatment. [58 Stat. 219, 230; 38 U.S.C.A. ch. 12, note; 26c]

No change in paragraph (c) (1), (2), (3) and (4).

(5) Retired personnel of the classes comprehended by paragraph (b) (2) of this section may be supplied hospital treatment in a facility under the direct and exclusive jurisdiction of the Veterans' Administration, if beds are available, and such applicants agree to pay the per diem rate to cover subsistence, which is set by the Administrator of Veterans' Affairs.

(d) Hospital treatment or domiciliary care for:

(1) Veterans who served, regardless of length of service, during a period of war as defined in paragraph (a) (1), who were (i) discharged under other than dishonorable conditions; (ii) who swear that they are unable to defray the expense of hospitalization or domiciliary care, including the expense of transportation to and from a Veterans Administration facility; and (iii) who are suffering from a disability, disease or defect which, being susceptible of cure or decided improvement, indicates need for hospital care, or which, being essentially chronic in type and not susceptible of cure, or decided improvement by hospital care, is producing disablement of such degree and of such probable persistency as will incapacitate from earning a living for a prospective period, and thereby indicates need for domiciliary care. Except for applicants presenting emergent conditions, consideration in admissions under this paragraph may be given to the length or character of service. (See also paragraph (b) (1), (i), (ii) and (iii), which apply here.) (August 14, 1945.)

No change in (2).

§ 25.6048 *Definitions applicable in determining eligibility for hospital treatment or domiciliary care.* (a) Under paragraph (c) (2) of § 25.6047:

(1) A "permanent disability" will be taken to mean such impairment of mind or body as may reasonably be expected to continue throughout the remainder of the applicant's life, or any condition listed in § 2.1086 of this chapter. A permanent disability must be such as would materially interfere with the following of any substantially gainful occupation. This must be for medical determination, which shall not be influenced by the applicant's inability—due to industrial conditions, lack of personal initiative, or any other reason than disability due to disease or injury—to secure gainful employment. The infirmities resulting from advancing years when taken collectively, while not considered a disease entity, may be interpreted to be within the meaning of "disease" as used herein. A person who, at the time of his application for domiciliary care, has recently been rated 75 percent or more disabled for pension or disability compensation purposes will be held to be prima facie incapacitated within the meaning of this section.

(2) A permanent disability, as contemplated, is exemplified in chronic, severe types of general medical diseases, such as myocarditis, valvulitis, cardiovascular disease, nephritis, arthritis, etc., and in blindness, loss of parts or use of parts, etc. But injuries or diseases such as reparable hernia, chronic appendicitis, cholecystitis, cholelithiasis, nephrolithiasis, etc., are not essentially permanent, as contemplated, in that surgical intervention may remove the disability.

(3) "No adequate means of support"—When an applicant is receiving an income of $50 or more per month from any source, this fact will be considered prima facie evidence that he has adequate means of support, except when he is in fact contributing in whole or part from such income to the support of a wife, child, mother or father. If the applicant alleges he is contributing to the support of dependents other than these, the alleged circumstances will be submitted to central office, for decision as to eligibility for admission. However, if the medical care and treatment will be needed for a period so extensive that the applicant could not possibly pay for such services for such time in a private hospital, this $50 per month income provision may be waived.

(b) Under paragraph (d) of § 25.6047:

(1) "Any disability, disease or defect" will comprehend any acute, subacute or chronic disease (of a general medical, tuberculous or neuropsychiatric type) or any acute, subacute or chronic surgical condition, susceptible of cure or decided improvement by hospital care; or any condition which, not susceptible of cure or decided improvement by hospital care, indicates need for domiciliary care. Domiciliary care, as the term implies, is the provision of a home, with such incidental medical care as is needed. To be entitled to domiciliary care the applicant must consistently have a disability, disease or injury which, chronic in type and not susceptible of cure or decided improvement by hospitalization, is producing disablement of such degree and probable persistency as will incapacitate from earning a living for a prospective period. Defects such as constitutional psychopathic inferiority or mental deficiency, without superimposed psychosis or psychoneurosis, will not indicate hospital treatment, but will entitle to domi-

ciliary care, other requirements being met, if such defects are producing material social and industrial inadaptability.

(2) "Unable to defray expense of hospitalization or domiciliary care, including transportation to and from a Veterans' Administration facility." The affidavit of the applicant on Form P–10 that he is unable to defray the expenses of hospitalization or domiciliary care, including transportation to and from a facility, will constitute sufficient warrant to furnish Government transportation to cover transportation to the facility. But, having in mind the penal provisions of the law governing the making of false sworn statements, managers will report to central office any and all cases in which they suspect false statements as to inability to defray the expenses of hospitalization or domiciliary care, including transportation. Such reports will include all the facts, with comment and recommendation.

(c) Persons applying for hospital treatment, under paragraph (c) or (d) of § 25.6047, and who are potentially entitled to other hospital treatment because of membership in a union, fraternal organization, or group hospitalization plan or under commercial insurance companies policies covering illness or injury; or as beneficiaries of a State Industrial Commission or Employees Compensation Commission, etc., will be instructed to procure their hospital treatment from such sources. When, however, any such person is hospitalized in a Veterans' Administration facility for treatment of a condition not service-connected, including any injury for which a third party is liable; and such person is potentially entitled to reimbursement for the costs of the treatment provided by the Veterans' Administration, the service will not be rendered by the Veterans' Administration without charge therefor to the extent of such reimbursement. Action will be taken to effect collection from the persons, companies, organizations or agencies (other than Federal) in the amounts determined payable under the terms of the applicable insurance policy, plan, agreement or other undertaking.

[Order 129]

PART 2—GENERAL RULES AND REGULATIONS

SUNRISE AND SUNSET TIME

The Commission, on September 26, 1945, effective 2 a. m., September 30, 1945, deleted § 2.36 *Standard time; daylight saving time,* and adopted the following:

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 26th day of September 1945,

It appearing, that there are a large number of existing construction permits, licenses, and special authorizations for standard broadcast stations which provide that the licensees or permittees, which commence operation at "sunrise" and cease operation at "sunset", shall specify the average times of sunrise and sunset one hour in advance of mean astronomical time for each month in accordance with standard time, as established by Public Law No. 403, approved January 20, 1942, and

It further appearing, that on September 25, 1945, Public Law No. 403 was repealed and the standard time of the United States returned to "mean astronomical time" in accordance with the act of March 1918.

Now, therefore, *It is ordered,* That the specific average times of sunrise and sunset in all existing instruments of authorization for standard broadcast stations shall be returned to "mean astronomical time", as provided in the act of March 19, 1918; and *It is further ordered,* That Order No. 90 adopted February 3, 1942, be, and it is hereby, repealed.

This order shall become effective 2 o'clock a. m., September 30, 1945.

FEDERAL POWER COMMISSION.

[Docket No. G–622]

UNITED GAS PIPE LINE CO.

NOTICE OF SUPPLEMENTAL APPLICATION

OCTOBER 5, 1945.

Notice is hereby given that on October 1, 1945, a supplemental application was filed with the Federal Power Commission by United Gas Pipe Line Company (Applicant), a Delaware corporation, with its principal place of business at Shreveport, Louisiana, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize (1) the construction and operation of certain facilities hereinafter described, and (2) the transportation and sale of natural gas to certain natural gas companies in accordance with the terms of various contracts which will be more specifically referred to and described in this notice.

On February 12, 1945, Applicant filed an application, thereafter amended, in Docket No. G–622 for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the construction and operation of the following facilities:

(1) Approximately 143 miles of 24-inch outside diameter natural-gas transmission pipeline beginning at a gasoline plant to be constructed by Applicant in the Carthage gas field near Carthage, Panola County, Texas, and extending in an easterly direction to a point of connection with Tennessee Gas and Transmission Company's existing main 24-inch natural-gas transmission line at the latter's Monroe, Louisiana, compressor station, thence in a northeasterly direction to a point of connection with Applicant's existing pipeline facilities in the Monroe gas field at Applicant's Sterlington compressor station, together with appurtenant facilities, including three measuring stations and a parallel telephone line.

(2) Approximately 4½ miles of 18-inch outside diameter natural-gas transmission pipeline beginning at the gasoline plant of The Chicago Corporation in the Carthage gas field and extending to a point of connection with the above-described 24-inch pipeline at the discharge side of Applicant's proposed gasoline plant in the Carthage field, together with appurtenant facilities, including a gas measuring station and a parallel telephone line.

By means of such facilities, Applicant proposed to transport for Tennessee Gas and Transmission Company a maximum of approximately 114,000 Mcf of natural gas per day from the Carthage gas field in Texas to Tennessee's Monroe, Louisiana, compressor station. Applicant also proposed to transport additional quantities of gas into the Monroe field area for sale and delivery to customers served from that area.

After a public hearing on the application of February 12, 1945, the Commission, on July 5, 1945, issued its Opinion No. 124 and accompanying order permitting the construction and operation of the above-described facilities and, in addition thereto, authorized Applicant to transport for Tennessee Gas and Transmission Company (Tennessee Company) by means of such authorized facilities (1) a maximum of 114,000 mcf of natural gas per day from the Carthage field in Texas to the Monroe, Louisiana, compressing station of the Tennessee Company, and (2) a maximum of 65,000 mcf of natural gas per day during the war emergency period, from the Carthage field to the Monroe field area in Louisiana, for service to customers presently being served by Applicant. The determination of the amount of natural gas to be transported after the war emergency period was reserved for consideration by the Commission in the light of the circumstances then existing.

At the present time, Applicant sells natural gas at wholesale in the Monroe field to three major pipeline companies, namely, Mississippi River Fuel Corporation, Memphis Natural Gas Company, and Southern Natural Gas Company. These companies are supplied with gas by a "producers group" consisting of Applicant, Interstate Natural Gas Company Inc., its affiliate, Hope Producing Company, Southern Carbon Company, and United Carbon Company, in accordance with contracts whereby each producer furnishes a certain portion of the requirements of such pipeline companies. Applicant now supplies approximately 40 per cent of the total requirements of Mississippi River Fuel and 34 per cent of 16,000,000 mcf of the Memphis Company's annual requirements. The "producers group" supplies 75 per cent of Southern Natural's total requirements, of which Applicant's quota of about 30 per cent is produced principally in the Monroe field.

Applicant contends that since the issuance of the Commission's Opinion No. 124 and accompanying order of July 5, 1945, various matters and emergencies have arisen thus necessitating the filing of the supplemental application of October 1, 1945.

According to such supplemental application, it is claimed that in obtaining rights-of-way for the construction of the facilities heretofore authorized it has been found necessary for Applicant to agree to sell and deliver to United Gas Corporation, natural gas for distribution in the Town of Calhoun, Louisiana. Applicant, therefore, has submitted for filing a gas sales contract dated September 17, 1945, between United Gas Corporation and Applicant, covering the requirements of the Town of Calhoun together with the proposed sale of gas to rural consumers through farm taps, rural service lines, rural projects, and oil field projects connecting to a portion of Applicant's new Carthage-Sterlington 24-inch pipeline. Applicant estimates that it will sell approximately 6,650 mcf of natural gas to the United Gas Corporation for the Town of Calhoun, for the first 12 months of service, and approximately 5,550 mcf of natural gas to farm taps and rurals during the same period. Deliveries of gas under the above contract of September 17, 1945, are to be made under the terms of an agreement dated July 24, 1937, entered into July 24, 1937, between Applicant's predecessor United Gas Public Service Company, as amended by a further agreement of March 24, 1943.

Applicant therefore requests authority to transport through the new Carthage-Sterlington pipeline and deliver to United Gas Corporation the amounts of natural gas required by the consumers in the Town of Calhoun, Louisiana, and the farm tap and rural customers referred to above.

As heretofore stated, Applicant seeks permission to transport through the facilities authorized in Opinion No. 124 and accompanying order of July 5, 1945, and sell natural gas to certain natural gas companies. These companies are (1) Memphis Natural Gas Company, (2) Southern Natural Gas Company, and (3) Mississippi River Fuel Corporation.

With respect to the Memphis Company, Applicant proposes to deliver to the Memphis Company in the Monroe gas field certain quantities of gas that will be transported through Applicant's Sarepta-Sterlington pipeline. Applicant, therefore, requests that it be authorized to transport through the Carthage-Sterlington pipeline the quantity of gas equivalent to the requirements of the Memphis Company from sources other than the Monroe field The sale and delivery of gas to Memphis Company, particularly during the coming winter period, is covered by an "Interim Agreement" between the latter and Applicant dated September 6, 1945, which is to be filed with the Commission as a rate schedule. Under this agreement Applicant proposes to transport and sell to Memphis Company during the first twelve months of service, approximately 4,250,000 mcf.

Regarding the necessity for executing the "Interim Agreement" with Memphis Company, Applicant refers to the applications of the Memphis Company before this Commission in Docket Nos. G–522 and G–549, and Opinion No. 119 rendered in connection with such applications. According to Opinion No. 119 and accompanying order of November 21, 1944, Memphis Company was authorized to construct and operate approximately 49½ miles of 20-inch pipeline extending from the North Lisbon gas field in Louisiana to the Guthrie compressor station of Memphis in the Monroe gas field, Louisiana. This line is known and referred to as the "Lisbon Line." However, due to the delay in constructing such pipeline, the completion and operation thereof will not be made within the time originally contemplated. In order to provide an emergency arrangement for the supply of gas outside the Monroe field until such time as the Lisbon pipeline of Memphis is in operation, the "Interim Agreement" above referred to was executed.

The "Interim Agreement" upon becoming effective provides, among other things, that the "Transportation Agreement" between the Memphis Company and Applicant dated April 16, 1945, FPC Rate Schedule No. 9, shall become effective November 1, 1946, or upon the first day of the calendar month succeeding the date on which the Lisbon pipeline of Memphis Company is completed and placed in operation, whichever date is earlier. During the period from the effective date of the "Interim Agreement"

to the effective date of the "Transportation Agreement", Applicant will receive from, transport for, and deliver to the Memphis Company 50 per cent of outside gas required by Memphis, and to be performed in the same manner and subject to the same conditions as if Applicant rather than Memphis had been required to transport gas under the terms of the transportation agreement. The estimated amount of gas proposed to be transported for the Memphis Company for the first twelve months of service is 4,250,000 mcf.

Applicant contends that the need for an additional gas supply for the Memphis Company especially this winter was recognized by the Commission when it granted the latter a certificate of public convenience and necessity in Docket Nos. G–522 and G–549. It is, therefore, urged that unless said "Interim Agreement" is permitted to become effective, there will be a substantial gas shortage in the City of Memphis, Tennessee.

With respect to the Southern Natural Gas Company, Applicant refers to the certificate of public convenience and necessity issued to that company on September 15, 1945, in Docket No. G–641, wherein the Commission authorized the construction and operation of certain facilities by Southern Natural in order that it could increase the system capacity of its system by 25,000 mcf per day.

Applicant states that in order to assist Southern Natural in meeting its requirements, both parties have entered into a contract dated September 7, 1945, which has been filed as a new rate schedule. This agreement cancels and supersedes Applicant's FPC Rate Schedule No. 44 and all effective amendments thereto, with the result that all gas deliverable will be transported by seller from a new source of supply, namely, the Carthage field in Texas to the Monroe field, Louisiana. The new agreement provides that Applicant will deliver 26 percent of Southern Natural's requirements until October 31, 1965. It is estimated that under the proposed new agreement approximately 19,003,000 mcf will be sold to Southern Natural for the period of the first twelve months of service. This quantity is calculated on the basis that a maximum daily demand of 65,000 mcf will be applicable throughout the year.

Applicant, therefore, requests that it be authorized to transport through the Carthage-Sterlington pipeline and deliver to Southern Natural the quantities of gas required to fulfill Applicant's obligations under the said contract of September 7, 1945.

Regarding the Mississippi River Fuel Corporation, the supplemental application recites that the latter is in need of an additional source of natural gas to replace the diminishing delivery capacity of the Monroe field, and that it is necessary for Mississippi River Fuel to prepare in advance to supplement such declining delivery capacity. The latter company and Applicant have, for such reason, entered into an agreement dated September 7, 1945, which has been filed with the Commission as a rate schedule.

This agreement amends Applicant's FPC Rate Schedules Nos. 9, 10, and 11, as amended, and does not become effective unless (1) it is permitted to become effective as a rate schedule without suspension of the rates, by action or inaction of the Commission, and (2) Applicant is authorized to transport through the new Carthage-Sterlington pipeline deliveries of gas to Mississippi River Fuel "as additional quantities" as such term is used in paragraph (B) of the order of July 5, 1945, in Docket No. G–622. All gas deliverable under such new agreement is proposed to be transported from a new source of supply, namely, the Carthage field in Texas, to Monroe field in Louisiana. The new agreement provides that Applicant will deliver to Mississippi River Fuel Corporation the same percentage of its requirements as under existing agreements, until November 1, 1966.

The estimated quantity of gas proposed to be sold to Mississippi River Fuel for the first 12 months of service is 18,470,000 mcf, which quantity is calculated on a maximum daily demand of 56,000 mcf.

Deliveries to Mississippi River Fuel shall commence on November 1, 1946, except that under the provisions of Article 5 of the September 7, 1945 agreement, Mississippi River Fuel may demand delivery of gas prior to November 1, 1946, in an amount equal to the difference between its full input requirements and the amount being received in the Monroe field by it from its present suppliers including Applicant. Such quantity has not been estimated as Applicant believes it will be small.

Applicant in its supplemental application requests that it be permitted to transport through the Carthage-Sterlington pipeline and deliver to Mississippi River Fuel the quantities of gas necessary to fulfill Applicant's obligations under the proposed new contract of September 7, 1945.

The physical connections necessary to render the gas service contemplated by this supplemental application are:

(a) In the case of the farm taps—connections to Applicant's pipeline together with valve at each point of connection.

(b) In the case of delivery to United Gas Corporation for resale at Calhoun, Louisiana—approximately eight-tenths (0.8) mile of pipeline, 2 inches in diameter, with appurtenant connections, valves and measuring station.

(c) In the case of delivery to Southern Natural Gas Company—approximately 1700 feet of pipeline, 16 inches in diameter, extending from the terminus of Applicant's Sterlington-Perryville line to the point of delivery to Southern Natural Gas Company in the Monroe field known as that Company's Logansport Receiving Station; and a metering station at such point of delivery.

(d) The installation of three check metering stations, at or near the site of its Sterlington, Louisiana, compressing station, to measure the gas delivered from the Carthage-Sterlington pipeline into Applicant's other lines.

Applicant claims that in view of the Commission's action in Docket Nos. G–522, G–549 (Memphis Natural), G–641 (Southern Natural), and G–622 (Applicant), a formal hearing need not be held but if such a hearing is required, that it be limited and restricted to such issues as are relevant and material to the matters involved herein.

In view of the above, Applicant requests that the Commission amend or supplement its order of July 5, 1945, in Docket No. G–622 so as to specifically authorize (1) the transportation and sale of natural gas as provided for in the agreements referred to above, and (2) the construction and operation of the facilities and connections required in connection therewith.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 22nd day of October, 1945, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

[Docket Nos. G–656 and G–665]

CITIES SERVICE GAS CO. ET AL.

NOTICE OF APPLICATIONS

OCTOBER 4, 1945.

In the matters of Cities Service Gas Company and Frank Haucke and H. A. Amerine.

Notice is hereby given that on August 17, 1945, Cities Service Gas Company, a Delaware corporation having its principal place of business at First National Bank Building, Oklahoma City, Oklahoma, filed with the Federal Power Commission application in Docket No. G–656 for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, for authority to construct and operate facilities, for the purpose of measuring, selling and delivering natural gas to Frank Haucke and H. A. Amerine, co-partners, at a point in the Southeast Quarter of Section Eleven, Township Twenty-one South, Range Nine East, Chase County, Kansas, adjacent to its 20 inch gas pipe line extending from Wichita, Kansas to Ottawa, Kansas, such facilities being described as follows:

A 3 inch by-pass around Applicant's present 20 inch main line gate; a 3 inch high pressure regulator setting with a 2 inch high pressure regulator; a 4 inch orifice meter setting complete with a 2 inch high pressure regulator on the outlet; a 3 inch gas pipe line extending from the by-pass to the regulator setting above described; and a 4 inch gas pipe line extending from the aforesaid regulator setting to the orifice meter setting above described.

On September 24, 1945, Frank Haucke and H. A. Amerine, a co-partnership, with their principal place of business in Cottonwood Falls, Kansas, filed with the Federal Power Commission an application in Docket No. G–665 for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, for authorization to construct and operate the following described facilities, for the purpose of transporting natural gas, to be purchased from Cities Service Gas Company, and selling such gas for resale to Strong City Gas Company and Cottonwood Falls Gas Company, distributing companies serving Strong City and Cottonwood Falls, Kansas, respectively:

Seventeen and one-half miles of 4-inch O. D. gas pipe line from the pipe line of Cities Service Gas Company in Section Eleven, Township Nineteen South of Range Eight East of the Sixth Principal Meridian, in Chase County, Kansas, to a point west of Cottonwood Falls, Kansas, and in close proximity thereto, in Chase County, Kansas, together with appropriate terminal facilities at the above point of termination as a base or station for the purpose of transmitting the natural gas flowing through the proposed facilities to the distribution plants, pipes or mains furnishing the Cities of Cottonwood Falls and Strong City and their inhabitants with natural gas.

Both applications recite that the supply of natural gas to be furnished by the proposed facilities is required to augment the depleted local supply now used to meet the requirements of Strong City and Cottonwood Falls, Kansas, and their surrounding areas.

Any person desiring to be heard or to make any protest with reference to said applications should, on or before the 20th day of October, 1945, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

BARNETT & WRIGHT OPTICAL CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion, issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to paragraph (a) (16) of Order A-2 under § 1499.159b of Maximum Price Regulation No. 188, It is ordered:

(a) *Manufacturer's maximum prices.* Barnett & Wright Optical Company, 206 Medical Arts Building, Dallas 1, Texas, may sell and deliver to licensed physicians and optometrists its first quality Kryptok bifocal opthalmic lenses at prices no higher than its maximum prices for sales to each class of purchaser in effect immediately prior to the effective date of this order, plus an adjustment charge of 9.5 percent of each such price. The adjustment charges may be collected only if the amounts of the adjustments are specifically stated on each invoice. The adjusted maximum prices are subject to the manufacturer's discounts, terms, allowances, and other price differentials in effect during March 1942 on sales to each class of purchaser.

(b) *Maximum prices of purchasers for resale.* A person who hereafter buys an article covered by this order and resells it in substantially the same form, may collect from his customer in addition to his properly established maximum price in effect prior to the issuance of this order, an adjustment charge in the same amount as the adjustment charge herein authorized for and which he pays to his supplier. If such a purchaser did not have an established maximum price for sales of the article prior to the issuance of this order, he may add the same adjustment charge to the maximum price which he hereafter establishes for his sales under the applicable regulation. If the applicable regulation requires the maximum resale prices to be computed on the basis of costs, the reseller must find his maximum prices (without the permitted adjustment charge) by using as costs his invoice costs not including any adjustment charges stated on the invoice.

On all sales except sales to ultimate consumers these additional adjustment charges may be made and collected only if they are separately stated on each invoice.

The adjusted maximum prices are subject to each seller's customary terms, discounts, and allowances on sales of the same or similar articles to each class of purchaser.

(c) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale on and after the effective date of this order, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the method established by paragraph (b) of this order for determining adjusted maximum prices for resales of the article. This notice may be given in any convenient form.

(d) All requests not specifically granted by this order are hereby denied.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 6th day of October 1945.

Issued this 5th day of October 1945.

[MPR 188 Rev. Order 78 Under 2d Rev. Order A-3]

NEW YORK SILICATE BOOK SLATE CO., INC.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 78 under Second Revised Order No. A-3 under § 1499.159b of Maximum Price Regulation No. 188 is revised to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register; and pursuant to Second Revised Order No. A-3 under § 1499.159b of Maximum Price Regulation No. 188, it is ordered:

(a) *Manufacturer's maximum prices.* New York Silicate Book Slate Co., Inc., of 421 Seventh Avenue, New York City 1, New York, may sell and deliver the school supplies, which it currently manufactures for use in schools and other institutions, at prices no higher than its maximum prices in effect immediately prior to March 17, 1945 plus an adjustment charge of eleven percent of each such maximum price.

On all sales other than sales to ultimate consumers, the adjustment charges provided herein may be made and collected only if stated separately on each invoice.

The maximum prices of the manufacturer, as adjusted, are subject to its customary terms, discounts, allowances and other price differentials in effect during March, 1942 on sales to each class of purchaser.

(b) *Maximum prices of purchasers for resale.* A person who hereafter buys an article covered by this revised order and resells it in substantially the same form, may collect from his customer, in addition to his properly established maximum price in effect immediately before this revised order was issued, an adjustment charge in the same amount as the adjustment charge herein authorized and which he pays to his supplier. If he did not have a maximum price in effect for the article at the time this revised order was issued, he may add the same adjustment charge to the maximum price which he hereafter establishes for his sales under the applicable regulation. If the regulation requires the maximum resale price to be computed on the basis of cost, the reseller must find his maximum resale price (not including the permitted adjustment charge) by using as cost his invoice cost less any adjustment charge stated on the invoice as a separate amount.

On all sales other than sales to the ultimate consumer this adjustment charge may be made and collected only if it is separately stated on each invoice. The adjusted price is subject to each seller's customary terms, discounts, and allowances on sales of the same or similar articles.

(c) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this revised order, the manufacturer shall notify the purchaser in writing of the method established in paragraph (b) of this revised order for determining adjusted maximum prices for resale of the articles covered by this revised order. This notice may be given in any convenient form.

(d) *Statements to be submitted to the Office of Price Administration.* After the effective date of this revised order, the manufacturer shall submit to the Office of Price Administration, Washington 25, D. C., a detailed quarterly profit and loss statement, within thirty days after the close of each quarter.

(e) This revised order may be revoked or amended by the Price Administrator at any time.

maximum resale prices to be computed on the basis of costs, the reseller must find his maximum prices (without the permitted adjustment charge) by using as costs his invoice costs not including any adjustment charges stated on the invoice.

On all sales except sales to ultimate consumers these additional adjustment charges may be made and collected only if they are separately stated on each invoice.

The adjusted maximum prices are subject to each seller's customary terms, discounts, and allowances on sales of the same or similar articles to each class of purchaser.

(c) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale on and after the effective date of this order, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the method established by paragraph (b) of this order for determining adjusted maximum prices for resales of the article. This notice may be given in any convenient form.

(d) All requests not specifically granted by this order are hereby denied.

THE AUTOYRE CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to paragraph (a) (16) of Order A-2 under § 1499.159b of Maximum Price Regulation No. 188, it is ordered:

(a) *Manufacturer's maximum prices.* The Autoyre Company, Oakville, Connecticut, on and after the effective date of this order, may sell the articles of its 1300 line of white durable baked enamel bathroom accessories listed below of its manufacture to chain stores, at prices no higher than its prices for such sales in effect immediately prior to the effective date of this order plus adjustment charges as set forth opposite each article.

These adjustment charges may be collected only if they are separately stated on each invoice. The adjusted prices are subject to the manufacturer's discounts, allowances, and other price differentials in effect during March 1942 on sales to this class of purchaser.

(b) *Maximum prices of purchasers for resale.* A person who hereafter buys an article covered by this order and resells it in substantially the same form, may collect from his customer, in addition to his properly established maximum price in effect prior to the issuance of this order, an adjustment charge in the same amount as the adjustment charge herein authorized for and which he pays to his supplier. If such a purchaser did not have an established maximum price for sales of the article prior to the issuance of this order, he may add the same adjustment charge to the maximum price which he hereafter establishes for his sales under the applicable regulation. If the applicable regulation requires maximum resale prices to be computed on the basis of costs, the reseller must find his maximum prices (without the permitted adjustment charge) by using as costs his invoice costs not including any adjustment charges stated on the invoice. On all sales except sales to ultimate consumers these additional adjustment charges may be made and collected only if they are separately stated on each invoice. The adjusted maximum prices are subject to each seller's customary terms, discounts, and allowances on sales of the same or similar articles, to each class of purchaser.

(c) *Notification.* At the time of or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the method established by paragraph (b) of this order for determining adjusted maximum prices for resales of the article. This notice may be given in any convenient form.

(d) All requests not specifically granted by this order are hereby denied.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 6th day of October 1945.

Issued this 5th day of October 1945.

No. A-3 under § 1499.159b of Maximum Price Regulation No. 188, it is ordered:

(a) *Manufacturer's maximum prices.* New York Silicate Book Slate Co., Inc., of 421 Seventh Avenue, New York City 1, New York, may sell and deliver the school supplies, which it currently manufactures for use in schools and other institutions, at prices no higher than its maximum prices in effect immediately prior to March 17, 1945 plus an adjustment charge of eleven percent of each such maximum price.

On all sales other than sales to ultimate consumers, the adjustment charges provided herein may be made and collected only if stated separately on each invoice.

The maximum prices of the manufacturer, as adjusted, are subject to its customary terms, discounts, allowances and other price differentials in effect during March, 1942 on sales to each class of purchaser.

(b) *Maximum prices of purchasers for resale.* A person who hereafter buys an article covered by this revised order and resells it in substantially the same form, may collect from his customer, in addition to his properly established maximum price in effect immediately before this revised order was issued, an adjustment charge in the same amount as the adjustment charge herein authorized and which he pays to his supplier. If he did not have a maximum price in effect for the article at the time this revised order was issued, he may add the same adjustment charge to the maximum price which he hereafter establishes for his sales under the applicable regulation. If the regulation requires the maximum resale price to be computed on the basis of cost, the reseller must find his maximum resale price (not including the permitted adjustment charge) by using as cost his invoice cost less any adjustment charge stated on the invoice as a separate amount.

On all sales other than sales to the ultimate consumer this adjustment charge may be made and collected only if it is separately stated on each invoice. The adjusted price is subject to each seller's customary terms, discounts, and allowances on sales of the same or similar articles.

(c) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this revised order, the manufacturer shall notify the purchaser in writing of the method established in paragraph (b) of this re-

SHAMPAINE CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion, issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to Second Revised Order A-3 under § 1490.159b of Maximum Price Regulation No. 188, it is ordered:

(a) *Manufacturer's maximum prices.* Shampaine Company, 1322 Dolman Street, St. Louis, Missouri, on and after the effective date of this order, may sell to dealers and the U. S. Government the following kinds of articles of metal physicians' and hospital equipment of its manufacture, at prices no higher than its prices for such sales in effect immediately prior to the effective date of this order, plus an adjustment charge of 12.2 percent of each such price:

Examination lights.
Surgical storage and treatment cabinets.
Chairs.
Waste receivers.
Armrests and footstools.
Bedside and feeding tables.
Nurses chart desks.
Tray, food and utility trucks.

These adjustment charges may be collected only if they are separately stated on each invoice. The adjusted prices are subject to the manufacturer's discounts, allowances, and other price differentials in effect during March 1942 on sales to each class of purchaser.

(b) *Maximum prices of purchaser for resale.* A person who hereafter buys an article covered by this order and resells it in substantially the same form, may collect from his customer, in addition to his properly established maximum price in effect prior to the issuance of this order, an adjustment charge in the same amount as the adjustment charge herein authorized for and which he pays to his supplier. If such a purchaser did not have an established maximum price for sales of the article prior to the issuance of this order, he may add the same adjustment charge to the maximum price which he hereafter establishes for his sales under the applicable price regulation. If the applicable regulation requires maximum resale prices to be computed on the basis of costs, the reseller must find his maximum prices (without the permitted adjustment charge) by using as costs his invoice costs not including any adjustment charges stated on the invoice. On all sales except sales to ultimate consumers these additional adjustment charges may be made and collected only if they are separately stated on each invoice. The adjusted maximum prices are subject to each seller's customary terms, discounts, and allowances on sales to the same or similar articles, to each class of purchaser.

(c) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale on and after the effective date of this order, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the method established by paragraph (b) of this order for determining adjusted maximum prices for resales of the article. This notice may be given in any convenient form.

(d) Within the 30 days after the close of each calendar quarter, the manufacturer shall submit to the Office of Price Administration a copy of its operating statement for that period and unit cost data for the articles for which adjustments in maximum prices are permitted by this order.

(e) All requests not specifically granted by this order are hereby denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 6th day of October 1945.

Issued this 5th day of October 1945.

PRESTO ENGINEERING SERVICE

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Presto Engineering Service, 1012 North Marshfield Avenue, Chicago, Ill.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	Maximum prices for sales by any seller to—			
		Wholesalers (jobbers)	Retailers (6 units or more)	Retailers (less than 6 units)	Consumers
Electric hot plate, 2-burner, open element, 3 switches	200	*Each* $6.19	*Each* $7.32	*Each* $7.88	*Each* $11.82

These maximum prices are for the articles described in the manufacturer's application dated August 14, 1945.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. These prices are f. o. b. factory and are subject to a cash discount of 2% for payment in 10 days, net 30 days. These prices include Federal Excise Tax.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain either of the following statements with the correct order number, model number, and retail prices properly filled in:

Order No. 4512
Model No.------
OPA Retail Ceiling Price—$------
Federal Excise Tax Included
Do Not Detach or Obliterate

or

Presto Engineering Service
1012 North Marshfield Avenue
Chicago, Illinois
Model No. ------
OPA Retail Ceiling Price—$------
Federal Excise Tax Included
Do Not Detach or Obliterate

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on the 6th day of October 1945.

Issued this 5th day of October 1945.

CHARLES J. RIVERA

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion accompanying this order, and pursuant to § 1358.102 (b) of Maximum Price Regulation No. 260; *It is ordered*, That:

(a) Charles J. Rivera, 1208 Columbus Dr., Tampa 5, Fla. (hereinafter called "manufacturer") and wholesalers and retailers may sell, offer to sell or deliver and any person may buy, offer to buy or receive each brand and size or frontmark, and packing of the following domestic cigars at the appropriate maximum list price and maximum retail price set forth below:

Brand	Size or frontmark	Packing	Maximum list price	Maximum retail price
Sulie	Cadetes	50	*Per M* $93.75	*Cents* 2 for 25
Bell of Washington	Kings	50	101.25	2 for 27

(b) The manufacturer and wholesalers shall grant, with respect to their sales of each brand and size or frontmark of domestic cigars for which maximum prices are established by this order, the discounts they customarily granted in March 1942 on their sales of domestic cigars of the same price class to purchasers of the same class, unless a change therein results in a lower price. Packing differentials charged by the manufacturer or a wholesaler in March 1942 on sales of domestic cigars of the same price class to purchasers of the same class may be charged on corresponding sales of each brand and size or frontmark of cigars priced by this order, but shall not be increased. Packing differentials allowed by the manufacturer or a wholesaler in March 1942 on sales of domestic cigars of the same price class to purchasers of the same class shall be allowed on corresponding sales of each brand and size or frontmark of cigars priced by this order and shall not be reduced. If a brand and size or frontmark of domestic cigars for which maximum prices are established by this order is of a price class not sold by the manufacturer or the particular wholesaler in March 1942, he shall, with respect to his sales thereof, grant the discounts and may charge and shall allow the packing differentials customarily granted, charged or allowed (as the case may be) in March 1942 by his most closely competitive seller of the same class on sales of domestic cigars of the same March 1942 price class to purchasers of the same class.

(c) On or before the first delivery to any purchaser of each brand and size or frontmark of domestic cigars for which maximum prices are established by this order, the manufacturer and every other seller (except a retailer) shall notify the purchaser of the maximum list price and the maximum retail price established by this order for such brand and size or frontmark of domestic cigars. The notice shall conform to and be given in the manner prescribed by § 1358.113 of Maximum Price Regulation No. 260.

(d) Unless the context otherwise requires, appropriate provisions of Maximum Price Regulation No. 260, shall apply to sales for which maximum prices are established by this order.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective October 6, 1945.

(b) Maximum net prices, f. o. b. point of shipment for sales by any person to dealers shall be the maximum prices specified in (a) above less a discount of 40 percent.

(c) Maximum prices, f. o. b. point of shipment for sales by any person to jobbers shall be the maximum prices specified in (a) above less successive discounts of 50–10 percent.

(d) The maximum prices established by this order shall be subject to such further discounts, allowances including transportation allowances, and the rendition of services which are at least as favorable as those which each seller extended or rendered or would have extended or rendered to purchasers of the same class on comparable sales of similar commodities during March 1942.

(e) The maximum prices for sales on an installed basis of the commodities covered by this order shall be determined in accordance with Revised Maximum Price Regulation No. 251.

(f) Each seller except on sales to consumers shall notify in writing each purchaser of the seller's maximum price established by this order at or before the time of the first invoice as well as the maximum prices established for each such purchaser on resale.

(g) The Coleman Company, Inc. shall stencil in a conspicuous place on each of the oil fired water heaters covered by this order the maximum price to consumers established by this order and shall identify such prices as the maximum price to consumers.

(h) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective October 6, 1945.

Issued this 5th day of October 1945.

GENERAL INDUSTRIES CO.

ESTABLISHMENT OF MAXIMUM PRICES

Order No. 507 under Revised Maximum Price Regulation 136. Machines, parts and industrial equipment; General Industries Company; Docket No. 6083–136.25a–318.

For the reasons set forth in an opinion, issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 21 of Revised Maximum Price Regulation 136, *It is ordered:*

(a) The maximum prices for sales by The General Industries Company, Elyria, Ohio, of the electric and spring motors listed below (except when such motors are sold for incorporation into equipment to be sold to the United States for use by the Armed Services) shall be the prices for such motors established under section 7 of Revised Maximum Price Regulation 136 increased by the percentages shown below:

Item:	*Percentages*
No. 11760 Electric Motor	13.5
No. 19005 Spring Motor	18.6

(b) The maximum prices for sales of the motors described in paragraph (a) of this order by resellers shall be determined as follows: The reseller shall add to the maximum net price he had in effect to a purchaser of the same class, just prior to the issuance of this order, the amount, in dollars-and-cents, by which his net invoiced cost has been increased due to the adjustment granted the manufacturer by this order.

(c) The General Industries Company, Elyria, Ohio, shall notify each person who buys electric or spring motors for resale of the dollars-and-cents amounts by which this order permits the reseller to increase his maximum net prices. A copy of each such notice shall be filed with the Machinery Branch, Office of Price Administration, Washington, D. C.

(d) All requests not granted herein are denied.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective October 5, 1945.

Issued this 5th day of October 1945.

[Max. Import Price Reg., Order 359 Under Order 38]

CANNED CUBAN ROCK LOBSTER

ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the provisions of section (c) (5) of Order 38 under the Maximum Import Price Regulation, it is ordered:

(a) *Purpose of this order.* The purpose of this order is to establish separate item maximum prices at which imported canned Cuban Rock lobster (any brand) may be sold by importers to wholesalers and chain stores, independent retail stores, industrial and institutional users without having to make application to the Office of Price Administration for the issuance of an individual order.

(b) *Application of this order.* The maximum prices established by this order apply only to sales of imported canned Cuban Rock lobster (any brand) to the classes of purchasers specified herein. Sales to classes of purchasers other than those specifically set out are not authorized by this order.

(c) *Importers' maximum prices.* The maximum prices, on sales to the classes of purchasers named, above which no importer shall sell and no person buying from an importer shall purchase, for the following designated size of imported canned Cuban Rock lobster (any brand) shall be as follows:

Sales by importers to:	*Per case of 48/5–1/2 ounce tins*
Wholesalers and chain stores	$18.16
Independent retailers	19.12
Industrial and institutional users	19.93

The maximum prices authorized above are ex dock or ex warehouse any United States continental point or port of entry. For sales with delivery made at some other point, payments incurred for transportation from the dock or warehouse at the point or port of entry to such other point may be added. Such transportation payments, however, shall not include the expense of local hauling or drayage within the metropolitan area of the point or port of arrival.

(d) *Terms of sale.* The importer shall, with respect to his sales of imported canned Cuban Rock lobster (any brand) for which maximum prices are established by this order, reduce such maximum prices by the discount for cash or prompt payment customarily granted in 1941, on sales of imported canned Cuban Rock lobster (any brand) to purchasers of the same class.

(e) *Definitions.* A "wholesaler" is a person other than a chain store, an independent retail store, industrial or institutional user, who purchases and sells food products, generally, without materially changing their form.

A "chain store" is one of four or more retail stores under one ownership whose combined "annual gross sales" are $500,000 or more, and which purchases and re-sells food products, generally, without materially changing their form, to ultimate consumers other than industrial or institutional users.

An "independent retail store" is one that is not one of four or more stores under one ownership whose combined "annual gross sales" are $500,000 or more and which purchases and re-sells food products, generally, without materially changing their form, to ultimate consumers other than industrial or institutional users.

An "industrial user" is any person who, either for his own commercial use or for resale, subjects an imported food item covered by this order, to a process that results in the production of a new and different article having a distinctive name, character or use; or who uses such food item as an ingredient or a component part of such an article.

An "institutional user" is a restaurant, hotel, club, hospital, or other similar establishment using an imported food item covered by this order in preparation or service of meals to individual consumers.

(f) *Relation of this order to Order 38.* Unless the context otherwise requires, the provisions of Order 38 under the Maximum Import Price Regulation, with the requirement for notice to purchasers as set out in paragraph (k), shall apply to the sale for which the maximum prices are established by this order.

(g) *Revocation and amendment.* This order may be revoked or amended at any time.

This order shall become effective October 11, 1945.

Issued this 8th day of October 1945.

JAMES G. ROGERS, Jr.,
Acting Administrator.

[Max. Import Price Reg., Order 360 Under Order 38]

PORTUGUESE AND SPANISH ANCHOVIES

ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the provisions of section (c) (5) of Order 38 under the Maximum Import Price Regulation, it is ordered:

(a) *Purpose of this order.* The purpose of this order is to establish separate item maximum prices at which Portuguese and Spanish anchovies (any brand) packed in olive oil, may be sold by importers to wholesalers and chain stores without having to make application to the Office of Price Administration for the issuance of an individual order.

(b) *Application of this order.* The maximum prices established by this order apply only to sales of Portuguese and Spanish anchovies (any brand), packed in olive oil to the classes of purchasers specified herein. Sales to classes of purchasers other than those specifically set out are not authorized by this order.

(c) *Importers' maximum prices.* The maximum prices, on sales to the classes of purchasers named below, above which no importer shall sell and no person buying from an importer shall purchase, for the following designated sizes of Portuguese and Spanish anchovies (any brand) packed in olive oil shall be as follows:

Sales by importers to—	Per case of—(size)		
	100/2 oz.	24/11–13 oz.	24/27–29 oz.
Wholesalers and chain stores	$23.47	$27.58	$55.11

The maximum prices authorized above are ex dock or ex warehouse any United States continental point or port of entry. For sales with delivery made at some other point, payments incurred for transportation from dock or warehouse at point or port of entry to such other point may be added. Such transportation payments, however, shall not include the expense of local hauling or drayage within the metropolitan area of the point or port of arrival.

(d) *Terms of sale.* The importer shall grant, with respect to his sales of imported Portuguese and Spanish anchovies, (any brand) packed in olive oil, for which maximum prices are established by this order, the discount for cash or prompt payment customarily granted in 1941, on sales of imported Portuguese and Spanish anchovies (any brand), packed in olive oil, to purchasers of the same class.

(e) *Definitions.* A "wholesaler" is a person other than a chain store, an independent retail store, industrial or institutional user, who purchases and sells food products generally without materially changing their form.

A "chain store" is one of four or more retail stores under one ownership whose combined "annual gross sales" are $500,000 or more, and which purchases and resells food products generally without materially changing their form to ultimate consumers other than industrial or institutional users.

(f) *Exception from this order.* Any importer who, with respect to an item priced by this order, made foreign purchases or commitments for foreign purchases prior to the issuance of this order may continue to use the maximum prices authorized by an individual order under paragraph (c) of Order 38 for the disposition of such unsold stocks or foreign purchase commitments if he reports the quantities of such purchases or commitments which remain unshipped or unsold, with the details of the purchase contracts, to the Imported Foods Section, Food Price Division, Office of Price Administration, Washington 25, D. C., within 30 days from the date of the issuance of this order and provided he receives shipment and sells such items prior to December 31, 1945.

(g) *Relation of this order to Order 38.* Unless the context otherwise requires, the provisions of Order 38 under the Maximum Import Price Regulation, with the requirement for notice to purchasers as set out in paragraph (k), shall apply to the sales for which the maximum prices are established by this order.

(h) *Revocation and amendment.* This order may be revoked or amended at any time.

This order shall become effective October 11, 1945.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 8th day of October 1945.

STEEL CASTINGS AND RAILROAD SPECIALTIES

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and in accordance with § 1306.102 of Revised Price Schedule No. 41, *It is ordered:*

(a) Notwithstanding anything to the contrary contained in Revised Price Schedule No. 41, producers of steel castings and railroad specialties may, on and after the effective date of this order, deliver or agree to deliver steel castings and railroad specialties at prices which may be adjusted upward by not more than 15% (the adjustment requested by the Steel Castings Industry Advisory Committee to the Office of Price Administration by resolution adopted at its meeting of September 19, 1945) in accordance with action, if any, taken by the Office of Price Administration after delivery and effective prior to December 31, 1945. Producers of said castings and railroad specialties, however, may not receive and buyers may not pay to producers an amount for such castings and railroad specialties in excess of the maximum price or prices in effect at the time of delivery, unless and until action, if any, is taken by the Office of Price Administration effective prior to December 31, 1945, granting a higher price or prices.

(b) This order may be amended or revoked at any time.

This order shall become effective October 5, 1945.

Issued this 5th day of October 1945.

[Region II Gen. Order 23 Under RMPR 165]

LAUNDRY SERVICES IN MERCER COUNTY, N. J., AREA

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of Region II by section 16 (a) of Revised Maximum Price Regulation No. 165, as amended, Services, and by the Emergency Price Control Act of 1942, as amended; *It is hereby ordered:*

1. That the Colonial Laundry Company, 366 Pennington Avenue, Trenton, New Jersey, is hereby granted an increase of 13% of its March 1942 maximum prices properly established under Revised Maximum Price Regulation No. 165.

2. All increases heretofore granted to the Colonial Laundry Company by the O. P. A. are hereby revoked and rendered null and void.

3. Said Colonial Laundry Company shall give notification of such price increase as follows: (a) Furnish each customer within fifteen (15) days after the effective date of this order with a statement describing its services and specifying its lawful ceiling prices and the percentage increase permitted by this order; (b) filing a copy of such statement with the Trenton District Office, Trenton, New Jersey, within fifteen (15) days after the effective date of this order, together with a statement signed by a responsible official of the laundry establishment certifying that the applicant has complied with (a) above; (c) inscribe on each bill rendered the statement: "O. P. A. permitted increase to maintain supply ------$", and (d) give all new customers as acquired, the same notification as required for existing customers.

In addition, the said Colonial Laundry Company shall immediately advise its agent drivers and retail hand laundry customers of the amount of such permitted price increase.

Upon compliance with the conditions set forth in Order No. 18 to Revised Maximum Price Regulation No. 165 and pursuant to said order, the statement of surcharge required by this paragraph may be eliminated.

This order shall become effective immediately.

Issued this 21st day of September 1945.

LEO F. GENTNER,
Acting Regional Administrator.

[Region IV Order G-4 Under Rev. Supp. Service Reg. 43 to RMPR 165]

COTTON PICKING SERVICES IN THE MISSISSIPPI DELTA AREA, MISSISSIPPI

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator, Region IV, Office of Price Administration, by § 1499.676 (a) (1) of Revised Supplementary Service Regulation 43 under Revised Maximum Price Regulation 165, it is hereby ordered:

(a) *What this order does.* This order establishes maximum prices for the services of picking, pulling, and snapping cotton and services incidental thereto when supplied by independent contractors in the "Mississippi Delta Area".

(b) *What this order prohibits.* Regardless of any contract, agreement, or other obligation, no person shall:

(1) Sell, offer to sell, buy, or offer to buy, any of the services covered by this order at prices higher than those determined by application of the rates herein set forth, but less than maximum prices may, at any time, be charged, paid, offered, or received; or

(2) Obtain a higher than maximum price by;

(i) Charging for the services covered hereby by using any basis or rate of payment than that provided herein. (Any

price based upon any other basis or rate of payment shall not exceed the price calculated as provided herein.)

(ii) Making or paying an extra charge, for the performance of a service other than those specifically named herein;

(iii) Engaging in any practice designed to obtain higher than the maximum prices established by this order;

(iv) Giving, offering, or paying a bonus to a contractor, or demanding or receiving a bonus from a cotton producer in connection with the services covered by this order; or

(v) Using any tying agreement by making any requirement that any service or commodity in addition to those services covered by this order be purchased by any purchaser of the services covered hereby.

(c) *Area covered.* This order covers all sales of the specified services when such services are rendered in whole or in part in the "Mississippi Delta Area" of the State of Mississippi as defined herein.

(d) *Maximum prices.* The maximum prices permitted by this order shall be those calculated on the basis of the following rates:

(1) For securing cotton pickers, hauling cotton pickers to and from the field, and picking well picked, clean seed cotton, the independent contractor may charge the amount he actually pays to the cotton pickers (not to exceed $2.10 per cwt.) plus 20¢ per cwt., plus 12½¢ per mile for the necessary and actual mileage of the truck, bus, or other motor driven vehicle used in the rendition of these services.

(2) For securing cotton pickers, hauling cotton pickers to and from the field, picking well picked, clean seed cotton, and weighing the picked cotton, the independent contractor may charge the amount he actually pays the cotton pickers (not to exceed $2.10 per cwt.) plus 25¢ per cwt., plus 12½¢ per mile for the necessary and actual mileage of his truck, bus, or other motor driven vehicle used in the rendition of these services.

(3) For securing cotton pickers, hauling cotton pickers to and from the field, and pulling or snapping cotton, the independent contractor may charge the amount he actually pays the cotton pickers pulling or snapping the cotton (not to exceed $1.15 per cwt.) plus 20¢ per cwt., plus 12½¢ per mile for the necessary and actual mileage of his truck, bus, or other motor driven vehicle used in the rendition of these services.

(4) For securing cotton pickers, hauling cotton pickers to and from the field, pulling or snapping cotton, and weighing the pulled or snapped cotton, the independent contractor may charge the amount he actually pays the cotton pickers pulling or snapping the cotton (not to exceed $1.15 per cwt.) plus 25¢ per cwt., plus 12½¢ per mile for the necessary and actual mileage of his truck, bus, or other motor driven vehicle used in the rendition of these services.

(e) *Taxes.* Mississippi State Sales Tax may be added to the prices named herein.

(f) *Definitions.* (1) Except as otherwise provided herein, and except as the context may otherwise require the definitions contained in Revised Maximum Price Regulation 165 and Revised Supplementary Service Regulation 43 thereunder shall be applicable to the terms used herein.

(2) "Mississippi Delta Area" includes the Counties of Bolivar, Coahoma, Humphreys, Issaquena, Leflore, Quitman, Sharkey, Sunflower, Tunica, and Washington and all that part of the Counties of Carroll, De Soto, Grenada, Holmes, Panola, Tallahatchie, Tate, Warren, and Yazoo, lying between the Mississippi River and the foothills, all in the State of Mississippi. When streams enter the delta area from the hills, a line drawn from the base of the hills on either side thereof shall be deemed, for the purposes of the foregoing definition, the edge of the foothills.

(3) "Independent contractor" as used in this order refers to a person who supplies or offers to supply any or all of the services listed in paragraph (d) hereof and who employs one or more cotton pickers.

(g) *Applicability of other regulations*—(1) *Revised Maximum Price Regulation 165.* Except as otherwise provided herein, all transactions subject to this order shall remain subject to all provisions of Revised Maximum Price Regulation 165, together with all amendments, orders, or supplementary regulations which heretofore have been, or hereafter may be, issued.

(2) *Licensing Order 1.* The provisions of Licensing Order 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this order. A seller's license may be suspended for violation of the licensing or of one or more applicable price schedules, regulations, or orders. A seller whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(h) *Enforcement.* (1) Persons violating any provision of this order are subject to the civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Jackson District Office, Office of Price Administration, Tower Building, Jackson 1, Mississippi.

(i) *Power to amend or revoke.* This order may be revoked, amended, or corrected at any time by the Price Administrator or by the Regional Administrator of Region IV.

Effective date. This order shall become effective Septemebr 24, 1945, and shall remain in effect for a period of 90 days from the date of issuance; however, it may be continued in effect for a longer period by amendment.

Issued: September 21, 1945.

ALEXANDER HARRIS,
Regional Administrator.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter III—Claims and Accounts

PART 306—CLAIMS AGAINST THE UNITED STATES

MISCELLANEOUS AMENDMENTS

1. In § 306.12 amend the citation appearing in the last sentence of paragraph (a); rescind paragraph (b), and former paragraphs (c) and (d) are redesignated (b) and (c).

§ 306.12 *Scope*—(a) *General.* • • • (sec. 1, act of 3 July 1943 as amended by sec. 4, act 29 May 1945) • • •

2. Section 306.15 is amended by adding the following sentence at the end of the paragraph as follows:

§ 306.15 *Contributory negligence.* • • • Although the doctrine of comparative negligence is not applied, the law of the jurisdiction in which the accident or incident occurred will normally be followed in determining whether contributory negligence is present.

3. Rescind paragraph (a) of § 306.17 and substitute the following:

§ 306.17 *Claims of or pertaining to military personnel or civilian employees*—(a) *Property.* Claims for damage to or loss or destruction of personal property of military personnel or civilian employees of the War Department or of the Army occurring incident to their service will first be considered under the provisions of § 306.27, AR 25–100 which, if applicable, take precedence over the provisions of these sections. Such claims found not to be payable under the provisions of § 306.27 may then be considered under the provisions of these sections. Claims of such personnel and employees for damage to or loss or destruction of property not incident to their service are payable under the provisions of these sections on the same basis as are claims of persons not military personnel or civilian employees of the War Department or of the Army, except that claims of military personnel for clothing being worn at the time when damaged, lost, or destroyed, and claims by such persons for souvenirs, ornamental jewelry, or articles acquired to be disposed of as gifts are not payable under the provisions of this part; and such claims of civilian employees are also not payable under the provisions of this part unless the claimant was, at the time of the occurrence, off duty and also at such time not subject to military law. (Sec. 1, Act of 3 July 1943 as amended by Sec. 4. Act of 29 May 1945 (Public Law 67–79th Cong.) [AR 25–25, 29 May 1945]

60.11 Fees.
60.12 Records of diplomatic visas granted or refused.
60.13 Reports to Department.
60.14 Cancellation or revocation of diplomatic visas.

AUTHORITY: §§ 60.1 to 60.14, inclusive, issued under the authority contained in E.O. 5435, Sept. 2, 1930; 43 Stat. 154, 166; 47 Stat. 607; 54 Stat. 673, 675, 711; 8 U.S.C. 203, 222, 451, 458. Former §§ 60.1 to 60.5, inclusive, were cancelled May 29, 1943.

§ 60.1 *Definitions.* (a) A diplomatic visa is a visa having a special form,

stamped on the diplomatic or other passport of an alien who is classifiable within the categories mentioned in §§ 60.4 and 60.6, and who seeks to enter the United States as a nonimmigrant.

(b) A passport is a document of identity and nationality issued by the appropriate authorities of the government to which the alien bearer owes allegiance, identifying the bearer and stating his nationality. It is ordinarily issued for travel purposes.

(c) A diplomatic passport, or the equivalent thereof, is a passport issued to an alien having diplomatic or career consular status, or a passport issued to aliens of special distinction, including high officials and ex-officials. The passport should be marked "Diplomatic Passport" by the issuing authority if the regulations of the government concerned so require.

§ 60.2 *Officers authorized to grant diplomatic visas.* (a) Diplomatic and consular officers of the United States are authorized to grant diplomatic visas when such officers are attached to an American mission and are designated by the Chief of the mission to grant such visas.

(b) Consular officers (except consular agents) at consular offices, when authorized by a mission or by the Department, may grant diplomatic visas. A mission authorizing the granting at a consular office of a diplomatic visa in an individual case or authorizing the granting of diplomatic visas generally at a consular office will report such authorization to the Department.

(c) The Chief and the Assistant Chiefs of the Visa Division of the Department are authorized to grant, in their discretion, appropriate diplomatic visas to aliens who are diplomatic or career consular officers of foreign governments and to the members of their immediate families, who are in the United States, and who desire to reenter the United States after a temporary absence. All such visas shall be considered as having been issued to a nonimmigrant under section 3 (1) of the Immigration Act of 1924, as amended, unless otherwise specified in the visa.

§ 60.3 *Types of diplomatic visas; period of validity.* The following types of diplomatic visas may be granted:

(a) A regular diplomatic visa, which, provided the passport to which it is affixed remains valid and provided the status of the holder does not change, will be valid for a period of 12 months during which time the holder may make any number of applications for entry into the United States and territory under the jurisdiction of the United States.

(b) A limited diplomatic visa, which will be valid for a single journey to the United States. Such a visa may be revalidated one or more times for an additional journey to the United States within 12 months of the date of the granting of the visa, provided the bearer is still eligible for such a visa.

§ 60.4 *Classes of aliens eligible to receive diplomatic visas—(a) Regular diplomatic visas.* Regular diplomatic visas may be granted to the following classes of aliens coming to the United States as nonimmigrants:

(1) Heads of states and their alternates.

(2) Members of a recognized royal family.

(3) Governors general, governors, high commissioners, and other like high administrative or executive officers of a territorial unit and their alternates.

(4) Cabinet ministers and their assistants holding executive or administrative positions not inferior to that of the head of a departmental division or his alternate.

(5) Presiding officers of chambers of national legislative bodies.

(6) Justices of the highest national judicial tribunal.

(7) Officers of a diplomatic service and consular officers of career.

(8) Diplomatic couriers regularly and professionally employed as such.

(9) Military, naval, air, and other attachés and assistant attachés of career assigned to a diplomatic mission.

(10) Military officers holding a rank not inferior to that of brigadier general in the United States Army and naval officers holding a rank not inferior to that of rear admiral in the United States Navy.

(11) All members of official temporary missions of a diplomatic character.

(12) Officers and representative members of international bodies of an official nature who have diplomatic passports or the equivalent thereof.

(13) Wives and other members of the immediate families of aliens within the above-mentioned categories.

(14) Servants and other employees of aliens within the above-mentioned categories accompanying or following to join their employers.

(15) Such other aliens as the Department may, by special instruction, indicate in individual cases.

(b) *Limited diplomatic visas.* The following classes of aliens, who are not entitled to regular diplomatic visas, may be granted limited diplomatic visas:

(1) Subordinate members, including employees, of international bodies of an official nature when traveling on the business of the international body, and presenting a diplomatic passport or the equivalent thereof.

(2) Members of delegations proceeding to or from an international conference of an official nature.

(3) Wives and other members of the immediate families of aliens within the above-mentioned categories.

(4) Servants and other employees of aliens within the above-mentioned categories accompanying or following to join their employers.

(5) Such other aliens as the Department may, by special instruction, indicate in individual cases.

§ 60.5 *Classes of aliens ineligible to receive diplomatic visas.* Diplomatic visas shall not be granted to:

(a) American citizens, or to the alien relatives or servants of American Foreign Service officers or of other United States Government officials, unless the applicant for the visa is entitled to a diplomatic visa in his or her own right.

(b) Aliens who are persona non grata. Doubtful cases should be reported to the Department for special instructions.

§ 60.6 *Chief of mission to report to Department in special circumstances.* If a case arises in which an applicant, who does not come within the categories specified in § 60.4, requires a diplomatic visa, and it would be undesirable for special reasons to refuse the granting of a diplomatic visa, particular instructions should be requested from the Department.

§ 60.7 *Applications for diplomatic visas.* (a) Application for a diplomatic visa may be made at any mission, regardless of the nationality or place of residence of the applicant.

(b) As a general rule, an alien seeking a diplomatic visa should apply in person at the office from which he desires to obtain the visa. However, the chief of the office may, in his discretion, waive the personal appearance of the applicant. Application for a diplomatic visa shall be made on Foreign Service Form 257, but when the personal appearance of the applicant is waived the diplomatic or consular officer should complete the application as far as possible from the information available. No oath will be required. The requirement of a photograph of the applicant may be waived in the discretion of the responsible officer.

§ 60.8 *Passports required.* An alien applying for a diplomatic visa must present a diplomatic passport or the equivalent thereof, issued by a government recognized by the United States. When application is made for a regular diplomatic visa, the attention of those applicants whose passports will expire within a year should be called to the fact that the diplomatic visa becomes invalid when the passport expires, in order that they may, if they desire, have the passport extended or obtain a new passport which will remain valid during the whole period of possible validity of the visa.

§ 60.9 *Evidence.* The officer granting a diplomatic visa must be satisfied that the applicant is entitled thereto. In doubtful cases he may require that definite evidence of an alien's eligibility for a diplomatic visa be presented. The cooperation of other missions or consular offices may be requested in obtaining information regarding such applicant.

§ 60.10 *Procedure in granting diplomatic visas.* (a) The form of a diplomatic visa is as follows:

DIPLOMATIC VISA

No. ------
American ---------- at ----------

(Country)

SEEN

For the journey to the United States of ----------
(Seal)

GRATIS

Secretary of
Date ----------

Visa valid for presentation at United States ports at any time during 12 months from date provided passport continues to be valid for such period.

Visa granted under section 3( ) of the Immigration Act of 1924.

A diplomatic visa shall be placed on the applicant's passport.

(b) The officer granting the diplomatic visa shall complete the visa by filling in all blank spaces.

(c) Diplomatic visas shall be numbered consecutively at each office, the series commencing with No. 1 on July 1 of each year.

(d) A diplomatic visa may include all aliens named in the passport who are entitled under this part to receive such a visa. The names of all persons included in the visa shall be written after the words "Seen—For the journey to the United States of" in the visa.

(e) When a limited diplomatic visa is granted, the phrase "Valid for single journey to the United States" shall be written or stamped in the visa. When such a visa is revalidated the phrase "Revalidated for additional journey to the United States" shall be written in the visa. All revalidations shall be signed and dated by the responsible officer.

(f) When granting a regular or limited diplomatic visa in a nonimmigrant category under section 3 of the Immigration Act of 1924 to an alien who is a foreign government official proceeding to the United States to transact business for his government the figure "1" shall be inserted in the parentheses appearing in the final sentence; if the visa is granted to a person entering the United States temporarily for personal reasons or for business other than official business for his government, the figure "2" shall be inserted; and if the bearer is passing in transit through the United States to a foreign destination, the figure "3" shall be inserted.

(g) A diplomatic visa shall be signed by the responsible officer granting such visa and shall bear the seal of the office granting the visa.

(h) If a diplomatic visa is granted to an alien who is subject to registration and fingerprinting under the Alien Registration Act of 1940, the procedure prescribed in ordinary visa cases will be followed.

§ 60.11 *Fees.* In accordance with the provisions of item 7 of the Tariff of United States Foreign Service Fees, no fee shall be charged for the granting of a diplomatic visa or for the application.

§ 60.12 *Records of diplomatic visas granted or refused.* (a) When a diplomatic visa is granted the visa number shall be noted on the application, which shall be filed in the office as a record of the action taken.

(b) When a diplomatic visa is formally refused, a record of such refusal shall be maintained on Foreign Service Form 257. However, no record need be maintained of informal replies to inquiries regarding the granting of visas in particular cases.

§ 60.13 *Reports to Department.* (a) Whenever a diplomatic visa is granted in any month the office concerned shall report the granting of such visa in its monthly report to the Department on Foreign Service Form 258 in accordance with the instructions printed on that form. The statistical copies of the applications for diplomatic visas granted during the month shall be attached to the report on Foreign Service Form 258 and shall be forwarded to the Department in an envelop marked "For Visa Division".

(b) Each month in which a diplomatic visa is granted a report shall be submitted to the Department under cover of a despatch headed "For Visa Division". The report shall contain the following information:

(1) Full name of person.

(2) Status entitling him to diplomatic visa.

(3) Purpose of going to United States.

(4) Names of persons included in diplomatic visa and their relationship to bearer.

(5) Number and date of passport.

(6) Passport-issuing authority.

(7) Name of vessel or other means of transportation by which arriving in United States, if information can be readily obtained.

(8) Place and approximate date of entry, if information can be readily obtained.

(9) Remarks.

The above information shall be submitted in triplicate on separate sheets of paper or on a prepared form covering each visa granted. The despatch shall state the period covered and the date of the last preceding despatch on the subject.

As a general rule, this type of information shall be transmitted by open mail or pouch, but in cases where it is important that the Department be promptly informed of the arrival of the person or persons concerned in order that arrangements may be made for the extension of governmental courtesies, the information may be transmitted by air mail or, if necessary, by telegraph.

(c) Reports on the refusal of diplomatic visas shall be prepared and transmitted in the same manner as the reports on the granting of diplomatic visas.

(d) When a diplomatic visa is refused, and it is believed that the applicant may apply elsewhere, the office at which the alien is likely to apply should be informed.

§ 60.14 *Cancellation or revocation of diplomatic visas.* Diplomatic officers who obtain information establishing that a diplomatic visa was obtained by fraud or misrepresentation or in an otherwise improper manner, or which establishes, subsequent to the issuance of the visa, a ground of inadmissibility into the United States of the holder of the visa, are authorized to cancel or revoke such visas in cases where it is possible to notify the holder of the visa that such action is to be taken and such notice is given. If practicable, appropriate notation should be made on the visa showing that it has been cancelled or revoked. A report of such cancellation or revocation, stating the reasons therefor, shall be submitted to the Department. The use of the telegraph is authorized, if necessary. When there is reason to believe that the alien may proceed to the United States notwithstanding the cancellation or revocation, the transportation company should be appropriately informed.

Notation of the cancellation or revocation, with a statement of the reasons therefor, shall be made on the application. When the cancellation or revocation is effected at an office other than the office which granted the visa, the latter office shall be informed of the action taken for notation on the alien's application form.

When information of the foregoing nature is obtained after the bearer of the visa has embarked for the United States, or in cases where it is not possible personally to notify the holder of the visa of an intention to cancel or revoke the visa, a report of the facts which would appear to justify cancellation or revocation of the visa shall be submitted immediately to the Department in order that the immigration authorities at the intended port of entry of the alien into the United States may be notified.

Effective date. These regulations shall become effective on October 15, 1945.

Issued: October 2, 1945.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; E.O. 9599, 10 F.R. 10155; W.P.B. Reg. 1 as amended Dec. 31, 1943, 9 F.R. 64.

PART 1042—IMPORTS OF STRATEGIC MATERIALS[1]

[General Imports Order M–63, as Amended Oct. 5, 1945]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain imported materials for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1042.1 *General Imports Order M–63*—(a) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership association, business trust, corporation, or any organized group of persons, whether or not incorporated.

(2) "Owner" of any material means any person who has any property interest in such material except a person whose interest is held solely as security for the payment of money.

(3) "Consignee" means the person to whom a material is consigned at the time of importation.

(4) "Import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States (including the Philippine Islands). It includes shipments into a free port, free zone, or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States and shipments in bond into the continental United States for transshipment to Canada, Mexico, or any other foreign country.

(5) "Place of initial storage" means any warehouse, yard ground storage, or other place, to which the person making the entry or withdrawal from custody of the United States Bureau of Customs of material imported subject to this order directs or has directed that such material be transported from the port of entry to be held until disposed of pursuant to this order.

(6) Material shall be deemed "in transit" if it is afloat, if an on board ocean bill of lading has actually been issued with respect to it, or if it has actually been delivered to and accepted by a rail, truck, or air carrier, for transportation to a point within the continental United States.

(7) "Governing date" with respect to any material means the date when such material first became subject to General Imports Order M–63.

[1] Certain food items formerly on Lists I, II, and III are now subject to import control in accordance with War Food Administration Order 63.

(b) *Restrictions on imports of materials*—(1) *General restriction.* No person, except as authorized in writing by the War Production Board, shall purchase for import, import, offer to purchase for import, receive, or offer to receive on consignment for import, or make any contract or other arrangement for the importing of, any material subject to this order after the governing date. The foregoing restrictions shall apply to the importation of any material subject to the order regardless of the existence on the governing date or thereafter of any contract or other arrangement for the importation of such material. The materials subject to this order are those listed from time to time upon Lists A and B attached hereto.

(2) *Authorization by War Production Board.* Any person desiring such authorization, whether owner, purchaser, seller, or consignee of the material to be imported, or agent of any of them, shall make application therefor in duplicate on Form WPB–1041 addressed to the War Production Board Ref: M–63, Washington 25, D. C. Unless otherwise expressly permitted, such authorization shall apply only to the particular material and shipment mentioned therein and to the persons and their agents concerned with such shipment; it shall not be assignable or transferable either in whole or in part.

(3) *Restrictions on financing of imports.* No bank or other person shall participate, by financing or otherwise, in any arrangement which such bank or person knows or has reason to know involves the importation after the governing date of any material subject to this order, unless such bank or person either has received a copy of the authorization issued by the War Production Board under the provisions of paragraph (b) (2) or is satisfied from known facts that the proposed transaction comes within the exceptions set forth in paragraph (b) (4).

(4) *Exceptions.* Unless otherwise directed by the War Production Board, the restrictions set forth in this paragraph (b) shall not apply:

(i) To the Foreign Economic Administration, U. S. Commercial Company, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation, or any agent acting for any such department, agency or corporation; or

(ii) To any material of which any United States governmental department, agency, or corporation is the owner at the time of importation, or to any material which the owner at the time of importation had purchased or otherwise acquired from any United States governmental department, agency, or corporation; or

(iii) To any material which on the governing date was in transit to a point within the continental United States.

(iv) [Deleted Mar. 30, 1944]

(v) To any material consigned as a gift or imported for personal use where the value of each consignment or shipment is less than $100.00; or to any material consigned or imported as a sample where the value of each consignment or shipment is less than $25.00; or to any used material in the category of household goods imported by the owner for his own personal use; or

(vi) To materials consigned as gifts for personal use by or to members of the Armed Services of the United States; or

(vii) [Deleted Nov. 13, 1944.]

(viii) To manufactured materials which are imported in bond solely for the purpose of having them repaired and then returned to the owner outside the continental United States; or

(ix) To materials which were grown, produced, or manufactured in the continental United States, and which were shipped outside the continental United States on consignment or pursuant to a contract of purchase, and which are now returned as rejected by the prospective purchaser; or

(x) To materials shipped into the United States in transit from one point in Mexico to another point in Mexico, or from one point in Canada to another point in Canada.

(xi) To materials on List B which are located in, and are the growth, production, or manufacture of, and are transported into the Continental United States overland, by air, or by inland waterway from Canada, Mexico, Guatemala or El Salvador.

(c) [Deleted June 4, 1945.]

(d) [Deleted June 4, 1945.]

(e) *Restrictions on distribution of List A and List B materials.* Unless otherwise provided by the terms of the authorization issued pursuant to paragraph (b) (2), any material on List A or List B which is imported in accordance with the provisions of this order after the governing date, may be sold, delivered, processed, consumed, purchased, or received without restriction under this order, but all such transactions shall be subject to all applicable provisions of the regulations of the War Production Board and to all orders and directions of the War Production Board which now or hereafter may be in effect with respect to such material.

(f) *Reports*—(1) *Reports on customs entry.* No material which is imported after the governing date, including materials imported by or for the account of the Foreign Economic Administration, U. S. Commercial Company, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation or any other United States governmental department, agency, or corporation, shall be entered through the United States Bureau of Customs for any purpose, whether for consumption, for warehouse, in transit, in bond, for re-export, for appraisal, or otherwise, unless the person making the entry shall file with the entry Form WPB–1040 in duplicate except in the case of a material described in paragraph (b) (4) (xi) when the person making the entry need not file with the entry Form WPB–1040. The filing of such form a second time shall not be required upon any subsequent entry of such material through the United States Bureau of Customs for any purpose; nor shall the filing of such form be required upon the withdrawal of any material from bonded custody of the United States Bureau of Customs, regardless of the date when such material was first transported into the continental United States. Both copies of such form shall be transmitted by the Collector of Customs to the War Production Board, Division of Stockpiling and Transportation, Ref.: M–63, Washington 25, D. C.

(2) *Other reports.* All persons having any interest in, or taking any action with respect to, any material imported after the governing date, whether as owner, agent, consignee, or otherwise, shall file such other reports as may be required from time to time by the War Production Board.

(3) *Exceptions.* The provisions of this paragraph (f) shall not apply to materials imported and consigned as gifts for personal use by or to members of the Armed Services of the United States.

(g) *Routing of communications.* All communications concerning this order shall, unless otherwise herein directed, be addressed to: War Production Board, Washington 25, D. C. Ref.; M–63.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or who furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority assistance. In addition, the War Production Board may direct the disposition and use of any material which is imported without authorization as required by paragraph (b).

(i) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(j) *Effect on liability of removal of material from order.* The removal of any material from the order shall not be construed to affect in any way any liability for violation of the order which accrued or was incurred prior to the date of removal.

Issued this 5th day of October 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

N. S. C.—No separate class or commodity number has been assigned for the material as described by the Department of Commerce, Statistical Classification of Imports.

INTERPRETATION 1: Revoked June 4, 1945.

INTERPRETATION 2

The following official interpretation is hereby issued by the War Production Board with respect to the meaning of the term "in transit" as defined in paragraph (a) (6) of General Imports Order M–63 (§ 1042.1), as amended.

By amendment dated December 17, 1942, the definition of material "in transit" was

changed by adding the following clause, "or if it has actually been delivered to and accepted by a rail, truck, or air carrier for transportation to a point within the continental United States." The question has been raised as to the meaning of the term as applied to a case where the material on the governing date had been delivered to and accepted by a rail, truck, or air carrier on a through bill of lading for transportation to a specified port and from thence by boat to a point within the continental United States.

The material in the stated case is not deemed to be in transit within the meaning of the term as used in the order. If the material is to be carried to the port of arrival in the continental United States by ship the material must have been afloat, or an on board ocean bill of lading must have been issued with respect to it on the governing date in order for it to be considered as having been in transit on suth date.

Material which has been delivered to and accepted by a rail, truck, or air carrier on the governing date for transportation to a point within the continental United States is deemed to be in transit within the meaning of the term as used in the order only when the transportation specified in the bill of lading issued by such carrier calls for delivery of the material at the port of arrival in the continental United States by rail, truck, or air carrier, not by ship. (Issued March 5, 1943.)

INTERPRETATION 3: Revoked June 4, 1945.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[General Conservation Order M-317, Direction 7, as Amended Oct. 8, 1945]

PRIORITIES ASSISTANCE FOR COTTON PIECE GOODS FOR DIRECT BUYING WHOLESALERS AND RETAILERS WHO ARE IN A POSITION TO SERVE SMALL TOWNS AND RURAL AREAS

The following amended direction is issued pursuant to General Conservation Order M-317:

(a) Wholesalers and retailers who buy directly from textile mills or converters and who are in a position to serve small towns and rural areas may apply on Form WPB-4157 for priorities assistance to buy the kinds of cotton piece goods described in this direction.

(b) The following kinds of cotton piece goods are now available in limited quantities: lawn, class C sheeting, 68 x 64 print cloth (percale), 64 x 56 print cloth (percale), 60 x 48 plissé (crinkled crepe), outing flannel, gingham and seersucker.

(c) Applications for assistance to get some of the goods that are now available must be filed with the nearest War Production Board field office not later than August 11, 1945.

(d) The purpose of this program is to make more cotton piece goods available to persons who live in small towns and rural areas and who buy these goods over-the-counter from retailers for use in making garments in the home. Therefore, the only applications that will be considered will be those from wholesalers who customarily buy these goods directly from textile mills or converters and resell to retailers in small towns and rural areas, and from the retailers themselves in the small towns and rural areas who also customarily buy directly from textile mills or converters. Because of the very limited supply of the goods, applications from these eligible wholesalers and retailers may be granted only where it appears that the applicant's 1944 receipts of cotton piece goods have been less than 40% of 1942 receipts and the consumer needs of the community or area served by the applicant have not decreased, or where the consumer needs of the community or area have greatly increased. Applications that meet this test will generally be granted on a pro rata basis, based on the applicant's receipts of the goods in 1942 and his receipts into stock in 1944 and 1945, including unfilled rated orders. A person who has not been in a business handling cotton piece goods long enough to give this information, or who is just entering business, may, if he buys or plans to buy directly from a textile mill or converter, apply for priorities assistance and his application will be processed on an equitable basis.

(e) Orders shall be placed and preference ratings assigned under this direction shall be applied and extended in the manner provided in Priorities Regulations 1 and 3. The following certification shall be placed on all orders on which the rating is used:

The undersigned purchaser hereby represents to the seller and to the War Production Board that he is entitled to apply or extend the preference rating indicated opposite the items shown on this order, and that such application or extension is in accordance with Priorities Regulation 3 as amended, with the terms of which the undersigned is familiar.

This rating has been assigned by Direction 7 to M-317, as amended October 8, 1945, and is based on an AA-3 rating(s) assigned on Form WPB-4157, Serial No. ——— (insert the serial number).

(Name of purchaser)

(Address)

By ---
(Signature and title of duly authorized officer)

(Date)

When the above is complied with, the requirements of M-317 and M-328 are met, and it is unnecessary to use any other notation.

(f) Each wholesaler and retailer who was assigned an AA-3 rating on Form WPB-4157 after July 21, 1945 is hereby assigned a CC rating to get that portion of the yardage of fabrics which was authorized but has not been delivered to him. If he placed orders after July 21, 1945 with this AA-3 rating and those orders have not been completely delivered and were not cancelled, the balance of the orders is hereby automatically rated CC and the purchaser need not (although he may) give the certificate set forth in paragraph (e) above. To the extent that orders were not placed before October 1, 1945, with the AA-3 rating as authorized on Form WPB-4157, or to the extent that such orders placed with the AA-3 rating were cancelled, he may place CC rated orders.

(g) In cases where under paragraph (f) above an order is automatically rated CC, the rating must be treated as an original rating, which is effective on October 8, 1945.

(h) The CC ratings assigned by this direction are assigned only for deliveries to be made before January 1, 1946.

Issued this 8th day of October 1945.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-375 as Amended Oct. 5, 1945]

WORK GLOVES

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of work gloves for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.336 *General Conservation Order M-375*—(a) *Definitions.* For the purpose of this order:

(1) "Work gloves" means any of the following gloves and mittens customarily graded as men's, women's and children's:

Canton flannel gloves and mittens.
Jersey gloves and mittens
Leather combination gloves and mittens.

"Gloves" means both gloves and mittens.

(2) "Put into process" means the first cutting of material in the manufacture of gloves and mittens.

(3) All terms used in this order shall have their usual and customary trade meanings unless stated otherwise.

(b) *General exceptions.* The provisions of this order shall not apply to orders for the delivery of work gloves to the United States Army, Navy, Maritime Commission or War Shipping Administration.

(c) *General restrictions on processing and manufacturing of work gloves.* (1) No person shall, after May 15, 1944, manufacture work gloves or put into process or cause to be put into process by others for his account any material for the manufacture of work gloves with:

(i) Canton flannel other than 4 harness construction.

(ii) Thumb seam welts or welts at thumb crotch seam, or thumb straps, on other than side split leather or grain leather construction.

(iii) Pairs tacked, stapled or otherwise fastened together.

(iv) Rider tickets.

(v) Imprints on hand portion other than manufacturer's trade mark.

(2) No person shall, after May 15, 1944, manufacture work gloves, or put into process or cause to be put into process by others for his account any material for the manufacture of work gloves, of any style, type and construction not listed in Schedule A of this order, or more numbers of any style than is specified in Schedule A.

Each person who manufactures work gloves or puts into process materials for the manufacture of work gloves shall, within 15 days after May 15, 1944, file with the War Production Board a list of the specific numbers of each style of gloves listed in Schedule A which he intends to produce. The numbers shall be listed in the sequence of Schedule A, and each number fully identified to conform with Schedule A. For example: only one number may be selected in Class 2 Men's Safety Cuff. The selection made should be stated in this form: "Class 2, Men's Safety Cuff, 8 oz. palm, 10 oz. lining, without turtle neck, white back, quilted." If this is the number selected no other number of this style may be made. No person may make any number not set forth on his list filed with the War Production Board, or change from the production of any number of any style set forth in his list to any other number of that style, unless he is authorized by the War Production Board in writing to do so.

(3) The War Production Board may on written application authorize the production and sale of work gloves, other than those enumerated in Schedule A, for specific occupational requirements.

(4) No person shall, after May 15, 1944, manufacture work gloves or put into process or cause to be put into process by others for his account any material for the manufacture of work gloves except in accordance with the specifications set forth in Schedules A and B.

(5) *Exceptions.* The provisions of paragraph (c) shall not apply to:

(i) Work gloves put into process or manufactured prior to May 15, 1944.

(ii) Work gloves made and sold to conform with state, county and municipal safety laws, codes and regulations and in effect on May 15, 1944, and specifically requiring the use of work gloves made otherwise than as specified in this order.

(iii) Work gloves manufactured in the home except when made for sale or for a contractor or jobber or other person who sells the work gloves.

(iv) Work gloves made from materials and supplies in the inventory of a glove manufacturer on May 12, 1944, or purchased by him prior to May 12, 1944, provided such materials and supplies are consumed in the manufacture of gloves before June 30, 1944. However, such gloves may be sold and delivered only before July 31, 1944.

(d) *Restrictions on sales and deliveries.* (1) No person shall sell or deliver work gloves which he knows or has reason to believe were manufactured or the material for which was put into process contrary to the provisions of paragraph (c) of this order.

(2) No manufacturer of work gloves may deliver work gloves packed less than one dozen pairs to a package.

(3) [Deleted Oct. 5, 1945.]

(4) Unless specifically authorized by the War Production Board, no person who purchases work gloves for distribution or sale to his own employees shall accept delivery of work gloves if by virtue of such acceptance his inventory of work gloves will be in excess of the minimum amount of work gloves required to supply the needs of his employees for a period of 30 days.

(e) [Deleted Oct. 5, 1945.]

(f) [Deleted Oct. 5, 1945.]

(g) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provisions appealed from and stating fully the grounds of the appeal.

(h) *Reports.* Each manufacturer of gloves shall report monthly his production and deliveries of work gloves on WPB Form 3548. This reporting requirement has been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(i) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board as amended from time to time.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(k) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed in writing, be addressed to: War Production Board, Textile, Clothing, and Leather Bureau, Washington (25), D. C., Reference M-375.

Issued this 5th day of October 1945.

WAR PRODUCTION BOARD,

Recording Secretary.

SCHEDULE A

WORK GLOVES—PERMITTED STYLES

Only the following styles of work gloves may be manufactured or put into process. No person may manufacture or put into process more numbers of any style than specifically permitted by this schedule. For example: Class 2, Men's Double Palm Safety Cuff—a manufacturer may make only one number. The option is given to use the construction of 8 ounce palm with 10 ounce lining or 10 ounce palm with 8 ounce lining, but not both. The construction chosen may be made either with or without turtle neck, but not both. The construction chosen may be made either with white back or striped back, but not both, and with palm parts either quilted or processed, but not both. Accordingly, a selection might be made as follows: "Class 2, Men's Safety Cuff 8 ounce palm with 10 ounce lining, without turtle neck, with white back, quilted." Any variation from this would constitute another number. This principle follows throughout the schedule.

Where ounces weight of Jersey cloth is specified it means ounces per square yard of material. Where ounces weight of flannel cloth is specified it means ounces per linear yard of cloth 34" wide.

1. *White canton flannel knit wrist, band top and gauntlet:*—(A) *Clute pattern—knit wrist:*

Men's: 6-, 8-, 10-, 12-ounce. (4 numbers only).

Extra large: 12 ounces (1 number only).

Women's: 6-, 8-, 10-ounce (3 numbers only).

Small women's: 6 ounce (1 number only).

(B) *Clute pattern—band top:*

Men's: 8-, 10-, 12-ounce—optional as to weight (2 numbers only).

Women's: 8 ounce (1 number only).

(C) *Gauntlet—Double (2 ply) thickness cuff:*

Men's: 10 ounce without turtle neck (1 number only).

Men's: 12 ounce with or without turtle neck, not both (1 number only). Turtle neck 10 ounce minimum.

(D) *Gunn or fourchette pattern (optional) knit wrist:*

Men's: 8-, 10-, 12-ounce (3 numbers only).

Men's reversible 8 ounce or 10 ounce—optional (1 number only).

2. *Canton flannel gloves with double thickness nap out palm and single thickness back.*

Men's: *knit wrist:* 8 ounce palm, 10 ounce lining or 10 ounce palm, 8 ounce lining. (2 numbers only).

Women's: *knit wrist:* 8 ounce palm, 10 ounce lining or 10 ounce palm, 8 ounce lining. (1 number only).

Men's: *safety cuff*—double (2 ply) thickness cuff: 8 ounce palm, 10 ounce lining or 10 ounce palm, 8 ounce lining with or without turtle neck (optional). Turtle neck 10 ounce minimum. (1 number only).

Men's: *gauntlet*—Double (2 ply) thickness cuff: 8 ounce palm, 10 ounce lining or 10 ounce palm, 8 ounce lining; with or without turtle neck. Turtle neck 10 ounce minimum. (2 numbers only—to match knit wrist numbers).

NOTE: Backs may be either 10-ounce or 8-ounce stripe flannel with matching cuffs but not both.

Two-ply palm parts may be either quilted or processed.

3. *Hot mill Canton flannel gloves—nap out palm.*

Men's: *Band top:* 12-ounce palm and pull, 12-ounce lining, 12-ounce back, 12-ounce band, 10-ounce knuckle strap. *Inseam.* (1 number only.)

Men's: *Band top:* 12-ounce palm without pull, 12-ounce lining, 12-ounce back, 12-ounce band, 10-ounce knuckle strap. *Inseam.* (1 number only.)

Men's: *Band top:* 12-ounce palm and pull, 12-ounce lining, 12-ounce back, 12-ounce band, 10-ounce knuckle strap. *Outseam.* (1 number only.)

Men's: *Gauntlet:* Double (2-ply) thickness cuff, 12-ounce palm and pull, 12-ounce lining, 12-ounce back, 10-ounce knuckle strap. *Inseam.* (1 number only.)

Men's: *Gauntlet:* Double (2-ply) thickness cuff, 12-ounce palm without pull, 12-ounce lining, 12-ounce back, 10-ounce knuckle strap. *Inseam.* (1 number only.)

[1] Any four of the above numbers may be produced nap out for use in territories where such items have proved to be most satisfactory for special uses and are now in demand.

Men's: *Knit wrist*: 12-ounce palm, 12-ounce lining, 12-ounce back, 10-ounce knuckle strap. *Inseam.* (1 number only.)

NOTE: Two-ply palm parts quilted only. In addition to above band-top inseam may be produced nap-in palm on special order only, when necessary for specific occupational requirements.

4. *White Flannel Gloves, nap-in-double thickness palm and single thickness back.*

Men's: *Knit wrist*: 10-ounce palm, 8-ounce lining, 10-ounce back (1 number only).

Men's: *Gauntlet:* Double (2-ply) thickness cuff: 10-ounce palm, 8-ounce lining, 10-ounce back (1 number only.)

NOTE: Two-ply palm parts quilted only. Band wrist in lieu of gauntlet, optional.

5. *Double throughout: Nap-out-flannel "chore" gloves.*

Men's: *Knit wrist*: 6-ounce or 8-ounce shell, 6½-ounce or 8-ounce lining, or 10-ounce shell, 8-ounce lining. (2 numbers only.) Quilted or processed.

Extra Large *Knit Wrist*: Same as above. (1 number only).

Women's: *Knit Wrist*: 6-ounce or 8-ounce shell, 6½-ounce or 8-ounce lining. Quilted or processed. (1 number only.)

Men's: *Safety Cuff*: (2-ply cuff): 6-ounce or 8-ounce shell, 6½ or 8-ounce lining. Quilted or processed. (2 numbers only).

6. *Gunn or fourchette pattern two-thumb knit wrist Canton flannel husking gloves, white only, single thickness.*

Men's: *Knit wrist:* 8-ounce nap-out (1 number only).

Men's: *Knit wrist*: 10-ounce nap-out (1 number only).

Men's: *Knit wrist*: 12-ounce nap-out (1 number only).

Women's: *Knit wrist*: 8-ounce or 10-ounce optional (1 number only).

Men's: *Knit wrist*: 12-ounce nap-out palm and thumb with 8-ounce white or colored, outside thumb patch. (1 number only).

Men's: *Knit wrist*: 12-ounce nap-out palm. 12-ounce white or colored, double throughout thumb with 8-ounce liner. (1 number only.)

Men's: *Knit wrist*: 12-ounce nap-out palm and thumb, 6-ounce thumb reinforcement. (1 number only.)

Women's: *Knit wrist*: 10-ounce nap-out palm and thumb, 6-ounce thumb reinforcement. (1 number only.)

Men's: *Knit wrist*: 12-ounce nap-out palm and thumb with 8-ounce white or colored outside thumb patch. (1 number only.)

8. *"Chore", Smelter's and Tick Mittens.*

Women's: *Single Ply Gauntlet*, Lined split leather palm (1 number only).

NOTE: The above may be made with either continuous or set-in thumb (not more than ¾ thumb), but not both. Leather colors optional and may be used in interchangeably when necessary, but not to duplicate numbers.

13. *Gunn pattern, knit wrist, continuous or set-in thumb, finger tips, 8 ounce flannel back; 6 ounce or heavier palm lining.*

One style of thumb only, not both.

(A) Men's: Lined split leather, ¾ thumb. (1 number only).

(B) Men's: Lined side split leather, ¾ thumb. (1 number only).

(C) Men's: Lined heavy side split leather. Full leather thumb, forefinger and little finger; separate wrist pull; with or without full length thumb strap (optional) for loggers and lumbermen). (1 number only).

(D) Men's: Lined heavy side split leather Full leather thumb and forefinger. (1 number only).

(E) Men's: Lined side split leather, ¾ thumb, 10½ ounce plain Jersey back. (1 number only).

13/1. *Double (2 ply) thickness gauntlet and safety cuff; 6 ounces or heavier palm lining.*

(A) Men's: Lined split leather, ¾ thumb, Gauntlet. (1 number only).

(B) Men's: Lined split leather ¾ thumb, Safety Cuff. (1 number only).

14. *Gunn pattern, safety cuff, finger tips, continuous or set-in thumb, waterproof cuff, 8 ounce flannel back; 6 ounce or heavier palm lining.*[2]

One style of thumb only, not both.

(A) Men's: Lined split leather, ¾ thumb. (1 number only).

Women's: Lined split leather, ¾ thumb. (1 number only).

(B) Men's: Lined split leather, ¾ thumb with pull and knuckle strap (1 number only).

(C) Men's: Lined side split leather with pull and knuckle strap, full leather thumb—thumb crotch seam protection optional. (1 number only).

Women's: Lined side split leather with pull and knuckle strap, full leather thumb—thumb crotch seam protection optional. (1 number only).

(D) Men's: Lined side split leather with pull and knuckle strap with full leather thumb and full leather forefinger—thumb crotch seam protection optional. (1 number only).

(E) Men's: Lined side split leather palm, pull, full leather thumb and forefinger, ⅞ length leather back—thumb crotch seam protection optional. (1 number only)

(F) Men's: Lined Grain Leather; full leather thumb and forefinger, pull, knuckle strap—thumb crotch seam protection optional. (1 number only).

(G) Men's: Lined heavy side split leather, full leather thumb and forefinger, ¾ length leather back, welted thumb seam optional. Can be made only one way. (1 number only).

(H) Men's: Lined heavy side split leather palm. Full leather fingers, thumb, pull and knuckle strap. Thumb crotch seam protection optional. Gunn or Clute pattern optional. (1 number only).

15. *Gunn pattern, gauntlet style, finger tips, continuous or set-in thumb, waterproof cuff, 8 ounce flannel back; 6 ounce or heavier palm lining.*[2]

One style of thumb only, not both.

(A) Men's: Lined split leather, ¾ thumb. (1 number only).

Women's: Lined split leather, ¾ thumb. (1 number only).

(B) Men's: Lined split leather, ¾ thumb with pull and knuckle strap (1 number only)

(C) Men's: Lined side split leather with pull and knuckle strap, full leather thumb—thumb crotch seam protection optional. (1 number only).

Women's: Lined side split leather with pull and knuckle strap, full leather thumb—thumb crotch seam protection optional. (1 number only).

(D) Men's: Lined side split leather with pull and knuckle strap with full leather thumb and full leather forefinger—thumb crotch seam protection optional. (1 number only.)

(E) Men's: Lined side split leather palm, pull, full leather thumb and forefinger, ⅞ length leather back—thumb crotch seam protection optional. (1 number only.)

(F) Men's: Lined Grained Leather; full leather thumb and forefinger, pull, knuckle strap—thumb crotch seam protection optional. (1 number only.)

(G) Men's: Lined heavy side split leather, full leather thumb and forefinger, ¾ length leather back, welted thumb seam optional. Can be made only one way. (1 number only.)

(H) Men's: Lined heavy side split leather palm. Full leather fingers, thumb, pull and knuckle strap. Thumb crotch seam protection optional. Gunn or Clute pattern optional. (1 number only.)

16. *Gunn pattern, slip-on or driver's style, fingers tipped, full leather thumb, with or without draw strap on back optional.*

Side split or horse split leather, 8 ounce back. (1 number only.)

[2] In the event that waterproof cuff material becomes unobtainable, double (2 ply) thickness cuffs may be used as alternate for Classes 14 and 15. Weight of waterproof cuff material shall be not less than 23 ounces per square yard.

1. "Class" refers to the various classes or categories of gloves and mittens as customarily described in the industry, as they are listed in the order designated in Schedule A. "Gloves" means both gloves and mittens.

2. "Maximum yards" refers to linear yards of material used per dozen pairs in the hand portion of gloves below the wrist or cuff seam. "Maximum pounds" refers to pounds of Jersey cloth per dozen pairs of jersey gloves. "Maximum feet" refers to square feet of leather per dozen pairs of leather combination gloves.

Yards, poundage, or feet specified to the dozen pairs shall mean maximum average yardage, poundage, or footage consumed in the cutting of each respective style of gloves and mittens.

3. "Minimum measurements" refers to the dimensions of gloves finished and ready for shipment: (1) length of hand from wrist seam to end of second finger; (2) width across palm measured just below thumb crotch; (3) knit wrist length measured from wrist seam; (4) gauntlet length measured from turtle neck or wrist seam; (5) gauntlet width measured at top; (6) gauntlet width measured at bottom where joins hands; (7) safety cuff length measured from turtle neck or wrist seam; (8) length of band wrist measured from wrist seam.

4. Jersey cloth when steamed and pressed to remove wrinkles and bring to a uniform width shall not be stretched to finish wider than original mill width of the finished material.

5. Tubings for knit wrists shall be for (1) Men's: not less than 12 yards per pound, 2¼" width; (2) Women's: not less than 15 yards per pound, 2" width; (3) Children's: not less than 17 yards per pound, 1¾" width.

6. Where split leather is specified it means shoulders and other pound stock (except middle splits).

Where heavy side split leather is specified the minimum average weight of palm leather shall be not less than 3 ounces per square foot.

Medium side split leather means side leather weighing not less than 2¼ ounces per square foot and not more than 3 ounces per square foot.

Where side split leather is specified it means either medium or heavy palm leather. Only one weight may be used for any one style.

Side split cattlehide or horsehide of fairly equivalent weight and quality may be used interchangeably, but not to duplicate numbers. Colors of leather are optional and may be used interchangeably but not to duplicate numbers.

7. Where ounces weight of jersey cloth is specified, it means ounces per square yard of material. Where ounces weight of flannel cloth is specified, it means ounces per linear yard of cloth 34" wide.

8. Double (two-ply) thickness gauntlet and safety cuffs shall be not less than a combination of:

Covering material: 2.85 37" twill or 6 ounce 37" flannel.

Lining material: 2.95 36" to 37" osnaburg or 3 yard duck; or similar covering and lining materials of fairly equivalent quality and value. Materials may be combined by either processing or quilting.

PART 3293—CHEMICALS

[Conservation Order M-384 as Amended Oct. 9, 1945]

LEAD CHEMICALS

Section 3293.641 *Conservation Order M-384* is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of lead and lead chemicals for defense, for private account and for export, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.641 *Conservation Order M-384*—(a) *Definitions.* For the purpose of this order:

(1) "Lead" means the metal having the symbol Pb.

(2) "Lead acetate" means that lead chemical or compound having the approximate chemical formula

$Pb(C_2H_3O_2)_2 \cdot 2Pb(OH)_2$

(Basic acetate) or

$Pb(C_2H_3O_2)_2 \cdot 3H_2O$

(Normal acetate).

(3) "Lead antimonate" means that lead chemical or compound having the approximate chemical formula $Pb_2(SbO_4)_2$.

(4) "Lead arsenate" means the lead chemical or compound produced for use as an agricultural insecticide and includes all arsenical lead salts.

(5) "Lead arsenite" means that lead chemical or compound having the approximate chemical formula $Pb(AsO_2)_2$.

(6) "Lead dioxide" means that lead chemical or compound having the approximate chemical formula PbO_2.

(7) "Lead chloride" means that lead chemical or compound having the approximate chemical formula $PbCl_2$.

(8) "Lead nitrate" means that lead chemical or compound having the approximate chemical formula $Pb(NO_3)_2$.

(9) "Lead silicate (Mono)" means that lead chemical or compound having the approximate chemical formula $PbO.SiO_2$.

(10) "Lead silicate (di)" means that lead chemical or compound having the approximate chemical formula $PbO.2SiO_2$.

(11) "Litharge" means that lead chemical or compound having the approximate chemical formula PbO.

(12) "Red lead" means that lead chemical or compound having the approximate chemical formula Pb_3O_4.

(13) "White lead" means either basic carbonate of white lead or basic sulphate of white lead as defined in this order.

(14) "Basic carbonate of white lead" means that lead chemical or compound having the approximate chemical formula $2PbCO_3.Pb(OH)_2$.

(15) "Basic sulphate of white lead" means that lead chemical or compound having the approximate chemical formula $2PbSO_4.PbO$.

(16) "Lead chrome pigments" means chrome yellow, chrome orange, chrome green and molybdate chrome orange as defined below.

(17) "Chrome yellow" and "chrome orange" mean the pigments which are reaction precipitates consisting of normal or basic lead chromates or mixtures of these with or without other insoluble compounds of lead. Color Index 1270.[1]

(18) "Chrome green" means the pigment consisting of a precipitated mixture of chrome yellow. Color Index 1270[1]— and iron blue. Color Index 1288.[1]

(19) "Molybdate chrome orange" means a mixed crystal containing lead chromate, lead molybdate, and lead sulphate with or without other insoluble compounds of lead.

(20) "Frit" means the fused or semi-fused mass used in the glazing of ceramicware.

(21) "Sodium plumbite" means that lead chemical or compound having the approximate chemical formula Na_2PbO_2.

(b) *Restrictions on production of lead chemicals.* No person shall put into process in any calendar quarter for the production of the lead chemicals specified in paragraphs (a) (2) through (a) (21) an aggregate quantity of lead in excess of 55 percent of the aggregate quantity of lead he put into process for the production of these lead chemicals during the first 6 months of 1944.

(c) *Carry-over of quotas.* If in any calendar quarter a person does not put into process for the production of the lead chemicals specified in paragraphs (a) (2) through (a) (21) the full amount permitted under paragraph (b) for the current quarter he may use the balance during any later calendar quarter.

(d) *Special directives.* The War Production Board may from time to time issue special directives with respect to the use, production or processing of lead chemicals, notwithstanding the other provisions of this order.

(e) *Applications for quotas.* Any person who does not have a quota for putting lead into process for the production of lead chemicals and who wishes to have a quota established for him, may apply for a quota by filing a letter with the War Production Board, Chemicals Bureau, Washington 25, D. C. Ref: M-384. The letter should state in addition to any other pertinent information what lead chemicals the applicant wishes to make, what facilities he has for this purpose and the amount of lead he will need for this purpose per quarter. A quota will be assigned to him on an equitable basis.

(f) *Appeals.* Any appeal from this order must be filed by letter in duplicate addressed to the Chemicals Bureau, War Production Board, Washington 25, D. C., Ref: M-384, setting forth the reasons for the appeal and the necessary supporting information.

(g) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(h) *Communications to War Production Board.* All communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-384.

Issued this 9th day of October 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

Chapter XI—Office of Price Administration

PART 1367—FERTILIZERS

[RMPR 240,[1] Amdt. 4]

PHOSPHATE ROCK

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 240 is amended in the following respects:

1. The "Quality" provision under Appendix A 1. is amended to read as follows:

Quality. Bone phosphate of lime (B. P. L.) on a dry basis, not more than 4% combined oxide of iron and alumina (I. & A. determined separately on a dry basis) any excess adjusted basis 2 units B. P. L. for 1 unit I. & A. and not more than 3% moisture, any excess deducted from weight.

2. The "Bagged" provision under Appendix A 2. is amended to read as follows:

Bagged. Add $2.00 per net ton for bagging in 100 pound capacity multi-wall paper bags or 40¢ per net ton for bagging in valve bags which purchaser provides.

3. Appendix B as amended, is amended to read as follows:

APPENDIX B—MAXIMUM PRICES FOR TENNESSEE BROWN PHOSPHATE ROCK

The miner may charge any person for Tennessee brown phosphate rock upon the terms and conditions, and for the grades and descriptions, the prices, all as set forth in the following schedule:

1. *Unground phosphate rock:*

Size. Run of mine in carload lots—washed, dried and unground.

Price. Basis gross ton (2,240 pounds) f. o. b. cars at mines.

Quality. Bone phosphate of lime (B. P. L.) on a dry basis, combined oxide of iron and alumina adjustment basis 2 units B. P. L. for 1 unit I. & A. (I. & A. determined separately on a dry basis) and not more than 3% moisture, any excess deducted from weight.

Grades:

68/66% B. P. L. 6% I. & A.—$4.80 per ton basis 68% B. P. L., 12½¢ per unit rise to 70% maximum and 15¢ per unit fall to 66% minimum, fractions in proportion; I. & A. basis 6% with 2 units B. P. L. for 1 unit I. & A. fractions in proportion, added when below or deducted when above.

70/68% B. P. L. 5½% I. & A.—$5.30 per ton basis 70% B. P. L., 15¢ per unit rise to 72% maximum and 20¢ per unit fall to 68% minimum, fractions in proportion; I. & A. basis 5½% with 2 units B. P. L. for 1 unit I. & A. fractions in proportion, added when below or deducted when above.

72/70% B. P. L. 5½% I. & A.—$5.80 per ton basis 72% B. P. L., 20¢ per unit rise to 75% maximum and 25¢ per unit fall to 70% minimum, fractions in proportion; I. & A. basis 5½% with 2 units B. P. L. for 1 unit I. & A. fractions in proportion, added when below or deducted when above.

Lump rock. Add 50¢ per gross ton for screened lump rock of not more than 8% moisture, and with no adjustment for I. & A.

Wet rock. Deduct 50¢ per gross ton for wet rock not dried.

Calcining. Add $1.00 per gross ton for calcining basis 1500° Fahrenheit plus 5¢ per gross ton for each even 100° Fahrenheit above 1500° or deduct 5¢ per gross ton for each 100° below 1500° guaranteed.

Grinding. Add 52½¢ per gross ton for grinding 48 to 52% minus 200 mesh. Add 70¢ per gross ton for grinding 58 to 62% minus 200 mesh.

Car door boards. Add $2.50 per car for boarding up car doors.

Lining cars. Add 75¢ per car for paper lining doors. Add $1.75 per car for paper lining car.

2. *Finely ground phosphate rock:*

Price. Basis net ton (2,000 pounds) f. o. b. cars at mines in carload lots in bulk.

Quality. Phosphorus pentoxide (P_2O_5) on a dry basis minimum grade guaranteed and not more than 3% moisture, no adjustment for excess grade or I. & A.

Ground 90 to 95% minus 200 mesh or 80 to 85% minus 300 mesh.

Grades:	Per ton
29% P_2O_5	$4.95
30% P_2O_5	5.15
31% P_2O_5	5.25
32% P_2O_5	5.50
33% P_2O_5	6.00

No charge for car liners or car door boards. Add 30¢ per net ton for truckload shipments in bulk.

Bagged. Add $2.00 per net ton for bagging in 100-pound capacity multi-wall paper bags or 40¢ per net ton for bagging in valve bags which purchaser provides.

Guaranteed fineness. A charge of 25¢ per ton may be added for a guaranteed fineness of not less than 85% through a 300 mesh screen, when such guaranteed fineness is requested by the buyer.

Car bulkheads. A charge of $2.00 per car may be added for installing wooden bulkheads to separate bagged rock from unbagged rock, when such separation is requested by the buyer.

This amendment shall become effective October 15, 1945.

Issued this 9th day of October 1945.

JAMES G. ROGERS, Jr.,
Acting Administrator.

HINGES AND BUTT HINGES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 413 is amended in the following respect:

A new section 8a is added to read as follows:

SEC. 8a. *Modification of maximum prices for certain items.*—(a) *Scope of this section.* In order to immediately remove price as an impediment to the production of low-end items the OPA, notwithstanding the provisions of any other section of this regulation, will permit manufacturers and resellers to increase their maximum prices for such items as established under sections 7 and 8 of this regulation or the General Maximum Price Regulation in accordance with the provisions of this section.

(b) *Manufacturers maximum prices.* The manufacturer of the items listed in paragraph (d) of this section (identified by the manufacturer's plate number) may increase his maximum net price as established under section 7 of this regulation by 10 percent.

(c) *Resellers maximum prices.* The reseller of any item listed in paragraph (d) may increase his maximum net price to each class of purchaser as established under section 8 of this regulation or the General Maximum Price Regulation, by 10 percent. To the extent that this section modifies retailers' maximum prices, this section supersedes the GMPR with respect to the maximum prices for such retailers.

(d) *Items covered by this section.* There follows a list of the items covered by this section. Only the specific hinges and butt hinges listed are covered. Additional items may be added to this list by the Price Administrator.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[RO 1A,[1] Amdt. 110]

TIRES, TUBES, RECAPPING AND CAMELBACK

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Ration Order No. 1A is amended in the following respects:

1. Section 1315.201 (a) (13) is amended by adding subdivision (v), to read as follows:

(v) A new military non-directional mud and snow truck tire. (The tread design of this tire is that shown on Sheet No. 1 of Ordnance TAC Drawing 08988-X, U. S. Army Specifications 20-125 and all previous specifications superseded thereby).

2. Section 1315.501 (d) is amended by inserting after the word "occupation" the phrase "or which he uses for transportation of mail on behalf of the United States Government".

[1] 7 F.R. 9160, 9392, 9724.

3. Section 1315.612 is amended to read as follows:

§ 1315.612 *Dealers' inability to honor certificates*—(a) *Splitting of consumers' certificates by Boards.* A consumer who is unable to acquire from one supplier all the tires which he has been authorized to acquire may return the certificate to the issuing Board and the Board shall thereupon cancel the returned certificate and issue as many certificates as are necessary to permit the acquisition of such tires from several suppliers.

(b) *Splitting of dealers' replenishment portions by Boards and District Offices.* A dealer who is unable to acquire from one supplier all the tires called for on the replenishment portion of a certificate may surrender it to the Board or District Office which issued the certificate. The Board or District Office shall cancel it and issue in exchange replenishment portions of certificates (in denominations requested by the dealer) representing the tires called for by the replenishment portion surrendered.

(c) *Dealer's return of Parts B to customer.* When a supplier (dealer or sectional warehouse only) is unable or unwilling to complete the transfer of tires called for on a certificate or replenishment portion of a certificate or receipt received from a dealer or sectional warehouse or when a consumer, dealer or sectional warehouse cancels an order for tires from a supplier, the supplier shall return replenishment portions equivalent to the number of tires which have not been transferred in exchange for the replenishment portions forwarded. If the supplier returns replenishment portions of certificates other than those forwarded by the dealer, he shall endorse his name and address thereon. When the supplier returns replenishment portions to a consumer under this paragraph he shall also return Parts A and D of the consumer's certificate. The consumer shall surrender all the parts of the certificate to the issuing Board and may receive a new certificate in exchange.

4. Section 1315.806 (p) (3) is amended to read as follows:

(3) Grade III passenger or truck tires. (A manufacturer transferring new factory reject passenger or truck tires must file the report required by § 1315.1005 (f).

5. Section 1315.807 (e) is amended to read as follows:

(e) (1) *Transfers in exchange for lost ration evidence.* A dealer, sectional warehouse or manufacturer who loses a certificate or the replenishment portion of a certificate or receipt forwarded to him by a consumer, dealer or sectional warehouse prior to the transfer of the tires called for thereon, may transfer such tires to the consumer, dealer or sectional warehouse. Replacement of the replenishment portion may be obtained under subparagraph (3).

(2) *Transfers to replace tires lost in transit.* A dealer, sectional warehouse or manufacturer whose shipment of tires to a consumer, dealer or sectional warehouse has been lost in transit may make a further shipment of tires in order to complete delivery. Replacement of the tires lost in transit may be obtained by

the dealer or sectional warehouse who shipped them, under subparagraph (3).

(3) *Losses in inventory which may be replaced.* The District Director serving the area in which the dealer or sectional warehouse is located may upon his application issue replenishment portions of certificates to replace:

(i) Replenishment portions of certificates or receipts which were lost, stolen or mutilated;

(ii) Tires which were lost, stolen, destroyed or damaged to an extent that they cannot possibly be used or repaired for use on a vehicle or piece of equipment;

(iii) Tires which were transferred in good faith in exchange for stolen or counterfeit certificates;

(iv) New truck or passenger tires which were reclassified as Grade III tires while in his possession.

6. Section 1315.1005 (f) is amended by substituting the phrase "factory reject" for the phrase "Grade III" wherever it appears.

7. Section 1315.1006 (g) is added to read as follows:

(g) A dealer or sectional warehouse who has new military non-directional mud and snow truck tires in his inventory at the start of business on October 9, 1945, shall report the number and size of such tires as of that time. The report shall be made by letter to his OPA District Director on or before October 22, 1945.

This amendment shall become effective October 9, 1945.

(Pub. Law 671, 76th Cong. as amended by Pub. Laws 89, 421 and 507, 77th Cong.; E.O. 9125, 7 F.R. 2719, issued April 7, 1942, WPB Dir. No. 1, 7 F.R. 562, Supp. Dir. No. 1Q, 7 F.R. 9121)

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 9th day of October 1945.

CHESTER BOWLES,
Administrator.

ARTICLE I—WHAT THIS REGULATION COVERS

SECTION 1. *Articles covered by this regulation.* This regulation covers all the types of used business machines as defined in sections 18 and 19.

SEC. 2. *Transactions covered by this regulation.* This regulation covers only the following types of transactions:

(a) *Rentals.* Rentals of used business machines to any person by any person except the original manufacturer.

(b) *Sales.* (1) Sales to users of used business machines covered by Appendices A, B, C and D by any person except the original manufacturer.

(2) Sales to users of used business machines not covered by Appendices A, B, C and D by any person except the original manufacturer or a person selling his own used business machine which he acquired for use, and not for rental, resale or repair loan.

(3) Sales to dealers of any used business machines by any person except the original manufacturer. A dealer is any person acquiring a machine for the purpose of rental, resale or repair loan.

SEC. 3. *Relationship to other regulations*—(a) *General Maximum Price Regulation.*[1] Sales of used business machines by the original manufacturer remain covered by the General Maximum Price Regulation.

(b) *Revised Maximum Price Regulation No. 165.*[2] Rentals of used business machines by the original manufacturer; and repair or maintenance of used business machines by any person (unless such repair or maintenance is in connection with a sale or rental) remain covered by Revised Maximum Price Regulation No. 165.

(c) *Revised Maximum Price Regulation 162.*[3] Sales and rentals of used typewriters are covered by Revised Maximum Price Regulation No. 162.

[1] 9 F.R. 1385, 5169, 6106, 8150, 10193, 11274.
[2] 10 F.R. 2097, 2250, 3925, 6231.
[3] 9 F.R. 526, 4350.

ARTICLE II—RENTALS

SEC. 4. *Rentals with maintenance service.* (a) The maximum monthly charges for rentals with maintenance service of most used adding machines, calculating machines, cash registers, duplicating machines, dictating machines and addressing machines are listed in Appendices A, B, C and D of this regulation.

(b) The maximum monthly charge for a rental with maintenance service of any used business machine which is not listed in Appendices A, B, C and D of this regulation is five percent of the "price new" of the machine. The term "price new" is defined in Section 8.

(c) "Rental with maintenance service" means a rental which includes the supply, without additional charge, of service and maintenance when needed to keep the machine in good operating condition during the rental period.

SEC. 5. *Rentals without maintenance service.* (a) The maximum monthly charge for a rental without maintenance service of any used business machine is three-fourths of the maximum monthly charge for a rental of the same machine with maintenance service.

(b) "Rental without maintenance service" means a rental which does not include the supply, without additional charge, of the service and maintenance referred to in Section 4 (c).

SEC. 6. *Charges for installation of special features.* If, in connection with the rental of a used business machine, special features are installed for and at the request of the user, a single charge may be made for making such installation which shall not exceed the rentor's properly established maximum charge for the same service, determined under Revised Maximum Price Regulation No. 165. Such charge may be made and collected only if it is billed as a separate item. If the rentor has not properly determined a maximum charge for this service under Revised Maximum Price Regulation No. 165 he may make no charge for this service.

SEC. 7. *Transportation and packing charges.* The maximum rental charges established by this regulation include all packing charges. They also include all charges for delivery and pick-up within the rentor's metropolitan delivery area with respect to any machine weighing less than two hundred pounds. A single charge of $3.00 may be made for delivery and pick-up within the rentor's metropolitan delivery area on the intial rental of a machine weighing two hundred pounds or more.

In connection with the rental of a used business machine where delivery is made outside of the rentor's metropolitan area at the request of the user, the rentor may charge for delivery and pick-up an amount not greater than he customarily charged during March 1942 on rentals to the same class of user in the same geographical location; or if the rentor was not in business at that time, an amount not greater than that customarily charged under the same circumstances by his closest competitor who was in business at that time.

A charge for delivery and pick-up as permitted by this section may be made and collected only if it is billed as a separate item.

SEC. 8. *"Price new."* When used in this regulation, the term "price new" means either:

(a) The manufacturer's October 1941 list price of the machine when sold new to commercial users; or

(b) If the machine was not sold by the manufacturer to commercial users, five-thirds of the manufacturer's October 1941 list price of the machine when sold new to his largest class of dealers; or

(c) If the model was discontinued by the manufacturer prior to October 1941, and the price new of the machine cannot be determined under (a) or (b), the price new of the machine shall be the price new of the most closely comparable machine. In determining what is the most closely comparable machine, the make, model, capacity, obsolescence, age, features and functions, as well as all other details, must be considered.

SEC. 9. *Rental period.* The rental period is the period specified in the contract or other writing required by section 25. A full month's rental for a machine may be charged for an initial rental of less than thirty days. Fractions of a month over the first month shall be prorated.

ARTICLE III—SALES

SEC. 10. *Listed maximum prices for sales to users.* The maximum prices for sales to users of most used adding machines, calculating machines, cash registers, duplicating machines, dictating machines and addressing machines and certain extra features and attachments for these machines are listed in Appendices A, B, C and D of this regulation. No charge for installing a feature or attachment so listed may be made other than the price for the feature or attachment itself.

SEC. 11. *Unlisted maximum prices for sales to users.* The maximum prices for sales to users of used business machines or attachments, not listed in Appendices A, B, C and D of this regulation shall be computed from the following table:

If the particular machine was first sold new by the manufacturer	Its maximum price shall be the following percentage of its "price new", (as defined in section 8)	
	Rough	Reconditioned
	Percent	*Percent*
On and after 1-1-35	60	75
From 1-1-25 to 12-31-34	45	60
Before 1-1-25	25	40

No charge for installing an attachment may be made other than the price for the attachment itself.

SEC. 12. *Maximum prices for sales to dealers*—(a) *Sales by users to dealers.* The maximum price for a sale by a user (including the United States) to a dealer of a used business machine is two-thirds of the maximum price established for the sale of that machine to a user. If the dealer buying the machine gives a written certification to the user stating that his proposed purchase price does not exceed the maximum price for that sale by the user to the dealer, the user may rely on that certification and may collect the amount so certified.

(b) *Sales by dealers to dealers.* The maximum price for a sale by a dealer to a dealer of a used business machine is the maximum price established for the sale of that machine to a user.

SEC. 13. *Credit charges.* A charge for the extension of credit may be added to the maximum price established by this regulation for sales of a used business machine only to the extent permitted by this section. Sellers who, during March 1942, sold used business machines on credit may make a credit charge not greater than their customary credit charge during March 1942 on a similar sale and on similar terms to the same class of purchaser. If the seller did not sell used business machines on credit during that period, he may hereafter make a charge for credit not greater than that made during March 1942 by the seller's closest competitor who sold used business machines on credit during March 1942, on a similar sale and on similar terms to the same class of purchaser. All charges for the extension of credit must be billed separately. No seller may require as a condition of sale that the purchaser must buy on credit.

SEC. 14. *Packing charges.* A charge for packing for shipment may be added to the maximum price established by this regulation for sales of a used business machine only to the following extent:

(a) On sales to an exporter or foreign buyer, as provided by Second Revised Maximum Export Price Regulation;[4]

(b) On sales to any procurement agency of the United States, as provided by Second Revised Supplementary Order No. 34;[5] and

(c) On other sales, an amount not greater than that customarily charged by the seller on sales to the same class of purchaser in the same geographical location during March 1942; or if the seller was not in business during that month an amount no greater than that customarily charged under the same circumstances by his closest competitor who was in business at that time.

All charges for packing must be billed separately. No seller may require as a condition of sale that he pack the machine for shipment.

SEC. 15. *Transportation charges.* In connection with the sale of a used business machine, the seller may charge for transportation an amount no greater than he customarily charged on sales to the same class of purchaser in the same geographical location during March 1942; or if the seller was not in business during that month, an amount no greater than that customarily charged under the same circumstances by his closest competitor who was in business at that time.

SEC. 16. *Trade-in allowances.* A seller of used business machines may not reduce his trade-in allowances below those he had in effect during March 1942. A seller not engaged in the sale of used business machines in March 1942 may not make trade-in allowances below those in effect in March 1942 on sales by his closest competitor who was in business at that time.

SEC. 17. *Export sales.* Maximum prices for sales to an exporter and for export sales as defined by the Second Revised Maximum Export Price Regulation are covered by the provisions of that regulation.

ARTICLE IV—DEFINITIONS

When used in this regulation, the following terms have the following meanings:

SEC. 18. *"Business machine."* "Business machine" means any of the following articles, including attachments thereto:

(a) *Accounting machines.* Office machines, other than punched card machines, designed for book-keeping functions and capable of posting and accumulating.

(b) *Adding and calculating machines.* Office machines, designed to add, or to subtract, multiply, divide or compute, whether listing or nonlisting; including adding machine cash drawer, combinations and payroll denomination machines.

(c) *Addressing machines.* Office machines designed for imprinting envelopes or forms from prepared plates, stencils or cast type.

(d) *Autographic registers.* Office or store machines for manifolding handwritten invoices or records by the use of carbon paper and continuous forms; including registers with cash drawers.

(e) *Cash registers.* Store machines which indicate to customer amount of sales transaction; with or without recording, cash drawer, calculating or issuing functions.

(f) *Check handling machines.* Office machines designed to sign in duplicate, or to shred, crimp, perforate, number, stamp, date, or protect checks or other forms; not including mailing machines.

(g) *Coin handling machines.* Office machines without printing mechanism designed to sort, count or wrap coins.

(h) *Dictating machines.* Office machines designed to record or reproduce the voice through use of cylinders or discs; including shaving machines and telephone recorders.

(i) *Duplicating machines.* Office machines designed to reproduce copies by hectograph, spirit, stencil, offset, or cast type not including machines using photographic, blue print, photostatic, or carbon paper principle.

(j) *Fare machines.* Registers and boxes for handling fares or issuing tickets, (including taximeters).

(k) *Mailing machines.* Office or post office machines for sealing, stamping, or opening envelopes; folding or inserting letters; cancelling stamps; handling metered postage.

(l) *Tabulating Machines.* Card punching, sorting, and accounting machines used for statistical work.

(m) *Time recorders and stamps.* Office or factory machines for stamping or printing time records.

(n) *Writing machines.* Office machines, typewriter principal, with features for:
Electric or automatic duplication,
Handling or collating continuous forms,
Shorthand writing,
Embossing Braille characters,
Toll or telephone billing,
Proportional spacing,
Right-hand margin justification,
Front or vertical paper feed,
Composing through use of interchangeable type.

SEC. 19. *"Used business machine".* "Used business machine" includes rough and reconditioned models of business

machines. It does not include business machines which have been in the possession of one or more users for an aggregate of less than sixty days; nor does it include new business machines which have been returned by the original purchaser to the original seller for the full price; nor does it include new machines which have been in the possession of buyers for more than sixty days but have never been removed from their original package. It also includes machines customarily called "rebuilt" and "demonstrator" models.

SEC. 20. *"Rough"*. A used business machine is "rough" if it does not meet the requirements for a "reconditioned" machine.

SEC. 21. *"Reconditioned"*. A reconditioned used business machine is one with working parts free from rust, corrosion and flaws; which is clean; which has a new ribbon if the machine operates with a ribbon; with working mechanism lubricated and accurately adjusted for efficient performance; and which is sold with a written six months guarantee (when sold to a user) that the seller will repair, free of all charges, defects in operation caused by faulty materials, parts or workmanship.

SEC. 22. *"Manufacturer"*. "Manufacturer" means the person making the first sale of a business machine when new.

SEC. 23. *"Person"*. "Person" means an individual, corporation, partnership, association, any other organized group of persons; the legal successor or representative of any of the foregoing; and includes the United States, any agency thereof, any other government, or any of its political subdivision, and any agency of any of the foregoing.

ARTICLE V—GENERAL PROVISIONS

SEC. 24. *Taxes*. Any tax upon or incident to the sale or rental of a used business machine may be added to the maximum price established by this regulation, but only if the amount of the tax is stated separately on the seller's or rentor's invoice.

SEC. 25. *Invoices and records*. A dealer who makes a sale or rental covered by this regulation of a used business machine shall furnish to the customer the following statement:

(a) *On rentals*. The rentor of a used business machine shall supply to the user a contract, invoice or other writing which specifies the make, model number (if available) and serial number of the machine rented, and any features for which a rental charge is made; the contract period; the rental charge; the type of rental (that is rentals "with" or "without maintenance service"); the date the rental is made; and the name and address of the person to whom the machine is rented.

The rentor shall keep for his records a carbon copy or other duplicate copy of the contract, invoice or other writing for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(b) *On sales*. The seller of a used business machine shall supply to the buyer a sales slip, invoice or other writing, which specifies the make, model number (if available), and serial number of the machine sold; the grade of the machine sold (that is "reconditioned" or "rough"); the make, model number (if available), serial number and credit allowed for a machine if taken in exchange; the price charged; the guarantee; the date of the sale; and the name and address of the purchaser.

The seller shall keep for his records a carbon copy or other duplicate copy of this sales slip, invoice or other writing for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

SEC. 26. *Prohibited practices*. Any practice or device which has the effect of getting a higher-than-maximum price without actually raising the dollar-and-cents price is as much a violation of this regulation as an outright over-maximum price. This applies, for example, to devices making use of commissions, services, tying agreements, the making of a false certification of a maximum price by a dealer on the sale by a user to a dealer of a used business machine, and the like.

SEC. 27. *Licensing*. The provisions of Licensing Order No. 1,[8] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 28. *Enforcement*. Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 29. *Petitions for amendment*. Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1[9] issued by the Office of Price Administration.

SEC. 30. *Geographical applicability*. The provisions of this regulation shall be applicable in the forty-eight States and the District of Columbia.

PART 1439—UNPROCESSED AGRICULTURAL COMMODITIES

[2d Rev. MPR 487, Amdt. 3]

WHEAT

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 1.5 of Second Revised Maximum Price Regulation 487 is amended by the addition at the end thereof of the following sentences: "Such statement appearing on the invoices or confirmation of purchase and sale shall indicate with respect to each of the above items, the name and address of the person performing the service or taking the markup, the nature of the service being performed or the markup taken, and the amount being added to the maximum prices. No person shall include any of the above items in his maximum price on the sale of any wheat in carload quantities unless he complies with the requirements of this section with respect to such item. The provisions of this section as to the name and address of the person performing the service or taking the markup shall have no application to sales in mixed cars or pool cars, sales in less than carload quantities, sales where the maximum price is determined under the provisions of Section 2.5 of this regulation, or sales where the seller's maximum price is based on a supplier's maximum price which has been determined under the provisions of such section.

This amendment shall become effective October 14, 1945.

Issued this 9th day of October 1945.

CHESTER BOWLES,
Administrator.

Approved: September 28, 1945.

Chapter XVIII—Office of Stabilization Administrator, Office of War Mobilization and Reconversion

[Directive 72, Amdt. 1]

PART 4003—SUPPORT PRICES; SUBSIDIES

CALIFORNIA RAISIN AND GRAPE PROGRAM FOR 1945-46 MARKETING SEASON

The Secretary of Agriculture and the Price Administrator having submitted certain further information, and their recommendations to me relative to the California raisin and grape program for the 1945-46 marketing season, I find it necessary, in order to effectuate the policy established by Executive Orders Nos. 9250, 9328, and 9599, to amend Directive 72 (10 F.R. 9674, 9717), issued by the Economic Stabilization Director, in the following respects:

1. The finding in A (2) thereof is hereby deleted and the following inserted in lieu thereof:

(2) Maximum prices on sales of natural condition raisins are not now necessary to promote the national defense.

2. The provisions in B (1) thereof are hereby deleted and the following inserted in lieu thereof:

(1) Revoke present maximum prices governing sales of natural condition raisins.

3. The provisions in B (4) thereof are hereby deleted and the following inserted in lieu thereof:

(4) Revise present maximum prices: (a) Governing processors' sales (i) of London Layers (Cluster Muscats), Loose Muscats (natural or sun-dried; and Valencia type), and Zante Currants, to purchasers other than government procurement agencies, and (ii) of all processed raisins to government procurement agencies, and to purchasers for export and to destinations or ports outside Territories and Possessions of the United States, on the basis of the cost and profit study relative to processors' margins now being made by the Office of Price Administration so as to reflect the producer prices specified in paragraph A (1) hereof; and (b) Governing processors' sales of processed raisins, other than those mentioned in paragraph B (4) (a) (i), to purchasers other than government procurement agencies, and other than for export to destinations or ports outside Territories and Possessions of the United States, on the basis of appropriate compensation for any increase in the legal minimum producer prices for 1945 above the respective legal minimum prices for 1944 and subject to such adjustments as the cost and profit study relative to processors' margins, now being made by the Office of Price Administration, may indicate: *Provided*, That with respect to processed raisins of the Golden Bleached and Sulphur Bleached types of Thompson Seedless raisins, each of such revised maximum prices shall be reduced by $20.00 per ton.

4. The provisions in C thereof are hereby deleted and the following inserted in lieu thereof:

C. The Department of Agriculture is authorized and directed to subsidize processors' sales of processed raisins (other than London Layers (Cluster Muscats); Loose Muscats (natural or sun-dried; and Valencia type), and Zante Currants) to purchasers other than government procurement agencies and other than for export to destinations or ports outside Territories and Possessions of the United States, through use of funds of Commodity Credit Corporation, so as to enable such processors to pay the producer prices specified in paragraph A (1) hereof and to sell such processed raisins at applicable maximum prices to be established by Office of Price Administration pursuant to paragraph B (4) hereof. The appropriate rate of subsidy shall be determined by the Department of Agriculture after completion of the cost and profit study relative to processors' margins which is now being made by the Office of Price Administration and the maximum prices based upon such study have been issued by the Office of Price Administration, pursuant to B (4) hereof.

[Supp. Vesting Order 5237]

KIYOKO HARADA

In re: Eleven shares of irrigation stock owned by Kiyoko Harada.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian, after investigation:

1. Having found and determined in Vesting Order Number 4369, dated November 28, 1944, that Kiyoko Harada is a national of a designated enemy country (Japan):

2. Finding that Kiyoko Harada is the owner of the property described in subparagraph 3 hereof;

3. Finding that the property described as follows: Eleven shares of stock of the Hallwood Irrigation Company, Marysville, California, which shares of stock are evidenced by Certificate Number 109, issued April 7, 1919, to Kiyoko Harada,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, a national of a designated enemy country (Japan);

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described in subparagraph 3 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall this order be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 24, 1945.

COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN NEW YORK COURTS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that as a result of such action or proceeding each of said persons obtained or was determined to have an interest in property, which interest is particularly described in Column 4 of said Exhibit A;

Finding that such property is in the possession, custody or control of the person described in Column 5 of said Exhibit A; and

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings, costs and expenses in the amount stated in Column 6 of said Exhibit A,

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property in the possession, custody, or control of the persons described in said Column 5 of said Exhibit A, the sums stated in said Column 6 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on October 4, 1945.

[Vesting Order CE 48]

COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN NEW YORK COURTS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that as a result of such action or proceeding each of said persons obtained or was determined to have an interest in property, which interest is particularly described in Column 4 of said Exhibit A;

Finding that such property is in the possession, custody or control of the person described in Column 5 of said Exhibit A; and

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings, costs and expenses in the amount stated in Column 6 of said Exhibit A,

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property in the possession, custody, or control of the persons described in said Column 5 of said Exhibit A, the sums stated in said Column 6 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C. on October 5, 1945.

ALBERT DIETSCH

In re: Estate of Albert Dietsch, deceased; File D-28-9396; E. T. sec. 12500.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

That the property described as follows:

A. An undivided eleven - twentieths ($\frac{11}{20}$ths) interest in the following described real property: West one-half (W $\frac{1}{2}$) of Section Two (2), and the West one-half (W $\frac{1}{2}$) of Section Eleven (11) in Township (1) North, Range Fifty-seven (57) West of the Sixth Principal Meridian, Morgan County, Colorado.

Together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds,

benefits or other payments arising from the ownership of such property, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries,

B. All right, title, interest and claim of any kind or character whatsoever of Anna Benz, Karolina Grouner, Katherine Dietsch, Albert Dietsch, and Children, names unknown, of Daniel Dietsch, deceased, and each of them, in and to the estate of Albert Dietsch, deceased,

is property payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Anna Benz, Germany.
Karolina Grouner, Germany.
Katherine Dietsch, Germany.
Albert Dietsch, Germany.
Children, names unknown, of Daniel Dietsch, deceased, Germany.

That such property is in the process of administration by the Colorado National Bank of Denver, as Administrator of the Estate of Albert Dietsch, deceased, acting under the judicial supervision of the County Court, Morgan County, Colorado;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described in "A", and "B" above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1, a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C. on October 3, 1945.

[Vesting Order 5268]

VENTURA CINTI

In re: Estate of Ventura Cinti, also known as Ventura R. Cinti, Venture R. Cinti, V. Cinti and Ventura Rosa Cinti, deceased; File D–38–3545; E. T. sec. 12869.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the undersigned, after investigation, finding;

That the property described as follows: All right, title, interest and claim of any kind or character whatsoever of Rachele Bulloi in and to the Estate of Ventura Cinti, also known as Ventura R. Cinti, Venture R. Cinti, V. Cinti and Ventura Rosa Cinti, deceased,

is property payable or deliverable to, or claimed by, a national of a designated enemy country, Italy, namely,

National and Last Known Address

Rachele Bulloi, Italy.

That such property is in the process of administration by Bank of America National Trust and Savings Association, as Executor, acting under the judicial supervision of the Superior Court of the State of California, in and for the County of Contra Costa;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Italy);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1, a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on October 5, 1945.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

OFFICE OF PRICE ADMINISTRATION.

[MPR 188, Rev. Order 4282]

MARVEL PRODUCTS CO.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188, *It is ordered:*

Order No. 4282 under § 1499.158 of Maximum Price Regulation No. 188 is amended and revised as follows:

(a) This revised order establishes maximum prices for sales and deliveries of certain articles manufactured by Marvel Products Company, 1474 Milwaukee Avenue, Chicago 22, Illinois.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	Maximum prices for sales by any seller to— Wholesalers (jobbers)	Dropship (jobbers)	Retailers (6 or more units)	Retailers (less than 6 units)	Consumers
Two-heat cooker and grill	777	*Each* $1.67	*Each* $2.06	*Each* $2.44	*Each* $2.63	*Each* $3.95

These maximum prices are for the articles described in the manufacturer's application dated June 26, 1945.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. These prices include the Federal Excise Tax. They are f. o. b. factory and subject to a cash discount of 2% for payment within 10 days, net 30 days.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain either of the following statements with the correct order number, model number and retail prices properly filled in:

Order No. 4282

ROBERT P. DAVIS

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion accompanying this order, and pursuant to § 1358.102 (b) of Maximum Price Regulation No. 260; *It is ordered*, That:

(a) Robert P. Davis, 1213 25 Street, Newport News, Va. (hereinafter called "manufacturer") and wholesalers and retailers may sell, offer to sell or deliver and any person may buy, offer to buy or receive each brand and size or frontmark, and packing of the following domestic cigars at the appropriate maximum list price and maximum retail price set forth below:

Brand	Size or frontmark	Packing	Maximum list price	Maximum retail price
Sport Club	56" diameter	50	*Per M* $72	*Cents* 9

(b) The manufacturer and wholesalers shall grant, with respect to their sales of each brand and size or frontmark of domestic cigars for which maximum prices are established by this order, the discounts they customarily granted in March 1942 on their sales of domestic cigars of the same price class to purchasers of the same class, unless a change therein results in a lower price. Packing differentials charged by the manufacturer or a wholesaler in March 1942 on sales of domestic cigars of the same price class to purchasers of the same class shall be allowed on corresponding sales of each brand and size or frontmark of cigars priced by this order and shall not be reduced. If a brand and size or frontmark of domestic cigars for which maximum prices are established by this order is of a price class not sold by the manufacturer or the particular wholesaler in March 1942, he shall, with respect to his sales thereof, grant the discounts and may charge and shall allow the packing differentials customarily granted, charged or allowed (as the case may be) in March 1942 by his most closely competitive seller of the same class on sales of domestic cigars of the same March 1942 price class to purchasers of the same class.

(c) On or before the first delivery to any purchaser of each brand and size or frontmark of domestic cigars for which maximum prices are established by this order, the manufacturer and every other seller (except a retailer) shall notify the purchaser of the maximum list price and the maximum retail price established by this order for such brand and size or frontmark of domestic cigars. The notice shall conform to and be given in the manner prescribed by § 1358.113 of Maximum Price Regulation No. 260.

(d) Unless the context otherwise requires, appropriate provisions of Maximum Price Regulation No. 260, shall apply to sales for which maximum prices are established by this order.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective October 9, 1945.

Issued this 8th day of October 1945.

[Region V Order G-1 Under Supp. Service Reg. 43, Revocation]

COTTON PICKING SERVICES IN BRAZORIA, CALHOUN, COLORADO, FORT BEND, JACKSON, MATAGORDA, REFUGIO, VICTORIA, AND WHARTON COUNTIES, TEX.

For the reasons set forth in the opinion issued simultaneously herewith and pursuant to the authority vested in the Regional Administrator of Region V by Supplementary Service Regulation No. 43 to Revised Maximum Price Regulation No. 165, it is ordered:

(a) *What this order does.* This order revokes Order No. G-1 under Supplementary Service Regulation No. 43 issued by the Regional Administrator of Region V of the Office of Price Administration on August 30, 1945, which said order established maximum prices for the services of picking, pulling, and snapping cotton when supplied by independent contractors in the counties of Brazoria, Calhoun, Colorado, Fort Bend, Jackson, Matagorda, Refugio, Victoria, and Wharton, Texas.

(b) *Basis for revocation.* Cotton pickers' wage ceilings established by the United States Department of Agriculture on August 11, 1945, and August 22, 1945, have been revoked. Therefore, the Regional Administrator revokes Order No. G-1 aforesaid pursuant to paragraph (e) of said order.

(1) The sentence reading, "No other tax applicable to the area covered by this order may be added to the above prices", is hereby deleted, wherever the same appears in Appendix A and B of 2nd Revised Order G–1.

(2) The following paragraph is added to the explanatory statements under Group 1–B, Group 2–B and Group 3–B in Appendix A, and under Appendix B:

Sellers may add to the above prices any new or additional taxes that may be, or have been, imposed on the sale of malt and cereal beverages by any Ordinance or Statute subsequent to June 1, 1945, if the Ordinance or Statute imposing such new tax does not prohibit the seller from separately stating and collecting it and if the seller does separately state and collect it; or if the amount of the tax has been separately stated and collected from the seller by a prior vendor and the Statute or Ordinance imposing the tax does not prohibit the seller from separately stating and collecting it and if the seller does separately state and collect it. The total of all such new or additional taxes imposed since June 1, 1945 and paid by the seller may be rounded to the nearest cent.

(3) The following brand or trade name with the maximum prices of 12 ounce and 32 ounce bottles thereof is added to Group 1–B under the appropirate column.

Brand or trade name	Group 1–B—Maximum price per bottle	
	12-ounce	32-ounce
Golden Glow Pilsener Beer	$0.25	$0.45

(4) The following brand or trade name with the maximum prices of 12 ounce and 32 ounce bottles thereof is added to Group 2–B under the appropriate column.

Brand or trade name	Group 2–B—Maximum price per bottle	
	12-ounce	32-ounce
Golden Glow Pilsener Beer	$0.20	$0.40

(5) The following brand or trade name with the maximum prices of 12 ounce and 32 ounce bottles thereof is added to Group 3–B under the appropriate column.

Brand or trade name	Group 3–B—Maximum price per bottle	
	12-ounce	32-ounce
Golden Glow Pilsener Beer	$0.18	$0.35

This amendment shall become effective October 1, 1945.

Issued the 17th day of September 1945.

IRBY A. JONES,
District Director.

[Nashville Order G–1 Under MPR 154, Amdt. 2]

ICE IN KNOX, SEVIER, LOUDON, MCMINN, MONROE, ANDERSON AND BLOUNT COUNTIES, TENN.

An opinion accompanying this amendment has been issued simultaneously herewith.

District Order No. G–1 under Maximum Price Regulation No. 154 is amended in the following respects:

(1) Section 10 is added to read as follows:

SEC. 10. *Definitions.* (a) Under this order a "wholesaler" as used herein means any person who purchases ice from the manufacturer for resale. It does not include institutional or commercial users.

(b) Except as otherwise provided herein, and except as the context may otherwise require, the definitions set forth in § 1393.10 of Maximum Price Regulation No. 154 shall be applicable to the terms used herein.

(2) Section 11 is added to read as follows:

SEC. 11. *Customary differentials.* You must continue all allowances, discounts, price differentials, and customer classifications required to be maintained by MPR 154 prior to the issuance of this order No. G–1 under MPR 154. Such differentials etc. shall be continued in the same dollar and cents amounts as previously required. No seller is required to maintain the same percentage differentials etc., previously required except when written contracts covering particular sales provide for a stated price less a named percentage.

(3) Section 12 is added to read as follows:

SEC. 12. *Relationship of this order to MPR 154.* Except as otherwise provided in this order your transactions covered hereby remain subject to all provisions of MPR 154 and all amendments, orders and supplementary regulations which heretofore have been, or hereafter may be issued.

This amendment to District Order No. G–1 under Maximum Price Regulation No. 154 shall become effective September 22, 1945.

Issued this 20th day of September 1945.

CARSON VAUGHAN,
District Director.

[Region VI Order G–1 Under MPR 592]

PLAIN FACE CINDER AND CONCRETE BLOCKS IN FRANKLIN AND WILLIAMSON COUNTIES, ILL.

Under the authority vested in the Regional Administrator of the Office of Price Administration by section 17 of Maximum Price Regulation No. 592 and for reasons set forth in an opinion issued simultaneously herewith, it is ordered:

(a) *What this order does.* This order authorizes increases in the maximum prices heretofore established under Maximum Price Regulation No. 188 and 592 for sales by all manufacturers of concrete blocks, plain face, 8 x 8 x 16, and cinder blocks, plain face, 8 x 8 x 16.

(b) *Geographical applicability.* This order applies to all sales made by all manufacturers whose principal places of business are located in Franklin and Williamson Counties in the State of Illinois.

(c) *Price adjustment.* (1) The maximum prices for the production and sale of (i) concrete blocks, plain face, 8 x 8 x 16, are hereby increased to 14¢ each, and of (ii) cinder blocks, plain face, 8 x 8 x 16 are hereby increased to 11¢ each;

(2) The maximum prices which were in effect during March 1942 of all such manufacturers for all blocks other than those listed in paragraph (c) (1) above are hereby increased by 2¢ per block;

(3) There may be added to the above adjusted maximum prices only the charge for delivery which each manufacturer had in effect on March 31, 1942;

(4) The above adjusted maximum prices are subject to all customary terms, allowances, and discounts in effect on March 31, 1942.

(d) *Definitions.* Except as otherwise provided herein or as the context may otherwise require, all terms used in this order shall bear the meaning given them in Maximum Price Regulation No. 592 or in the Emergency Price Control Act of 1942; if not therein defined, they shall be given their ordinary and popular trade meaning.

(e) *Effect of this order on Maximum Price Regulation No. 592.* To the extent applicable, the provisions of this order supersede Maximum Price Regulation No. 592. In so far as any provisions of this order may be inconsistent with any provision of Maximum Price Regulation No. 592, the provision contained in this order shall be controlling. Except as herein otherwise provided, the provisions of Maximum Price Regulation No. 592 shall remain in full force and effect.

(f) This order shall remain in effect until December 31, 1945, after which the maximum prices shall be the highest prices charged in March 1942 by each manufacturer to each class of purchaser, unless new prices are established by order issued prior to December 31, 1945.

This order may be amended, modified, or revoked at any time.

This Order No. G–1 shall become effective immediately.

Issued this 21st day of September 1945.

RAE E. WALTERS,
Regional Administrator.

[Region VII Order G–1 Under MPR 188, Order 4332]

SHERCO METAL PRODUCTS CO. ET AL.

AUTHORIZATION OF MAXIMUM PRICES

Order No. G–1 Under Maximum Price Regulation No. 188, Order No. 4332. Authorized maximum prices for Gym Swings manufactured by Marshall F. Norling, d/b/a Sherco Metal Products Co., Denver, Colorado, when sold by the manufacturer and specified resellers.

Pursuant to the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and sections 4 (b) and 9 of Order No. 4332 under Maximum Price Regulation No. 188, and for the reasons set forth in the accompanying opinion, this Order No. G–1 is issued.

(a) *What this order does.* This Order No. G–1 establishes maximum prices for gym swings manufactured by Marshall F. Norling, d/b/a Sherco Metal Products Co., when sold at the specified levels.

(b) *Authorized maximum prices.* Upon and after the effective date of this Order No. G–1, the maximum prices for the gym swings, designated "Model No. 3" and "Model No. 1–A", respectively, manufactured by Marshall F. Norling, d/b/a Sherco Metal Products Co., 2225 South Delaware Street, Denver 10, Colorado, in accordance with the specifications set forth in the price report of said manufacturer now on file in this Regional Office as a part of the record in this case, shall be as follows:

	Model No. 3	Model No. 1–A
(1) When sold by the manufacturer f. o. b. shipping point to a retailer	$16.00	$27.00
(2) When sold by any seller to an ultimate consumer or user	26.50	44.80

NOTE

(i) The maximum prices authorized for sales to retailers are subject to a discount of 2 percent for payment within 10 days from date of invoice.

(ii) The prices above specified for sales f. o. b. shipping point include all costs incident to wrapping, packing, boxing, and carting.

(iii) This Order No. G–1 establishes authorized maximum prices for the manufacturer and for resellers only who sell to the consumer; that is, resale prices for retailers. If the manufacturer sells to a wholesaler, jobber, or any other reseller who does not sell direct to the consumer, such reseller has for his maximum prices the authorized maximum prices hereby established for the manufacturer, and will be quite without any profit margin whatsoever, except such as may be afforded him by a trade discount allowed by the manufacturer.

(c) *Manufacturer must tag each article with its retail price.* The manufacturer must attach to each article covered by this Order No. G–1, by any suitable means, a tag plainly marked "Maximum price when sold by any seller to an ultimate consumer $_____".

(d) *Applicability of other regulations.* The pricing provisions of the General Maximum Price Regulation and Maximum Price Regulation No. 188 have no application to the prices established by this Order No. G–1 for sales by the manufacturer or any other specified seller.

(e) *Geographical applicability.* The maximum prices authorized by this Order No. G–1 for sales by the specified resellers are applicable throughout the 48 states of the United States, and the District of Columbia.

(f) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or order. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(g) *Right to revoke or amend.* This order may be revoked, modified, or amended at any time by the Price Administrator or the Regional Administrator.

Effective date. This Order No. G–1 shall become effective on the 19th day of September 1945.

Issued this 19th day of September 1945.

RICHARD Y. BATTERTON,
Regional Administrator.

[Denver Order G–1 Under MPR 154]

ICE IN WRAY, COLO.

Order No. G–1 under Maximum Price Regulation No. 154; Ice; Establishment of specific maximum prices for dealers in Wray, Colorado. Docket No. 7–C–154–8 (a)–2 & 4.

For the reasons set forth in the accompanying opinion and under the authority vested in the District Director of the Denver, Colorado District Office of the Office of Price Administration by §1393.8 (a) of Maximum Price Regulation No. 154 and Region VII Revised Delegation Order No. 38, it is hereby ordered:

(a) *What this order does.* This order establishes specific maximum prices for ice sold by dealers f. o. b. their loading platforms, docks, or places of business in Wray, Colorado.

(b) *Specific maximum prices for ice sold by dealers.* From and after the effective date of this order the maximum price for ice sold by dealers in Wray, Colorado, shall be 90 cents per cwt. f. o. b. the dealer's loading platform, dock, or place of business.

(c) *Former discounts and differentials need not be maintained.* From and after the effective date of this order it shall not be mandatory upon any dealer in Wray, Colorado, to grant, maintain, or give discounts, differentials, or allowances which he may formerly have maintained or allowed. But any dealer may, if he so desires, continue to allow such discounts, differentials, and allowances, and he may sell at a price lower than the maximum price established hereby.

(d) *Applicability of governing regulation.* Except in so far as the same may be inconsistent with or contradictory to the provisions of this order, all of the terms and provisions of Maximum Price Regulation No. 154 shall remain in full force and effect and be applicable to all ice dealers in Wray, Colorado.

(e) *Keeping of copy of order.* Each dealer shall keep a copy of this order and of the accompanying opinion at his establishment at Wray, Colorado, and make them available for inspection by any person during ordinary business hours.

(f) *Right to revoke or amend.* This order may be revoked, modified, or amended at any time.

Effective date. This order shall become effective as of September 11, 1945.

Issued this 21st day of September 1945.

J. R. SLEDGE,
District Director.

[Region II Rev. Order G–55 Under RMPR 122]

SOLID FUELS IN ALLEGHENY COUNTY, PA.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, *It is ordered:*

(a) On and after September 10, 1945, the maximum charges for the housing services, set forth in the following schedule, rendered by solid fuel dealers in connection with the sale by them of solid fuels within Allegheny County, Pennsylvania, shall be the applicable maximum service charges specified therein:

Maximum Authorized Service Charges

Special service rendered at the request of the purchaser (see definitions in paragraph (c) (1)):	*Maximum authorized service charges (per net ton)*
Shoveling	$0.75
Wheeling	.75
Carrying (15 steps or less)	1.00
Carrying (16 steps or more)	1.25
Carrying and wheeling	1.75
Single chute (12 feet or less)	.75
Double or Multiple chute (over 12 feet)	1.00
Tail-and-gate chute	.50
High lift truck, Coaltoter or Coalveyor (mechanical equipment). Not more than one of the foregoing charges may be imposed in the course of a single delivery.	.75
Trimming	.25

(b) These charges may be imposed only when the service is requested by the purchaser.

(c) *Definitions.* When used in this Revised Order No. G–55 the term:

(1) "Shoveling" refers to housing of solid fuel by dumping it near the consumer's coal window, at the curb or on the sidewalk or driveway, and manually shoveling it through the window into the bin or storage space.

(2) "Wheeling" refers to housing of solid fuel by dumping it at the curb or on the sidewalk or driveway, shoveling it into wheelbarrow, and then wheeling it into the bin, or storage space, or wheeling it to the coal window and dumping or shoveling through the window into the bin or storage space.

(3) "Carrying" refers to housing of solid fuel by dumping it at the curb, or on the sidewalk or driveway, as near as possible to the consumer's coal window but at a distance and on a level which will not permit "chuting", "shoveling", or "wheeling", then shoveling it into baskets and carrying (including carrying up steps) to and dumping into the bin or storage space, usually through consumer's coal window.

(4) "Carrying" and "wheeling" refers to housing of solid fuel where both types of services are required to be performed in the course of a single delivery.

(5) "Single chute" refers to housing of solid fuel by placing a single chute of 12 feet or less on the side of the truck, extending it into the coal window, then usually shoveling the fuel from the bed of the truck into the chute through which it is moved or moves, largely by gravity, into the bin or storage space. (This service is not to be confused with "dumping by way of chute".)

(6) "Double or multiple chute" refers to housing of solid fuel in the same manner as by "single chute", but where the distance between the truck and the coal bin opening exceeds twelve feet and two or more chutes must be attached together. The solid fuel is shovelled from the bed of the truck into the chutes and forced through the chutes into the bin or storage space.

(7) "Tail-and-gate chute" refers to housing of solid fuel where it is necessary to attach a chute to the end gate of the truck at an angle which will not permit the flow of fuel by gravity but requires manual labor to keep the fuel flowing through the chute into the bin or storage space. (No charge may be made if the angle of the chute is such that the fuel flows by gravity and no manual labor is required to keep the fuel flowing.)

(8) "High lift truck, coaltoter or coalveyor" refers to housing of solid fuel by the use of mechanical equipment of the types designated, the handling of which requires the services of more than one man to discharge the fuel in the bin or storage space. A high lift truck is one, the body of which can be raised at both ends by means of mechanical equipment. Coaltoters or coalveyors are chutes with a mechanically driven belt by means of which the solid fuel passes through the chute without manual assistance.

(9) "Trimming" refers in general to the movement of coal by shovel, in bin or storage space, usually for the purpose of making room for more coal to be delivered.

(10) Unless the context otherwise requires, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122 shall apply to all other terms used herein.

(d) To the extent that they are not inconsistent with the terms of this order, the provisions of Revised Maximum Regulation No. 122 remain applicable to all dealers subject to this order.

(e) This order may be revoked or amended by the Regional Administrator or by the Price Administrator through the issuance at any time hereafter of any order or price regulation, or amendment or supplement thereto, the provisions of which may be contrary hereto.

This Revised Order No. G–55 shall become effective September 10, 1945.

[Region IV Order G–1 Under RMPR 137]

MOTOR FUEL IN FLORIDA

For the reason set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator, Region IV of the Office of Price Administration, by section 5 (d) of Revised Maximum Price Regulation No. 137, as amended by Amendment No. 10 issued July 5, 1945, and effective July 10, 1945, it is hereby ordered:

(a) *Purpose of order.* It is the purpose of this order to reestablish a special pricing method for retail sellers of motor fuel, located in the State of Florida, which method was formerly in effect under the provisions of Revised Maximum Price Regulation No. 137 prior to the issuance of Amendment No. 10 thereto.

(b) *Geographical applicability.* The provisions of this order shall apply to the State of Florida.

(c) *Special Pricing Method for Retail Sellers of Motor Fuel.* (1) Any seller of motor fuel at a retail establishment located in the State of Florida may, if he chooses, fix a maximum price for each grade of motor fuel by adding to the maximum tank wagon price of the reference seller for undivided dealers for the point where the retail establishment is located an amount equal to the difference which existed between:

(i) The tank wagon price of the reference seller for undivided dealers at that point during the major portion of the period October 1–15, 1941, and

(ii) The service price for motor fuel of that grade at the service station or other retail establishment during the major portion of the period October 1–15, 1941.

NOTE: The reference tank wagon sellers are listed by states and the District of Columbia in section 7 (i) of Revised Maximum Price Regulation No. 137.

(2) If the reference seller has no maximum tank wagon price for undivided dealers for the point where the retail establishment is located, or had no tank wagon price for undivided dealers at that point during the major portion of the period October 1–15, 1941, a maximum price may be fixed by adding to the maximum tank wagon price to the nearest undivided retail dealer who is a tank wagon buyer an amount equal to the difference which existed between:

(i) The tank wagon price to such nearest undivided retail dealer during the major portion of the period October 1–15, 1941, and

(ii) The service station price for motor fuel of that grade at the service station or other retail establishment for which a price is being determined during the major portion of the period October 1–15, 1941.

(d) *Relation to Revised Maximum Price Regulation No. 137.* All retail sales of motor fuel made pursuant to the provisions of this order are also subject to all the provisions of Revised Maximum Price Regulation No. 137, together with all amendments thereto and revisions thereof and all applicable orders thereunder, which heretofore have been or hereafter may be issued.

(e) This order may be revoked, amended or corrected at any time.

This order shall become effective the 10th day of July 1945.

Issued this 28th day of August 1945.

ALEXANDER HARRIS,
Regional Administrator.

[Region V Order G-6 Under RMPR 251]

PLUMBING SERVICES IN DALLAS COUNTY, TEX.

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the authority vested in the Regional Administrator of the Office of Price Administration by section 9 of Revised Maximum Price Regulation No. 251, it is hereby ordered:

(a) *What this order does.* Except as hereinafter provided this order establishes maximum prices for all sales of plumbing services and all sales of plumbing fixtures and materials on an installed basis when sold in the geographical area comprising Dallas County, Texas.

(b) *Exception.* (1) Jobs which exceed $250.00. If the maximum price for any job covered by this regulation computed pursuant to the provisions of section 7 of Revised Maximum Price Regulation No. 251 exceeds $250.00, such job shall be exempt from this order and the maximum price therefor must be determined pursuant to the provisions of Revised Maximum Price Regulation No. 251.

(2) The cleaning of cesspools is exempt from this order. Maximum prices for this service must be determined under Revised Maximum Price Regulation No. 165.

(c) *Maximum prices.* Maximum prices for plumbing services covered by this order shall be the sum of a charge based on the hourly rate computed in accordance with the provisions of sub-paragraph (1) below, plus the maximum price of fixtures, materials and specialties and maximum charges for power-driven equipment used as provided in sub-paragraph (2) below.

(1) *Maximum hourly service rate.* The maximum hourly service rates established by this order shall be determined, as follows:

MAXIMUM HOURLY SERVICE RATES

	Straight time	Overtime	Sundays and holidays
For journeyman, apprentice, or helper where authorized hourly wage paid is:			
$1.00 to $1.19 inclusive	$1.50	$3.00	$3.00
$1.20 to $1.49 inclusive	2.00	4.00	4.00
$1.50 to $1.63 inclusive	2.50	5.00	5.00
$1.64 to $1.74 inclusive	2.75	5.50	5.50
$1.75 to $2.00 inclusive	3.00	6.00	6.00
For apprentice, helper, or laborer where authorized hourly wage paid is less than $1.00	*Percent of wage paid* 150	*Percent of wage paid* 300	*Percent of wage paid* 300

(2) *Maximum prices for fixtures and materials.* (i) Maximum prices for fixtures and materials shall be computed by adding to the cost of such materials or fixtures delivered to seller's shop or storeroom a markup of 40% on fixtures and 60% on materials.

(ii) The maximum price for any plumbing specialty item for which a charge of $5.00 or less is made shall not exceed the seller's present legally established maximum price determined under the applicable price regulation. Any other specialty item must be priced in the same manner as materials.

(iii) *Power driven equipment.* If power driven equipment other than trucks or vehicles is used in supplying commodities or services subject to this order a charge for the use of this specialized power driven equipment may be made not in excess of the legal charge determined in accordance with the provisions of section 6 of Revised Maximum Price Regulation No. 251.

No additional charges may be made for rental or use of equipment or for fees except as otherwise specified in this order.

(d) *Special pricing practices to be used in computing maximum prices.*—(1) *Measurement of hours.* The number of hours to be charged against any job shall be counted from the time the workman leaves the shop or the previous job (whichever is later) until he completes the job if he proceeds to another job or until he returns to the shop if he proceeds there directly. The hours for which charges are made shall not exceed those shown in the seller's payroll records nor those shown in records which paragraph (g) of this order requires the seller to keep.

(2) Hourly service rates for a plumber's team, consisting, for example, of one or more journeyman plumbers and/or one or more helpers, apprentices, or laborers shall not exceed the sum of the maximum service charges as computed for the individual workmen comprising the team.

(3) A journeyman or master plumber, owning his own establishment, shall compute his maximum hourly service rate for plumbing services actually performed and supplied by him, as follows:

(i) An hourly service charge of $2.50 per hour, or

(ii) The hourly service charge which he is authorized to charge for journeyman services as established in paragraph (c) (1).

(4) *Minimum charges.* The minimum charge that may be made for any job covered by this order is established as follows:

(i) $2.50 per hour, or

(ii) The hourly service charge which a seller is authorized to charge for journeyman services under paragraph (c) (1).

(5) *Sales at a guaranteed price.* A seller may offer to supply plumbing services covered by this order on the basis of a guaranteed price, the seller agreeing to charge a fixed amount: *Provided, however,* That such guaranteed price may not exceed the maximum price established by this order.

(e) *Definitions.* (1) "Plumbing," as used in this order, includes all services performed by plumbers or plumbing establishments in the installation, maintenance, and repair of materials and fixtures used in providing means for control of the supply and distribution of water and gas, for reception and removal of waste or surplus water and sewage, and for the heating of buildings by the use of furnaces.

(2) "Fixtures" includes such plumbing facilities as bath-tubs, lavatories, commodes, hot water tanks, water heaters, floor furnaces, and all other plumbing appliances except those defined below as "materials" or "specialties."

(3) "Plumbing specialties" include small items used in the repair of plumbing fixtures which are generally not obtainable from general plumbing supply houses and which are known to the trade as plumbing specialties. The term includes items such as washers, flush valves, float balls and trip levers and other items, except those defined below as materials.

(4) "Materials" include all items used in the repair of plumbing fixtures except fixtures and plumbing specialties which are necessary for the installation, maintenance or repair of plumbing facilities, including but not limited to all pipe, pipe fittings and lead.

(5) "Overtime" refers to hours of work performed at customer's request on Saturday or between the hours of 5:00 p. m. and 8:00 a. m., Monday to Saturday.

(6) "Sundays and holidays" refer to work performed at customer's request on Sundays and national holidays.

(7) "Wage rates" mean the hourly wage rates in effect on October 3, 1942, or hourly wage rates which have been established or authorized subsequently by proper governmental agencies.

(8) The term journeyman plumber refers to a person licensed by any municipal authority to perform plumbing services as a journeyman plumber.

(9) The term master plumber refers to a person duly licensed by a municipal authority as a master plumber.

(10) "Hourly service rate" means the hourly rate charged to the customer for each hour of labor expended in the performance of a plumbing job.

(f) *Filing and reporting of maximum prices.* Every person selling or offering to sell the services covered by this order in Dallas County, Texas, shall, within 15 days after the effective date of this order or, in the case of new sellers, within 3 days after first offering to sell such services, file with the Industrial Materials Section of the Dallas District Office of the Office of Price Administration the following information: (1) His legally authorized or approved straight-time hourly wage rates in effect on the date of filing for each class of workman employed in the plumbing operations; (2) a schedule of his maximum hourly service rates for each class of workman determined in accordance with the pricing provisions of this order; (3) his maximum percentage markups on costs of fixtures and materials, not in excess of the markups permitted by this order; (4) a description of all power driven equipment, if any, used by seller in supplying plumbing services and the maximum charge to be made for use of such equipment computed in accordance with the provisions of this order.

(g) *Record keeping, sales slips and notification to purchasers.* Every person making sales subject to this order must keep a record showing the time spent by his employees on any job involving plumbing services and of the wage rate for each such employee. Such records shall be kept by the seller at his place of business and shall be available for inspection by the Office of Price Administration. Every person subject to this order shall furnish to each purchaser of plumbing services a sales slip or invoice showing the amount charged for labor, materials, fixtures, specialties, and charges for power driven equipment. This invoice or sales slip must contain a statement that the prices charged do not exceed maximum prices established by this Order No. G-6. Duplicates of such invoices or such sales slips shall be kept by the seller at his place of business and shall be available for inspection by the Office of Price Administration.

(h) *The effect of this order with reference to other regulations.* This order supersedes sections 6, 7 and 8 (a) and (b) of Revised Maximum Price Regulation No. 251 with respect to plumbing services subject to this order when supplied in the described areas, except where it is otherwise provided herein.

(i) This order may be revoked or amended at any time, either by a specific action on the part of the Regional Administrator, Region V, or the issuance of any price regulation or amendment by the Price Administrator, the provisions of which are contrary hereto.

(j) Lower than maximum prices may be charged, paid, or received.

This order shall be effective October 10, 1945.

FLUID MILK IN HOUSTON, TEX., AREA

For the reasons set forth in the accompanying opinion and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1351.408 (g) of Maximum Price Regulation No. 329, specific authorization, in writing, having been issued by the Administrator, *It is hereby ordered:*

(a) Any purchaser of milk located in the Houston Area of Region V of the Office of Price Administration, as hereinafter defined, who uses the provisions of § 1351.402, paragraphs (a) or (b), of Maximum Price Regulation No. 329 for the determination of his maximum prices for the purchase of milk, shall use the following adjustment for milk containing more or less than 4% butterfat:

(1) Where the butterfat test of the milk actually purchased is less than 4%, reduce by 7¢ for each 1/10 of 1% that such butterfat test is less than 4%, the maximum prices so established;

(2) Where the butterfat test of the milk actually purchased is more than 4%, increase by 7¢ for each 1/10 of 1% that such butterfat test is in excess of 4%, the maximum prices so established.

(b) The "Houston Area," as used herein, shall be deemed to include all sellers in and around the City of Houston who distribute more than 50% of their approved fluid milk within the City of Houston, including West University Heights and the Tri-City Area of Pelly, Goose Creek, and Baytown.

(c) This order may be revoked, amended or corrected at any time.

This order shall become effective October 1, 1945.

Issued this 27th day of September 1945.

J. BRYAN MILLER,
Acting Regional Administrator.

(b) *State of New Mexico divided into six districts.* For the purpose of this Order No. G–36, the State of New Mexico is hereby divided into six districts to be known as District No. 1, District No. 2, District No. 3, District No. 4, District No. 5, and District No. 6, as hereinafter defined.

(c) *Definitions.* For the purpose of this order:

(1) "Milk" means cow's milk produced, processed or raw, and distributed and sold at wholesale in glass bottles or paper containers in quantities of less than one gallon, and in bulk in quantities of one gallon or more, and sold at retail in glass bottles or paper containers or in bulk for human consumption as sweet whole milk and containing not less than 3.25% butterfat content and being of approved grade.

(2) "Buttermilk" means cultured buttermilk produced by inoculating skim milk with lactic acid forming bacteria until a lactic acid content of one-half of 1% or more is obtained.

(3) "Producer" means a farmer or other person or representative who owns, superintends, manages or otherwise controls the operation of a farm or a tract of land on which milk is produced.

(4) "District No. 1 of the State of New Mexico" means all that area contained with the Counties of Harding, Mora, San Juan, and Rio Arriba (except that portion contained within that area ten miles in width and immediately adjacent to the northern boundary line of Santa Fe County, including all the Town of Espanola).

(5) "District No. 2 of the State of New Mexico" means all that area contained within the Counties of Colfax, Curry, De Baca, Guadalupe (except that portion contained within the municipalities of Vaughn and Santa Rosa, and a distance of five miles beyond the corporate limits of the municipality of Santa Rosa at all points), Quay, Roosevelt, San Miguel, Torrance, and Union.

(6) "District No. 3 of the State of New Mexico" means all that area contained within the Counties of Bernalillo, Chaves, Eddy, Lea, and that portion of Valencia County contained within that area south of a line drawn parallel with U. S. Highway No. 66 and being at all points a distance of ten miles south of the center line of said highway in Valencia County.

(7) "District No. 4 of the State of New Mexico" means all that area contained within the Counties of Catron, Dona Ana, Lincoln, Otero (except that portion contained within the Town of Alamogordo, and a distance of five miles beyond the corporate limits thereof at all points), Sandoval, Sierra, Taos (except that portion contained in District No. 5), Socorro (except the municipality of Magdalena), and Valencia (except that portion contained within that area north of a line drawn parallel with U. S. Highway No. 66 and being at all points a distance of ten miles north of the center line of said highway in Valencia County), and the municipality of Vaughn in Guadelupe County.

(8) "District No. 5 of the State of New Mexico" means all that area contained within the Counties of Hidalgo, Luna, McKinley, Santa Fe, and that portion of Rio Arriba County contained within that area ten miles in width and immediately adjacent to the northern boundary line of Santa Fe County, including all the Town of Espanola; the municipality of Magdalena in the County of Socorro; and the municipality of Santa Rosa in the County of Guadalupe and a distance of five miles beyond the corporate limits thereof at all points; and the Town of Alamogordo in the County of Otero, and a distance of five miles beyond the corporate limits thereof at all points.

(9) "District No. 6 of the State of New Mexico" means all that area contained in the County of Grant.

(d) *Maximum prices.* The maximum prices for fluid milk and buttermilk sold at wholesale and at retail in glass bottles or paper containers in a quantity of less than one gallon, and sold in bulk by the gallon, in the six several districts of the State of New Mexico shall, from and after the effective date of this Order No. G–36, be as follows:

(e) *Fractional price adjustments.* In computing the price for any item of milk or butermilk, fractions of a cent shall be adjusted upward to the next whole cent if the fraction is one-half cent or more, and shall be adjusted downward to the next whole cent if the fraction is less than one-half cent.

(f) *Higher established maximum prices may be maintained.* Any seller who has established maximum prices under § 1499.2 of the General Maximum Price Regulation, or any applicable price regulation supplementary thereto, or pursuant to any market agreement or order made or issued under the provisions of the Agricultural Market Agreement Act, as amended, that are higher than the prices fixed by this Order No. G–36, may continue to sell at such higher established maximum price and the same shall not be modified or superseded by this order.

(g) *Customary discounts, allowances and differentials need not be maintained.* From and after the effective date of this Order No. G–36 it shall not be obligatory upon any seller of fluid milk or buttermilk to maintain or continue any customary allowance, discount, quantity discount or differential heretofore established by him, *Provided, however,* That at a price lower than the maximum prices established by this Order No. G–36 any seller at wholesale or retail may sell if he so desires.

(h) *Notice to be given purchaser upon first sale at higher price.* Any person making a first sale of milk or buttermilk in pint or quart containers at retail to any customer at the higher price established for quarts and pints at retail by this Order No. G–36 shall, at the time of delivery, furnish the buyer with either a printed or written slip containing the following information:

By Order No. G–36 issued by the Regional Administrator of the Office of Price Administration and effective as of 12:01 a. m., April 15, 1943, the maximum price of milk (or buttermilk) sold in quarts and pints at retail in this area of the State of New Mexico, has been modified to permit sales at ____¢ per quart, and ____¢ per pint.

(i) *Monthly reports required by certain sellers.* Sellers and distributors of fluid milk, other than retail stores, who hereafter adjust any price for fluid milk upward upon the authority of this Order No. G–36 shall, on or before the 20th day of May and the 20th day of June, A. D. 1943, but not thereafter unless expressly so directed by the Regional Administrator, report to the State Office of the Office of Price Administration at Albuquerque, New Mexico, the quantity of milk handled during the first fifteen days of May and the first fifteen days of June, respectively, and the price paid the producer therefor on a butterfat basis either directly by the seller or by his immediate or remote supplier who did purchase directly from the producer. This provision applies only to distributors who do not produce all of their supply of milk, but purchase from another source of supply some part or portion of the milk which they sell and distribute. The purpose of this provision is to enable the State Office of the Office of Price Administration to determine whether or not the price increase hereby granted has been proportionately and equitably passed on to the producer.

(j) *Interdistributor sales and purchases from producers are exempt.* This Order No. G–36 does not apply to or in any manner affect sales of milk or buttermilk made by one distributor or wholesaler to another distributor or wholesaler, or to a purchase made from a producer under Maximum Price Regulation No. 329.

(k) *Applicability of the General Maximum Price Regulation.* Insofar as the same are not contradictory of or inconsistent with any of the provisions of this Order No. G–36, the definitions and explanations set forth in § 1499.20 of the General Maximum Price Regulation and the terms and provisions of said General Maximum Price Regulation shall apply to and are hereby deemed to be a part of this Order No. G–36 to the same extent as if rewritten herein.

(l) *Right to revoke or amend.* This order may be revoked, modified or amended at any time by the Price Administrator or the Regional Administrator.

Effective date. This compiled Order No. G–36, including Amendments Nos. 1 to 5, shall become effective on the 27th day of September 1945.

Issued this 27th day of September 1945.

RICHARD Y. BATTERTON,
Regional Administrator.

[Region VII Order G–13 Under SO 94]

ALUMINUM ALLOY AMMUNITION BOXES IN DENVER REGION

Order No. G–13 under Supplementary Order No. 94. Maximum resale prices for a specified surplus war commodity. Docket No. 7–30–94–11–23.

Pursuant to the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and sections 11 and 13 of Supplementary Order No. 94, as amended, and for the reasons set forth in the accompanying opinion, this Order No. G–13 is issued.

(a) *What this order does.* This Order No. G–13 establishes maximum resale prices for aluminum alloy ammunition boxes sold by the Department of Commerce, Office of Surplus Property, as a surplus war commodity, whether new or used, provided the used boxes have serviceability equal to that of new boxes and all of which ammunition boxes in their material design and construction meet the following specifications:

50 calibre type M–3 ammunition boxes, overall dimensions 12¼" x 6¼" x 8"; body constructed of 1/16" aluminum alloy sheet; lid is hung by brass piano hinge on the 12¼" edge, and is locked by a special designed clamp type catch. Finish is of natural aluminum alloy, all paint removed. Seams are lapped and riveted. Interior of box is lined with a ⅛" vulcanized fibre material.

(b) *Maximum resale prices.* The maximum resale prices for the ammunition boxes in question, when sold at the level specified, shall be as follows:

	Each
(1) Sales by a first reseller to a wholesaler or jobber	$0.75
(2) Sales by a first reseller or a wholesaler or a jobber to any reseller	1.00
(3) Sales by any reseller to an ultimate consumer or user	1.67

NOTE: The above maximum prices are f. o. b. the seller's shipping point and they include all costs incident to wrapping, packing, boxing, and carting.

(c) *Geographical applicability.* This Order No. G–13 covers the specified war surplus commodity as to sales made by a first reseller only when such sale is made in Region VII which includes all of the States of New Mexico, Colorado, Wyoming, and Utah, and all that part of the State of Idaho lying south of the southern boundary of Idaho County, the County of Malheur in the State of Oregon, and all that part of the Counties of Mohave and Coconino in the State of Arizona lying north of the Colorado River, and as to all other resellers it applies throughout the 48 states of the United States, and the District of Columbia.

(d) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or order. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(e) *Right to revoke or amend.* This order may be revoked, modified, or amended at any time by the Price Administrator or the Regional Administrator.

Effective date. This Order No. G–13 shall become effective on the 25th day of September 1945.

Issued this 25th day of September 1945.

RICHARD Y. BATTERTON,
Regional Administrator.

(2) When sold by drop shipment jobber f. o. b. shipping point to a retailer	4.23
(3) When sold by the manufacturer, a stocking jobber, or a wholesaler, f. o. b. shipping point to a retailer	4.97
(4) When sold by any seller to an ultimate consumer	*Each* $0.69

NOTE: (i) The maximum prices authorized by the above paragraphs (1), (2), and (3) are subject to a discount of 2% for payment within 10 days from date of invoice.

(ii) The prices above specified for sales f. o. b. shipping point include all costs incident to wrapping, packing, boxing, and carting.

(c) *Notice to be given purchasers for resale and tagging with maximum price at retail level.* When the manufacturer or any other seller makes a first sale under this Order No. G–74 to a person who purchases it for resale, other than at the retail level, he must show upon the invoice or on a separate slip or rider attached thereto the applicable resale price as set forth in paragraph (b) above. The manufacturer must attach to the toy item in question or to the package containing the same, by any suitable means, a tag plainly marked "Maximum price when sold by any seller to the ultimate consumer $_____".

(d) *Applicability of other regulations.* The pricing provisions of the General Maximum Price Regulation have no application to the prices established by this Order No. G–74 for sales by the manufacturer or any reseller.

(e) *Geographical applicability.* The maximum prices authorized by this Order No. G–74 for resellers are applicable only to sales made within this Region VII, which includes the States of New Mexico, Colorado, Wyoming, Montana, and Utah, and all that part of the State of Idaho lying south of the southern boundary of Idaho County, the County of Malheur in the State of Oregon, and all that part of the Counties of Mohave and Coconino in the State of Arizona lying north of the Colorado River.

(f) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or order. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may

not, during the period of suspension, make any sale for which his license has been suspended.

(g) *Right to revoke or amend.* This order may be revoked, modified, or amended at any time by the Price Administrator or the Regional Administrator.

Effective date. This Order No. G–74 shall become effective on the 25th day of September 1945.

Issued this 25th day of September 1945.

ALDER, MAPLE, BIRCH AND COTTONWOOD LUMBER IN SAN FRANCISCO REGION

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1499.18 (c) of the General Maximum Price Regulation, *It is hereby ordered:*

(a) The adjusted maximum prices at which producers, wholesalers, or distribution yards (as defined in Second Revised Maximum Price Regulation No. 215) may sell or deliver lumber (as described herein) made from Alder, Maple, Birch, and Cottonwood are as shown herein.

(b) *Applicability.* This order applies to all such sales and deliveries in Region VIII of such lumber manufactured in Canada (west of the crest of the Cascade Range) or in Region VIII. "Region VIII" comprises the States of California, Washington, Nevada, Oregon (except Malheur County), Arizona (except those portions of Coconino and Mohave Counties lying north of the Colorado River), and the following counties in the State of Idaho: Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone, and Idaho.

(c) The maximum prices for producers or wholesalers per 1,000 feet board measure are set forth herein. All prices (except as provided in paragraph (6)) are for random widths resulting from normal milling and are for the thicknesses shown. The thickness is described in terms of quarter inches, as 4/4", 5/4", etc.

(1) For 4/4" rough, green, culls cut:

	Alder	Maple	Birch	Cottonwood
Millrun	$42.50	$46.50	$57.50	$32.50
No. 3	18.25	22.25	33.25	8.25
No. 2	38.75	42.75	53.75	28.75
No. 1	57.75	61.75	72.75	47.75
No. 2 and better	54.40	58.40	69.40	44.40
No. 1 and better	67.15	71.15	82.15	57.15
Clear one face	98.75	102.75	113.75	88.75

"No. 2 and Better" and "No. 1 and Better" means the entire outturn of the log of Grade No. 2 or Grade No. 1, as the case may be, or better.

(2) For other thicknesses, adjust the price of the same grade of lumber of 4/4" thickness as follows:

If thickness is:	*Multiply price for 4/4" by (percent)*
5/4"	102
6/4"	103
8/4"	107
10/4"	115
12/4"	125

Even out to nearest quarter dollar.

(3) For any lumber which has been surfaced on either two or four sides add $3.00 per thousand feet board measure to the price determined above.

(4) For air dried lumber add $5.00 per thousand feet board measure to the appropriate price for green lumber as determined under paragraphs (1), (2), and (3) above.

(5) For Kiln Dried lumber add to the appropriate price for green lumber determined under paragraphs (1), (2), and (3) above: $10.00 per thousand feet board measure if in sizes of 4/4", 5/4" and 6/4", $15.00 per thousand feet board measure if 8/4" or thicker. "Kiln Dried lumber" means lumber which is kiln dried, according to Standard Kiln Dried Lumber Rules of the National Hardwood Lumber Association issued as of January, 1944, to the extent that the moisture content shall not exceed 8%.

All lumber rough or surfaced shall be of Standard thickness in accordance with Paragraphs 13 and 14 of National Hardwood Lumber Association rules and shall be as follows:

Rough size:	*Size when surfaced on two sides (inches)*
4/4"	3 3/16
5/4"	1 1/16
6/4"	1 5/16
8/4"	1 3/4
10/4"	2 1/4
12/4"	2 3/4

(6) For orders calling for a specified width add $5.00 per thousand feet Board Measure to the appropriate maximum price determined under paragraphs (1) to (5) above.

(7) The above prices are f. o. b. mill, except that in the case of lumber manufactured in Canada (west of the crest of the Cascade Range), such prices are f. o. b. Bellingham, Washington. If the sale is made on a delivered basis to any other point, an addition may be made for the actual transportation cost incurred by the seller from the mill to destination or, in the case of such Canadian lumber, for transportation cost from Bellingham, Washington, to destination, in either case not exceeding the lowest common carrier rate for the haul. However, when a truck haul precedes rail shipment no addition may be made for the truck haul.

(8) References to grades and other terms appearing in this Revised Order No. G–98 refer to and have the meaning given in the Standard Grading and Dressing Rules of the Eastern Hardwood Manufacturers' Association.

(d) The maximum prices for distribution yards (as defined in Second Revised Maximum Price Regulation No. 215) are those established by the General Maximum Price Regulation or the following, whichever are higher:

(1) The mill price (as provided by paragraph (c)), plus

(2) Freight from Bellingham, Washington, to destination, based upon the appropriate weight set forth below, plus

(3) $10.00 per thousand feet, board measure, plus

(4) A percentage depending on board measure of sales, as follows:

(a) On sales of from 1,000 to 5,000 feet, 20% of (1), (2), and (3) above.

(b) On sales of from 5,000 to 18,000 feet, 15% of (1), (2), and (3) above.

(c) On sales of over 18,000 feet, 10% of (1), (2), and (3) above.

WEIGHTS PER MBM

	Alder	Maple	Birch	Cottonwood
	Pounds	*Pounds*	*Pounds*	*Pounds*
Rough	3,500	3,800	3,500	3,000
Surfaced	3,000	3,300	3,000	2,500

(e) The adjusted maximum prices herein established are subject to the particular dealer's customary discounts and allowances.

(f) This order may be revoked, amended, or corrected at any time.

This order shall become effective September 24, 1945.

Issued this 19th day of September 1945.

In the matters of Buffalo, Niagara and Eastern Power Corporation, File Nos. 54–106; 31–524; Niagara Hudson Power Corporation, File Nos. 54–107; 31–523; Niagara Hudson Power Corporation and its subsidiary companies, respondents, File No. 59–52.

Niagara Hudson Power Corporation ("Niagara Hudson"), a subsidiary of The United Corporation, a registered holding company, and Buffalo, Niagara and Eastern Power Corporation ("BNE"), a subsidiary of Niagara Hudson, having each filed applications and declarations pursuant to section 11 (e) and other applicable sections of the Public Utility Holding Company Act of 1935, including sections 6, 7, 9, 10 and 12 of the act, for approval of Plans and of related transactions designed to enable BNE to comply with the Commission's Order of June 19, 1944, issued pursuant to section 11 (b) (2) of the act; and

Public hearings having been held upon the foregoing matters after appropriate notice, and the Commission having considered the record and having on September 27, 1945, filed its findings and opinion herein (Holding Company Act Release No. 6083) in which it concluded that the Plans would be approved if appropriately amended in certain respects; and

Niagara Hudson and BNE having filed appropriate amendments to effect the modifications specified in our findings and opinion of September 27, 1945, and Niagara Hudson having submitted further information with respect to one of the transactions included in the Plans, namely, the proposed sale of its holdings of 41,515 shares of the Preferred Stock, 5% Series, of Central New York Power Corporation, to twenty-one institutional investors at a price of $106 per share; and

The Commission having considered said amendments to the pending Plans and finding that the Plans, as presently amended, are necessary to effectuate the provisions of section 11 (b) and are fair and equitable to the persons affected thereby;

It is ordered, That said Plans, as amended, be and the same hereby are approved, and that said applications and declarations, as amended, be and hereby are granted and permitted to become effective forthwith, respectively, subject, however, to the terms and conditions contained in Rule U–24, jurisdiction being reserved:

1. To approve, disapprove, modify, allocate or award by further order or orders all fees or other compensation and all remuneration of expenses

claimed or hereafter claimed by any persons in connection with the Plans, the transactions incident thereto and the consummation thereof;

2. With respect to all accounting entries involved in carrying out the Plans.

The applicants having requested that the order of the Commission herein conform to the formal requirements specified in sections 371 and 1808 (f) of the Internal Revenue Code, as amended, and contain the recitals and specifications prescribed therein; and it appearing to the Commission that applicants' request in this respect should be granted;

It is further ordered and recited, That the transactions proposed in the aforesaid amended Plans to be effected by Niagara Hudson and BNE, including particularly those hereinafter described and recited, are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 and are hereby authorized, approved and directed:

1. The sale by Niagara Hudson of 41,515 shares of the Preferred Stock, 5% Series, of Central New York Power Corporation;

2. The issue by Buffalo Niagara Electric Corporation ("Buffalo Electric") (continuing consolidated corporation), upon or incident to the consolidation of BNE, Niagara, Lockport and Ontario Power Company ("N. L. & O".), The Lockport and Newfane Power and Water Supply Company ("Lockport") and Buffalo Electric into Buffalo Electric, of 350,000 shares of its Preferred Stock, 5% Series, of the par value of $100 per share, and 3,000,000 shares of its Common Stock without par value, and of scrip certificates representing fractional interests in the Common Stock of Buffalo Electric;

3. The transfer or conveyance to Buffalo Electric upon and by the effect of the consolidation of BNE, N. L. & O., Lockport and Buffalo Electric into Buffalo Electric of all the right, title and interest of N. L. & O. and Lockport, or either of them, in and to any lands, tenements or realty;

4. The transfer to Buffalo Electric upon and by effect of the consolidation of BNE, N. L. & O., Lockport and Buffalo Electric into Buffalo Electric, of all the right, title and interest of N. L. & O., BNE and Lockport, or any of them, in and to:

742,241 shares of the Common Stock without par value of The Niagara Falls Power Company;

1,419 shares of the Common Stock of Electric Testing Laboratories, Inc.;

2,485 shares of the Common Stock without par value of Hydraulic Race Company;

9 shares of the Common Stock of the par value of $100 per share of Lower Niagara River Power and Water Supply Company;

4 shares of the Common Stock of Lockport and Newfane Mill Owners Association;

5. The transfer to Niagara Hudson of shares of the $1.60 Cumulative Preferred Stock of BNE, with a par value of $25 per share, upon the purchase of such shares by Niagara Hudson pursuant to the offer contained in the amended Plan of Niagara Hudson.

By the Commission.

THE UNITED CORP.

ORDER APPROVING ACCOUNTING ENTRIES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 4th day of October 1945.

The Commission by its order entered in the above proceeding on May 22, 1945 (Holding Company Act Release No. 5812), having approved a plan for the exchange on a voluntary basis of portfolio securities (Common Stock of Delaware Power & Light Company) and cash for the outstanding shares of The United Corporation $3 Cumulative Preference Stock, and the Commission having reserved jurisdiction, among other things, with respect to all accounting entries involved in carrying out the plan; and

The Commission in a previous order entered March 20, 1942 (Holding Company Act Release No. 3391) permitting the reduction by The United Corporation of the stated value of its $3 Cumulative Preference Stock having imposed a condition that no charges be made to the capital surplus arising from such reduction without prior approval of the Commission; and

The United Corporation having submitted accounting entries proposed to record the said exchange of portfolio securities and cash for preference stock (including charges to said capital surplus), and having requested approval of such entries; and

The Commission having considered the proposed entries and finding that such entries are appropriate;

It is ordered, That the accounting entries proposed to be made by The United Corporation to give effect to the exchange of its holdings of Common Stock of Delaware Power & Light Company and cash for outstanding shares of its $3 Cumulative Preference Stock be, and hereby are, approved, and the jurisdiction reserved in the order of May 22, 1945 (Holding Company Act Release No. 5812), with respect to these particular accounting entries be, and the same is hereby, released.

By the Commission.

COMMONWEALTH & SOUTHERN CORP. ET AL.

NOTICE ADVANCING DATE OF REARGUMENT

At a regulation session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 4th day of October, A. D. 1945.

In the matter of The Commonwealth & Southern Corporation (Delaware), respondent, File No. 59-20; The Commonwealth & Southern Corporation (Delaware) and its subsidiary companies, respondents, File No. 59-8; The Commonwealth & Southern Corporation (Delaware) File No. 54-75.

The Commission having on October 2, 1945 issued its notice of reargument, to be held on the 12th day of October, 1945, on the voting provisions contained in the plan of recapitalization filed by The Commonwealth & Southern Corporation, a registered holding company, under section 11 (e) of the Public Utility Holding Company Act of 1935;

The Commission having been advised by certain parties to the proceeding that the day selected for reargument is inconvenient and that October 11, 1945 is a more convenient date, and the Commission therefore deeming it appropriate to advance the date of reargument:

It is hereby ordered, That oral argument previously directed to be held on the 12th day of October, 1945, in the above matter shall be held instead on the 11th day of October, 1945 at 11:00 a. m., e. s. t. at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania.

It is further ordered, That the Secretary of the Commission shall serve notice of this order by mailing a copy thereof by registered mail to each of the participants in this proceeding, and that notice thereof shall be given to all other persons by publication in the FEDERAL REGISTER.

By the Commission.

CRESCENT PUBLIC SERVICE CO. AND CENTRAL OHIO LIGHT & POWER CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 5th day of October, A. D. 1945.

Crescent Public Service Company, a registered holding company, and its subsidiary, Central Ohio Light & Power Company, having filed a declaration pursuant to section 12 (c) of the Public Utility Holding Company Act of 1935 and the order of the Commission dated February 3, 1944 (File No. 70-844) with respect to the declaration and payment by Central Ohio Light & Power Company, in October 1945, of a dividend out of earned surplus of $2.50 per share, or an aggregate amount of $50,000, to the sole holder of its common stock, Crescent Public Service Company; and

Said declaration having been filed on September 6, 1945, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission having considered the declaration and it appearing that the payment of dividends as proposed will not be detrimental to the public interest or the interest of investors or consumers;

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24 and to the additional terms and conditions set forth in the order aforesaid dated February 3, 1944, that said declaration be, and the same hereby is, permitted to become effective forthwith.

AMERICAN POWER & LIGHT CO.

ORDER PERMITTING DECLARATION AS AMENDED TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 4th day of October, A. D. 1945.

American Power & Light Company ("American"), a subsidiary of Electric Bond and Share Company, both registered holding companies, having filed a declaration and amendment thereto pursuant to the Public Utility Holding Company Act of 1935, particularly sections 12 (d) and 12 (f) thereof and U-44 thereunder, relating to the proposed private sale by American of $10,589,900 principal amount of 5% Thirty-Year Debentures, due 1966, of The Montana Power Company, at a price of 100.527% of principal amount plus accrued interest to October 5, 1945, and the employment of The First Boston Corporation to find a purchaser or purchasers for said debentures on payment of commissions of ⅛ of 1% of principal amount; and

Said declaration, as amended, containing a request that the Commission enter an order finding that, with respect to the proposed private sale of said debentures, compliance with the competitive bidding requirements of Rule U-50 (a) is not necessary or appropriate; and

Said declaration, as amended, containing a further request that the Commission enter an order to conform to the requirements of section 371 and 1808 of the Internal Revenue Code, as amended, reciting that the proposed sale of the said debentures is necessary or appropriate to the integration or simplification of the holding company system of which American is a member and necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935; and

Said declaration having been filed on September 19, 1945, and an amendment thereto having been filed on October 1, 1945, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 under said act, and the Commission not having received a request for a hearing with respect to said declaration within the period specified in said notice or otherwise, and not having ordered a hearing therein; and

The Commission finding that, with respect to the proposed sale of the debentures an exemption from the competitive bidding requirements of Rule U-50 (a) is appropriate; and

The Commission deeming the proposed sale of said debentures to be necessary or appropriate to the integration or simplification of the holding company system of which American is a member and necessary or appropriate to effectuate the provisions of section 11 (b) of the act and deeming it appropriate to grant the request of American as to the suggested recitals;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid declaration, as amended, be and the same is hereby permitted to become effective forthwith.

It is further ordered, That the sale of $10,589,900 principal amount of The Montana Power Company 5% Thirty-Year Debentures, due 1966, is necessary or appropriate to the integration or simplification of the holding company system of which American is a member and necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1945.

TITLE 32—NATIONAL DEFENSE

Chapter II—National Guard and State Guard, War Department

PART 211—STATE GUARD REGULATIONS

MISCELLANEOUS AMENDMENTS

The following amendments to the regulations contained in Part 211 are hereby prescribed:

1. Section 211.3 is amended by the addition of a new paragraph designated (d) to read as follows:

§ 211.3 *State guard and Federal service.* • • •

(d) *Enlisted Reserve Corps.* Members of the Enlisted Reserve Corps may be enrolled or commissioned in a State guard without jeopardy to their Reserve status. Service in the State guard will not interfere with their being ordered to active Federal duty, in which case the State service will be terminated by the State authorities.

2. In § 211.6 amend paragraph (b) (3). In paragraph (c) amend the third sentence of subparagraph (1); rescind subparagraphs (4), (5) and (6) and paragraph (d) and substitute the following; in paragraph (e) the first portion of the third sentence is amended to read as follows:

§ 211.6 *Arms and equipment.* • • •

(b) *Issue.* • • •

(3) *Emergency issues.* In case of emergency, the commanding general of a service command may furnish such arms, ammunition, clothing and equipment, or any other similar assistance deemed necessary to enable the State guard to accomplish its mission, which, if withheld, the use of Federal troops would be required.

(c) *Accountability and responsibility*—(1) *General.* • • • The accounting system employed will conform to National Guard Regulations 75–3, 75–4, 75–5, 75–7, 75–8, 75–9, and 75–11. • • •

• • • • • •

(4) *Disposition of Federal property.* In view of the lack of Federal status of the State guard, the commanding general of the service command will appoint officers of the Army of the United States as inspectors and surveying officers. The properly bonded State guard property officer will be shown as the accountable officer on all property disposal forms.

(i) Property which becomes unserviceable through fair wear and tear will be disposed of on an Inventory and Inspection Report (WD NGB Form 14).

(ii) Property which becomes unserviceable, except through fair wear and tear, and all lost, damaged or destroyed property, will be disposed of on WD AGO Form 15 (Report of Survey), or WD AGO Form 15–1 (Discrepancies Incident to Shipment).

(*a*) A State guard property officer may terminate accountability for a limited quantity of clothing only, which has been lost or destroyed through unavoidable causes incident to the service during the current fiscal year, using report of survey, WD AGO Form 15, subject to the following conditions:

The circumstances under which the loss or destruction occurred must be clearly set forth.

Not more than two such reports for any unit will be submitted during any one fiscal year.

The total money value of the clothing so dropped will not exceed an amount equal to 30 cents per man per year on a basis of the mustered enlisted strength of the State guard unit on 1 July of the then current fiscal year.

In computing the money value of the clothing the full prices shown in current price lists will be used with no reduction for depreciation.

(*b*) Action by a surveying officer will not be required when the value of the clothing lost or destroyed does not exceed the amount set forth above, and the commanding general of the service command approves the report to relieve all concerned.

(*c*) When, in the opinion of a State guard responsible officer, the loss or destruction of the clothing referred to above is not because of negligence or carelessness of the custodian thereof, the responsible officer may execute an affidavit to that effect, setting forth all the facts, on report of survey (WD AGO Form 15), in quadruplicate. He will forward all copies to the State guard property officer who, if satisfied with the facts as given, will complete the certificate, Item 6 on Report of Survey. The State guard property officer will forward all copies to the State adjutant general who will state thereon the mustered enlisted strength of the State guard unit on 1 July of the current fiscal year, together with a statement that no previous report of survey from this unit has been submitted for this purpose during the fiscal year, or a statement of the money value of the Report of Survey submitted previously in current fiscal year. All copies of the report of survey will then be forwarded to the commanding general of the service command for final action under authority of the Secretary of War.

(iii) Checks or money orders, made payable to the Treasurer of the United States, covering collections will be forwarded by the State adjutants general to the Chief of the National Guard Bureau, through the commanding general of the service command. Statement of Property Lost, Damaged, or Destroyed (WD NGB Form 18) will be used with appropriate modifications.

(5) *Relief of State Guard property officer.* Upon relief from office, a State guard property officer may request by letter to the Chief of the National Guard Bureau, through the commanding general of the service command, that his bond be terminated. Such request will be accompanied by a copy of the orders relieving him from duty and appointing a successor. There will also be forwarded a list of property transferred to the new State guard property officer, signed by the officer requesting to be relieved and by the new State guard property officer as evidence of his receipt of the property, both documents duly dated.

(6) *Transfer accountability.* When it is necessary that the accountability for Federal property in the possession of the State guards be transferred to a successor, the commanding general of the service command will arrange the bonding of the successor without prior reference to the National Guard Bureau. The new bond will be processed as in paragraph (c) (3) of this section.

(7) *Responsibility for auditing property accounts.* The audit of the property accounts of the State guard property officer is a responsibility of the commanding general of the service command. See AR 35–6740.

* * * * *

(d) *Safeguarding of small arms and ammunition.* (1) The minimum requirements for a strongroom for the safekeeping of arms and ammunition, as published in NGR 75–3, August 21, 1939, are amended by the following when it is impractical to modify existing facilities to meet those requirements because of nonavailability of designated materials:

(i) A windowless interior room with but one wall on exterior of building, unless building is of masonry construction. Other walls to be at least 4 inches thick; of hard plaster over tile, brick or cement block; of hard plaster over metal lath; of 1-inch tongued and grooved clear lumber, sealing the wall inside and outside; or of lime plaster over wood or composition lath on outside, with inside reinforced with inch tongued and grooved clear lumber.

(ii) The door to open into an interior space, preferably a lighted hallway, and to be of solid hardwood, 2 inches thick, hung on solid casing, with hinges placed on inside of room.

(iii) Door lock to be a cylinder lock of an interior type, designed to give special protection against being picked or forced.

(2) Commanding generals of service commands will determine whether or not small arms and ammunition storage is adequate and secure for each unit in accordance with the above. When such storage is not considered adequate and secure, the commanding general of a service command will take necessary action to insure proper safeguard by the State concerned, or will take immediate steps to withdraw the issued arms and ammunition.

(e) *Acquisition of arms and equipment by the State from sources other than War Department.* * * * The Chief of the National Guard Bureau, after receipt of request, * * *

3. In § 211.7 paragraphs (c) and (d) are rescinded and the following substituted therefor; paragraph (e) pertaining to procurement, is rescinded; paragraph (f) is amended and (g) is added as follows:

§ 211.7 *Uniforms.* * * *

(c) *Insignia.* Except insignia denoting grade and arm or service, and that authorized herein, the wearing of buttons, cap devices, cord edge braid, hat cords, and other insignia authorized for use on uniforms of the Federal forces (including the National Guard) is not permitted.

(1) State guard personnel will wear on each outer coat (overcoat, mackinaw), service coat and shirt, on the upper part of the outer half of the left sleeve, with top of insignia ½ inch below the shoulder seam, one distinctive shoulder sleeve insignia bearing the designation of the State guard concerned. This insignia will be, if round, at least 2½ inches in diameter; if square, at least 2 inches square; if triangular, at least of an equivalent surface area.

(2) The authorized State guard cord edge braid of distinctive weave, silver for officers, silver and green for enlisted personnel, will be worn by State guard members, if any cord edge braid is worn.

(3) States may authorize State guard personnel who served oversea in World War II, to wear on the right shoulder sleeve any one of the shoulder sleeve insignia of the Units of the United States armed forces to which they were assigned.

(d) *Sleeve braid.* Unless the State guard uniform is wholly unlike any uniform authorized for wear by Federal military forces, including the National Guard, distinctive sleeve braid will be worn by officers only, on the service coat, and will be of any desired color except brown, gold, yellow, black, or forest green.

(e) *Procurement.* [Rescinded]

(f) *Officers uniform purchase.* Certain articles of regulation Army officers' uniforms may be purchased from the Philadelphia Quartermaster Depot by State guard officers with an identification evidenced by signed authority from the adjutant general of the appropriate State. Sleeve braid, cord edge braid, and distinctive Federal buttons will be removed prior to delivery. State guard personnel are not authorized to purchase uniforms at Army exchanges.

(g) *Wearing of decorations.* The appropriate order of precedence for wear by State guard personnel is: United States decorations or ribbons, United States service medals or ribbons, State decorations or ribbons, State service medals or ribbons, foreign decorations.

4. In § 211.8 paragraph (a) is amended and a new paragraph designated (f) is added as follows:

§ 211.8 *Training*—(a) *General.* The Secretary of War is authorized to prescribe regulations for standards of training of the State military forces contemplated herein and to use in his discretion appropriations for the Military Establishment for any expenses of the United States incident to the training of these forces except for pay, subsistence, medical care and treatment, and transportation of members of these forces between their homes and the places of performance of such training. Detailed instructions for the training of State guard organizations are such as may be prescribed and published by State and State guard authorities, based upon directives, regulations, and training programs issued by the War Department.

* * * * *

(f) *Funds.* Funds are made available to service commands to cover any expenses of the United States incident to the training of the State guard, provided such expenses are not prohibited by the statute (par. 2) or instructions, when such training is an integral part of a program established by the commanding general of the service command. Control over the obligation and use of these funds is a responsibility of the commanding general of the service command. AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; E.O. 9599, 10 F.R. 10155; W.P.B. Reg. 1 as amended Dec. 31, 1943, 9 F.R. 64.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–825, Reinstatement and Amdt.]

THE WASHINGTON DAILY NEWS CO.

The Washington Daily News Company, a corporation engaged in publishing the Washington Daily News, located in Washington, D. C., was suspended on July 9, 1945 by Suspension Order No. S–825. It appealed from the provisions of the suspension order and, pending determination of the appeal, the suspension order was stayed by the Chief Compliance Commissioner on September 11, 1945. The appeal has been considered by the Chief Compliance Commissioner who has directed that the appeal be dismissed, the stay be terminated and that the suspension order be reinstated and amended.

In view of the foregoing, It is hereby ordered, that: § 1010.825 *Suspension Order No. S–825* issued July 9, 1945 be and hereby is reinstated as of October 10, 1945; the stay of execution directed by the Chief Compliance Commissioner on September 11, 1945 be and hereby is revoked as of October 9, 1945; and the suspension order be and hereby is amended by substituting the following paragraph (a) for the present paragraph (a):

(a) Washington Daily News, its successors or assigns, shall reduce its consumption of print paper during the third quarter of 1945 by 29.15 tons; for the fourth quarter of 1945 and for each of the four quarters of 1946 by 58.3 tons per quarter, and for the first quarter of 1947 by 29.15 tons under the quota it would otherwise be entitled to use pursuant to the provisions of Limitation Order L–240, unless otherwise specifically authorized in writing by the War Production Board.

Issued this 2d day of October 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

Chapter XI—Office of Price Administration

PART 1305—ADMINISTRATION

[S. O. 135]

MODIFICATION OF MARKING AND TAGGING PROVISIONS

A statement of the considerations involved in the issuance of this supplementary order, issued simultaneously herewith, has been filed with the Division of the Federal Register.

AUTHORITY: § 1305.163 issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; Pub. Law 108, 79th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681; E.O. 9599, 10 FR. 10155.

§ 1305.163 *Modification of marking and tagging provisions*—(a) *Use of designation on "OPA Price $."* Any seller at retail who, under the provisions of any price regulation is required to make or tag a commodity other than food, its wrapper or container with the ceiling price, may, instead of designating the market or tagged price as the ceiling price, mark or tag the commodity (or, where previously permitted, mark or tag the container or wrapper) as follows: "OPA Price $_____": *Provided,* That:

(1) The price thus marked or tagged shall not exceed the ceiling price of the commodity, and

(2) The seller complies with all other marking or tagging requirements other than those which relate to the marking or tagging of the ceiling price itself, and

(3) The seller posts in a clearly visible position in the premises where the commodities are offered for sale, a sign in type at least one (1) inch high stating the following:

The "OPA Price" marked or tagged on merchandise in this store is no higher than the OPA ceiling price of the articles.

(b) *Meaning of "price regulation."* When used in this Supplementary Order No. 135 the term, "price regulation," means a price schedule effective in accordance with the provisions of section 206 of the Emergency Price Control Act of 1942, a maximum price regulation or temporary maximum price regulation heretofore or hereafter issued by the Office of Price Administration or any amendment or supplementary order thereto or any order heretofore or hereafter issued thereunder.

This amendment shall become effective October 15, 1945.

Issued this 10th day of October 1945.

CAMELBACK AND TIRE AND TUBE REPAIR MATERIALS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 131 is amended in the following respects:

1. Section 6 (d) (2) (ii) (*b*) is amended to read as follows:

(*b*) *Crude, synthetic, substitute, or balata rubber.* The price for any such material shall be the highest price for the material in effect to the manufacturer on August 1, 1943, or the current price, whichever is lower; or, if no price was in effect to the manufacturer, the highest price in effect to a purchaser of the same class on August 1, 1943, or the current price, whichever is lower. If there was no price for the material in effect to the manufacturer or a purchaser of the same class on August 1, 1943, the price for the material shall be the first price at which the material was offered for sale to the manufacturer after August 1, 1943, or the current price, whichever is lower.

2. In Appendix A, the form is amended by revising the instructions under item 4 b. to read as follows: "(For crude, synthetic, substitute, or balata rubber, August 1, 1943, prices or current selling prices, whichever are lower, must be used in your calculations.)"

This amendment shall become effective October 15, 1945.

Issued this 10th day of October 1945.

CERTAIN RUBBER COMMODITIES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 220 is amended in the following respects:

1. The introductory paragraph of § 1315.1553 (c) is amended to read as follows:

(c) If a commodity priced under this section contains synthetic or substitute rubber or balata, the price of which in effect on August 1, 1943, or the current price, whichever is lower, is less than the price in effect on March 31, 1942, the manufacturer shall deduct from the price determined in accordance with the provisions of paragraph (a) of this section a differential to be calculated as follows:

2. Paragraphs (c) (1) and (2) of § 1315.1553 are amended by substituting the words "August 1, 1943, or the current price, whichever is lower", wherever the date August 1, 1943, appears.

3. Section 1315.1557 (a) (1) (ii) (*b*) is amended to read as follows:

(*b*) The price of any synthetic or substitute rubber or balata used in the calculation of materials costs shall be the highest price for the material in effect to the manufacturer on August 1, 1943, or the current price, whichever is lower; or, if no price was in effect to the manufacturer, the highest price in effect to a purchaser of the same class as the manufacturer on August 1, 1943, or the current price, whichever is lower. If there was no price for the material in effect to the manufacturer or a purchaser of the same class on August 1, 1943, the price of the material shall be the first price at which the material was offered for sale to the manufacturer after August 1, 1943, or the current price, whichever is lower.

This amendment shall become effective October 15, 1945.

RUBBER DRUG SUNDRIES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 300 is amended in the following respects:

1. Section 5 (d) (1) is amended to read as follows:

(1) *Applicability.* This paragraph applies to all rubber drug sundries which contain the same type of synthetic or substitute rubber that they contained on December 1, 1941. However, this paragraph applies to such rubber drug sundries only if the price of the synthetic

or substitute rubber in effect on August 1, 1943, or the current price, whichever is lower, is less than it was on December 1, 1941.

2. Section 5 (d) (2) is amended by substituting the words "August 1, 1943, or the current price, whichever is lower", wherever the date August 1, 1943, appears.

3. Section 6 (c) (2) is amended by substituting the words "August 1, 1943, or the current price, whichever is lower," wherever the date August 1, 1943, appears.

4. In Appendix C, the form is amended by revising the special instructions under Part II B. 1. to read as follows: "For natural and reclaim rubber, the December 1, 1941, prices should be used in your calculations. For synthetic and substitute rubber, the prices to be used are the August 1, 1943, prices or the current prices, whichever are lower. Prices for other direct materials and extra materials must be the prices in effect to you on December 1, 1941."

This amendment shall become effective October 15, 1945.

Issued this 10th day of October 1945.

[MPR 403, Amdt. 8]

CERTAIN RUBBER COMMODITIES PURCHASED FOR GOVERNMENTAL USE

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 403 is amended in the following respects:

1. Section 5 (b) (2) and (4) (i) are amended by substituting the words "August 1, 1943, or the current price, whichever is lower", wherever the date August 1, 1943, appears.

2. Section 5 (b) (4) (ii) is amended to read as follows:

(ii) The differential for synthetic or substitute rubber or balata which must be subtracted from the base price in the case where the manufacturer did not compound the synthetic or substitute rubber or balata contained in the commodity shall be determined as follows: The manufacturer shall first determine the price for the material or part purchased by him which contains the synthetic or substitute rubber or balata, in accordance with paragraph (c) (2) (i) of section 6. The manufacturer shall then deduct from that price the first price at which the material or part containing the synthetic or substitute rubber or balata was sold to him after August 1, 1943, or the maximum price for the sale of that material or part on August 1, 1943, or the current price, whichever is lowest. The resulting figure is the differential.

3. Section 6 (c) (2) (ii) is amended to read as follows:

(ii) *Natural, synthetic or substitute rubber or balata.* This subdivision is applicable to any natural, synthetic, or substitute rubber or balata. The price for such material shall be the highest price for the material in effect to the manufacturer on August 1, 1943, or the current price, whichever is lower; or, if no price was in effect to the manufacturer, the highest price in effect to a purchaser of the same class on August 1, 1943, or the current price, whichever is lower. If there was no price for the material in effect to the manufacturer or a purchaser of the same class on August 1, 1943, the price for the material shall be the first price at which the material was offered for sale to the manufacturer after August 1, 1943, or the current price, whichever is lower.

4. In section 21, the form is amended by revising the instructions under item b. to read as follows:

(For natural, synthetic, or substitute rubber, or balata, August 1, 1943, prices or current selling prices, whichever are lower, must be used in your calculations.)

This amendment shall become effective October 15, 1945.

Issued this 10th day of October 1945.

PART 1347—PAPER, PAPER PRODUCTS, RAW MATERIALS FOR PAPER AND PAPER PRODUCTS, PRINTING AND PUBLISHING

[RMPR 257,[1] Amdt. 5]

PULPWOOD PRODUCED IN THE STATES OF MINNESOTA, MICHIGAN AND WISCONSIN

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 257 is amended in the following respect:

In section 1, paragraph (a) is amended to read as follows:

(a) On and after October 15, 1945, in the continental limits of the United States, regardless of any contract, agreement, lease or other obligation, no person shall buy and no person shall sell, deliver or transfer pulpwood cut from the stump in the states of Minnesota, Michigan, or Wisconsin, at prices in excess of the maximum prices set forth in Appendix A hereof; and no person shall agree, offer, solicit, or attempt to do any of the foregoing: *Provided, however,* That for the purposes of this regulation, a sale to a wholly owned subsidiary of a consumer may be considered as a sale to the consumer, and, further, that the maximum prices established herein or in any other maximum price regulation shall not apply to pulpwood which is sold to a consumer by its wholly owned subsidiary.

For the purposes of this regulation, a "wholly owned subsidiary of a consumer" means any duly organized corporation whose entire capital stock on October 15, 1945, was owned by a consumer as defined in section 8 (a) (3) hereof. In the event that a consumer establishes a wholly owned subsidiary after October 15, 1945, and the subsidiary wants to enjoy the privilege provided in this section, such subsidiary shall file a request for this privilege with the Paper and Paper Products Branch of the Office of Price Administration, Washington, D. C. Such request must contain the name and address of the subsidiary, the nature of the subsidiary's business, the ownership of the capital stock and the area in which the subsidiary will operate. The Administrator may at any time revoke or deny such privilege to any company if he finds that an unwarranted diversion of wood products has resulted or will result, or that the operations of any subsidiary are inconsistent with the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250, 9328 and 9599.

NOTE: All of the reporting requirements of this Amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This amendment shall become effective October 15, 1945.

Issued this 10th day of October 1945.

JAMES G. ROGERS, Jr.,
Acting Administrator.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[RMPR 169, Amdt. 59]

BEEF AND VEAL CARCASSES AND WHOLESALE CUTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Revised Maximum Price Regulation No. 169 is amended in the following respects:

1. The words "80 percent" appearing in the text of § 1364.415 (a) (1) is amended to read "100 percent".

1a. The proviso clause of § 1364.415 (a) (1) is amended to read as follows: "*Provided, however,* That any quota granted by a Regional Administrator pursuant to the provisions of paragraph (a) as they existed prior to June 1, 1945 shall remain in full force and effect. Any quotas which have been determined on the basis of the provisions of paragraph (b) hereof, shall be redetermined on the basis of the percentage specified in this paragraph (a) (1)."

2. Footnote 4 in the table of § 1364.452 (o) (6) is amended to read as follows:

'If the fabricated beef cuts (War Shipping Administration specifications) were obtained from the "stockpile," the seller may add 50 cents per hundredweight to the table price. The seller may add an additional 75 cents per hundredweight making a total addition of $1.25 per hundredweight to the table price if at the time of sale the War Shipping Administration prohibits the sale of fabricated beef cuts (War Shipping Administration specifications) by licensed ship suppliers to ship operators unless such meats are procured from a War Shipping Administration "stockpile."

3. Section 1364.455 (b) (1) is amended to read as follows:

(1) "Hotel supply house" means any establishment

(i) Which sold or delivered to purveyors of meals during the period of September 15, 1942, to December 15, 1942, not less than 70 percent of the total volume by weight of all meats, variety meats and edible by-products and/or sausage and similar products thereof, sold or delivered by it, excluding sales to war procurement agencies, and

(ii) Which does not own or control or is not owned or controlled by a packing or slaughtering plant, packer's branch house, wholesaler's or other selling establishment to which it is physically attached, and

(iii) Which on and after June 1, 1945, engages in the sale or delivery of meats and meat products to the following purchasers exclusively:

(*a*) Purveyors of meals, and/or

(*b*) Ultimate consumers pursuant to § 1364.416, and/or

(c) War procurement agencies of the following items only: frozen boneless beef (Army specifications), ground beef and miscellaneous beef items, boneless and miscellaneous veal cuts and fabricated beef cuts (War Shipping Administration specifications) and lamb, mutton and veal carcasses (War Shipping Administration specifications), and

(*d*) Other hotel supply houses or wholesalers of beef, veal, lamb and mutton wholesale cuts for a period of not more than 90 days beginning September 22, 1945.

"Own or control" within the meaning of this definition means to own or control directly or indirectly a partnership equity or in excess of 10 percent of any class of outstanding stock or to have made loans or advances in excess of 5 percent of the other person's monthly sales.

4. Footnote ' in the table of § 1364.467 (n) (6) is amended to read as follows:

'If the fabricated veal carcasses (War Shipping Administration specifications) were obtained from the "stockpile," the seller may add 50 cents per hundredweight to the table price. The seller may add an additional 75 cents per hundredweight making a total addition of $1.25 per hundredweight to the table price if at the time of sale, the War Shipping Administration prohibits the sale of fabricated veal carcasses (War Shipping Administration specifications) by licensed ship suppliers to ship operators unless such meats are procured from a War Shipping Administration "stockpile."

5. Section 1364.470 (b) (1) is amended to read as follows:

(1) "Hotel supply house" means any establishment

(i) Which sold or delivered to purveyors of meals during the period of September 15, 1942, to December 15, 1942, not less than 70 percent of the total volume by weight of all meats, variety meats and edible by-products and/or sausage and similar products thereof, sold or delivered by it, excluding sales to war procurement agencies, and

(ii) Which does not own or control or is not owned or controlled by a packing or slaughtering plant, packer's branch house, wholesaler's or other selling establishment to which it is physically attached, and

(iii) Which on and after June 1, 1945, engages in the sale or delivery of meats and meat products to the following purchasers exclusively:

(*a*) Purveyors of meals, and/or

(*b*) Ultimate consumers pursuant to Section 1364.416 and/or

(*c*) War procurement agencies of the following items only: frozen boneless beef (Army specifications), ground beef and miscellaneous beef items, boneless and miscellaneous veal cuts and fabricated beef cuts (War Shipping Administration specifications) and lamb, mutton and veal carcasses (War Shipping Administration specifications) and

(*d*) Other hotel supply houses or wholesalers of beef, veal, lamb and mutton wholesale cuts for a period of not more than 90 days beginning September 22, 1945.

"Own or control" within the meaning of this definition means to own or control directly or indirectly a partnership equity or in excess of 10 percent of any class of outstanding stock or to have made loans or advances in excess of 5 percent of the other person's monthly sales.

This amendment shall become effective October 10, 1945, except the change in § 1364.415 (a) (1) shall become effective as of September 1, 1945.

Issued this 10th day of October 1945.

JAMES G. ROGERS, Jr.,
Acting Administrator.

Approved: October 4, 1945.

J. B. HUTSON,
Under Secretary of Agriculture.

PART 1365—HOUSEHOLD FURNITURE

[2d Rev. MPR 213,[1] Amdt. 3]

NEW COIL AND FLAT BEDSPRINGS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith, and has been filed with the Division of the Federal Register.

Second Revised Maximum Price Regulation No. 213 is amended in the following respects:

1. Section 9 (b) (1) is amended to read as follows:

(1) *Manufacturers.* (i) The maximum price of a manufacturer for any sale or delivery of an article covered by this regulation which cannot be determined under any other section shall be a price fixed by order of the Price Administrator, in line with the level of maximum prices established by this regulation. No manufacturer may sell, offer to sell or deliver an article for which a maximum price must be established under this section until a price has been specifically authorized by such an order. If in violation of this provision a sale, offer to sell, or delivery of an article is made before the issuance of an order by the Price Administrator specifically authorizing a maximum price for the article, the maximum price applicable to the sale, offer to sell or delivery shall be such maximum price as the Price Administrator may establish for the article by subsequent order.

(ii) An application by a manufacturer for the establishment of a maximum price under this section shall be made to the Office of Price Administration, Washington 25, D. C., and shall contain the following information:

The date of the application.

The manufacturer's name and address.

The model designation of the article to be priced.

The reason why the article to be priced cannot be priced under any other section of this regulation.

The detailed specifications and illustration of both the article to be priced and the most nearly comparable article, listed in section 17.

An itemized breakdown of the manufacturer's current unit direct cost of the article to be priced, showing separately according to his own system of accounts of regularly prepared operating statements, all major component unit direct cost factors and the number of units of production upon which the unit direct costs were based. For the purpose of this section, unit direct costs include direct labor and direct material costs, but do not include factory burden (sometimes called factory over-head or indirect manufacturing expenses), packaging and crating costs, royalties and patterns, tool and die cost, and items of administrative, general and selling expenses.

An itemized breakdown of the manufacturer's current unit direct cost (as described above) of the basic model, specifically priced in this regulation in section 17, which is most nearly comparable to the article being priced.

A copy of each price list in effect during March 1942 showing the article listed in section 17, most nearly comparable to the article being priced, and all price differentials covering variations in constructions.

If the manufacturer was not making and selling new coil and flat bedsprings in March 1942, he shall send a copy of his first price list which was in effect after March 1942, showing the above information, together with illustrations.

A statement of the manufacturer's customary discounts, allowances and other price differentials to different classes of purchasers in effect for sales of new coil and flat bedsprings during March 1942, or if the manufacturer was not making and selling such articles during March 1942, the same information for the first period after March 1942 during which the manufacturer was engaged in this business.

The requested maximum prices to each class of purchaser for the article to be priced, and a statement of why the manufacturer

[1] 8 F.R. 12470; 9 F.R. 3942; 10 F.R 9959.

believes those prices to be in line with the level of maximum prices established by this regulation.

2. Section 18 is added to read as follows:

SEC. 18. *Reports.* (a) On or before November 10, 1945 each manufacturer shall file a signed report with the Office of Price Administration, Washington 25, D. C., with respect to each article covered by this regulation which the manufacturer has offered for sale during the period from August 12, 1945 to October 10, 1945, unless the maximum price was determined under sections 9 or 10, which report shall contain the following:

(1) The date of the report.

(2) The manufacturer's name and address.

(3) The manufacturer's name, number or other designation of the article.

(4) The specifications of the article.

(5) A photograph of the article.

(6) The manufacturer's maximum prices for sales of the article to each class of purchaser to which he sells.

(7) The terms, discounts, and allowances, including any PM (Premium Money), offered by the manufacturer on sales to each class of purchaser or to persons within any class of purchaser.

(8) A statement of how the maximum price was determined, together with the calculations made in determining the maximum price.

(9) The manufacturer's f. o. b. factory less-than-carload selling price to retailers for the article in March 1942; and his discounts to other classes of purchasers.

(b) For all articles not offered for sale during the period from August 12, 1945 to October 10, 1945, the manufacturer must file a report for such article with the Office of Price Administration, Washington 25, D. C., setting forth the information specified in (a), within ten days after the article is first offered for sale after October 12, 1945.

NOTE: The reporting provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This amendment shall become effective on October 15, 1945.

Issued this 10th day of October 1945.

PART 1381—SOFTWOOD LUMBER

[RMPR 26,[1] Amdt. 18]

DOUGLAS FIR AND OTHER WEST COAST LUMBER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

In section 23 of Revised Maximum Price Regulation 26, note 6 under "General Notes on all Railway and Car Material" is amended to read as follows:

6. The maximum prices shown in tables 16, 17, 18 and 19 apply only to direct-mill shipments (see section 3 (a)) to railroad car builders, railroad car and equipment repair shops and railroad companies except on specific individual approval of the Office of Price Administration, Washington 25, D. C.

This amendment shall become effective October 15, 1945.

Issued this 10th day of October 1945.

PART 1400—TEXTILE FABRICS: COTTON, WOOL, SILK, SYNTHETIC AND ADMIXTURES

[MPR 478, Amdt. 7]

COATED AND COMBINED FABRICS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Second Revised Maximum Price Regulation 183 is amended in the following respects:

1. Section 4.4 is amended by redesignating item 49 and by changing the price at wholesale to read as follows:

Item 49—*Bakery flour.* The sellers maximum price at wholesale for all types of bakery flour shall be the c. i. f. mill price of each such type of flour multiplied by 1.08; *Provided,* That the seller's average price for all of the types of bakery flour received by him in one shipment shall not exceed $4.70 per 100 pounds.

For the purposes of Item 49 the terms:

(a) "Bakery flour" means flour from wheat, other than flour milled from durum wheat, customarily used by industrial, commercial, institutional or governmental users.

(b) "Cake flour" means a soft wheat flour containing not more than .447% ash calculated to a moisture-free basis (which equals .38% ash calculated to a 15% moisture basis) having a viscosity of not more than 70 degrees (Mac-Michael) determined by the no-time method and capable of producing satisfactory cake, when mixed with an equal weight of liquid and an equal weight of sugar together with other appropriate ingredients.

2. Section 4.7 (d) is amended by changing the price of "Coronet" cocoa and by adding new items to read as follows:

(d) *Chocolate.*

	12/16 oz.	$2.49	$0.29.
	12/32 oz.	$4.56	$0.49.

NOTE: The prices at wholesale for Honey (locally produced) sold per gallon, in bulk or bottled are f. o. b. seller's warehouse.

The prices of Honey (locally produced) sold per case in the unit sizes listed above are delivered at the buyer's place of business.

7. Section 6.2 is amended by deleting paragraph (c) (2).

8. Section 12.11 is added to read as follows:

SEC. 12.11 *Maximum retail prices for water filters.*

Item: Water Filter	Retail price (each)
No. 1	$6.10
No. 2	7.25
No. 3	8.55
No. 4	9.90
No. 6	12.10

9. Section 13.1 is amended to read as follows:

SEC. 13.1 *Maximum retail prices for toys and games.* The maximum retail prices for toys and games shall be:

(a) The direct cost to the importer, as defined in section 1.14 (a) (6) multiplied by 1.75: *Provided,* That the importer buys directly from the manufacturer.

(b) The direct cost to the importer multiplied by 1.555 in purchases made by the importer from other than the manufacturer.

(c) On toys and games manufactured in the Territory of Puerto Rico the price charged by the manufacturer, which in no event may exceed the maximum price established by any applicable price regulation or order, multiplied by 1.75.

(d) Sales at retail by manufacturers of toys and games manufactured in their own factory are not covered by this regulation. These sales continue to be covered by the provisions of the General Maximum Price Regulation.

This amendment shall become effective October 15, 1945.

Issued this 10th day of October 1945.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communication Commission

PART 4—RULES GOVERNING BROADCAST SERVICES OTHER THAN STANDARD BROADCAST

PART 5—RULES AND REGULATIONS GOVERNING EXPERIMENTAL RADIO SERVICES

STATEMENT OF POLICY WITH RESPECT TO APPLICATIONS FOR EXPERIMENTAL TELEVISION AND FM DEVELOPMENTAL STATIONS

In acting upon a number of applications for experimental television stations on some of the channels now allocated for commercial television stations and for FM developmental stations in the old FM band between 42–50 megacycles and in the new FM band between 88–108 megacycles, the Commission today reemphasized its rule that such applicants must make a satisfactory showing of a meritorious program of research and experimentation.

The Commission stated that it was fully aware of the fact that there exists a need for developmental work regarding the higher frequency channels for commercial television broadcast stations, and that there exists a need for FM developmental work on the frequencies between 88–108 megacycles to which this broadcast service is assigned, but that it would not grant applications in either of these fields unless the applicant presented a genuine program of research, and clearly showed that an experimental station was necessary for carrying forward the research.

The Commission announced that it will examine carefully the representations made by each such applicant as to whether it in fact proposes an experimental and developmental station, or whether its proposal is more properly the subject of an application for a commercial television or FM station.

In denying applications which included requests for experimentation for the purpose of conducting site surveys or field intensity measurements, the Commission pointed out that such work required radiations for only short periods which did not justify a long term station license, and that a 30-day or less authorization to operate a station which can be applied for under § 1.365 of the Commission's rules should be adequate for such purposes.

Dated: September 25, 1945.

By the Commission.

Secretary.

PART 12—RULES GOVERNING AMATEUR RADIO: STATIONS AND OPERATORS

AMATEUR RADIO STATION AND OPERATOR LICENSE TERM EXTENDED

The Commission in meeting on October 3, 1945, amended § 12.64 *License term* and adopted new § 12.28 *License term* as follows (effective immediately):

§ 12.64 *License term.* Amateur station licenses are normally issued for a term of five years from the date of issuance of a new, renewed, or modified license.

§ 12.28 *License term.* Amateur operator licenses are normally issued for a term of five years from the date of issuance.

PART 42—PRESERVATION OF RECORDS

MISCELLANEOUS AMENDMENTS

The Commission in meeting on October 3, 1945, effective immediately, approved the following revision of Part 42 of the rules and regulations to provide consistency with the provisions of Order No. 78–D, effective August 14, 1945 (10 F.R. 10399), and to delete provisions relating to the Office of Censorship and to Defense Commanders:

1. Deleted subparagraphs (b) and (c) of the note annexed to § 42.1 *Accounts, records, etc., named in § 42.91.*

2. Revised the note referred to in subparagraph 83 and the note referred to in subparagraph 84 of § 42.91 to read:

Commission Order No. 78–D, effective August 14, 1945, requires retention for a period of 18 months from the date of transmission or receipt, as the case may be, by each carrier engaged in international or maritime mobile communications, of originals or copies of all messages transmitted by it to, or received by it from, (1) points beyond the continental United States, and (2) maritime mobile stations.

3. Revised the note referred to in subparagraph 90 of § 42.91 *Records described; applicability; permanent records* to read:

Applicable only to domestic wire-telegraph carriers. TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[S. O. 189, Amdt. 9]

PART 97—ROUTING OF TRAFFIC

EMBARGO OF ROUTES AND TRANSIT ARRANGEMENTS ON GRAIN AND RELATED ARTICLES

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 8th day of October, A. D. 1945.

Upon further consideration of Service Order No. 189 (9 F.R. 3357) of March 23, 1944, as amended, and good cause appearing therefor: *It is ordered*, That:

Service Order No. 189 (9 F.R. 3357) of March 23, 1944, 49 CFR, § 97.12, *Embargo of routes and transit arrangements on grain and related articles*, and Appendix A thereof, as amended, be, and it is hereby, further amended in the following respects:

Sheet 9 of Appendix A, paragraph 17, Missouri Pacific Railroad Company (Guy A. Thompson, Trustee) tariff I.C.C. No. A–9628, Item 1320 is eliminated.

Each railroad, or its agent, 5 days before the effective date of this order shall publish, file, and post a supplement to each of its tariffs affected hereby announcing the changes in the embargo of routes and transit arrangements herein provided. (40 Stat. 101, secs. 402, 418, 41 Stat. 476, 485, secs. 4, 10, 54 Stat. 901, 912; 49 U.S.C. 1 (10)–(17), 15 (4))

It is further ordered, That this amendment shall become effective at 12:01 a. m., October 15, 1945; that a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this amendment be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

The adjustment charges listed above may be added and collected only if each is separately stated on each invoice. The adjusted maximum prices are f. o. b. factory and are subject to a cash discount of 2% for payment within 20 days, net 40 days.

(b) *Maximum prices of purchasers for resale.* A person who hereafter buys an article covered by this order and resells it in substantially the same form, may collect from his customers, in addition to his properly established maximum price in effect immediately before this order was issued, an adjustment charge in the same amount as the additional adjustment charge herein authorized for and which he pays to his supplier. If he did not have a maximum price in effect for the article at the time this order was issued, he may add the same adjustment charge to the maximum price which he hereafter establishes for his sales under the applicable regulation. If the applicable regulation requires the maximum resale price to be computed on the basis of cost, the reseller must find his maximum resale price (not including the permitted adjustment charge) by using as cost his invoice cost less any adjustment charge stated on the invoice as a separate amount.

On all sales other than sales to the ultimate consumer this additional adjustment charge may be made and collected only if it is separately stated on each invoice. The adjusted price is subject to each seller's customary terms, discounts and allowances on sales of the same or similar articles. The adjustment charge authorized in this paragraph (b) is in addition to any adjustment charge permitted for wholesalers by Order No. 1052 under Maximum Price Regulation No. 188.

(c) *Notification.* At the time of or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established by paragraph (b) of this order for determining adjusted maximum prices for resales of the articles. This notice may be given in any convenient form, and is, in addition to any notice required by paragraphs (d) or (e) of Order No. 1052 of Maximum Price Regulation No. 188.

(d) All requests not specifically granted by this order are hereby denied.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 9th day of October 1945.

Issued this 8th day of October 1945.

WABASH SCREEN DOOR CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to paragraph (g) of Order No. 1052, under § 1499.159b of Maximum Price Regulation No. 188, it is ordered:

(a) *Manufacturer's maximum prices.* The Wabash Screen Door Company, 310 South Michigan Avenue, Chicago 4, Illinois, may add an additional adjustment charge to its maximum prices for sales and deliveries to all classes of purchasers of the household chairs which it manufactures in its plant located at Memphis, Tennessee, and for which it had established ceiling prices in effect before the effective date of this order. That additional adjustment charge shall be an amount equal to 2.6% of the previously established maximum prices as adjusted by paragraph (d) of Order No. 1052 under Maximum Price Regulation No. 188.

This additional adjustment charge may be made and collected only if it is separately stated on each invoice. The adjusted maximum prices are subject to the manufacturer's customary terms, discounts, allowances and other price differentials in effect during March 1942 to each class of purchaser.

(b) *Maximum prices of purchasers for resale.* A person who hereafter buys an article covered by this order and resells it in substantially the same form, may collect from his customers, in addition to his properly established maximum price in effect immediately before this order was issued, an adjustment charge in the same amount as the additional adjustment charge herein authorized for and which he pays to his supplier. If he did not have a maximum price in effect for the article at the time this order was

issued, he may add the same adjustment charge to the maximum price which he hereafter establishes for his sales under the applicable regulation. If the applicable regulation requires the maximum resale price to be computed on the basis of cost, the reseller must find his maximum resale price (not including the permitted adjustment charge) by using as cost his invoice cost less any adjustment charge stated on the invoice as a separate amount.

On all sales other than sales to the ultimate consumer this additional adjustment charge may be made and collected only if it is separately stated on each invoice. The adjusted price is subject to each seller's customary terms, discounts and allowances on sales of the same or similar articles. The adjustment charge authorized in this paragraph (b) is in addition to any adjustment charge permitted for wholesalers by Order No. 1052 under Maximum Price Regulation No. 188.

(c) *Notification.* At the time of or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established by paragraph (b) of this order for determining adjusted maximum prices for resales of the articles. This notice may be given in any convenient form, and is, in addition to any notice required by paragraphs (d) or (e) of Order No. 1052 of Maximum Price Regulation No. 188.

(d) All requests not specifically granted by this order are hereby denied.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 9th day of October 1945.

Issued this 8th day of October 1945.

[MPR 188, Order 4514]

HANCOCK MFG. CO.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188, *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Hancock Manufacturing Co., Box 98, New Cumberland, W. Va.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	Maximum prices for sales by any seller to—			
		Wholesalers (jobbers)	Chain and department stores	Other retailers	Consumers
Charcoal broiler	"Charbroil"	*Each* $0.95	*Each* $1.14	*Each* $1.27	*Each* $1.90

These maximum prices are for the articles described in the manufacturer's application dated August 29, 1945.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. They are f. o. b. factory and subject to a cash discount of 2% for payment within 10 days, net 30 days.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement:

Model No. "Charbroil"

For sales to consumers in the Far West zone as defined in section 17 of second revised maximum price regulation No. 213	21.00

These maximum prices are for the articles described in the manufacturer's application, dated September 7, 1945. In the case of sales by the manufacturer, they are f. o. b. Chicago, Illinois. All sales are subject to each seller's customary terms, discounts, allowances and other price differentials to each class of purchaser.

(b) *Notification.* Burton-Dixie Corporation shall notify, in writing, all retailers who purchase the article covered by this order of the maximum prices established by this order for sales at retail. This notice may be given in any convenient form; and it shall be given at the time of, or prior to, the first invoice to each retailer covering a sale of the article covered by this order.

(c) *Tagging.* Before delivering any article covered by this order, Burton-Dixie Corporation must attach to each such article a durable tag containing the following in easily readable lettering, with the amount properly filled in:

OPA has established a retail ceiling price of $------ for this bedspring. Lower prices may be charged. This tag may not be removed until after delivery to the consumer.

(d) *Definitions.* Unless the context otherwise requires, the definitions set forth in Second Revised Maximum Price Regulation No. 213 shall apply to the terms used in this order.

(e) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on October 9, 1945.

Issued this 8th day of October 1945.

	Straight Selection	50	350.00	23.50
	Assortments	25	240.00	32.00

(b) The importer and wholesalers shall grant, with respect to their sales of each brand and frontmark of imported cigars for which maximum prices are established by this order, the discounts they customarily granted during March 1942 on their sales of imported cigars of the same price class to purchasers of the same class, unless a change therein results in a lower price. Packing differentials charged by the importer or a wholesaler during March 1942 on sales of imported cigars of the same price class to purchasers of the same class may be charged on corresponding sales of each brand and frontmark of cigars priced by this order, but shall not be increased. Packing differentials allowed by the importer or a wholesaler during March 1942 on sales of imported cigars of the same price class to purchasers of the same class shall be allowed on corresponding sales of each brand and frontmark of cigars priced by this order and shall not be reduced. If a brand or frontmark of imported cigars for which maximum prices are established by this order is of a price class not sold by the importer or the particular wholesaler during March 1942, he shall, with respect to his sales thereof, grant the discounts and may charge and shall allow the packing differentials customarily granted, charged or allowed (as the case may be) during March 1942 by his most closely competitive seller of the same class on sales of imported cigars of the same price class to purchasers of the same class.

(c) On or before the first delivery to any purchaser of each brand and frontmark of imported cigars for which maximum prices are established by this order, the importer and every other seller (except a retailer) shall notify the purchaser of the maximum list price and the maximum retail price established by this order for such brand and frontmark of imported cigars. The notice shall conform to and be given in the manner prescribed by § 1358.113 of Maximum Price Regulation No. 260, as amended.

(d) Unless the context otherwise requires, the provisions of Maximum Price Regulation No. 260, as amended, shall apply to sales for which maximum prices are established by this order.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective October 9, 1945.

Issued this 8th day of October 1945.

[Order 91 Under Order 375 of 3 (b)]

BRONSTEIN CANDY CO.

AUTHORIZATION OF MAXIMUM PRICES

Order No. 91 under Order No. 375 of § 1499.3 (b) of the General Maximum Price Regulation; Bronstein Candy Company; Docket No. 6035:2-GMPR-ORD-375-223.

For the reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

Authorization of maximum prices governing sales of "Icing", a confectionery item manufactured by Bronstein Candy Company, Philadelphia, Pennsylvania.

(a) The maximum prices for the sales indicated below of "Icing", a confectionery item packed in steel drums containing approximately 200 pounds, manufactured by the Bronstein Candy Company, Philadelphia, Pennsylvania, in accordance with the formula contained in its price application of July 17, 1945, shall be:

(1) For sales by Bronstein Candy Company to jobbers and industrial users: $0.255 per pound, f. o. b. factory.

(2) For sales by jobbers: Jobbers net delivered costs plus 20% mark-up thereon, per pound, delivered.

(b) The maximum prices established in this order are the highest prices for which "Icing" may be sold by the respective sellers. All sellers, on sales of this item, shall reduce the above appropriate maximum prices by applying their customary discounts, allowances and price differentials which have been applied to sales of comparable confectionery items.

(c) Bronstein Candy Company shall mail or otherwise supply to its purchasers, at the time of or prior to the first delivery to such purchaser, a written notice as follows:

The Office of Price Administration has authorized us to sell to jobbers and industrial users our "Icing" packed in steel drums containing approximately 200 pounds at a maximum price of $0.255 per pound, f. o. b. factory. Jobbers are authorized to sell this item at a maximum delivered price consisting of their net delivered costs per pound plus a 20% markup thereon. All sellers, on sales of this item, are required to reduce their maximum prices by applying their customary discounts, allowances and price differentials which have been applied to sales of comparable confectionery items.

(d) Bronstein Candy Company, for a period of at least 90 days, shall place in or on each steel drum distributed through a jobber a notice as follows:

The Office of Price Administration has authorized jobbers to sell this "Icing" at a maximum delivered price consisting of their net delivered costs per pound, plus 20% markup thereon.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective October 10, 1945.

NOTE: This section has the prior written approval of the Secretary of Agriculture (10 F.R. 8419).

Issued this 9th day of October 1945.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion accompanying this order, and pursuant to § 1358.102 (b) of Maximum Price Regulation No. 260; *It is ordered*, That:

(a) Short and Garcia, 1919 15th Avenue, Tampa, Fla. (hereinafter called "manufacturer") and wholesalers and retailers may sell, offer to sell or deliver and any person may buy, offer to buy or receive each brand and size or frontmark, and packing of the following domestic cigars at the appropriate maximum list price and maximum retail price set forth below:

Brand	Size or frontmark	Packing	Maximum list price	Maximum retail price
			Per M	*Cents*
Garcia-Batan	Excelents	50	$101.25	2 for 27
Garcia Corejidor	Coronas	50	101.25	2 for 27

(b) The manufacturer and wholesalers shall grant, with respect to their sales of each brand and size or frontmark of domestic cigars for which maximum prices are established by this order, the discounts they customarily granted in March 1942 on their sales of domestic cigars of the same price class to purchasers of the same class, unless a change therein results in a lower price. Packing differentials charged by the manufacturer or a wholesaler in March 1942 on sales of domestic cigars of the same price class to purchasers of the same class may be charged on corresponding sales of each brand and size or frontmark of cigars priced by this order, but shall not be increased. Packing differentials allowed by the manufacturer or a wholesaler in March 1942 on sales of domestic cigars of the same price class to purchasers of the same class shall be allowed on corresponding sales of each brand and size or frontmark of cigars priced by this order and shall not be reduced. If a brand and size or frontmark of domestic cigars for which maximum prices are established by this order is of a price class not sold by the manufacturer or the particular wholesaler in March 1942, he shall, with respect to his sales thereof, grant the discounts and may charge and shall allow the packing differentials customarily granted, charged or allowed (as the case may be) in March 1942 by his most closely competitive seller of the same class on sales of domestic cigars of the same March 1942 price class to purchasers of the same class.

(c) On or before the first delivery to any purchaser of each brand and size or frontmark of domestic cigars for which maximum prices are established by this order, the manufacturer and every other seller (except a retailer) shall notify the purchaser of the maximum list price and the maximum retail price established by this order for such brand and size or frontmark of domestic cigars. The notice shall conform to and be given in the manner prescribed by § 1358.113 of Maximum Price Regulation No. 260.

(d) Unless the context otherwise requires, appropriate provisions of Maximum Price Regulation No. 260, shall apply to sales for which maximum prices are established by this order.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective October 10, 1945.

Issued this 9th day of October 1945.

JAMES G. ROGERS, Jr.,
Acting Administrator.

These maximum prices are for the articles described in the manufacturer's application dated May 14, 1945.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. For sales to persons other than consumers they are f. o. b. factory, 2% ten days, net 30. The maximum price to consumers is net, delivered.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to makes sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158, of Maximum Price Regulation 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement, with the proper model number and the ceiling price inserted in the blank spaces:

Model Number ------
OPA Retail Ceiling Price—$------
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) Jobbers' maximum prices for sales of the articles covered by this order shall be established under the provisions of section 4.5 of SR 14J.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 4th day of October 1945.

Issued this 3d day of October 1945.

F.O.B. Factory Bay City, Mich.
Cash discount 2%—10 days or 30 days net.

(b) The maximum net prices established in (a) above may be increased by the following amount to each class of purchaser to cover the cost of crating when crating is actually supplied: $1.15 total crating.

(c) The maximum net prices established by this order shall be subject to discounts and allowances and the rendition of services which are at least as favorable as those which each seller extended or rendered or would have extended or rendered to purchasers of the same class on comparable sales of similar commodities during March 1942.

(d) On sales by a distributor or dealer the following charges may be added to the maximum prices established in (a) above:

(1) The actual amount of freight paid to obtain delivery to his place of business. Such charges shall not exceed the lowest common carrier rates.

(2) Crating charges actually paid to his supplier but in no instance exceeding the amount specified in (b) above.

(e) Each seller covered by this order, except a dealer, shall notify each of his purchasers, in writing, at or before the issuance of the first invoice after the effective date of this order, of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers upon resale, including allowable transportation and crating charges.

(f) The General Engineering Company shall stencil in a conspicuous place on each of the incinerators covered by this order, substantially the following:

OPA Maximum Retail Price—$69.95 Plus freight and crating as provided in Order No. 47 under Maximum Price Regulation No. 591

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective October 10, 1945.

Issued this 9th day of October 1945.

[SO 133, Order 1]

MARION TOOL CORP.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to Supplementary Order No. 133; it is ordered:

(a) *Manufacturer's maximum prices.* Marion Tool Corporation of Marion, Indiana, may sell and deliver the cast iron hand tools which it manufactures and which are described in its application dated March 27, 1945, at prices no higher than its maximum prices in effect immediately prior to the issuance of this order as adjusted by Order No. 58 under Order No. A-2 under Maximum Price Regulation No. 188, plus an additional adjustment charge equal to 2.4% of each such maximum price.

On all sales other than sales to ultimate consumers, the additional adjustment charge provided herein as well as the adjustment charge authorized by Order No. 58 under Order A-2 may be made and collected only if each is separately stated on each invoice.

The maximum prices of the manufacturer, as adjusted, are subject to its customary terms, discounts, allowances, and other price differentials in effect during March 1942 on sales to each class of purchaser.

(b) *Maximum prices of purchasers for resale.* A person who hereafter buys an article covered by this order and resells it in substantially the same form, may collect from his customer, in addition to his properly established maximum price, and in effect immediately before this order was issued, an adjustment charge in the same amount as the adjustment charge herein authorized and which he pays to his supplier. If he did not have a maximum price in effect for the article at the time this order was issued, he may add the same adjustment charge to the maximum price which he hereafter establishes for his

sales under the applicable regulation and order. If the applicable regulation requires the maximum resale price to be computed on the basis of cost, the reseller must find his maximum resale price (not including any permitted adjustment charges) by using as host his invoice cost less any adjustment charge stated on the invoice as a separate amount.

On all sales other than sales to the ultimate consumer this adjustment charge may be made and collected only if it is separately stated on each invoice. The adjusted price is subject to each seller's customary terms, discounts, and allowances on sales of the same or similar articles.

(c) *Notification.* At the time of or before the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the manufacturer shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles covered by this order. This notice may be given in any convenient form.

(d) *Statement to be submitted to the Office of Price Administration.* The manufacturer shall file a report with the Office of Price Administration, Washington, D. C., as required by section 5 of Supplementary Order No. 133.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 9th day of October, 1945.

Issued this 9th day of October 1945.

CHESTER BOWLES,
Administrator.

[Max. Import Price Reg., Amdt. 1 to Order 65]

IMPORTED DATES

ESTABLISHMENT OF MAXIMUM PRICES

An opinion accompanying this amendment has been issued simultaneously herewith.

Order No. 65 under the Maximum Import Price Regulation is amended in the following respects:

1. Paragraph (a) is amended to read as follows:

(a) *Effect of this order.* This order establishes maximum prices which may be charged for "pitted Hallowi" and "pitted Sayer" dates of the 1944 and 1945 crops, imported from Iraq and Iran when sold in bulk, to any person by primary wholesalers or other distributors who do not qualify as "wholesalers" under Maximum Price Regulation 421.

This amendment shall become effective October 11, 1945.

Issued this 10th day of October 1945.

[RMPR 136, Order 511]

INTERNATIONAL HARVESTER CO.

AUTHORIZATION OF MAXIMUM PRICES

Order No. 511 under Revised Maximum Price Regulation 136. Machines, parts and industrial equipment. International Harvester Company; Docket No. 6083-136.21-468.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 21 of Revised Maximum Price Regulation 136, *It is ordered:*

(a) The International Harvester Company, 180 Michigan Avenue, Chicago, Illinois, is authorized to sell the International motor truck, containing a chassis described in subparagraph (1), at a price not to exceed the applicable list price in subparagraph (1), adjusted as provided in the subparagraph, plus the applicable charges in subparagraph (2):

(1) *List price.* The following applicable list price, f. o. b. factory, to which shall be applied the seller's discount in effect on March 31, 1942, to the applicable class of purchaser:

Chassis model number	Wheelbase (inches)	List price f. o. b. factory
K-2	125	$695.00

(2) *Charges.* (i) A charge for extra, special and optional equipment which shall not exceed the list price, or established price in effect on March 31, 1942 (less the discount in effect on that date) for such equipment (except that for cab Model HF, the charge shall not exceed the list price of $120, less the discount in effect on March 31, 1942).

(ii) A charge to cover handling and delivery expense computed in accordance with the seller's method in effect on March 31, 1942.

(iii) A charge to cover freight expense based on current freight rates and computed in accordance with the seller's method in effect on March 31, 1942.

(iv) A charge to cover Federal excise taxes on tires and tubes and other Federal excise taxes, and State and local taxes on the truck being sold, computed in accordance with the method the seller had in effect on March 31, 1942.

(b) A reseller of International motor trucks may sell, delivered at place of business, the International truck containing a chassis described in subparagraph (1), at a price not to exceed the list price in that subparagraph and applicable charges in subparagraph (2) below, less the discounts the reseller had in effect on March 31, 1942:

(1) *List price.*

Chassis model number	Wheelbase (inches)	List price f. o. b. factory
K-2	125	$695.00

(2) *Charges.* (i) A charge for extra, special and optional equipment which shall not exceed the charges the reseller had in effect on March 31, 1942 for such equipment (except that the charge for cab, Model HF, shall not exceed the list price of $120.00 less the discounts in effect on March 31, 1942):

(ii) A charge for transportation which shall not exceed the charge the International Harvester Company would make for the transportation of the truck to the place of business of the reseller.

(iii) A charge to include federal, state and local taxes on the purchase, and sale or delivery, of the Model K-2 truck, computed in accordance with the reseller's method in effect on March 31, 1942.

(iv) The reseller's charge in effect on March 31, 1942, for handling and delivery.

(v) The dollar amount of all other charges which the reseller had in effect on March 31, 1942.

(c) A reseller of International motor trucks that cannot establish a price under paragraph (b) because it was not in business on March 31, 1942, shall determine its maximum price by adding to the list price in subparagraph (1) of paragraph (b) the following applicable charges:

(1) *Charges.* (i) The original equipment retail charge that the International Harvester Company suggested on March 31, 1942, be made by resellers for the extra, special or optional equipment attached to the truck as original equipment (except that for cab, Model HF, the charge shall not exceed the list price of $120.00 less the discount in effect on March 31, 1942).

(ii) A charge for transportation which shall not exceed the charge the International Harvester Company would make for the transportation of the truck from the factory to the place of business of the reseller.

(iii) A charge equal to the charge made by the International Harvester Company, in accordance with the method that manufacturer had in effect on March 31, 1942, to cover federal excise taxes on tires and tubes and other federal excise taxes.

(iv) A charge equal to the reseller's expense for payment of state and local taxes on the purchase, sale or delivery of the truck.

(v) A charge equal to the reseller's actual expense for handling and delivery of the truck.

(d) A reseller of International trucks in any of the territories or possessions of the United States is authorized to sell each of the trucks described in paragraph (b) at a price not to exceed the maximum price established in paragraph (b) or (c), whichever is applicable, to which it may add a sum equal to the expense incurred by or charged to it, for payment of territorial and insular taxes on the purchase, sale or introduction of the truck; export premiums; boxing and crating for export purposes; marine and war risk insurance and landing, wharfage and terminal operations.

(e) All requests not granted herein are denied.

(f) This order may be amended or revoked by the Administrator at any time.

NOTE: Where the manufacturer has an established price in accordance with section 8 of Revised Price Regulation 136, which is different than a price permitted under paragraph (a) because of substantial changes in design, specifications or equipment of the truck, the reseller may add to its price under paragraph (b), (c) or (d) any increase in price to it over the price it would otherwise pay under paragraph (a), plus its customary markup on such a cost increase, but in the case of a decrease in the price under paragraph (a) the reseller must reduce its price under paragraph (b), (c) or (d) by the amount of the decrease and its customary markup on such an amount.

This order shall become effective October 9, 1945.

Issued this 9th day of October 1945.

CHESTER BOWLES,
Administrator.

The maximum prices to retailers of any ladies' watch described as having a bracelet attachment is .50¢ less if a cord attachment is supplied instead of a metal bracelet. All watches described as RGP have steel backs. The above maximum prices established for sales to retailers are f. o. b. New York, and are subject to terms of 2% 30 days, net 60 days.

The above maximum retail prices are inclusive of the Federal excise tax of 10% or 20% in the case of watches selling at retail for more than $65.00.

No charge may be added to the above maximum retail prices for the extension of credit except under the conditions specified and to the extent permitted by section 12a of Revised Maximum Price Regulation No. 499.

(c) *Notification.* Any person who sells the above watches to a purchaser for resale shall furnish the purchaser with a copy of this order or a price list incorporating the above prices and containing a certification that they are maximum prices established by the Office of Price Administration. In addition, he shall include on every invoice covering a sale of these watches the following statement:

OPA order No. 28 under RMPR 499 establishes the maximum prices at which you may sell these watches.

This notification requirement supersedes the notification requirement in section 12 of Revised Maximum Price Regulation 499 with respect to the watches covered by this order.

(d) *Tagging.* The importer shall include with every watch covered by this order delivered to a purchaser for resale after its effective date, a tag or label setting forth the maximum retail price of the particular watch. This tag or label must not be removed until the watch is sold to an ultimate consumer.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) Unless the context otherwise required the definitions set forth in section 2 of Revised Maximum Price Regulation 499 shall apply to the terms used herein.

This order shall become effective October 11, 1945.

Issued this 10th day of October 1945.

SECURITIES AND EXCHANGE COMMISSION.

[File Nos. 59-29, 54-128, 59-12, 54-51]

PENNSYLVANIA POWER & LIGHT CO. ET AL.

ORDER RECONVENING HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 5th day of October, A. D. 1945.

In the matter of Pennsylvania Power & Light Company, National Power & Light Company and Electric Bond and Share Company, File No. 59-29; In the matter of Pennsylvania Power & Light Company, National Power & Light Company and Electric Bond and Share Company, File No. 54-128; In the matter of Electric Bond and Share Company, National Power & Light Company, et al., File No. 59-12; In the matter of Electric Bond and Share Company, National Power & Light Company, Pennsylvania Power & Light Company, et al., File No. 54-51, Application 10.

Pennsylvania Power & Light Company ("Pennsylvania"), an electric and gas utility, National Power & Light Company ("National"), the corporate parent of Pennsylvania and a registered holding company, and Electric Bond and Share Company ("Bond and Share"), the corporate parent of National and also a registered holding company, having filed a joint Plan of Recapitalization for Pennsylvania, said plan proposing (1) the refunding of Pennsylvania's debt securities, (2) the making of certain capital contributions by National to Pennsylvania resulting in the creation of capital surplus, (3) the making of certain accounting adjustments by Pennsylvania in compliance with the orders of the Federal Power Commission and the Pennsylvania Public Utilities Commission and for other purposes, (4) the issuance of new common stock through issuance at $10 per share to National of rights to subscribe which stock rights will in turn be offered by National to its common stockholders, (5) the exchange of 440,000 shares of new cumulative preferred stock for a like number of $7, $6, and $5 preferred stock presently outstanding and the redemption, at the call price of $110 per share plus accrued dividends, of the remaining 164,390.38 shares of such $7, $6, and $5 preferred stock not so exchanged, (6) the amendment of the corporate charter to give the new preferred stock special voting rights in the event of dividend defaults and in the event of certain corporate actions and to place certain limitations on the payment of common stock dividends; and

A hearing having been held on September 17, 1945 for the purpose of considering the above-mentioned Plan of Recapitalization for Pennsylvania at which hearing, pursuant to request of the applicants, the proposal for refunding the debt securities of Pennsylvania was considered in advance of the consideration of the remainder of the plan in order to facilitate prompt completion of said proposed refunding and said refunding having been approved by order of this Commission dated September 26, 1945; and

It now appearing that the said hearing should be reconvened for the purpose of considering the remainder of the plan:

It is ordered, That the hearing in the above matter be reconvened under the applicable provisions of The Public Utility Holding Company Act of 1935 and the rules of the Commission thereunder, on October 15, 1945 at 10:00 a. m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in the room designated on said date by the hearing room clerk in Room 318.

It is further ordered, That Willis Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

COMMONWEALTH & SOUTHERN CORP. (DEL.) ET AL.

NOTICE POSTPONING DATE OF REARGUMENT

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 8th day of October, A. D. 1945.

In the Matter of The Commonwealth & Southern Corporation (Delaware), Respondent, File No. 59-20; The Commonwealth & Southern Corporation (Delaware) and its subsidiary companies, respondents, File No. 59-8; The Commonwealth & Southern Corporation (Delaware), File No. 54-75.

The Commission having on October 4, 1945 issued its notice advancing to October 11, 1945 the date of reargument originally scheduled for October 12, 1945 on the voting provisions contained in the plan of recapitalization filed by The Commonwealth & Southern Corporation, a registered holding company, under section 11 (e) of the Public Utility Holding Company Act of 1935;

The Commission having been advised of a conflict of engagements on October 11, 1945, and the Commission therefore deeming it appropriate to postpone the date of reargument:

It is hereby ordered, That oral argument previously directed to be held on the 11th day of October, 1945 in the above matter shall be held instead on the 19th day of October, 1945 at 10:30 a. m., e. s. t. at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania.

It is further ordered, That the Secretary of the Commission shall serve notice of this order by mailing a copy thereof by registered mail to each of the participants in this proceeding, and that notice thereof shall be given to all other persons by publication in the FEDERAL REGISTER.

By the Commission.

TITLE 7—AGRICULTURE

Chapter XI—Production and Marketing Administration (War Food Distribution Orders)

[WFO 131-1, Amdt. 4]

PART 1430—SUGAR

QUOTAS FOR DIRECT CONSUMPTION SUGAR

War Food Order No. 131-1, as amended (10 F. R. 7132, 8201, 9382, 11792), is further amended to read as follows:

§ 1430.9 *Establishment of quotas for delivery of direct consumption sugar*—(a) *Definitions.* (1) "Sugar" means any grade or type of saccharine product derived from sugarcane or sugar beets, which contains sucrose, dextrose, or levulose, including any sugar principally not of crystalline structure which contains non-sugar solids (excluding any foreign substances that may have been added), equal to six percentum or less of the total soluble solids. The term "sugar" shall not include syrup of cane juice, produced from sugarcane grown in the 48 States or the District of Columbia.

(2) "Direct consumption sugar" means any sugar which is not to be further refined or otherwise improved in quality.

(3) "Primary distributor" means any person who manufactures direct consumption sugar or who imports or brings direct consumption sugar into the 48 States or the District of Columbia from any place other than Canada or Mexico, for the purpose of sale or transfer.

(4) "Governmental agency" means the Army, Navy, Marine Corps, or Coast Guard of the United States (including United States Army post exchanges, United States Navy ships' service departments, United States Marine Corps post exchanges, and similar organizations), United States Department of Agriculture (including any corporate agency thereof), Veterans Administration, War Shipping Administration, or any other agency of the United States designated by the Assistant Administrator).

(5) "Authorized purchaser" means:

(i) Any person other than a primary distributor who delivers sugar, directly or indirectly, to an exempt agency listed in section 16.5 of 2d Rev. RO 3 of the Office of Price Administration, or to Army Exchanges, Post Exchanges, Ships' Service Departments ashore of the Navy or Coast Guard, Commissary Stores, Ships' Service Departments of training organizations of the War Shipping Administration, and similar activities designated by exempt agencies;

(ii) Any person who delivers sugar, directly or indirectly, or products containing sugar to an agency entitled to replacement of sugar in products under General Ration Order 11 of the Office of Price Administration; or

(iii) Any person other than a Governmental agency who obtains sugar for export.

(6) "Ration evidence" means certificates, checks, coupons, and stamps which authorize the delivery of sugar under the sugar rationing regulations of the Office of Price Administration.

(7) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons whether incorporated or not.

(8) "Assistant Administrator" means the Assistant Administrator, for regulatory and marketing service work, Production and Marketing Administration, United States Department of Agriculture.

(b) *Delivery restrictions.* There are hereby established separate quotas governing the distribution of direct consumption sugar by primary distributors to three types of consumers, as follows:

(1) United States Department of Agriculture;

(2) Governmental agencies other than the United States Department of Agriculture and the War Shipping Administration;

(3) Authorized purchasers.

No primary distributor shall, during any quota period, deliver or offer to deliver direct consumption sugar in excess of his quota for each type of consumer for such period.

(c) *April–December 1945 quotas.* The quota of each primary distributor for delivery to (1) United States Department of Agriculture, (2) Governmental agencies other than United States Department of Agriculture and the War Ship-

ping Administration, and (3) authorized purchasers, respectively, during the quota period April–December 1945 shall be the amount set forth opposite the name of such primary distributor in Appendix A attached hereto and made a part hereof (all amounts are stated in short tons, as delivered).

(d) *Deliveries to authorized purchasers.* No primary distributor shall deliver direct consumption sugar to any authorized purchaser unless such authorized purchaser endorses and transfers to the primary distributor the ration evidence issued to such authorized purchaser. Every primary distributor shall retain such ration evidence for submission to the Assistant Administrator upon request. No person shall be entitled to rely upon any such ration evidence if he knows or has reasonable cause to believe it to be false.

(e) *Existing contracts.* The restrictions of this order shall be observed without regard to existing contracts or any rights accrued or payments made thereunder.

(f) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Petitions shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Assistant Administrator. If the petitioner is dissatisfied with the action taken by the Order Administrator, he may, by request addressed to the Order Administrator, obtain a review of such action by the Assistant Administrator. After said review, the Assistant Administrator may take such action as he deems appropriate, which action shall be final.

(g) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using sugar. Any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Civil action may also be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(h) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise provided, be addressed to the Order Administrator, War Food Order No. 131–1, Sugar Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

(i) *Territorial scope.* This order shall apply within the 48 States and the District of Columbia.

(j) *Effective date.* This amendment shall become effective at 12:01 a. m., e. s. t., October 1, 1945. With respect to violations, rights accrued, liabilities incurred, or appeals taken, prior to said date, under War Food Order No. 131–1, as amended, all provision of said order shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

NOTE: The record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1432—RICE

RICE SET ASIDE

War Food Order No. 10, as amended (10 F. R. 9611, 10419) is hereby amended:

1. By striking §§ 1432.1 (b) and (c) and substituting in lieu thereof respectively, the following:

(b) *Restrictions.* Beginning October 1, 1945, every miller shall set aside each calendar month and shall hold for sale to a governmental agency, a quantity of milled rice in an amount equal to 40 percent of the total combined quantity of the brown and milled rice milled by him during the month. Milled rice so set aside shall be of grade No. 5 or better, of one of the Classes I to X, inclusive. Beginning October 1, 1945, no miller shall deliver or otherwise dispose of, except to a governmental agency, rice milled by him during any calendar month, in an amount exceeding 60 percent of the total quantity of brown and milled rice milled by him during such calendar month. All rice set aside may be offered for sale, at not more than ceiling prices established by the Office of Price Administration, to a governmental agency in response to announcements or notices by such agency that offers for the sale of such rice will be received on specified dates.

(c) *Exemptions from restrictions of paragraph (b).* (1) Deliveries to governmental agencies of grades or classes of brown or milled rice, other than those specified in (b) hereof, may be credited against the amount of rice required to be set aside under this order.

(2) Brown or milled rice delivered to persons other than governmental agencies for civilian use in Puerto Rico, the Virgin Islands or Hawaii may be credited against the quantity of milled rice required to be set aside under (b) hereof.

(3) The Assistant Administrator may upon application of any miller, authorize such miller to deliver brown or milled rice to persons other than governmental agencies and to credit such deliveries against the quantity of milled rice required to be set aside under (b) hereof, when satisfactory evidence is submitted to the Assistant Administrator that the brown or milled rice so delivered is to be subsequently delivered to governmental agencies in the form of rice or a product thereof.

(4) The restrictions contained in this order shall not apply to rice owned by any individual for use in his own household.

2. By striking § 1432.1 (d) (iv) and substituting in lieu thereof the following:

(iv) The quantities of brown and milled rice shipped by him to Puerto Rico, the Virgin Islands and Hawaii for civilian use and the quantities of milled rice shipped by him to each of the governmental agencies specified in the report form;

Effective date. This order shall become effective at 12:01 a. m., e. s. t., October 1, 1945. With respect to violations, rights accrued, liabilities incurred, or appeals taken, prior to said date, under War Food Order No. 10, as amended, all provisions of said order shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or

other proceeding with respect to any such violation, right, liability, or appeal.

NOTE: All reporting and record-keeping requirements of this order have been approved by, and all subsequent reporting and record-keeping requirements, will be subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter X—Areas Restricted for National Defense Purposes

[Public Proclamation 11]

ALASKAN DEFENSE COMMAND AND ALASKAN DEPARTMENT

To the people of Alaska and the public generally:

Whereas, the Secretary of War has designated the undersigned as the Military Commander to carry out the duties and responsibilities imposed by Executive Order No. 9066 (7 F.R. 1407) dated February 19, 1942, in the Territory of Alaska, and authorized the undersigned to modify or cancel any orders issued under the said Executive order by former Commanding Generals of the Alaska Defense Command and the Alaskan Department;

Whereas, the Imperial Japanese Government has proclaimed the surrender of its armed forces to the allied forces; and

Whereas, the present military situation no longer requires, as a matter of military necessity, certain restrictions heretofore imposed within the Territory of Alaska;

Now therefore, I, Delos C. Emmons, Lieutenant General, United States Army, by virtue of the authority vested in me by and pursuant to the above designated directive of the President of the United States, and by virtue of my powers and prerogatives as Commanding General of the Alaskan Department, do hereby order and declare that:

(1) Effective October 1, 1945, the following Public Proclamations and administrative instructions thereto published by the Alaska Defense Command and by the Alaskan Department are rescinded:

Public Proclamation No. 1, dated April 7, 1942 (7 F.R. 4859)

Public Proclamation No. 2 (undated) (7 F.R. 4860)

Public Proclamation No. 3, dated May 14, 1942 (7 F.R. 5785)

Public Proclamation No. 5, dated November 20, 1942

Public Proclamation No. 6, dated November 22, 1942 (§ 1002.3, 8 F.R. 1874)

Public Proclamation No. 7, dated November 1, 1943 (§ 1002.3, 8 F.R. 16100)

Public Proclamation No. 9, dated June 1, 1944, and

Public Proclamation No. 10, dated August 1, 1944;

(2) The effect of the rescission in paragraph (1) heretofore is to remove all restrictions heretofore imposed by proclamations of this Headquarters issued under the emergency authority granted by Executive Order No. 9066;

(3) All individual Exclusion Orders heretofore issued by the Commanding General, Alaska Defense Command or Alaskan Department, and now in effect, are rescinded. All persons heretofore prohibited from entering the Territory of Alaska are permitted to return, and will be accorded the same treatment and allowed to enjoy the same privileges accorded law abiding American citizens or residents.

[SEAL] DELOS C. EMMONS,
Lieutenant General, U. S. Army, Commanding.

Confirmed:

EDWARD F. WITSELL,
Major General, Acting The Adjutant General.

TITLE 24—HOUSING CREDIT

Chapter VII—National Housing Agency

[NHA Reg. 60-17]

PART 701—PRIVATE AND PUBLIC WAR HOUSING

PART 702—PRIVATE WAR HOUSING

REPEAL OF SALES PRICE AND OTHER PRIORITY RESTRICTIONS AND CONTROLS

The War Production Board is revoking, effective October 15, 1945, WPB Conservation Order L-41, WPB Directive 24, and WPB Preference Rating Orders in the P-55 and P-19 Series (*infra*). As these revocations will terminate the authority the War Production Board delegated to the National Housing Agency to control and restrict the occupancy and disposition of priority-constructed housing, it is necessary to repeal, as herein provided, the public regulations of the National Housing Agency controlling or restricting such housing under that delegation. These revocations and repeals by the War Production Board and the National Housing Agency remove all sales price and other priority restrictions and controls on private war housing that received priority assistance pursuant to any WPB Preference Rating Order in the P-55 or P-19 Series, including all private war housing subject to priority restrictions or controls of the National Housing Agency.

NHA Regulations (General Orders) 60-1B (9 F.R. 2458), 60-2C (9 F.R. 2816), 60-3C (9 F.R. 247), 60-6A (9 F.R. 13554), 60-8A (9 F.R. 13834), 60-9A (9 F.R. 4680), 60-15 (10 F.R. 10165), 60-16 (10 F.R. 11553), 70-1A (10 F.R. 8809), 70-1A-1 (10 F.R. 11554), (which regulations were published in the FEDERAL REGISTER as §§ 701-1 to 701-5, inclusive, and §§ 702.1 to 702.56, inclusive), and all public regulations expressly superseded, amended or revised thereby, are hereby repealed: *Provided*, That this regulation shall not affect any rents or tenant charges controlled by the Office of Price Administration.

This regulation does not affect any liabilities incurred for violation of any regulation or order of the National Housing Agency or the War Production Board or of action taken thereunder.

This regulation shall be effective October 15, 1945.

JOHN B. BLANDFORD, JR.,
Administrator.

TITLE 32—NATIONAL DEFENSE

Chapter II—National Guard and State Guard, War Department

PART 201—NATIONAL GUARD REGULATIONS

ENLISTMENTS AND REENLISTMENTS IN NATIONAL GUARD

Pending the revision of Part 201, the provisions thereof are amended insofar as they conflict with the following:

Effective immediately, the resumption of enlistments and reenlistments in the National Guard is authorized under restrictions prescribed in paragraph 1. Recruiting and enlistment of personnel for the National Guard will be a function of the military authorities of the several States, Territories, and the District of Columbia. The Chief of the National Guard Bureau is charged with the publishing of necessary instructions to State Adjutants General and with the furnishing of the necessary blank forms. Enlistment for the National Guard of members of the Armed Forces while in active federal military service is not authorized. Applications for or inquiries concerning enlistment in the National Guard will be addressed to the Adjutant General of the State wherein the applicant permanently resides.

1. Restrictions covering current enlistments and reenlistments in the National Guard are prescribed as follows:

a. Former male members of the Armed Forces of the United States except those currently commissioned or enlisted in reserve components of the land or naval forces who entered active federal military service subsequent to September 16, 1940, served honorably and faithfully therein, and were honorably discharged therefrom, and who are otherwise qualified, may be enlisted in the National Guard; however, men who are within induction age limits (currently 18 through 25 years of age) will only be enlisted if they have been discharged from the Army of the United States under the Army readjustment regulations or corresponding demobilization regulations of the naval forces.

b. No person shall, by reason of his membership in the National Guard or the National Guard of the United States under the provisions of this directive, be exempted from military service under any Federal law.

c. Recruiting and enlistment for the National Guard is a state function as currently provided in NGR 25, June 10, 1940.

d. Enlistment will be for the State Detachment of the National Guard of the State and the National Guard of the United States for a period of 3 years. Personnel so enlisted may be assigned by state authorities to constituted National Guard units of the state upon the return of units to state control.

e. Enlistment for the Inactive National Guard is not authorized.

f. Limitations on strength of State Detachments as provided in NGR 15, November 10, 1937, are suspended.

g. Qualifications for enlistment are those currently provided in NGR 25, June 10, 1940. Physical requirement for enlistment are those established in NGR 27, April 1, 1927 and Change 1, November 9, 1933. Qualified officers authorized to administer enlistment oaths and qualified medical examiners will be provided by state authorities.

h. Enlistments in the National Guard will be in the grade of private, except that personnel who entered active federal military service with the National Guard of a State subsequent to September 16, 1940 and who reenlist therein subsequent to release or discharge from active military service, may be reenlisted in their former National Guard grade. Where compatible with state law, qualified personnel may be enlisted in the National Guard of a State in the enlisted rating or grade held in the Army of the United States at time of release or discharge. Promotions in grade in the National Guard are not authorized.

i. Drills or assemblies for pay from federal funds are not authorized.

j. Uniforms or other items of federal equipment are not authorized for issue.

k. Individuals enlisted or reenlisted in the National Guard and the National Guard of the United States under this authority are exempt from registration under the provisions of the Selective Training and Service Act of 1940, *Provided*, That no such exemption shall accrue to any man by reason of such enlistment or reenlistment who is within induction act limit (currently 18 through 25 years of age) unless he was discharged from the Armed Forces by reason of demobilization or expiration of term of service.

l. Administrative functions incident to the recruiting and maintenance of State Detachments will be performed by state authorities, with no expenditures of federal funds authorized.

2. Communications to the War Department concerning enlistments in the National Guard will be addressed to the Chief, National Guard Bureau, Washington 25, D. C. (W. D. Cir. 284, 19 September 1945)

Chapter IX—War Production Board

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; E.O. 9599, 10 F.R. 10155; W.P.B. Reg. 1 as amended Dec. 31, 1943, 9 F.R. 64.

PART 903—DELEGATIONS OF AUTHORITY

[Directive 39, as Amended Oct. 10, 1945]

PRIORITIES ACTION BY THE VETERANS ADMINISTRATION

§ 903.153 *Directive 39*—(a) *Rating for material.* The Veterans' Administration may assign and apply within limits prescribed by War Production Board Program Determinations, preference ratings to the delivery of materials (including products, commodities, equipment, accessories, parts, or assemblies) subject to the condition that, unless otherwise specifically provided in a Program Determination, the Veterans' Administration may not assign or apply ratings to the delivery of any material for which application for rating or for specific authorization is required by an order or regulation to be made on a form other than WPB-541A.

(b) *Ratings for construction.* Preference ratings may be assigned to:

(1) Veterans Administration construction projects.

(2) Remodelling of buildings to be leased to the Veterans' Administration for use as regional or branch offices. "Remodelling" as used in this paragraph means the minimum remodelling required to serve the purpose of the Veterans' Administration as lessee.

(c) *Restrictions on rating authority.* Any instrument which assigns a rating to the delivery of tires or tubes shall before issuance be reviewed and approved by the War Production Board.

(d) *Form of assignment of ratings.* The Veterans Administration shall assign or apply ratings under this directive by issuance of a legend substantially as shown below, to which may be added any further provisions which conform to War Production Board orders or regulations and which are authorized by program determinations:

Under authority of the War Production Board a preference rating of MM is assigned (or applied) to the delivery of the material referred to herein. Application and extension of the rating is governed by Priorities Regulation 3 of the War Production Board.

The legend shall be endorsed on or attached to an appropriate instrument which shall include (1) the name and address of the person to whom the rating is assigned, (2) the quantity, dollar value and description of items rated, and (3) the signature and title of the official of the Veterans Administration who assigns or applies the rating.

(e) *Application and extension of ratings.* Ratings assigned or applied under this directive may be applied and extended only in accordance with applicable regulations of the War Production Board.

(f) *General provisions.* (1) The Veterans Administration may exercise the authority delegated in this directive through such of its officials as the Administrator of Veterans Affairs may specifically authorize in writing to assign or apply the "MM" rating; and only through such officials.

(2) The Veterans Administration shall make to the Program Vice Chairman such monthly reports on the exercise of authority granted by this directive as the Program Vice Chairman may require from time to time.

(3) A true copy of every document on which the Veterans Administration assigns or applies a preference rating pursuant to the provisions of this directive shall be maintained by the Veterans Administration for inspection by representatives of the War Production Board at any time.

Issued this 10th day of October 1945.

LINCOLN GORDON,
Program Vice Chairman.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 32, Direction 4]

TWENTY-DAY INVENTORY ON COKE

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of coal and coke for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

(a) No person, including a Government operated establishment, may accept delivery of any coke if his inventory of it is or will by virtue of such acceptance become more than he expects to use during the succeeding twenty days on the basis of his current or scheduled method and rate of operation.

(b) This direction does not apply to:

(1) Coke which on the effective date of this direction was billed or in transit;

(2) Any delivery of a carload of coke or less to any person who at the time of delivery has in his inventory less than a twenty day supply of coke. However, he may not thereafter accept delivery of any additional quantities until his inventory is again less than a twenty day supply;

(3) Delivery of coke to any person who acquires it for space heating, domestic hot water, or cooking;

(4) Delivery of coke to any person buying for resale.

(c) No person may place any order for coke requesting delivery which would result in an inventory in excess of that permitted by this direction. A person must immediately cancel, reduce or defer any order for coke which has been placed where the scheduled delivery would result in an inventory in excess of that permitted by this direction.

(d) No person may deliver any coke if he knows or has reason to believe that acceptance of such delivery would be in violation of this direction.

(e) Any appeal from this direction should be filed by letter in triplicate to the War Production Board, Steel Division, Washington 25, D. C., Ref: PR 32, Direction 4, referring to the provision appealed from and stating fully the grounds of the appeal.

(f) This direction is effective October 15, 1945.

Issued this 10th day of October 1945.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-744, Revocation]

MENDALL BENJAMIN CO.

Suspension Order No. S-744 was issued March 27, 1945, effective April 3, 1945, against Mendall Benjamin, doing business as Mendall Benjamin Company, 122 Gold Street, Worcester, Massachusetts, engaged as a distributor of copper tubing and various kinds of plumbing supplies. An appeal was filed with the Chief Compliance Commissioner on April 27, 1945 and, pending final determination of the appeal, a stay was granted on April 27, 1945. Deputy Chief Compliance Commissioner Bok considered the appeal and recommended that the case be remanded to the Regional Compliance Commissioner for a hearing. Due to the fact that CMP and all ratings, except of the MM and CC bands have terminated, the Chief Compliance Commissioner directs that this suspension order be revoked.

In view of the foregoing it is hereby ordered, that: § 1010.744, *Suspension Order No. S-744* be revoked.

Issued this 10th day of October 1945.

PART 1075—CONSTRUCTION

[Conservation Order L-41, Revocation]

Section 1075.1 *Conservation Order L-41* is revoked, effective October 15, 1945.

All specific orders previously issued by the War Production Board (other than "suspension orders" and "consent orders" issued by the War Production Board on the basis of a violation of War Production Board orders or regulations) which directed individual builders to stop construction on specified projects, are revoked, effective October 15, 1945.

All conditions and restrictions on the construction or use of buildings or other projects contained in orders, certificates or authorizations issued to individual builders permitting construction under L-41 (except conditions and restrictions on the use of MM or CC ratings) are revoked, effective October 15, 1945. These orders, certificates and authorizations include preference rating orders in the P-19 and P-55 series, certificates and authorizations on Forms CMPL-224 and GA-1456 and other certificates expressly authorizing construction under L-41. However, MM and CC ratings assigned on these orders or certificates are not revoked.

This revocation does not affect any liabilities incurred for violation of the order or of actions taken under the order.

PART 4500—UTILITIES

[Utilities Order U-10]

CONSERVATION OF COAL BY MANUFACTURED GAS UTILITIES

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of coal for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 4500.66 *Utilities Order U-10*—(a) *Purpose of the order.* The purpose of this order is to save coal by reducing the amount used in producing manufactured gas.

(b) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(2) "Utility" means any person in the United States engaged in producing, transmitting or supplying manufactured gas directly or indirectly for general use by the public. "Utility" does not include any person supplying only natural gas or mixed natural and manufactured gas.

(3) "Non-utility producer" means any person who owns or operates any manufactured gas production or transmission facilities and who is not included in the definition of "utility" in paragraph (b) (2).

(4) "Consumer" means any ultimate user of manufactured gas produced, transmitted or distributed by any utility or by any non-utility producer which is interconnected with any utility.

(5) "Manufactured gas" means any combustible gas produced by any manufacturing process (other than liquefied petroleum gas unmixed with any gas produced by any other manufacturing process).

(6) "Standby facilities" means equipment designed to use another fuel to replace gas, and for the operation of which a supply of fuel is available or obtainable.

(c) *Restriction on use of coal gas facilities.* (1) Each utility and each non-utility producer shall conserve coal by the employment of all practical methods.

(2) Each utility and each non-utility producer having facilities for obtaining manufactured gas directly or indirectly from water gas and coal gas manufacturing facilities, shall, so far as practicable, operate its facilities so as to maximize supplies of gas obtained from water gas facilities and reduce the operation of coal gas facilities.

(d) *Standby facilities.* Each consumer having standby facilities shall so far as practicable maximize his use of those facilities and to a corresponding extent reduce his acceptance of manufactured gas from his utility supplier. Each utility, without regard to its contractual rights or those of any consumer, shall reduce deliveries to all consumers who have standby facilities, to the extent to which the operation of such facilities as required by this paragraph has reduced the consumers' requirements for the delivery of manufactured gas from the utility.

(e) *Exceptions.* The provisions of paragraphs (c) (2) and (d) above do not apply to persons west of the Mississippi River.

(f) *Directions.* The War Production Board may from time to time issue directions with respect to deliveries of manufactured gas.

(g) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional or unreasonable hardship on him may appeal for relief to the War Production Board, which may grant such specific exemptions or take such action as may be consistent with the purposes of this order.

(h) *Violations.* Any person who willfully violates any provision of this order or who in connection with this order willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority or allocation control.

(i) *Communications.* Communications concerning this order may be addressed to the War Production Board, Washington (25), D. C., Ref.: U-10.

PART 1305—ADMINISTRATION

[Gen. RO 5,[2] Amdt. 119]

FOOD RATIONING FOR INSTITUTIONAL USERS

A rationale accompanying this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

General Ration Order 5 is amended in the following respects:

Article XXVIII is amended to read as follows:

ARTICLE XXVIII—SUGAR FOR HOME CANNING AND PRESERVING BY INSTITUTIONAL USERS

SEC. 28.1 *Home canning and preserving for Group I institutional users.* (a) A Group I institutional user may not use the War Ration Books of the persons who live and eat at his establishment in order to obtain sugar for home canning. However, those persons may obtain sugar for home canning and preserving in the same way as consumers under Second Revised Ration Order 3, and a Group I institutional user may use the foods produced with such sugar for the purpose of feeding such persons.

SEC. 28.2 *Home canning and preserving for other institutional users*—(a) *General.* An institutional user (other than a Group I user) may, prior to November 1, 1945, apply for an allotment of sugar to be used for canning fruits and fruit juices and for preserving, if the finished product is to be produced in a "kitchen" or in a "place like a kitchen". In addition, a government or government agency, such as a Federal prison or State asylum, may apply for an allotment of sugar to be used for canning and preserving in commercial-scale processing facilities for use in its Group II or eleemosynary or educational Group III, V or VI establishments.

(b) *Explanation of terms.* (1) "Kitchen" is a place principally used for the preparation of meals, such as a kitchen in a school or in a home economic center.

(2) "A place like a kitchen" is a place other than a kitchen but in facilities which do not differ substantially from those ordinarily found in a kitchen, and which are clearly not commercial-scale processing facilities. For example, a hospital may have on its premises, in addition to its kitchen, a separate place containing facilities for canning or preserving which are of a type similar to those normally used by such institutions in kitchens.

(c) *Application.* Application must be made to the District Office on OPA Form R-315 and must state:

(1) The name and address of the place where the foods will be produced;

(2) The type and location of the facilities to be used and the purposes for which those facilities are ordinarily used;

(3) The number of pounds of sugar needed;

(4) The number of pounds of foods to be produced from fruit and fruit juices;

(5) The number of pounds of prepared fruit (or pints of fruit juices) to be used in making jams, preserves and marmalades;

(6) The number of pounds of prepared fruit (or pints of fruit juices) to be used in making jellies and fruit butters;

(7) The disposition to be made of such foods;

(8) The amount of sugar, if any, obtained for home canning during 1944, and the amount of sugar actually used for home canning in 1944.

(d) *Amount of allotment.* The District Office may grant an allotment of sugar in an amount not exceeding:

(1) One (1) pound for each four (4) quarts of finished canned fruit or fruit juices;

(2) One (1) pound of sugar for each pound of prepared fruit for making jams, preserves, and marmalades;

(3) One (1) pound of sugar for each two (2) pounds of prepared fruit (or one pint of fruit juice) used for making jellies and fruit butters.

However, the amount of sugar granted for producing jams, jellies, preserves, marmalades, and fruit butters shall not exceed five (5) pounds of sugar for each 1000 persons served meals during the year 1944. Moreover, a Group III or IV user who did not obtain sugar for home canning in 1944 or who did obtain sugar for this purpose but failed properly to account for such sugar is not eligible for a home canning allotment in 1945. If he is eligible, the amount of the allotment in 1945 shall not exceed the amount he received for this purpose in 1944.

(e) *Issuance of ration evidences.* The District Office shall issue ration evidences for the amount of the allotment. However, if the applicant has an excess inventory of sugar, the amount of the excess inventory shall be deducted from the amount of sugar to be issued. Any excess inventory so deducted shall be cancelled.

(f) *Report.* An institutional user who receives an allotment of sugar under this section must, when he applies for allotments for the January-February 1946 allotment period, report, in writing, to the District Office the amount of such sugar actually used for home canning and preserving. If the amount of sugar used for home canning and preserving is less than the amount obtained for that purpose under this section, the difference shall be treated as excess inventory.

This amendment shall become effective October 11, 1945.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 11th day of October 1945.

CHESTER BOWLES,
Administrator.

PART 1305—ADMINISTRATION

[Gen. RO 11,[1] Amdt. 23]

REPLACEMENT OF RATIONED FOODS USED IN PRODUCTS ACQUIRED BY DESIGNATED AGENCIES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

General Ration Order 11 is amended in the following respects: 1. Section 1.2 (a) is amended by adding a new subparagraph (10) to read as follows:

(10) The Veterans Administration.

2. Section 4.1 (d) is amended to read as follows:

(d) A designated agency having a limited ration bank account may not, in any period, issue checks under this order in excess of the amount that it has been authorized to draw against that account for the purpose of advance or replacement for that period. The agencies or activities listed in section 1.2 (a) (2), (3) and (10) will receive ration evidences for the purposes of this order, under arrangements made between those agencies or activities and the Washington Office.

3. Section 4.1 is amended by adding a new paragraph (i) to read as follows:

(i) The Veterans Administration may open one or more ration bank accounts for each rationed food for which it receives an allocation to make replacements or advances under this order.

This amendment shall become effective October 15, 1945.

Issued this 11th day of October 1945.

[SO 119, Amdt. 7]

INDIVIDUAL ADJUSTMENTS FOR RECONVERTING MANUFACTURERS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

A new paragraph (f) is added at the end of section 5 as follows:

(f) Because of the unsatisfactory nature of the available 1941 unit cost records, and the unrepresentative character of price increase factors derived from the use of the best-selling article (which in many cases had a cost-price relationship not typical of the product line), the Administrator has concluded that Method A should be abandoned. Accordingly, no applications may be filed under Method A after October 16, 1945. Orders will continue to be issued, pursuant to applications under Method A filed prior to that date, provided the proposed increase factor is in line with the increase factor which would be derived from the use of Method B. If it is not, you may be required to supply such additional information as may be needed to show your increase factor derived by the use of Method B.

This amendment shall become effective October 16, 1945.

Issued this 11th day of October 1945.

[SO 129, Amdt. 2]

EXEMPTION AND SUSPENSION FROM PRICE CONTROL OF MACHINES, PARTS, INDUSTRIAL MATERIALS AND SERVICES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order 129 is amended in the following respects:

1. Section 1 is amended by adding the following sentence: "The heading of each section of this article indicates the commodity price branch of the National Office having jurisdiction over the machines, parts, industrial materials and services listed."

2. Section 2 (b) is amended by adding the following to the list of commodities thereunder:

Prefabricated non-dwelling structures—limited to direct sales to users by manufacturers, other than retail lumber yard dealers or an agent or employee thereof, whose gross sales during any calendar year is $5000 or less.

3. Section 4 (a) is amended by striking out the phrase ". . . . pursuant to a cost-plus-a-fixed-fee or a cost-plus-a-percentage-of-cost contract," appearing in the description of batteries, wet-cell electric storage, in the list of electrical equipment appearing in that section.

4. Section 4 (a) is further amended by adding to the list of electrical equipment appearing thereunder as follows:

(1) Bells (including tubular tower bells) upon which musical selections are played and (2) Peals of bells or chimes of bells when designed for installation in the towers of religious, educational or similar institutions.

Radio tubes and parts when sold by a manufacturer to a brand owner for replacement purposes only.

5. Section 4 (b) is amended by adding the following to the list of miscellaneous equipment thereunder:

Amusement riding devices (such as roller coaster, whip, caterpillar, kiddy rides, octopus, loop-o-plane, scooter, swings, Ferris wheel, merry-go-round) when sold for installation in amusement parks, carnivals or for use in itinerant amusement enterprises, excluding power units and power transmission units for operating devices, highway vehicles and railroad cars for transporting the devices.

6. Section 8 (a) (2) is amended by adding the following in alphabetical order to the list of chemicals and drugs thereunder:

Annatto seeds.
Aconitum heterophyllum.
Botanical drugs, domestic and imported, whether crude, milled, ground or powdered, and solid, fluid and powdered extracts of the foregoing.
Brucine sulphate.
Cochineal.
Emetine hydrochloride.
Gum Ghatti.
Saffron.
Saponin (extract of soap bark).
Thallium sulphate.

7. Section 9 is amended by adding the following sentence: "The heading of each section of this article indicates the commodity price branch of the National Office having jurisdiction over the machines, parts, industrial materials and services listed."

8. Section 10 (a) is amended by adding the following to the list of commodities thereunder:

Chemical stoneware.
Talc, ground soapstone and pyrophyllite.

9. Section 10 is amended by adding the following paragraph (b):

(b) *Mechanical building equipment covered by MPR 591 as follows.*

Non-metallic air and fume conductor devices and accessories.
Aluminum molding, binding and edging.
Stainless steel molding, binding and edging.
Casket and casket shell hardware.
Cast iron risers manufactured in accordance with the specifications of applicable sanitary laws or regulations.
C. N. I. Alloy cast iron thread pipe, couplings and nipples.
Cocks, ground key, plug type corporation, curb and service patterns as used by water and gas utilities for underground water and service connections.
Flag poles and staffs, metal.
Liquid soap dispensing equipment, except portable or detachable self-contained units.
Mail chutes, except pneumatic.
Metal awnings.
Metal clad wooden plumbing fixtures.

Repair clamps and couplings, except garden hose clamps and couplings.
Tie rods and accessories, except inserts, especially designed for concrete form construction which become permanent parts of the structure.
Vault doors.
Window guards.
Wood casing for pipe.

10. Section 12 (b) is amended to read as follows:

(b) *Machine tools and parts as follows:*

Spring-winding and spring-forming machinery.

11. Section 12 (c) is amended by adding the following to the list of miscellaneous equipment thereunder:

Instruments, industrial, designed and sold as devices to measure and control physical and chemical variables in industrial processes (such as measurement and control of pressure, temperature, humidity, flow, motion, position, space, gravity, liquid level, chemical-physical variables, acidity, alkalinity, electrolytic conductivity, oxygen content, CO_2 content and other such gases, liquids and solids), excluding any instruments covered by MPR 591 and instruments for measuring, testing, indicating or recording electrical quantities. These instruments are only those used in industrial processes for the purpose of control or control and measurement of the process.

12. Section 12 (d) is amended by striking out subparagraph (4) of the list of exclusions from parts for heavier and lighter than air aircraft.

13. Section 12 (d) is amended by correcting the listed equipment "Marine equipment listed in RMPR 136" to read "Marine equipment listed as such in RMPR 136".

14. Section 12 is amended by adding the following paragraph (e):

(e) *Processing machinery and parts as follows:*

Knitting needles, industrial.

15. Section 13 (a) is amended by adding the following to the list of nonferrous metals and products thereunder:

Calcium metal.
Ferroboron and other boron alloys.
Ferrophosphorus.
Lead bullet rod.
Non-ferrous forgings.
Tool steel scrap.

16. Section 13 is amended by adding the following paragraph (b):

(b) *Iron and steel and products as follows.*

Stainless steel (all forms, grades and analyses which are subject to RPS No. 6 when sold by a producer or are subject to RPS No. 49 when sold by a reseller).

17. A new section 15 is added to Article II to read as follows:

SEC. 15. *Paper and paper products.*—(a) *Miscellaneous paper and paperboard products as follows.*

Shredded wastepaper except when sold to any person who uses wastepaper as a raw material in any manufacturing process (wastepaper is defined as in MPR 30).

18. Section 18 (b) is amended by the addition of the following subparagraphs (2), (3) and (4):

(2) *Mechanical building equipment; filing of published prices.* Every manufacturer of an article listed under section 10 (b) shall forward to the Building Materials and Construction Price Branch, Office of Price Administration, Washington 25, D. C., on or before November 15, 1945, unless previously submitted, copies of all published current catalogs, published price books, and published discount sheets relative to any such commodities. Copies of all such catalogs, price books and discount sheets issued at any time after October 16, 1945, shall be forwarded to the Building Materials and Construction Price Branch at least five days before the issuance thereof.

(3) *Industrial knitting needles; reports of increased prices.* Any manufacturer who increases his selling prices for industrial knitting needles of any class over the maximum prices in effect on October 16, 1945, shall forward to the Office of Price Administration within 10 days after the first days of January, April, July, and October in each year, beginning January 1, 1946, a report showing the percentage amount of the price increase for each class of industrial knitting needles sold during the preceding three-month period.

(4) *Shredded wastepaper; reports of sales.* Every seller whose total sales of shredded wastepaper exceed ten tons in any month shall report for each such month to the Office of Price Administration, Washington 25, D. C., the total tonnage volume, total dollar sales, and also the total tonnage and dollar sales of shredded wastepaper for the month of August 1945.

This amendment shall become effective October 16, 1945.

Issued this 11th day of October 1945.

JAMES G. ROGERS, Jr.,
Acting Administrator.

PART 1347—PAPER, PAPER PRODUCTS, RAW MATERIALS FOR PAPER AND PAPER PRODUCTS, PRINTING AND PUBLISHING

[MPR 349,[1] Amdt. 6]

DISTRIBUTORS' MAXIMUM PRICES FOR CERTAIN COARSE PAPER PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 349 is amended in the following respects:

1. The pricing units of the following items in section 1 (c) are amended to read as follows:

Commodities:	*Pricing unit*
5. Bowl liners	10M.
7. Butter chips	10M.
14. Souffle cups[2]	5M.
15. Baking cups[2]	5M.
17. Doilies[2]	M.
27. Napkins[2]	10M.
37. Shirtboards	Per cwt. per M, or per bundle of not less than 50 lbs.
45. Tray covers	5M.

[2] When sold in resale packages, the pricing unit may be case or carton or gross.

2. Item 2 in the list of commodities in section 1 (c) is amended to read as follows:

2. Bags—all kinds including but not limited to cellophane, glassine, greaseproof, acetate and specialty paper bags, and excluding those covered by MPR 182.—M.

3. Section 13 (a) (10) is amended to read as follows:

(10) "Distributor" means any reseller commonly known and recognized in the industry as a wholesale paper merchant or jobber, at least 35% of whose total dollar sales (for the latest three month period) was in the papers and paper products (excluding paperboard and boxes) covered by this regulation and Maximum Price Regulations Nos. 130, 140, 182 and 266; and in printing and writing papers covered by Maximum Price Regulations Nos. 400 and 522. Any reseller of paperboard clothes hangers, excluding any manufacturer who resells such hangers, shall be deemed to be a distributor, as herein defined, of such hangers. Any person who enters the wholesale paper business subsequent to October 16, 1945 shall qualify as a distributor if, after three months operations, he satisfies the requirements of the foregoing definition: *Provided, however,* That such person shall not sell under this regulation until he has filed a statement with the Office of Price Administration, Washington, D. C., setting forth all the relevant facts, and the authority to act as a distributor hereunder has been granted by the Office of Price Administration.

4. Section 13 (a) (17) is amended to read as follows:

(17) "Manufacturer's maximum price" is the manufacturer's maximum price established by the applicable maximum price regulation issued by the Office of Price Administration, and shall include all transportation charges for the particular commodity actually paid by the distributor less all transportation allowances made by the manufacturer: *Provided, however,* That no transportation charge shall be included by the distributor in the manufacturer's maximum price unless the distributor customarily included or would have included such transportation charge in the manufacturer's price in March 1942.

5. Appendix A is amended by adding at the end thereof the following paragraph (k).

(k) If a distributor had no base period practice with respect to the pricing of a commodity or service under this regulation he shall establish his maximum price for such commodity or service in accordance with the March, 1942 practice of his closest competitive seller in sales to the same class of purchaser.

This amendment shall become effective October 16, 1945.

Issued this 11th day of October 1945.

[2d Rev. MPR 319, Amdt. 1]

CERTAIN BAKERY PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Second Revised Maximum Price Regulation 319 is amended in the following respects:

1. Revised Supplementary Order No. 106 is substituted for Revised Supplementary Order No. 34 referred to in section 1 (c) (4).

2. Section 6 (b) is amended to read as follows:

(b) *On sales to wholesalers and routesellers.* Your maximum price on sales of bakery products to wholesalers and routesellers shall be the maximum price which you were last required to report for your sales to ultimate consumers, less twenty-five (25) percent.

3. Sections 10 (a) (4) and 10 (a) (5) are added to read as follows:

(4) If you are a producer and have discontinued manufacturing a bakery product covered by this regulation at the time for recalculating maximum prices, you need not recalculate your maximum price for such product at such time, but when you resume production you shall report a recalculation of your maximum price for such product either on the basis of your then existing cost of ingredients and packaging materials, but using your previously reported direct labor costs and markup, or in the case of pies, if your previous report was calculated under Section 11, on the basis of the weighted average of your then existing costs of ingredients and packaging materials, but using your previously reported weighted average of direct labor costs and markups.

You must report such maximum price on the appropriate form and to the appropriate office of the Office of Price Administration as provided in section 10 (b) of this regulation before making any sales of such product.

(5) If you are a producer and the transferee of a bakery plant and carry on the business, or continue to deal in the same type of commodities, in an establishment separate from any other establishment previously owned or operated by you, your direct labor costs and markup shall, for the purpose of determining a maximum price, be the same as those to which your transferor would have been subject if no transfer had taken place, and your obligation to keep records sufficient to verify such items shall be the same. The transferor shall either preserve and make available or turn over to you all records of transactions prior to the transfer which are necessary to enable you to comply with the record provisions of this regulation.

If you are unable to ascertain the direct labor costs and markup of your transferor in connection with any bakery product, you may at the time for recalculating apply in writing to the regional office of the Office of Price Administration for the region in which your plant is located for the establishment of a maximum price on your sales of such product, giving the information required by section 14 (c) of this regulation.

The regional administrator for such region or any district director authorized to act for such regional administrator shall approve or disapprove said maximum price and, in the event of a disapproval, he shall proceed to determine a reasonable maximum price for such product. Whenever authority pursuant to the provisions of this subparagraph has not been delegated to a district office, the district director of such district office shall receive the applications provided for herein and shall transmit them to the appropriate regional office for processing.

4. Section 13 is amended by adding the following paragraph:

Any action that may be taken by the Office of Price Administration under this section may be taken by the regional administrator for the region in which the producing plant is located or by any district director authorized to act for such regional administrator.

5. Section 14 (c) is amended to read as follows:

(c) If you cannot establish a maximum price under subparagraph (a) or (b) above or if you are a producer who has not previously manufactured a bakery product covered by this regulation, you shall apply to the regional office of the Office of Price Administration for the region in which you will produce such product for a maximum price therefor. Such application shall set forth (1) a detailed description of the product, including the brand name, if any, (2) the reason why you are unable to establish a maximum price under the foregoing provisions of this section, (3) an itemized breakdown showing the cost of each ingredient and packaging material of the new product, (4) an itemized breakdown for your most nearly comparable product, if any, (5) the name and address of your closest competitor who produces the same or similar product, (6) a description of such product, and its maximum price, and (7) the specific price desired for each producing plant for a sale to each type of purchaser.

The regional administrator for such region or any district director authorized to act for such regional administrator shall approve or disapprove said maximum price and, in the event of a disapproval, he shall proceed to determine a reasonable maximum price for such product. Whenever authority pursuant to the provisions of this subparagraph has not been delegated to a district office, the district director of such district office shall receive the applications provided for herein and shall transmit them to the appropriate regional office for processing.

6. Section 17 is amended to read as follows:

SEC. 17. *Posting requirement for sales to ultimate consumers.* If you sell a commodity covered by this regulation to ultimate consumers which is unwrapped or unpackaged or fruit cake which was purchased on an f. o. b. basis, you shall post your current selling price for each such item at or near the place in the store where it is offered for sale and where it can readily be seen by the purchaser. This provision shall not apply to sales by routesellers.

This amendment shall become effective October 16, 1945.

NOTE: The record-keeping provisions of this amendment have been approved by the Bureau of the Budget, in accordance with the provisions of the Federal Reports Act of 1942.

Issued this 11th day of October 1945.

CHESTER BOWLES,
Administrator.

Approved: October 3, 1945.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

CANNED MEAT

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Revised Maximum Price Regulation No. 156 is amended by the addition of section 16 to read as follows:

SEC. 16. *War procurement items for sale to civilians following termination of war contracts.* Notwithstanding the provisions of any other section of this regulation, on and after October 9, 1945, any manufacturer of a canned meat product heretofore authorized to be sold only to war procurement agencies (including the canned items priced in Schedule I (h) of § 1364.35 of Revised Maximum Price Regulation No. 148, those priced in this regulation, and those for which sales to war procurement agencies are exempted from price control) whose contract has been terminated for the convenience of the government or by mutual consent of the manufacturer and the contracting war procurement agency, and who, with the approval of the contracting war procurement agency has elected to sell the undelivered products called for by the terminated contract to civilian buyers for their consumption shall price such canned meat product in accordance with the following provisions:

(a) Until December 8, 1945, such manufacturer may sell such product, to civilian buyers for civilian consumption at a price no higher than the established dollar-and-cents ceiling price for such product if dollar-and-cents ceiling prices therefor have been established in Revised Maximum Price Regulations Nos. 148 or 156, or at a price no higher than the last invoiced price at which such product was sold to any war procurement agency if the product is one for which dollar-and-cents ceiling prices are not established in Revised Maximum Price Regulations Nos. 148 and 156, subject to the following conditions:

(1) All canned meat products sold subject to this paragraph (a) of section 16 either shall be sold f. o. b. the point of manufacture, or, if delivery is made, the delivered price shall not exceed the f. o. b. price at the point of manufacture plus the actual costs of delivery, regardless of whether sold in carload or less than carload lots.

(2) Canned meat products packed in cans of 36 ounce or greater capacity—except canned bacon, slab or sliced—may not be sold to retailers, on to wholesalers for resale to retailers, or to intermediate distributors for resale to retailers.

(3) Canned meat products packed in cans of less than 36 ounce capacity, and canned bacon, slab or sliced, packed in any size can may be sold to all classes of buyers.

(4) Boxes meeting the specifications called for by the terminated contract shall be used only to the extent permitted by the inventory of such boxes on hand or on order on the date the contract was terminated. After the supply of all such boxes available on the contract termination date has been used, additional boxes meeting those specifications may be obtained for use if desired, but the deduction hereinafter specified in subparagraph (5) of this paragraph (a) shall be applicable the same as though such boxes were shipping containers other than the type required by the terminated contract.

(5) If any canned meat product sold in accordance with the provisions of this paragraph (a) of section 16 is packed in a shipping container other than the type required by the terminated contract, $0.50 per cwt. must be deducted from the applicable ceiling price.

(6) Each manufacturer selling canned meat products in accordance with the provisions of this paragraph (a) of section 16 must file with the Office of Price Administration, Washington, D. C., on or before October 24, 1945, a signed statement setting forth the following information:

(i) The date of termination of each contract for each product, and the war procurement agency involved.

(ii) The number of cans of each size of each product already packed which the manufacturer had on hand on the date of termination of its contract with the war procurement agency involved.

(iii) The number of unpacked cans, of each type and size for each product, which the manufacturer had on hand or on order for use under the provisions of the terminated war procurement contract on the date of termination of its contract with the war procurement agency involved without ordering additional cans.

(iv) The number of each size and type of box required under the provisions of the terminated war procurement contract, which the manufacturer had on hand or on order for use on the date of termination of its contract with the war procurement agency involved without ordering additional boxes.

(v) The last invoiced price charged any war procurement agency for each canned meat product not specifically priced in Revised Maximum Price Regulations Nos. 148 or 156 intended to be sold in accordance with the provisions of this paragraph (a) of section 16, the type and size of box and can required by the terminated war procurement contract, and the name of the product.

(vi) The point at which each such canned meat product was, or will be, manufactured.

(7) On and after December 9, 1945, the provisions of this paragraph (a) of section 16 shall be void.

(b) On and after December 9, 1945, no manufacturer shall sell such products to civilian trade until he first shall have had maximum prices established therefor in accordance with the provisions of section 9 of this regulation.

This amendment shall become effective October 9, 1945.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 9th day of October 1945.

CHESTER BOWLES,
Administrator.

Approved: October 9, 1945.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[RO 5D,[1] Amdt. 3]

GASOLINE RATIONING REGULATIONS FOR PANAMA CANAL ZONE

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Ration Order 5D is amended in the following respects:

1. Section 1394.9001 (a) (20) is amended to read as follows:

(20) Unit means the value, in gallons of gasoline, assigned to a coupon contained in a ration book, by these regulations. The value of a unit with respect to the class of the coupon, with respect to the type or quality of gasoline transferred, with respect to the type of motor vehicle or type of gasoline use for which such coupon is issued, or with respect to the area in which or time when the transfer of gasoline is made, may be changed from time to time by amending these regulations. Until changed by amendment of these regulations the value of the coupons in the ration books of the respective classes shall be as follows:

Class A books: Six gallons
Class B books: Four gallons
Class E books: Three gallons

2. Section 1394.9006 is amended to to read as follows:

§ 1394.9006 *Persons entitled to basic rations.* The owner or the person who is entitled to the use of a registered passenger automobile or a registered motorcycle and who is otherwise authorized to purchase gasoline in the Canal Zone under Article III of the 1936 Treaty between the United States and the Republic of Panama, may obtain a basic ration, for use with such automobile or motorcycle during the period from October 1, 1945, to September 30, 1946, inclusive.

3. Section 1394.9007 (b) is amended to read as follows:

(b) Coupons in Basic Class E books shall be valid for transfer of gasoline to a consumer at any time during the period from October 1, 1945 to September 30, 1946, inclusive.

4. Section 1394.9008 (b) and (c) are amended to read as follows:

(b) Pursuant to such application, a basic ration shall be issued immediately by the Chief, License Bureau, who shall remove from any Class A book issued subsequent to October 1, 1945, all expired coupons and one currently valid coupon for each full eight days which have elapsed in the valid period during which such book is issued.

(c) No more than one Basic ration may be issued for a vehicle except as provided in § 1394.9038 and no person may obtain more than one basic ration for the same vehicle, during the period from October 1, 1945 to September 30, 1946, inclusive.

This amendment shall become effective as of October 1, 1945.

Issued this 11th day of October 1945.

J. C. MEHAFFEY,
Rationing Administrator for the Canal Zone.

Approved:

M. S. BURCHARD,
Acting Regional Administrator, Region IX.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[2d Rev. RO 3,[1] Amdt. 39]

SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Section 3.3 is amended by adding a new paragraph (e) to read as follows:

(e) An industrial user who has a base period use of sugar must at the time of, or before application for an allotment for the first quarterly allotment period of 1946, report, in writing, to the District Office with which he is registered, his best estimate of the amount of sugar he used in each quarterly period of 1941, separately stated for each quarter, in each class of products for delivery to the Veterans' Administration. These amounts shall be excluded from his base for each such class of products or uses as shown on Schedule I of OPA Form R-1200.

This amendment shall become effective October 15, 1945.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 11th day of October 1945.

The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of the applicable determinations, orders and/or regulations cited above. These certificates have been issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Regulations, Part 522.

Signed at New York, New York, this 5th day of October 1945.

PAULINE C. GILBERT,
Authorized Representative of the Administrator.

FEDERAL POWER COMMISSION.

[Docket No. G-669]

MICHIGAN-WISCONSIN PIPE LINE CO.

NOTICE OF APPLICATION

OCTOBER 10, 1945.

Notice is hereby given that on September 24, 1945, an application was filed with the Federal Power Commission by Michigan-Wisconsin Pipe Line Company (Applicant), a Delaware corporation with its principal place of business at Wilmington, Delaware, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the construction, acquisition and operation of certain facilities hereinafter described. The above application filed by Applicant supersedes the application filed April 2,

1945, by the American Light & Traction Company in Docket No. G–631.[1]

The proposed project when finally completed will consist of a transmission pipe line approximately 1,216 miles in length. The initial construction is limited to approximately 1,076 miles of the total length, extending from a point in the Hugoton field in Texas in a general northeasterly direction to the Austin gas storage field in Mecosta County, Michigan. Eight hundred sixteen miles will be constructed of 26-inch, and the remainder of 22-inch, O. D. steel pipe. The project also includes the construction of certain lateral lines in the States of Missouri, Iowa, Illinois, Wisconsin and Michigan. The original construction includes one 14,300 horsepower gas compressor station in Hansford County, Texas, to discharge gas at a pressure of 900 pounds. This installation is to be supplemented by additional equipment at said station and additional pumping stations along the pipe line from year to year as required. It is planned to begin construction on or about March 1, 1946, and to complete the initial installation on or before October 31, 1947.

Upon completion of the initial construction as above described, the capacity of the line will be 150,000 Mcf per 24 hours. An ultimate capacity of 320,000 Mcf per day is planned. The estimated annual sales by Applicant for the first year amount to approximately 50,000,000 Mcf with a maximum day of 242,795 Mcf, which it submits will increase to 105,120,000 Mcf annually, and a maximum day of 630,899 Mcf during the fifth year of operation.

The project as proposed by Applicant will be operated in conjunction with gas storage fields in Michigan, including the Austin field in Mecosta County, Michigan. Michigan Consolidated Gas Company (Michigan Consolidated) owns the Austin gas storage field, and proposes to construct or cause to be constructed approximately 140 miles of 26-inch O. D. transmission pipeline connecting the Austin field with the Detroit area, together with appurtenant facilities, in the event Applicant is authorized to construct such project. Such company further proposes to drill additional wells and construct an enlarged gathering system in the Austin field. The ultimate plan contemplates the storage of a minimum of 13 billion cubic feet of gas in the underground storage fields.

It is estimated by the Applicant that, through the use of the storage fields above referred to, a maximum day's requirement in excess of 630,000 Mcf of natural gas can be supplied by the fully-completed system.

The application further recites that at such time as the Applicant is permitted to furnish the entire natural-gas requirements of Michigan Consolidated, it will buy all properties, including the gas storage fields and pipelines now connected with said fields and used by Michigan Consolidated to supply its Michigan properties, but pending such acquisition of the Michigan facilities by Applicant, such facilities will be operated by Applicant pursuant to an agreement with Michigan Consolidated.

Applicant asserts that the service to be rendered initially and for the first four years will consist of supplying Michigan Consolidated with all of its requirements of natural gas in excess of those supplied under contract by Panhandle Eastern Pipe Line Company, such gas to be delivered at the Austin field in Michigan, and the entire natural-gas requirements of the following cities and towns:

Wisconsin: Milwaukee, Racine, Beloit, Janesville, and Madison.
Illinois: Rock Island, and Moline.
Missouri: Maryville.
Iowa: Des Moines, Davenport, Cedar Rapids, Ottumwa, Ft. Dodge, Iowa City, Oskaloosa, Shenandoah, Red Oak, Indianola, Winterset, Avoca, Oakland, Griswold, Walnut, Carson, Waterloo, Burlington, Marshalltown, Keokuk, Ft. Madison, Newton, Cedar Falls, Centerville, Creston, Webster City, Chariton, Washington, Grinnell, Albia, Clarinda, Tama, Toledo, Mt. Pleasant, Osceola, Colfax, Corning, Bedford, Villisca, Mr. Ayr, and Mystic.

Michigan Consolidated presently supplies natural gas in six districts in the State of Michigan, which include Detroit, Grand Rapids, Muskegon, Ann Arbor, Mount Pleasant, and Big Rapids.

Michigan Consolidated at present obtains its natural-gas requirements for Ann Arbor and Detroit and its environs from Panhandle Eastern Pipe Line Company under contracts which expire December 31, 1951. Applicant proposes to supply the natural-gas requirements of Michigan Consolidated in excess of the volumes delivered by Panhandle Eastern under the latter's contract with Michigan Consolidated until such contract is terminated, at which time Applicant proposes to take over and supply the entire natural-gas requirements of Michigan Consolidated.

Applicant states that it does not propose to sell natural gas directly to any domestic, commercial or industrial consumer, nor is it contemplated that gas will be sold to any other natural-gas pipe line company except in case of emergency. Applicant proposes to obtain its natural-gas supply from the Phillips Petroleum Company, which company, it asserts, has gas reserves in the Hugoton Panhandle fields in Texas and Oklahoma estimated to be not less than three trillion cubic feet, which, Applicant submits, is sufficient to supply its requirements for at least 30 years.

It is estimated that the initial cost of construction will be $49,000,000 which includes $1,500,000 for working capital. It is asserted that necessary additional construction and capital cost during the first four years of operation will be as follows: $849,738 in 1948; $652,478 in 1949; $1,654,955 in 1950; and $17,951,198 in 1951, making the total estimated cost of the completed project $70,000,000.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 15, 1945, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

[1] American Light & Traction Company in its application filed on April 2, 1945, proposed to organize a wholly owned subsidiary under the laws of the State of Delaware with the name of Michigan-Wisconsin Natural Gas Pipe Line Company, to construct, own and operate certain pipe-line facilities. The present Applicant, Michigan-Wisconsin Pipe Line Company, has been organized as a subsidiary of American Light & Traction Company as proposed in the latter company's application filed April 2, 1945.

DEMPSEYTOWN GAS CO.

NOTICE OF APPLICATION

OCTOBER 10, 1945.

Notice is hereby given that on October 3, 1945, application was filed with the Federal Power Commission by Dempseytown Gas Company (Applicant), a West Virginia corporation having its principal place of business at Borough of Port Allegany, McKean County, Pennsylvania, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, for authority to construct and operate facilities for the purpose of transporting natural gas, to be purchased from New York State Natural Gas Corporation and selling such gas at wholesale and retail in the counties of Clarion, Venango and Forest, all within the State of Pennsylvania, such facilities being described as follows:

Approximately 9.19 miles of 4-inch pipe line extending from a point on the existing 12-inch pipe line of New York State Natural Gas Corporation in Limestone Township, Clarion County, Pennsylvania, to a point of connection with an existing 5-inch pipe line of Applicant in Monroe Township, Clarion County, Pennsylvania.

The Applicant states that no new service or use of natural gas will result from the construction of the proposed line as it is necessary to assure Applicant a dependable source of natural gas to meet the demand of present customers by reason of its insufficient natural gas reserves and the uncertainty of a continued supply of gas from Alum Rock Gas Company.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 26th day of October 1945, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

OFFICE OF PRICE ADMINISTRATION.

[MPR 188, Rev. Order 2557]

B. K. SWEENEY ELECTRICAL CO.

APPROVAL OF MAXIMUM PRICES

Order No. 2557 under § 1499.158 of Maximum Price Regulation No. 188 is revised to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This revised order establishes maximum prices for sales and deliveries of the Powerench manufactured by The B. K. Sweeney Electrical Co., of 1601 23rd Street, Denver 17, Colorado.

(1) For all sales and deliveries to the following classes of purchasers by any person, the maximum prices are those set forth below:

	Each
For sales to jobbers	$15.92
For sales to retailers	22.74
For sales to consumers	32.50

These maximum prices are for the article described in the manufacturer's application dated June 10, 1944.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. They are f. o. b. factory, and they are subject to a cash discount of two percent for payment within ten days, except that sales to consumers are net.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this revised order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this revised order. That tag or label shall contain the following statement:

OPA Retail Ceiling Price—$32.50
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this revised order for sales by the purchaser. This notice may be given in any convenient form.

(d) This revised order may be revoked or amended by the Price Administrator at any time.

(e) This revised order shall become effective on the 11th day of October 1945.

Issued this 10th day of October 1945.

ALISTO MFG. CO.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:* Order No. 4227 under Maximum Price Regulation No. 188 is revised and amended to read as set forth herein.

(a) This revised order establishes maximum prices for sales and deliveries of certain articles manufactured by Alisto Manufacturing Co., 222 Main Street, Cincinnati 2, Ohio.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	For sales by the manufacturer to—		For sales by any person to consumers
		Jobbers	Retailers	
		Each	*Each*	*Each*
"Rin-Tin-Tin Lamp"	1	$2.12	$2.50	$4.50
"Old Man Fire Side Lamp" (radio lamp)	2	2.97	3.50	6.30

These maximum prices are for the articles described in the manufacturer's application dated March 30, 1945.

(2) For sales by all persons the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(3) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the fourth pricing method, § 1499.156 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this revised order. That tag or label shall contain the following statement, with the proper model number and the ceiling price inserted in the blank spaces:

Model Number ------
OPA Retail Ceiling Price—$------
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this revised order for sales by the purchaser. This notice may be given in any convenient form.

(d) Jobber's maximum prices for sales of the articles covered by this revised order shall be established under the provisions of section 4.5 of SR 14J.

(e) This revised order may be revoked or amended by the Price Administrator at any time.

(f) This revised order shall become effective on the 11th day of October 1945.

Issued this 10th day of October 1945.

STORRS-SCHAEFER CO.

ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to § 1389.106 of Maximum Price Regulation 177; *It is ordered:*

(a) M. Brown Riley, Montgomery, West Virginia, and any other salesmen employed by The Storrs-Schaefer Co., of Cincinnati, Ohio, for whom this order may hereafter become effective, as provided in paragraph (d), may sell and deliver to individual consumers and individual consumers may buy and receive from them, men's made-to-measure tailored garments, at or below the maximum price for the same or similar Storrs-Schaefer Co. men's made-to-measure tailored garment established under § 1389.105 of Maximum Price Regulation 177, by the retail store whose facilities are being used for the sale and delivery of such garment.

(b) A garment priced under this order shall be deemed to be "the same" or "similar" to a Storrs-Schaefer Co. garment (as set forth in paragraph (a) above) if both garments are of the same class and classification (as described in Appendix A) and the garment being priced is made with fabrics costing not less than the fabric cost for garments of the same class as set forth in Appendix B and with a cut, make and trim cost which is no lower than the cut, make and trim cost for garments of the same class and classification as set forth in Appendix C.

(c) The maximum prices established by this order are subject to all trade practices, including practices relating to discounts, credit terms, price premiums or reductions for extra sizes and special constructions, customarily used in sales and deliveries of similar Storrs-Schaefer Co. men's made-to-measure tailored clothing by the retail store whose facilities are used for sales made under this order.

(d) Any other salesman employed by Storrs-Schaefer Co., Cincinnati, Ohio, may file an application under § 1389.106 of Maximum Price Regulation 177 for maximum prices for sales to individual consumers of men's made-to-measure garments of the same class and classifications, as set forth by M. Brown Riley in his application, to be sold upon the same basis (utilizing the facilities of retail stores now selling The Storrs-Schaefer Co. made-to-measure garments). This order shall become effective for any salesman of The Storrs-Schaeffer Co. so applying upon receipt by him of an acknowledgment of the filing of his application from the Office of Price Administration, Washington, D. C.

(e) All prayers of the application by M. Brown Riley not granted herein are denied.

(f) Unless the context otherwise requires, the definitions set forth or incorporated in Maximum Price Regulation 177 shall apply to all terms used in this order.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective October 11, 1945.

Issued this 10th day of October, 1945.

STEINWAY AND SONS

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to paragraph (d) (2) of Revised Order 2525 under § 1499.159b of Maximum Price Regulation No. 188: It is ordered:

(a) *Manufacturer's maximum prices for all sales except at retail.* Steinway and Sons, 109 West 57th Street, New York, New York, herein called the manufacturer, may use the following method to adjust its maximum prices, in effect prior to October 7, 1944, for all sales, except sales at retail of new pianos of its manufacture.

(1) Subtract the Federal excise tax and any amount for freight which is included in the price to each class of purchaser.

(2) To this figure add 38.52% thereof.

(3) The result is the new maximum price to each class of purchaser. The Federal excise tax payable on that maximum price and any freight deducted may be added.

(b) *Maximum prices for sales at retail.* The maximum price for a sale or delivery by the manufacturer on or after the effective date of this order, or by a retailer, (except a mail order house) of a piano which he receives on or after the effective date of this order is the total of the following, adjusted upward or downward to the nearest dollar.

(1) The manufacturer's highest maximum price to retailers as established under paragraph (a) of this order (exclusive of freight and Federal excise tax).

(2) The applicable markup of the following: If the manufacturer's highest price (exclusive of freight and Federal excise tax), is:

(i) Not more than $225, add 67% of such maximum price.

(ii) Between $225.01 and $338.00, add 64% of such maximum price, or $150.75, whichever is greater.

(iii) Between $338.01 and $564.00, add 60% of such maximum price, or $216.32, whichever is greater.

(iv) Over $564.00, add 58% of such maximum price, or $338.40, whichever is greater.

(3) The amount of Federal excise tax payable by the manufacturer.

(4) The freight allowances indicated in paragraph (e) (2) (i) and (e) (2) (ii) (a) of Revised Order 2525 under Maximum Price Regulation No. 188.

The maximum retail prices as computed included the Federal excise tax and the permissible charge for freight. No additional amounts may be added thereto on account of these terms. Each seller at retail shall continue to furnish the services he customarily furnished in March 1942 on the sale of a new piano, as, for example, free delivery, tuning, etc. In addition, a seller at retail shall continue in effect, terms, discounts, trade-in and other allowances no less favorable to the purchaser than he allowed in March, 1942. Local and state taxes and credit charges (in accordance with paragraph (i) of Revised Order 2525) may be added, together with other price differentials for which the seller at retail customarily made a separately stated charge during March 1942.

(c) *Applicability of provisions of Revised Order 2525.* The following paragraphs of Revised Order 2525 are specifically applicable to the pianos for which adjusted maximum prices are established by this order:

(e) Manufacturer's maximum prices for new or changed models.
(f) Tagging.
(h) Adjustment, correction, and revocation of maximum prices.
(i) Credit charges.
(j) Definitions.
(k) Relationship between this order, the General Maximum Price Regulation and Maximum Price Regulation No. 188.

(d) The revised maximum prices for sales by the manufacturer established by this order apply only to sales and deliveries made within the ninety days following the effective date of the order. The revised maximum retail prices established by this order apply to all pianos shipped by the manufacturer from his manufacturing plant within the ninety days following the effective date of this order.

This order shall become effective on the 11th day of October 1945.

Issued this 10th day of October 1945.

These maximum prices are for the articles described in the manufacturer's application dated June 22, 1944.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. They are f. o. b. factory, and they are subject to a cash discount of two percent for payment within ten days, except that sales to consumers are net.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this revised order. These prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this revised order. That tag or label shall contain the following statement, with the amount properly filled in:

OPA Retail Ceiling Price—$_____
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale at wholesale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this revised order for sales by the purchaser. This notice may be given in any convenient form.

(d) This revised order may be revoked or amended by the Price Administrator at any time.

(e) This revised order shall become effective on the 11th day of October, 1945.

Issued this 10th day of October 1945.

WOOD RADIO CABINETS

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159e of Maximum Price Regulation No. 188, it is ordered:

SECTION 1. *Purpose of this order.* Wood radio cabinets have been found to be a reconversion product in accordance with the standards set forth in § 1499.159e of Maximum Price Regulation No. 188. This order, issued under that section, specified a price increase factor for the product and contains special pricing provisions under which manufacturers shall hereafter determine their ceiling prices for sales of wood radio cabinets. These pricing provisions supersede the pricing provisions contained in § 1499.153 through § 1499.158 of Maximum Price Regulation No. 188.

This order does not apply to radio cabinets made principally of any material other than wood, as for example, plastic, fabric, leather and metal.

The ceiling prices established by this order do not include any Federal excise tax and calculation of prices of new models must be based on prices which do not include any such tax.

SEC. 2. *Ceiling prices for radio cabinets delivered between July 1, 1941 and October 31, 1941, or previously determined under Maximum Price Regulation No. 188.* The ceiling price for a manufacturer's sale to a radio set manufacturer of a radio cabinet which he delivered at any time between July 1, 1941, and October 31, 1941, or for which a maximum price has been previously established under the provisions of Maximum Price Regulation No. 188 is:

(a) In the case of a radio cabinet delivered to a radio set manufacturer at any time between July 1, 1941 and October 31, 1941, the ceiling price is 118% of the manufacturer's highest f. o. b. factory price at which that cabinet was delivered during that period to a radio set manufacturer.

(b) In the case of a radio cabinet which cannot be priced under paragraph (a) but which was delivered to a radio set manufacturer during March 1942 or thereafter, the ceiling price is 112% of the manufacturer's maximum f. o. b. factory price for sales to radio set manufacturers as properly established under the provisions of Maximum Price Regulation No. 188.

SEC. 3. *Ceiling prices for new radio cabinets; comparable method*—(a) *Calculation of ceiling prices.* A manufacturer shall calculate his ceiling prices for a new radio cabinet which is comparable to a cabinet for which he has established ceiling prices under section 2 or 4 of this order, as follows:

First, he finds his current unit direct costs of the comparable radio cabinet for which he has a ceiling price under section 2 or 4 of this order, and for the new radio cabinet which is being priced.

"Comparable" cabinet means the one which is of the same type as the cabinet being priced, (for example, table model, console model, combination radio phonograph, etc.), and which is closest to it in unit direct cost. A radio cabinet for which the manufacturer has determined his ceiling price under this section is not a comparable model for pricing another new model under this section.

"Unit direct cost" of the comparable cabinet and of the cabinet being priced is the cost per unit of direct labor and materials on the basis of the following wage rates, material prices and operating conditions:

(1) *Wage rates.* The wage rates applicable to any cabinet shall be the straight-time wage rates for each class of labor involved in the production of the cabinet prevailing in the manufacturer's plant at the time the report required by this section is filed.

(2) *Material prices.* The prices of materials used in the comparable cabinet and the cabinet being priced shall be the prices being paid by the manufacturer at the time the report required by this section is filed, but not in excess of legal ceiling prices. Material prices must be based on purchases in comparable quantities from the same or corresponding class of supplier for both the comparable cabinet and the cabinet being priced.

(3) *Operating conditions.* Using the wage rates and material prices determined under (1) and (2), the manufacturer shall compute the cost per unit of direct labor and materials for the cabinet according to the methods customarily employed by him in computing his cost. He shall compute this cost on the basis of the same labor efficiency and the same volume of production for the comparable cabinet as for the cabinet being priced.

Second, he finds his markup factor by dividing the unit direct cost of the comparable model into its f. o. b. factory ceiling price to a radio set manufacturer.

Third, he multiplies the unit direct cost of the model being priced by that markup factor. The result is his f. o. b. factory ceiling price for sales of the new model to a radio set manufacturer.

(b) *Reports.* Within five days after entering into a contract for the sale of a radio cabinet the ceiling price for which is computed in accordance with this section, the manufacturer shall file a report with the Housewares and Accessories Branch, Washington, D. C., on OPA Form No. 6065-2571.[1] With the form, the manufacturer must include illustrations and specifications of the new model and illustrations and specifications of the comparable model if they have not been previously furnished.

The manufacturer may proceed at once to sell and deliver the new model at the reported price if (1) he has reported the correct ceiling price of the comparable model used in the computation and (2) he has used reasonable care and good faith in selecting and reporting the comparable model and (3) he has used reasonable care and good faith in arriving at and reporting all unit direct costs as provided by this order. If the manufacturer has not met all three of these conditions, a sale at the reported price, if it is higher than the correctly determined price, is in violation of this order. The reported price, however, shall be subject to adjustment (not to apply retroactively if the manufacturer has met the three conditions specified in this paragraph in computing and reporting his price) at any time, by an order of the Office of Price Administration, issued under this section, so as to bring it into line with the general level of ceiling prices otherwise established by this order.

SEC. 4. *Ceiling prices for new radio cabinets; special orders.* If a manufacturer cannot apply the formula in section 3 because he is a new manufacturer or otherwise has no comparable model, then his ceiling price is the price specifically authorized by the Office of Price Administration, in line with the level of ceiling prices fixed by this order. Applications for the establishment of such prices must be made to the Office of Price Administration, Washington, D. C. A manufacturer may not sell, or deliver a radio cabinet for which a price must be fixed under this section prior to specific authorization by the Office of Price Administration.

Manufacturers' applications for ceiling prices under this section should also be made on OPA Form No. 6065-2571. All information called for by that form and by paragraph (b) of section 3 of this order, regarding the new model should be given. The manufacturer should also state why section 3 cannot be used for pricing in the particular case.

SEC. 5. *Ceiling prices for sales to different classes of purchasers.* Manufacturers' ceiling prices for sales to different classes of purchasers shall reflect the manufacturers' differentials in effect between July 1, 1941 and October 31, 1941 or as subsequently established under

[1] Forms will be available from the National Office.

Maximum Price Regulation No. 188. Manufacturers who have no established differentials for such sales shall apply for the establishment of differentials under this section. The manufacturer's application shall be made by letter to the Office of Price Administration, Washington 25, D. C., and shall indicate the classes of purchasers for sales to whom the differentials are to be established. An order will be issued under this section establishing differentials for sales to different classes of purchasers in line with the differentials of other radio cabinet manufacturers.

SEC. 6. *Establishment of ceiling prices in special cases.* If a manufacturer who is required by this regulation to file a report under section 3, or to apply for the establishment of a ceiling price under section 4 or 5, fails to do so, or fails to provide any of the information required by those sections, the Price Administrator may, upon his own motion, issue orders under this section fixing ceiling prices for the manufacturer's sales in line with the level of ceiling prices established by this order. Ceiling prices so established will be effective as of the date of first sale.

SEC. 7. *General provisions*—(a) *Terms, discounts, allowances.* Each manufacturer must maintain all terms, discounts, allowances, delivery practices and other price differentials in effect between July 1, 1941 and October 31, 1941, or as subsequently established under Maximum Price Regulation No. 188, for sales to each class of purchaser.

(b) *Definitions.* Unless the context requires otherwise, the definitions in § 1499.163 of Maximum Price Regulation No. 188 shall apply to all terms used herein.

(c) *Relationship of this order to Maximum Price Regulation No. 188.* The provisions of this order supersede the provisions of § 1499.153 through § 1499.158 of Maximum Price Regulation No. 188, with respect to sales made on or after the effective date of this order. All other provisions of that regulation apply to sales and deliveries for which maximum prices are established by this order except to the extent that they are inconsistent with the provisions of this order.

NOTE: The reporting and record keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order shall become effective on the 16th day of October 1945.

Issued this 11th day of October 1945.

JAMES G. ROGERS, Jr.,
Acting Administrator.

[MPR 188, Order 3 Under 159e]

HAND LAWN MOWERS

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159e of Maximum Price Regulation No. 188, it is ordered:

SECTION 1. *Purpose of this order.* Hand lawn mowers have been found to be a reconversion product in accordance with the standards set forth in § 1499.159e of Maximum Price Regulation No. 188. This order is issued under that section and permits manufacturers to increase their October 1941 prices, by a specified price increase factor. It also contains provisions governing wholesalers' and retailers' ceiling prices. It applies only to hand lawn mowers shipped by the manufacturer on and after October 10, 1945.

SEC. 2. *Manufacturers' ceiling prices.* The f. o. b. factory ceiling price for a manufacturer's sale of a hand lawn mower to each class of purchaser is the higher of:

(a) His f. o. b. factory ceiling price to that class of purchaser as otherwise established under Maximum Price Regulation No. 188, or

(b) 117% of the highest f. o. b. factory price at which he delivered that model of lawn mower to that class of purchaser during the period October 1-15, 1941; however, no part of this increase in a ceiling price to any retailer may be charged if it would have the effect of reducing the margin of the retailer below 27% of his retail ceiling price as fixed by this order.

If during any calendar quarter the net average price per unit of the hand lawn mowers delivered by a manufacturer is greater than 125% of the net average price per unit of the mowers which he delivered during the corresponding quarter of 1941, the Administrator may issue an order under this section, denying in whole or in part the manufacturer's authority to use his October 1941 prices increased by 17% as his ceiling prices.

SEC. 3. *Manufacturers' reports, catalogs and price lists.* Every manufacturer of lawn mowers shall, within 10 days after first offering a model for sale to the trade, file a report with the Office of Price Administration, Washington, D. C., giving the model designation, his ceiling prices to each class of purchaser, and an explanation of the method by which he determined each ceiling price. In addition, every manufacturer shall file, with the District Office of the Office of Price Administration having jurisdiction over the area in which his principal place of business is located, three copies of every catalog, price list, and price notification to the trade, etc., in accordance with the provisions of § 1499.159d of Maximum Price Regulation No. 188.

SEC. 4. *Wholesalers' ceiling prices.* The ceiling price for a wholesaler's (distributor's) sale of a hand lawn mower is the retail ceiling price for that mower as established by section 5 (b) of this order (as indicated on the tag provided by the manufacturer) less 27% thereof. It is the price for a sale in the smallest quantity customarily sold.

SEC. 5. *Retailers' ceiling prices.* Manufacturers are required to calculate the retail ceiling prices of all hand lawn mowers, according to the rules in this section, and to provide tags showing the retail ceiling price for all mowers except those which they sell to a mail order house.

For the purpose of this section, "manufacturer's ceiling price" means his f. o. b. factory ceiling price, as provided by section 2 of this order, or his adjusted f. o. b. factory ceiling price as permitted under the provisions of Supplementary Orders Nos. 118 or 119, unless the Office of Price Administration specifically prohibits its use as a basis for determining retail prices under the provisions of this section.

(a) *Chain stores and mail order houses.* The retail ceiling price for a hand lawn mower sold by a manufacturer to a chain store or a mail order house is 150% of the manufacturer's ceiling to the class of chain store or mail order house to which he sold the largest volume during 1941.

For the purpose of this order:

"Chain store", means a store which is one of a group of ten or more retail stores under common ownership or control which, as a group had combined sales of over $1,000,000 for the year 1944.

"Mail order house", means an establishment selling at retail which makes offerings through catalogs or printed price lists, receives orders by mail, and makes deliveries by mail, railroad, express or other common carriers.

(b) *Other retailers.* The retail ceiling price for a hand lawn mower sold by a manufacturer to a wholesaler or a retailer other than a chain store or a mail order house is 170% of the manufacturer's ceiling price to the class of wholesaler to which he sold the largest volume during 1941. If the manufacturer does not have a ceiling price to a wholesaler, the retail ceiling price is 170% of the manufacturer's ceiling price to the class of retailer other than a chain store or mail order house for sales to which he has the lowest ceiling price.

(c) *Alternative retail ceiling prices*—(1) *Who may apply.* The Office of Price Administration may, upon application by a manufacturer, establish ceiling prices for retail sales other than those determined in accordance with the preceding provisions of this section whenever it appears that:

(i) The article was sold at retail at substantially uniform prices prior to April 1, 1942;

(ii) The article is identified by a brand or company name;

(iii) The price requested for the article is no higher than the level of retail ceiling prices fixed by this order.

An order may be issued under this section establishing uniform ceiling prices for all retail sales of an article which shall apply in place of the retail ceiling price that would otherwise have been determined under this section. Except as may be provided by such an order, all other provisions of this order remain in effect.

(2) *What the application must contain.* A manufacturer requesting establishment of uniform ceiling prices under this paragraph (c) must file an applica-

tion with the Office of Price Administration, Consumer Goods Price Division, Washington 25, D. C. In the application the manufacturer shall state the following:

(i) His business name and address.

(ii) A complete identification of the article for which the price is sought including:

(*a*) The name identifying the article and its style or lot numbers.

(*b*) His own ceiling prices to all classes of purchasers.

(*c*) His selling prices and terms to wholesalers and retailers.

(*d*) His suggested retail price prior to April 1, 1942.

(*e*) A list of the names and addresses of his retail and wholesale customers to whom he delivered the article prior to April 1, 1942 in substantial quantities. (Applicant may request OPA to accept a specific part of this list as representative.)

(iii) The uniform retail ceiling price which he requests for the article. Different prices may be proposed for sales in different areas.

SEC. 6. *Tagging.* (a) The manufacturer shall provide a tag or label for every hand lawn mower shipped to a purchaser for resale other than a mail order house. That tag or label shall state the properly established retail ceiling price, the manufacturer's name or the brand name, and the manufacturer's model designation. A tag or label in the following form with blanks properly filled in is satisfactory.

Manufacturer or Brand Name----------
Model ----------
OPA Retail Ceiling Price $----------

(b) On or after November 15, 1945, retailers other than mail order houses, may not display, offer for sale, sell, or deliver a hand lawn mower at retail unless it bears the tag or label provided by the manufacturer as required by this section.

SEC. 7. *General provisions*—(a) *Delivery, terms, conditions of sale.* The ceiling prices established by this order are subject to each seller's customary delivery terms, quantity differentials, conditions of sale, other price differentials and terms in effect during March 1942 or thereafter properly established under OPA regulations.

(b) Notification. At the time of, or prior to the first invoice to a purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum resale prices and conditions established by this order.

(c) *Definitions.* Unless the context requires otherwise, the definitions contained in § 1499.20 of the General Maximum Price Regulation and § 1499.163 of Maximum Price Regulation No. 188, whichever is applicable, shall apply to all terms used herein.

(d) *Relationship of this order to the General Maximum Price Regulation and Maximum Price Regulation No. 188.* The provisions of this order supersede the provisions of the General Maximum Price Regulation and Maximum Price Regulation No. 188, with respect to sales and deliveries for which ceiling prices are established by this order, only to the extent that they are inconsistent with the provisions of those regulations.

NOTE: The reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order shall become effective on the 10th day of October 1945.

Issued this 10th day of October 1945.

CHESTER BOWLES,
Administrator.

[MPR 188, Order 4516]

NOTIFICATION TO RETAILERS OF RETAIL CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159b of Maximum Price Regulation No. 188, *it is ordered:*

(a) *Scope of this order.* The Office of Price Administration has issued orders under Maximum Price Regulation No. 188 which establish dollar and cent retail ceiling prices and which require manufacturers to attach a tag or label to the articles covered by those orders setting forth that retail ceiling price. This order applies to those orders insofar as they require sellers who sell to retailers to notify the retailer of his ceiling price to the ultimate consumer.

(b) *Sellers to retailers not required to give notification.* Regardless of any contrary provision which may appear in orders, heretofore or hereafter, issued under Maximum Price Regulation No. 188, which establish dollar and cent retail ceiling prices and require the manufacturer to attach a tag or label to the article showing that retail ceiling price, sellers of those articles to retailers shall not be required to furnish the retailer with any notification of the retail ceiling prices of those articles.

(c) *Tagging requirements unchanged.* This order does not in any way affect any provision in any order issued under Maximum Price Regulation No. 188 which requires a manufacturer to attach to his articles a tag or label setting forth the retail ceiling prices of those articles.

(d) This order may be revoked or amended at any time.

(e) This order shall become effective on the 16th day of October 1945.

Issued this 11th day of October 1945.

Acting Administrator.

[MPR 591, Order 48]

SPECIFIED MECHANICAL BUILDING EQUIPMENT

INDUSTRY WIDE ADJUSTMENTS FOR RECONVERSION COMMODITIES

For the reasons set forth in an opinion accompanying this order and pursuant to section 22 of MPR 591; *It is ordered:*

ARTICLE I—GENERAL PROVISIONS

SECTION 1.1 *Purpose and scope of this Order No. 48.* This Order No. 48 provides for the modification of maximum prices of particular commodities covered by Maximum Price Regulation No. 591, when with respect to the product the Price Administrator finds:

(a) That in 1944 its production was approximately one-half or less of its production in its last representative year of peacetime production;

(b) That this reduction in volume resulted from (1) government restrictions on the manufacture of the commodities or on the use of materials, facilities, or manpower, or (2) the use of facilities for the production of war goods, or (3) other direct needs of the war effort; and

(c) That because of changes in government restrictions or in the needs of the war program, manufacturers of the commodity generally are able to begin or to increase substantially the production of the commodity line.

Increases granted under this order will be industry-wide and will result from surveys conducted by the Price Administrator, either upon the request of the particular industry or upon his own action.

In general, the new maximum prices resulting from the increases provided for under this order will represent costs experienced during the last period of normal production adjusted for subsequent lawful changes in the level of materials prices and in basic wage rate schedules of factory workers, plus the industry's average peacetime profit margin over cost. Changes in materials prices may be measured by materials cost increase factors, determined by the Price Administrator, in those cases where such action may be necessary to eliminate temporary or artificial influences. This order may in addition to modifying manufacturers' maximum prices, modify maximum prices or establish new methods of determining maximum prices for sales by persons other than manufacturers which will supersede maximum prices fixed by other regulations for such sales and which will be consistent with the standards applied by the Office of Price Administration for reasonable absorption of necessary cost increases.

SEC. 1.2 *Relationship of this order to SO 118, SO 119 and section 16 of Maximum Price Regulation No. 591*—(a) *SO 118.* (1) Any manufacturer of a commodity listed under Article II whose total net overall sales during 1941 (not including sales under contracts or subcontracts with any United States war procurement agency) did not exceed $200,000 may, in lieu of applying the increase permitted under this order, use as his maximum price for such commodity that which he calculates by using the formulae and procedures outlined under SO 118, or under any order issued thereunder, if the maximum price so calculated is higher than the maximum price resulting from the increase permitted under this order. The industry profit factor which may be used with this type of adjustment will be found under the appropriate section of Article II, of this Order No. 48.

(2) *Reports and approval of maximum prices.* Any manufacturer using the procedure of SO 118 shall submit his report on OPA Form 611-2489 or 611-2489A, whichever is applicable, to the Building Materials and Construction Price Branch, OPA Washington 25, D. C. Copies of OPA Form 611-2489 or 611-2489A may be obtained from any Regional or District Office.

The manufacturer's new maximum price as determined under this paragraph (a) shall be deemed to be automatically approved on the expiration of 15 days after mailing the report (or on the expiration of 15 days after the mailing of all additional information which may have been requested) unless the OPA notifies the manufacturer that his proposed maximum price has not been approved or that action thereon has been deferred pending receipt of further information.

(b) *SO 119.* (1) Any manufacturer not eligible for an adjustment under (a) above, may apply for an adjustment using the formulae and procedures outlined under SO 119, if, after the increase permitted under this order, his maximum price still continues eligible for adjustment under that supplementary order. The industry profit factor which may be used in connection with this type of adjustment will be found under the appropriate section of Article II of this Order No. 48.

(2) *Reports and approval of maximum prices.* Any manufacturer using the procedures of SO 119 shall submit his report on OPA Form 611-2488-B to the Building Materials and Construction Price Branch, OPA, Washington 25, D. C. Copies of OPA Form 611-2488-B may be obtained from any OPA Regional and District Office.

The manufacturer's new maximum price as determined under this paragraph (b) shall be deemed to have been automatically approved on the expiration of 15 days after mailing the report (or on the expiration of 15 days after mailing of all additional information which may have been requested) unless the OPA notifies the manufacturer that his proposed maximum price has not been approved or that action thereon has been deferred pending the receipt of further information.

(c) *Section 16 of Maximum Price Regulation No. 591.* A manufacturer of any commodity listed under Article II of this Order shall not be eligible for an adjustment of his maximum prices for such commodities under the provisions of section 16 of Maximum Price Regulation No. 591.

SEC. 1.3 *Reporting requirements.* Any manufacturer who increases his maximum prices as permitted under Article II or who receives a price adjustment under section 1.2 of this order, shall, within 5 days after such maximum prices have been increased or in the case of adjustments under section 1.2, within 5 days after such adjusted maximum prices have been approved, submit to the Building Materials and Construction Price Branch, OPA, Washington 25, D. C. the following information:

(a) A description of each commodity the maximum price of which has been increased or adjusted, together with the plate number or other identifying number thereof.

(b) A statement indicating whether the maximum price of each commodity has been increased as permitted by Article II or adjusted in accordance with section 1.2 of this order.

(c) The maximum price of each commodity prior to its increase or adjustment in accordance with this order.

(d) The maximum price of each commodity after its increase or adjustment in accordance with this order.

SEC. 1.4 *Definitions.* Unless the context requires otherwise, the definitions contained in the General Maximum Price Regulation and Maximum Price Regulation No. 591, whichever is applicable, shall apply to all terms used in this order.

SEC. 1.5 *Discounts and allowances.* Except as otherwise required by the provisions of Article II, every seller must maintain terms, discounts, allowances and other price differentials at least as favorable as those required under Maximum Price Regulation No. 591 or the General Maximum Price Regulation, whichever is applicable.

ARTICLE II—INCREASES PERMITTED

SEC. 2.1 *Automatic electrical temperature controls*—(a) *Manufacturers' increase.* Any manufacturer of the following types of automatic electrical temperature control equipment devices for heating, air conditioning, and refrigeration, excluding industrial process controls may increase his prices to each class of purchaser in effect on October 1, 1941, or which are specifically established under the provisions of Maximum Price Regulation No. 591, by 5 percent.

By these types is meant those temperature, pressure or humidity actuated controls and their related control devices that are electrically operated or control electrical circuits and are primarily designed for and normally used to control domestic and commercial space heating, cooling and air conditioning, and domestic and commercial refrigeration.

Excluded from these types are controls designed specifically for controlling industrial processing.

Package regulator sets. Two or more of the controls in the list which follows are frequently furnished as a package set, for convenience in ordering, installation, and stocking. They are often provided with special wiring diagrams, and frequently with the necessary installation accessories such as wire, staples, chain, pulleys, etc., as required. Such package sets are priced as a complete set.

Package sets include, but not limited to the following:

Domestic damper operator sets.
Warm air furnace control sets.
Zone control sets.
Gas burner control sets.
Oil burner control sets.
Stoker control sets.

1. *Thermostats and humidity controls.*—(a) Thermostats. Wall type, for heating, air conditioning and refrigeration, with or without special features such as pilot lamp, night switch, "on-and-off" switch, etc., and accessories.

Plain pattern—single.
Plain pattern—twin or dual.
Night set-back type—self contained, mechanical.
Night set-back type—self contained, electric clock.
Night set-back type—with separate clock.
Two or multi-stage type.
Modulating type.
Modulating type in combination with any of the above.
Thermostat guards.
Thermostat mounting plates.

(b) Humidity controls.

Humidity controller—wall mounting type.
Humidity controller—duct insertion type.
Humidity controller—thermostat combination.

2. *Primary controls for automatic firing, including oil burner, stoker, and gas primary controls.* (a) Oil burner primary controls—including electrically operated controls designed for the control of vaporizing or atomizing oil burners, either with constant or intermittent ignition.

Stack mounted relays.
Wall or burner mounted relays.
Stack temperature responsive controls.
Radiant heat (oil flame) responsive controls.
Solenoid oil valves—single or dual.
Oil flow metering control valve, capable of automatically maintaining high and low fire, and equipped with automatic safety cut-off.
